

§ 385.1

385.13 Unsatisfactory rated motor carriers; prohibition on transportation; ineligibility for Federal contracts.

385.14 Motor carriers, brokers, and freight forwarders delinquent in paying civil penalties: prohibition on transportation.

385.15 Administrative review.

385.17 Change to safety rating based upon corrective actions.

385.19 Safety fitness information.

APPENDIX A TO PART 385 [RESERVED]
APPENDIX B TO PART 385—EXPLANATION OF SAFETY RATING PROCESS

AUTHORITY: 49 U.S.C. 113, 504, 521(b)(5)(A) and (b)(8), 5113, 31136, 31144, 31502; and 49 CFR 1.73.

SOURCE: 53 FR 50968, Dec. 19, 1988, unless otherwise noted.

EDITORIAL NOTE: Nomenclature changes to part 385 appear at 66 FR 49872, Oct. 1, 2001.

§ 385.1 Purpose and scope.

(a) This part establishes the FMCSA's procedures to determine the safety fitness of motor carriers, to assign safety ratings, to direct motor carriers to take remedial action when required, and to prohibit motor carriers receiving a safety rating of "unsatisfactory" from operating a CMV.

(b) The provisions of this part apply to all motor carriers subject to the requirements of this subchapter, except non-business private motor carriers of passengers and motor carriers conducting for-hire operations of passenger CMVs with a capacity of fewer than 16 persons, including the driver.

[65 FR 50934, Aug. 22, 2000]

§ 385.3 Definitions.

Applicable safety regulations or requirements means 49 CFR subtitle B, chapter III, Subchapter B—Federal Motor Carrier Safety Regulations; and 49 CFR subtitle B, chapter I, Subchapter C—Hazardous Materials Regulations.

Commercial motor vehicle shall have the same meaning as described in §390.5 of this subchapter.

Preventable accident on the part of a motor carrier means an accident (1) that involved a commercial motor vehicle, and (2) that could have been averted but for an act, or failure to act, by the motor carrier or the driver.

Reviews. For the purposes of this part:

(1) *Compliance review* means an on-site examination of motor carrier operations, such as drivers' hours of service, maintenance and inspection, driver qualification, commercial drivers license requirements, financial responsibility, accidents, hazardous materials, and other safety and transportation records to determine whether a motor carrier meets the safety fitness standard. A compliance review may be conducted in response to a request to change a safety rating, to investigate potential violations of safety regulations by motor carriers, or to investigate complaints or other evidence of safety violations. The compliance review may result in the initiation of an enforcement action.

(2) [Reserved]

(3) *Safety management controls* means the systems, policies programs, practices, and procedures used by a motor carrier to ensure compliance with applicable safety and hazardous materials regulations which ensure the safe movement of products and passengers through the transportation system, and to reduce the risk of highway accidents and hazardous materials incidents resulting in fatalities, injuries, and property damage.

Safety ratings: (1) *Satisfactory safety rating* means that a motor carrier has in place and functioning adequate safety management controls to meet the safety fitness standard prescribed in §385.5. Safety management controls are adequate if they are appropriate for the size and type of operation of the particular motor carrier.

(2) *Conditional safety rating* means a motor carrier does not have adequate safety management controls in place to ensure compliance with the safety fitness standard that could result in occurrences listed in §385.5 (a) through (k).

(3) *Unsatisfactory safety rating* means a motor carrier does not have adequate safety management controls in place to ensure compliance with the safety fitness standard which has resulted in occurrences listed in §385.5 (a) through (k).

(4) *Unrated carrier* means that a safety rating has not been assigned to the motor carrier by the FMCSA.

[53 FR 50968, Dec. 19, 1988, as amended at 56 FR 40805, Aug. 16, 1991; 62 FR 60042, Nov. 6, 1997]

§ 385.5 Safety fitness standard.

The satisfactory safety rating is based on the degree of compliance with the safety fitness standard for motor carriers. To meet the safety fitness standard, the motor carrier shall demonstrate that it has adequate safety management controls in place, which function effectively to ensure acceptable compliance with applicable safety requirements to reduce the risk associated with:

- (a) Commercial driver's license standard violations (part 383),
- (b) Inadequate levels of financial responsibility (part 387),
- (c) The use of unqualified drivers (part 391),
- (d) Improper use and driving of motor vehicles (part 392),
- (e) Unsafe vehicles operating on the highways (part 393),
- (f) Failure to maintain accident registers and copies of accident reports (part 390),
- (g) The use of fatigued drivers (part 395),
- (h) Inadequate inspection, repair, and maintenance of vehicles (part 396),
- (i) Transportation of hazardous materials, driving and parking rule violations (part 397),
- (j) Violation of hazardous materials regulations (parts 170 through 177), and
- (k) Motor vehicle accidents and hazardous materials incidents.

[53 FR 50968, Dec. 19, 1988, as amended at 58 FR 33776, June 21, 1993]

§ 385.7 Factors to be considered in determining a safety rating.

The factors to be considered in determining the safety fitness and assigning a safety rating include information from safety reviews, compliance reviews and any other data. The factors may include all or some of the following:

- (a) Adequacy of safety management controls. The adequacy of controls may be questioned if their degree of for-

malization, automation, etc., is found to be substantially below the norm for similar carriers. Violations, accidents or incidents substantially above the norm for similar carriers will be strong evidence that management controls are either inadequate or not functioning properly.

(b) Frequency and severity of regulatory violations.

(c) Frequency and severity of driver/vehicle regulatory violations identified in roadside inspections.

(d) Number and frequency of out-of-service driver/vehicle violations.

(e) Increase or decrease in similar types of regulatory violations discovered during safety or compliance reviews.

(f) Frequency of accidents; hazardous materials incidents; accident rate per million miles; preventable accident rate per million miles; and other accident indicators; and whether these accident and incident indicators have improved or deteriorated over time.

(g) The number and severity of violations of state safety rules, regulations, standards, and orders applicable to commercial motor vehicles and motor carrier safety that are compatible with Federal rules, regulations, standards, and orders.

[53 FR 50968, Dec. 19, 1988, as amended at 58 FR 33776, June 21, 1993]

§ 385.9 Determination of a safety rating.

(a) Following a compliance review of a motor carrier operation, the FMCSA, using the factors prescribed in § 385.7 as computed under the Safety Fitness Rating Methodology set forth in appendix B of this part, shall determine whether the present operations of the motor carrier are consistent with the safety fitness standard set forth in § 385.5, and assign a safety rating accordingly.

(b) Unless otherwise specifically provided in this part, a safety rating will be issued to a motor carrier within 30 days following the completion of a compliance review.
