

Federal Communications Commission

§ 100.74

or more substitutable construction permits and award construction permits to the highest bidders until the available construction permits are exhausted. This technique may be used in conjunction with any type of auction.

§ 100.73 Competitive bidding mechanisms.

(a) *Sequencing.* In sequential auctions, the Wireless Telecommunications Bureau will generally auction DBS construction permits in order of their estimated value, with the highest value construction permit being auctioned first. The Wireless Telecommunications Bureau may vary the sequence in which DBS construction permits will be auctioned.

(b) *Grouping.* All DBS channels available for a particular orbital location will be auctioned as a block, unless the Wireless Telecommunications Bureau announces, by Public Notice prior to the auction, an alternative auction scheme. In the event the Wireless Telecommunications Bureau uses either a simultaneous multiple round competitive bidding design or combinatorial bidding, the Wireless Telecommunications Bureau will determine which construction permits will be auctioned simultaneously or in combination.

(c) *Bid increments and tie bids.* The Wireless Telecommunications Bureau may, by announcement before or during an auction, establish, raise or lower minimum bid increments in dollar or percentage terms. The Wireless Telecommunications Bureau may establish and change maximum bid increments during an auction. The Wireless Telecommunications Bureau may also establish by Public Notice a suggested opening bid or a minimum opening bid on each construction permit. Where a tie bid occurs, the high bidder will be determined by the order in which the bids were received by the Commission.

(d) *Stopping rules.* The Wireless Telecommunications Bureau may establish stopping rules before or during multiple round auctions in order to terminate an auction within a reasonable time.

(e) *Activity rules.* The Wireless Telecommunications Bureau may establish activity rules which require a minimum amount of bidding activity. In

the event that the Wireless Telecommunications Bureau establishes an activity rule in connection with a simultaneous multiple round auction or sequential multiple round electronic auction, each bidder will be automatically granted a certain number of waivers of such rule during the auction.

§ 100.74 Withdrawal, default and disqualification payments.

(a) When the Commission conducts a sequential multiple round electronic auction or simultaneous multiple round auction pursuant to § 100.72, the Wireless Telecommunications Bureau will impose payments on a bidder who withdraws a high bid during the course of the auction, who defaults on payments due, or who is disqualified.

(b) A bidder who withdraws a high bid during the course of such an auction will be assessed a payment equal to the difference between the amount bid and the amount of the winning bid the next time the construction permit is offered for auction by the Commission. No withdrawal payment will be assessed if the subsequent winning bid exceeds the withdrawn bid. This payment amount will be deducted from any upfront payments or down payments that the withdrawing bidder has deposited with the Commission.

(c) If a high bidder defaults or is disqualified after the close of such an auction, the defaulting bidder will be subject to the payment in paragraph (b) of this section plus an additional payment equal to three (3) percent of the subsequent winning bid. If the subsequent winning bid exceeds the defaulting bidder's bid amount, the 3 percent payment will be calculated based on the defaulting bidder's bid amount. These amounts will be deducted from any upfront payments or down payments that the defaulting or disqualified bidder has deposited with the Commission.

(d) When the Commission conducts a sequential multiple round electronic auction, the Wireless Telecommunications Bureau will bar a bidder who withdraws a bid from continued participation in the auction of the withdrawn construction permit. When the Commission conducts any other type of

auction, the Wireless Telecommunications Bureau may bar a bidder who withdraws a bid from continued participation in the bidding for the same construction permit or other construction permits offered in the same auction.

(e) When the Commission conducts any type of auction other than those provided for in paragraphs (a), (b), (c), and (d) of this section, the Wireless Telecommunications Bureau may modify the payments to be paid in the event of bid withdrawal, default or disqualification; provided, however, that such payments shall not exceed the payments specified above.

§ 100.75 Bidding application (FCC Form 175 and 175-S Short-form).

All applicants to participate in competitive bidding for DBS construction permits must submit applications on FCC Form 175 pursuant to the provisions of § 1.2105 of this chapter. The Wireless Telecommunications Bureau will issue a Public Notice announcing the availability of DBS construction permits and the date of the auction for those construction permits. This Public Notice also will specify the date on or before which applicants intending to participate in a DBS auction must file their applications in order to be eligible for that auction, and it will contain information necessary for completion of the application as well as other important information such as any upfront payment that must be submitted, and the location where the application must be filed.

§ 100.76 Submission of upfront payments and down payments.

(a) Bidders in DBS auctions will be required to submit an upfront payment in accordance with § 1.2106 of this chapter, the amount of which will be announced by Public Notice prior to each auction.

(b) Winning bidders in a DBS auction must submit a down payment to the Commission in an amount sufficient to bring their total deposits up to 20 percent of their winning bids within ten (10) business days of the announcement of winning bidders.

§ 100.77 Long-form applications.

Each winning bidder will be required to submit the information described in §§ 100.13, 100.21, and 100.51 within thirty (30) days after being notified by Public Notice that it is the winning bidder. Each winner also will be required to file, by the same deadline, a signed statement describing its efforts to date and future plans to come into compliance with any applicable spectrum limitations, if it is not already in compliance. Such information shall be submitted pursuant to the procedures set forth in § 100.13 and any associated Public Notices. Only auction winners will be eligible to file applications for DBS construction permits in the event of mutual exclusivity between applicants filing a short-form application.

§ 100.78 Permit grant, denial, default, and disqualification.

(a) Each winning bidder will be required to pay the balance of its winning bid in a lump sum payment within five (5) business days following Public Notice that the construction permit is ready for grant.

(b) A bidder who withdraws its bid during the course of an auction, defaults on a payment due, or is disqualified, will be subject to the payments specified in § 100.74.

§ 100.79 Prohibition of collusion.

(a) Bidders are required to identify on their short-form applications any parties with whom they have entered into any consortium arrangements, joint ventures, partnerships or other agreements or understandings which relate in any way to the competitive bidding process. Bidders are also required to certify on their short-form applications that they have not entered into any explicit or implicit agreements, arrangements or understandings of any kind with any parties, other than those identified, regarding the amount of their bid, bidding strategies or the particular properties on which they will or will not bid.

(b)(1) Except as provided in paragraphs (b)(2), (b)(3) and (b)(4) of this section, after the filing of short-form applications, all applicants are prohibited from cooperating, collaborating, discussing or disclosing in any manner
