

deemed possession, provided that, if the trap is removed from the water during such period, such crab is returned immediately to the water with its claws unharvested.

(b) *Placement of traps.* (1) *Prior to the fishing season.* The period of October 5 through October 14 is established as a trap soak period. A stone crab trap may be placed in the management area not earlier than 1 hour before sunrise on October 5.

(2) *After the fishing season.* The period of May 16 through May 20 is established as a trap removal period. A stone crab trap must be removed from the management area not later than 1 hour after sunset on May 20, unless an extension to the removal period is granted under paragraph (b)(2)(i) of this section and the extension authorization is carried aboard the fishing vessel as specified in paragraph (b)(2)(ii) of this section.

(i) An extension of the removal period may be granted by Florida in accordance with Rule 46–13.002(2)(b), Florida Administrative Code, in effect as of April 14, 1995. This incorporation by reference was approved by the Director of the Office of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from the Florida Marine Fisheries Commission, 2540 Executive Center Circle West, Suite 106, Tallahassee, FL 32301; telephone: 904–487–0554. Copies may be inspected at the office of the Regional Director, or the Office of the Federal Register, 800 North Capitol Street, N.W., Suite 700, Washington, DC.

(ii) The extension authorization must be carried aboard the fishing vessel. The operator of a fishing vessel must present the authorization for inspection upon request of an authorized officer.

(c) *Possession of stone crab traps.* A stone crab trap may not be possessed in the management area from the end of the trap removal period, or an extension thereto, to the beginning of the trap soak period, as specified in paragraph (b) of this section. A stone crab trap, float, or rope in the management area during this period will be considered unclaimed or abandoned property and may be disposed of in any manner

considered appropriate by the Assistant Administrator or an authorized officer. An owner of such trap, float, or rope remains subject to appropriate civil penalties.

§654.21 Harvest limitations.

(a) *Claw size.* No person may remove from a stone crab in or from the management area, or possess in the management area, a claw with a propodus measuring less than 2.75 inches (7.0 cm), measured in a straight line from the elbow to the tip of the lower immovable finger. The propodus is the largest section of the claw assembly that has both a movable and immovable finger and is located farthest from the body when the entire appendage is extended. (See Appendix A, Figure 1, of this part.)

(b) *Egg-bearing stone crabs.* An egg-bearing stone crab in or from the management area must be returned immediately to the water unharmed—without removal of a claw. An egg-bearing stone crab may not be stripped of its eggs or otherwise molested.

(c) *Holding stone crabs.* A live stone crab in or from the management area may be held aboard a vessel until such time as a legal-sized claw is removed, provided it is held in a container that is shaded from direct sunlight and it is wet with sea water as necessary to keep it in a damp condition. Containers holding stone crabs must be stacked in a manner that does not compress the crabs. A stone crab body from which a legal-sized claw has been removed must be returned to the sea before the vessel reaches shore or a port or dock.

§654.22 Gear restrictions.

(a) *Biodegradable panels.* A stone crab trap used or possessed in the management area must have a panel constructed of wood or cotton and located on a side of the trap at least two slats above the bottom, or on the top of the trap, which, when removed, will leave an opening in the trap measuring at least 2.5 inches by 5 inches (6.35 cm by 12.7 cm).

(b) *Daylight hours.* A stone crab trap in the management area may be pulled or tended during daylight hours only—that is, from 1 hour before sunrise to 1 hour after sunset.
