

§ 17.85

(5) Are habituated to humans, human residences, or other facilities.

*Public land* means land under administration of Federal agencies including, but not limited to the National Park Service, Bureau of Land Management, Fish and Wildlife Service, Forest Service, Department of Energy, and Department of Defense; and State-owned lands within the boundary of a designated wolf recovery area. All State-owned lands within the boundary of the experimental population area, but outside designated wolf recovery areas, will be subject to the provisions of this rule that apply to private lands.

*Rendezvous site* means a gathering and activity area regularly used by a litter of young wolf pups after they have emerged from the den. Typically, the site is used for a period ranging from about one week to one month in the summer. Several sites may be used in succession.

*Secondary recovery zone* means an area adjacent to a primary recovery zone in which the Service allows released wolves to disperse, where wolves captured in the wild for authorized management purposes may be translocated and released, and where managers will actively support recovery of the reintroduced population.

*Take* means "to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct" (16 U.S.C. 1532(19)). Also, see definitions of "harass", "opportunistic, noninjurious harassment", and "unavoidable and unintentional take."

*Unavoidable and unintentional take* means accidental, unintentional take (see definition of "Take") which occurs despite reasonable care, is incidental to an otherwise lawful activity, and is not done on purpose. Examples would be striking a wolf with an automobile and catching a wolf in a trap outside of known occupied wolf range. Taking a wolf with a trap, snare, or other type of capture device within occupied wolf range (except as authorized in paragraph (k)(3)(ix) and (x) of this section) will not be considered unavoidable, accidental, or unintentional take, unless due care was exercised to avoid taking a wolf. Taking a wolf by shooting will not be considered unavoidable, acciden-

50 CFR Ch. I (10-1-98 Edition)

tal, or unintentional take. Shooters have the responsibility to be sure of their targets.

*Wolf recovery area* means a designated area where managers will actively support reestablishment of Mexican wolf populations.

[49 FR 35954, Sept. 13, 1984, and 50 FR 30194, July 24, 1985, as amended at 51 FR 41797, Nov. 19, 1986; 52 FR 29780, Aug. 11, 1987; 53 FR 29337, Aug. 4, 1988; 53 FR 37580, Sept. 27, 1988; 54 FR 43969, Oct. 30, 1989; 56 FR 41488, Aug. 21, 1991; 58 FR 5657, Jan. 22, 1993; 58 FR 52031, Oct. 6, 1993; 59 FR 42711, 42714, Aug. 18, 1994; 59 FR 60279, Nov. 22, 1994; 60 FR 18947, Apr. 13, 1995; 61 FR 11332, Mar. 20, 1996; 61 FR 54057, Oct. 16, 1996; 62 FR 38939, July 21, 1997; 63 FR 1763, Jan. 12, 1998; 63 FR 52837, Oct. 1, 1998]

**§ 17.85 Special rules—invertebrates. [Reserved]**

**§ 17.86 Special rules—plants. [Reserved]**

**Subpart I—Interagency Cooperation**

**§ 17.94 Critical habitats.**

(a) The areas listed in § 17.95 (fish and wildlife) and § 17.96 (plants) and referred to in the lists at §§ 17.11 and 17.12 have been determined by the Director to be Critical Habitat. All Federal agencies must insure that any action authorized, funded, or carried out by them is not likely to result in the destruction or adverse modification of the constituent elements essential to the conservation of the listed species within these defined Critical Habitats. (See part 402 for rules concerning this prohibition; see also part 424 for rules concerning the determination of Critical Habitat).

(b) The map provided by the Director does not, unless otherwise indicated, constitute the definition of the boundaries of a Critical Habitat. Such maps are provided for reference purposes to guide Federal agencies and other interested parties in locating the general boundaries of the Critical Habitat. Critical Habitats are described by reference to surveyable landmarks found on standard topographic maps of the area and to the States and county(ies) within which all or part of the Critical

Habitat is located. Unless otherwise indicated within the Critical Habitat description, the State and county(ies) names are provided for informational purposes only.

(c) Critical Habitat management focuses only on the biological or physical constituent elements within the defined area of Critical Habitat that are essential to the conservation of the species. Those major constituent elements that are known to require special management considerations or protection will be listed with the description of the Critical Habitat.

(d) The sequence of species within each list of Critical Habitats in §§ 17.95 and 17.96 will follow the sequences in the lists of Endangered and Threatened wildlife (§ 17.11) and plants (§ 17.12). Multiple entries for each species will be alphabetic by State.

[45 FR 13021, Feb. 27, 1980]

**§ 17.95 Critical habitat—fish and wildlife.**

(a) *Mammals.*

INDIANA BAT (*Myotis sodalis*)

Illinois. The Blackball Mine, La Salle County.

Indiana. Big Wyandotte Cave, Crawford County; Ray's Cave, Greene County.

Kentucky. Bat Cave, Carter County; Coach Cave, Edmonson County.

Missouri. Cave 021, Crawford County; Cave 009, Franklin County; Cave 017, Franklin County; Pilot Knob Mine, Iron County; Bat Cave, Shannon County; Cave 029, Washington County (numbers assigned by Division of Ecological Services, U.S. Fish and Wildlife Service, Region 6).

Tennessee. White Oak Blowhole Cave, Blount county.

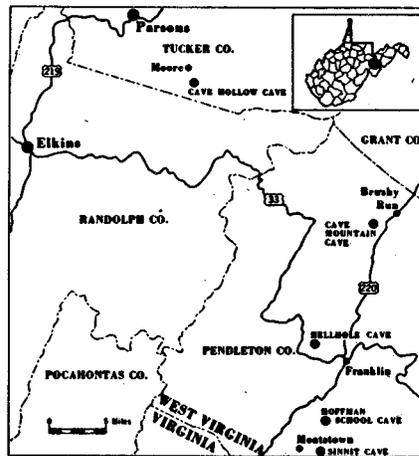

West Virginia. Hellhole Cave, Pendleton County.

NOTE: No map.

VIRGINIA BIG-EARED BAT (*Plecotus townsendii virginianus*)

West Virginia. Cave Mountain Cave, Hellhole Cave, Hoffman School Cave, and Sinit Cave, each in Pendleton County; Cave Hollow Cave, Tucker County.

NOTE: Map follows:

FRESNO KANGAROO RAT (*Dipodomys nitratoides exilis*)

California. An area of land, water, and air-space in Fresno County, with the following components (Mt. Diablo Base Meridian): T14S R15E, E½ NW¼ and NE¼ Sec. 11, that part of W½ Sec. 12 north of the Southern Pacific Railroad, E½ Sec. 12; T14S R16E, that part of Sec. 7 south of the Southern Pacific Railroad.

Within this area, the major constituent elements that are known to require special management considerations or protection are the hummocks and substrate that provide sites for burrow construction, and the natural alkali sink-open grassland vegetation that provides food and escape cover.

NOTE: Map follows:
