

- (vii) Training procedures,
 - (viii) Equipment testing,
 - (ix) Drill types, schedules, and procedures, and
 - (x) Plan review and update procedures; and
- (2) An appendix for each response zone. Each response zone appendix must include the information required in paragraph (d)(1) (i)–(ix) of this section that is specific to the response zone and the worst case discharge calculations.

§ 194.109 Submission of state response plans.

- (a) In lieu of submitting a response plan required by §194.103, an operator may submit a response plan that complies with a state law or regulation, if the state law or regulation requires a plan that provides equivalent or greater spill protection than a plan required under this part.
- (b) A plan submitted under this section must
- (1) Have an information summary required by §194.113;
 - (2) Name the qualified individual; and
 - (3) Ensure through contract or other approved means the necessary private personnel and equipment to respond to a worst case discharge or a substantial threat of such a discharge.

§ 194.111 Response plan retention.

- (a) Each operator shall maintain relevant portions of its response plan at the following locations:
- (1) The response plan at the operator’s headquarters;
 - (2) The core plan and relevant response zone appendices for each line section whose pressure may be affected by the operation of a particular pump station, at that pump station; and
 - (3) The core plan and relevant response zone appendices at any other locations where response activities may be conducted.
- (b) Each operator shall provide a copy of its response plan to each qualified individual.

§ 194.113 Information summary.

- (a) The information summary for the core plan, required by §194.107, must include:

- (1) The name and address of the operator; and
 - (2) For each response zone which contains one or more line sections that meet the criteria for determining significant and substantial harm as described in §194.103, a listing and description of the response zones, including county(s) and state(s).
- (b) The information summary for the response zone appendix, required in §194.107, must include:
- (1) The information summary for the core plan;
 - (2) The name and telephone number of the qualified individual available on a 24-hour basis;
 - (3) The description of the response zone, including county(s) and state(s), for those zones in which a worst case discharge could cause substantial harm to the environment;
 - (4) A list of line sections for each pipeline contained in the response zone, identified by milepost or survey station number, or other operator designation;
 - (5) The basis for the operator’s determination of significant and substantial harm; and
 - (6) The type of oil and volume of the worst case discharge.

§ 194.115 Response resources.

- (a) Each operator shall identify and ensure, by contract or other approved means, the resources necessary to remove, to the maximum extent practicable, a worst case discharge and to mitigate or prevent a substantial threat of a worst case discharge.
- (b) An operator shall identify in the response plan the response resources which are available to respond within the time specified, after discovery of a worst case discharge, or to mitigate the substantial threat of such a discharge, as follows:

	Tier 1	Tier 2	Tier 3
High volume area	6 hrs	30 hrs	54 hrs.
All other areas	12 hrs	36 hrs	60 hrs.

§ 194.117 Training.

- (a) Each operator shall conduct training to ensure that:
- (1) All personnel know—
 - (i) Their responsibilities under the response plan,
