

in §660.51, the Regional Director determines that an emergency exists involving monk seal mortality related to the lobster fishery and that measures are needed immediately to protect the monk seal population, the Regional Director will—

(1) Notify the interested parties of this determination and request their immediate advice and comments.

(2) Forward a recommendation for emergency action and any advice and comments received from interested parties to the Assistant Administrator.

(b) *Implementation of emergency measures.* If the Assistant Administrator agrees with the recommendation for emergency action—

(1) The Regional Director will determine the appropriate emergency protective measures.

(2) NMFS will publish the emergency protective measures in the FEDERAL REGISTER.

(3) The Regional Director will notify the interested parties of the emergency protective measures. Holders of permits to fish in Permit Area I will be notified by certified mail. Permit holders that the Regional Director knows are on the fishing grounds also will be notified by radio.

(c) *Effective dates.* (1) Emergency protective measures are effective against a permit holder at 12:01 a.m., local time, of the day following the day the permit holder receives actual notice of the measures.

(2) Emergency protective measures are effective for 10 days from the day following the day the first permit holder is notified of the protective measures.

(3) Emergency protective measures may be extended for an additional 10 days, if necessary, to allow the completion of the procedures set out in §660.51.

#### **§660.53 Framework procedures.**

(a) *Introduction.* New management measures may be added through rulemaking if new information demonstrates that there are biological, social, or economic concerns in Permit Areas 1, 2, or 3. The following framework process authorizes the implementation of measures that may affect the operation of the fisheries, gear, harvest

guidelines, or changes in catch and/or effort.

(b) *Annual report.* By June 30 of each year, the Council-appointed Crustaceans Plan Team will prepare an annual report on the fisheries in the management area. The report shall contain, among other things, recommendations for Council action and an assessment of the urgency and effects of such action(s).

(c) *Procedure for established measures.*

(1) Established measures are management measures that, at some time, have been included in regulations implementing the FMP, and for which the impacts have been evaluated in Council/NMFS documents in the context of current conditions.

(2) Following the framework procedures of Amendment 9 to the FMP, the Council may recommend to the Regional Director that established measures be modified, removed, or re-instituted. Such recommendation shall include supporting rationale and analysis, and shall be made after advance public notice, public discussion, and consideration of public comment. NMFS may implement the Council's recommendation by rulemaking if approved by the Regional Director.

(d) *Procedure for New Measures.* (1) New measures are management measures that have not been included in regulations implementing the FMP, or for which the impacts have not been evaluated in Council/NMFS documents in the context of current conditions.

(2) Following the framework procedures of Amendment 9 to the FMP, the Council will publicize, including by a FEDERAL REGISTER document, and solicit public comment on, any proposed new management measure. After a Council meeting at which the measure is discussed, the Council will consider recommendations and prepare a FEDERAL REGISTER document summarizing the Council's deliberations, rationale, and analysis for the preferred action, and the time and place for any subsequent Council meeting(s) to consider the new measure. At subsequent public meeting(s), the Council will consider public comments and other information received to make a recommendation to the Regional Director about

any new measure. NMFS may implement the Council's recommendation by rulemaking if approved by the Regional Director.

**§ 660.54 Five-year review.**

The Council, in cooperation with NMFS, will conduct a review of the effectiveness and impacts of the NWHI management program, including biological, economic, and social aspects of the fishery, by July 1, 2001.

**Subpart E—Bottomfish and Seamount Groundfish Fisheries**

**§ 660.61 Permits.**

(a) The owner of any vessel used to fish for bottomfish in the Mau Zone must have a permit issued under this section for that vessel. Permits for persons not previously permitted to fish in the Mau Zone will not be issued for a 2-year period beginning March 27, 1997.

(b) *Application.* (1) An application for a permit required under this section will be submitted to the Pacific Area Office as described in § 660.13.

(2) Before the Regional Director issues a Mau Zone or Ho'omalulu zone permit to fish for bottomfish under this section, the primary operator and relief operator named on the application form must have completed a protected species workshop conducted by NMFS.

(3) Each applicant for a Ho'omalulu zone permit will submit a supplementary information sheet to be provided by the Pacific Area Office. Each application for a Ho'omalulu zone permit will be signed by the vessel owner or a designee and include the following information:

(i) The qualification criterion that the applicant believes he or she meets for issuance of a limited access permit; and

(ii) Copies of landings receipts or other documentation, with a certification from a state or Federal agency that this information is accurate, to demonstrate participation in the NWHI bottomfish fishery; or

(iii) If the application is filed by a partnership or corporation, the application must identify the names of the owners and their respective percentage

of ownership of the partnership or corporation.

(c) *Sale or transfer of Ho'omalulu Zone permits to new vessel owners.* (1) A Ho'omalulu zone permit shall not be sold or otherwise transferred to a new owner.

(2) A Ho'omalulu zone permit or permits may be held by a partnership or corporation. If 50 percent or more of the ownership of the vessel passes to persons other than those listed in the original application, the permit will lapse and must be surrendered to the Regional Director.

(d) *Transfer of permits to replacement vessels.* (1) An owner of a permitted vessel may, without limitation, transfer his or her permit to another vessel owned by him or her, provided that the replacement vessel does not exceed 60 ft (18.3 m) in length and that the replacement vessel is put into service within 12 months after the owner declares to the Regional Director the intent to make the transfer of the permit.

(2) An owner of a permitted vessel may apply to the Regional Director for approval to use the permit for a replacement vessel greater than 60 ft (18.3 m) in length. The Regional Director may allow this change upon determining, after consultation with the Council and considering the objectives of the limited access program, that the replacement vessel has equal catching power as the original vessel, or that the replacement vessel has catching power that is comparable to the rest of the vessels holding permits for the fishery, and that the change is not inconsistent with the objectives of the program.

(3) The Regional Director shall consider vessel length, range, hold capacity, gear limitations, and other appropriate factors in making determinations of catching power equivalency and comparability of the catching power of vessels in the fishery.

(e) *Supplementary requirements for permit renewal.* (1) A permit will be eligible for renewal if the vessel covered by the permit makes three or more qualifying landings as defined in § 660.12 during the permit year.
