

Surface Transportation Board, DOT

§1105.6

under the National Historic Preservation Act.

(c) The environmental laws are not triggered where the STB's action is nothing more than a ministerial act, as in:

(1) The processing of abandonments proposed under the Northeast Rail Services Act (45 U.S.C. 744(b)(3));

(2) Statutorily-authorized interim trail use arrangements under 16 U.S.C. 1247(d) [see, 49 CFR 1152.29]; or

(3) Financial assistance arrangements under 49 U.S.C. 10905 (see 49 CFR 1152.27).

Finally, no environmental analysis is necessary for abandonments that are authorized by a bankruptcy court, or transfers of rail lines under plans of reorganization, where our function is merely advisory under 11 U.S.C. 1166, 1170, and 1172.

[56 FR 36105, July 31, 1991; 56 FR 49821, Oct. 1, 1991]

§1105.6 Classification of actions.

(a) Environmental Impact Statements will normally be prepared for rail construction proposals other than those described in paragraph (b)(1) of this section.

(b) Environmental Assessments will normally be prepared for the following proposed actions:

(1) Construction of connecting track within existing rail rights-of-way, or on land owned by the connecting railroads;

(2) Abandonment of a rail line (unless proposed under the Northeast Rail Services Act or the Bankruptcy Act);

(3) Discontinuance of passenger train service or freight service (except for discontinuances of freight service under modified certificates issued under 49 CFR 1150.21 and discontinuances of trackage rights where the affected line will continue to be operated);

(4) An acquisition, lease or operation under 49 U.S.C. 10901 or 10910, or consolidation, merger or acquisition of control under 49 U.S.C. 11343, if it will result in either

(i) Operational changes that would exceed any of the thresholds established in §1105.7(e) (4) or (5); or

(ii) An action that would normally require environmental documentation

(such as a construction or abandonment);

(5) A rulemaking, policy statement, or legislative proposal that has the potential for significant environmental impacts;

(6) Water carrier licensing under 49 U.S.C. 10922 that:

(i) Involves a new operation (*i.e.*, one that adds a significant number of barges to the inland waterway system requiring the addition of towing capacity, or otherwise significantly alters an existing operation, or introduces service to a new waterway that has had no previous traffic, or involves the commencement of a new service that is not statutorily exempt); or

(ii) Involves the transportation of hazardous materials; and

(7) Any other proceeding not listed in paragraphs (a) or (c) of this section.

(c) No environmental documentation will normally be prepared (although a Historic Report may be required under section 1105.8) for the following actions:

(1) Motor carrier, broker, or freight forwarder licensing and water carrier licensing not included in section 1105.6(b)(6);

(2) Any action that does not result in significant changes in carrier operations (*i.e.*, changes that do not exceed the thresholds established in section 1105.7(e) (4) or (5)), including (but not limited to) all of the following actions that meet this criterion:

(i) An acquisition, lease, or operation under 49 U.S.C. 10901 or 10910, or consolidation, merger, or acquisition of control under 49 U.S.C. 11343 that does not come within subsection (b)(4) of this section.

(ii) Transactions involving corporate changes (such as a change in the ownership or the operator, or the issuance of securities or reorganization) including grants of authority to hold position as an officer or director;

(iii) Declaratory orders, interpretation or clarification of operating authority, substitution of an applicant, name changes, and waiver of lease and interchange regulations;

(iv) Pooling authorizations, approval of bureau agreements, and approval of shipper antitrust immunity;

§1105.7

49 CFR Ch. X (10–1–01 Edition)

(v) Approval of motor vehicle rental contracts, and self insurance;

(vi) Determinations of the fact of competition;

(3) Rate, fare, and tariff actions;

(4) Common use of rail terminals and trackage rights;

(5) Discontinuance of rail freight service under a modified certificate issued pursuant to 49 CFR 1150.21;

(6) Discontinuance of trackage rights where the affected line will continue to be operated; and

(7) A rulemaking, policy statement, or legislative proposal that has no potential for significant environmental impacts.

(d) The Board may reclassify or modify these requirements for individual proceedings. For actions that generally require no environmental documentation, the Board may decide that a particular action has the potential for significant environmental impacts and that, therefore, the applicant should provide an environmental report and either an EA or an EIS will be prepared. For actions generally requiring an EA, the Board may prepare a full EIS where the probability of significant impacts from the particular proposal is high enough to warrant an EIS. Alternatively, in a rail construction, an applicant can seek to demonstrate (with supporting information addressing the pertinent aspects of §1105.7(e)) that an EA, rather than an EIS, will be sufficient because the particular proposal is not likely to have a significant environmental impact. Any request for reclassification must be in writing and, in a rail construction, should be presented with the pre-filing notice required by §1105.10(a)(1) (or a request to waive that pre-filing notice period).

(e) The classifications in this section apply without regard to whether the action is proposed by application, petition, notice of exemption, or any other means that initiates a formal Board proceeding.

§1105.7 Environmental reports.

(a) *Filing.* An applicant for an action identified in §1105.6 (a) or (b) must submit to the Board (with or prior to its application, petition or notice of exemption) except as provided in paragraph (b) for abandonments and

discontinuances) an Environmental Report on the proposed action containing the information set forth in paragraph (e) of this section.

(b) At least 20 days prior to the filing with the Board of a notice of exemption, petition for exemption, or an application for abandonment or discontinuance, the applicant must serve copies of the Environmental Report on:

(1) The State Clearinghouse of each State involved (or other State equivalent agency if the State has no clearinghouse);

(2) The State Environmental Protection Agency of each State involved;

(3) The State Coastal Zone Management Agency for any state where the proposed activity would affect land or water uses within that State's coastal zone;

(4) The head of each county (or comparable political entity including any Indian reservation) through which the line goes;

(5) The appropriate regional offices of the Environmental Protection Agency;

(6) The U.S. Fish and Wildlife Service;

(7) The U.S. Army Corps of Engineers;

(8) The National Park Service;

(9) The U.S. Soil Conservation Service;

(10) The National Geodetic Survey (formerly known as the Coast and Geodetic Survey) as designated agent for the National Geodetic Survey and the U.S. Geological Survey; and

(11) Any other agencies that have been consulted in preparing the report. For information regarding the names and addresses of the agencies to be contacted, interested parties may contact SEA at the address and telephone number indicated in §1105.3.

(c) *Certification.* In its Environmental Report, the applicant must certify that it has sent copies of the Environmental Report to the agencies listed and within the time period specified in paragraph (b) of this section and that it has consulted with all appropriate agencies in preparing the report. These consultations should be made far enough in advance to afford those agencies a reasonable opportunity to provide meaningful input. Finally, in every
