

planning regulation (49 CFR part 613 and 23 CFR part 450). In a service area which is covered by more than one MPO, each applicable MPO shall certify conformity of the entity's plan. The provisions of this paragraph do not apply to non-FTA recipients;

(3) A certification that the survey of existing paratransit service was conducted as required in §37.137(a) of this part;

(4) To the extent service provided by other entities is included in the entity's plan for comparable paratransit service, the entity must certify that:

(i) ADA paratransit eligible individuals have access to the service;

(ii) The service is provided in the manner represented; and

(iii) Efforts will be made to coordinate the provision of paratransit service by other providers.

(1) A request for a waiver based on undue financial burden, if applicable. The waiver request should include information sufficient for FTA to consider the factors in §37.155 of this part. If a request for an undue financial burden waiver is made, the plan must include a description of additional paratransit services that would be provided to achieve full compliance with the requirement for comparable paratransit in the event the waiver is not granted, and the timetable for the implementation of these additional services.

(j) *Annual plan updates.* (1) The annual plan updates submitted January 26, 1993, and annually thereafter, shall include information necessary to update the information requirements of this section. Information submitted annually must include all significant changes and revisions to the timetable for implementation;

(2) If the paratransit service is being phased in over more than one year, the entity must demonstrate that the milestones identified in the current paratransit plans have been achieved. If the milestones have not been achieved, the plan must explain any slippage and what actions are being taken to compensate for the slippage.

(3) The annual plan must describe specifically the means used to comply with the public participation requirements, as described in §37.137 of this part.

§ 37.141 Requirements for a joint paratransit plan.

(a) Two or more entities with overlapping or contiguous service areas or jurisdictions may develop and submit a joint plan providing for coordinated paratransit service. Joint plans shall identify the participating entities and indicate their commitment to participate in the plan.

(b) To the maximum extent feasible, all elements of the coordinated plan shall be submitted on January 26, 1992. If a coordinated plan is not completed by January 26, 1992, those entities intending to coordinate paratransit service must submit a general statement declaring their intention to provide coordinated service and each element of the plan specified in §37.139 to the extent practicable. In addition, the plan must include the following certifications from each entity involved in the coordination effort:

(1) A certification that the entity is committed to providing ADA paratransit service as part of a coordinated plan.

(2) A certification from each public entity participating in the plan that it will maintain current levels of paratransit service until the coordinated plan goes into effect.

(c) Entities submitting the above certifications and plan elements in lieu of a completed plan on January 26, 1992, must submit a complete plan by July 26, 1992.

(d) Filing of an individual plan does not preclude an entity from cooperating with other entities in the development or implementation of a joint plan. An entity wishing to join with other entities after its initial submission may do so by meeting the filing requirements of this section.

§ 37.143 Paratransit plan implementation.

(a) Each entity shall begin implementation of its complementary paratransit plan, pending notice from FTA. The implementation of the plan shall be consistent with the terms of the plan, including any specified phase-in period.
