

## Federal Communications Commission

## § 68.106

and regulations in subpart C of this part, or connected through registered protective circuitry, which is registered in accordance with the rules and regulations in subpart C of this part.

### § 68.104 Means of connection.

(a) *General.* Any jack installed by the telephone company at, or constituting, the demarcation point shall conform to subpart F of this part. Subject to the requirements of § 68.213, connection of wiring and terminal equipment to the telephone network may be made through a jack conforming to subpart F or by direct attachment to carrier-installed wiring including, but not limited to, splicing, bridging, twisting and soldering. Telephone company-provided ringers may be connected to the network in accordance with the carrier's reasonable and nondiscriminatory standard operating practices. Connection to the network of wiring subject to § 68.215 and terminal equipment used therewith shall be through telephone company-provided jacks conforming to subpart F of this part, in such a manner as to allow for easy and immediate disconnection.

(b) *Data equipment.* Where a customer desires to connect data equipment which has been registered in accordance with § 68.308(b)(4)(i) or (ii), he shall notify the telephone company of each telephone line to which he intends to connect such equipment. The telephone company after determining the attenuation of each such telephone line between the interface and the telephone company central office, will make such connections as are necessary in each standard data jack which it will install, so as to allow the maximum signal power delivered by such data equipment to the telephone company central office to reach but not exceed the maximum allowable signal power permitted at the telephone company central office.

(c) *Tariff description.* As an alternative to description in subpart F of these rules, connections to the telephone network may be made through standard plugs and standard telephone company-provided jacks or equivalent described in nationwide telephone tariffs: *Provided*, That these means of con-

nection otherwise comply with paragraphs (a) and (b) of this section.

[45 FR 20853, Mar. 31, 1980, as amended at 55 FR 28630, July 12, 1990; 61 FR 42392, Aug. 15, 1996; 61 FR 47434, Sept. 9, 1996]

### § 68.106 Notification to telephone company.

(a) *General.* Customers connecting terminal equipment or protective circuitry to the telephone network shall, upon request of the telephone company, inform the telephone company of the particular line(s) to which such connection is made, the FCC registration number and ringer equivalence number of the registered terminal equipment or registered protective circuitry.

(b) *Systems assembled of combinations of individually-registered terminal equipment and protective circuitry.* Customers connecting such assemblages to the telephone network shall, upon the request of the telephone company, provide to the telephone company the following information:

(1) For each line:

(i) Information required for compatible operation of the equipment with telephone company communications facilities.

(ii) The FCC Registration Numbers for all equipment dedicated to that line.

(iii) The largest Ringer Equivalence to be presented to that line.

(2) A list of FCC Registration Numbers for equipment to be used in the system.

(c) *Systems using other than "fully-protected" premises wiring.* Customers who intend to connect premises wiring other than "fully-protected" premises wiring to the telephone network shall, in addition to the foregoing, give notice to the telephone company in accordance with § 68.215(e).

(d) *AIOD trunk and station number verification.* Customers who intend to install or have installer performed additions to and rearrangements of AIOD functions shall give notice to the telephone company in accordance with § 68.222(d).

(e) *OPS.* Customers who intend to connect to OPS facilities shall inform the telephone company of OPS class for
