

changes to the CDP, and the revised pages of the CDP for replacement in the CDP binder. The revised pages must have the revision date noted, with the page number on all affected pages. The table of contents may also need to be revised to reflect any changes in pagination.

(E) Identification of any NMFS findings that would need to be modified if the amendment is approved, along with the proposed modified text.

(F) A description of how the proposed amendment meets the requirements of this subpart. Only those CDQ regulations that are affected by the proposed amendment need to be discussed.

(5) *Technical amendments.* Any change to a CDP that is not considered a substantial amendment under paragraph (g)(4)(iv) of this section is a technical amendment.

(i) The CDQ group must notify the State in writing of any technical amendment. Such notification must include a copy of the pages of the CDP that would be revised by the amendment, with the text highlighted to show the proposed deletions and additions, and a copy of the CDP pages as they would be revised by the proposed amendment for insertion into the CDP binder. All revised CDP pages must include the revision date, amendment identification number, and CDP page number. The table of contents may also need to be revised to reflect any changes in pagination.

(ii) The State must forward the technical amendment to NMFS with its recommendations for approval or disapproval of the amendment. A technical amendment is approved by NMFS and is effective when, after review, NMFS notifies the State in writing of the technical amendment's receipt and approval.

(h) *Suspension or termination of a CDP.* An annual progress report, required under paragraph (g)(1) of this section, will be used by the State to review each CDP to determine whether the CDP, CDQ, and PSQ allocations thereunder should be continued, decreased, partially suspended, suspended, or terminated under the following circumstances:

(1) If the State determines that the CDP will successfully meet its goals

and objectives, the CDP may continue without any Secretarial action.

(2) If the State recommends to NMFS that an allocation be decreased, the State's recommendation for decrease will be deemed approved if NMFS does not notify the State in writing within 30 days of receipt of the State's recommendation.

(3) If the State determines that a CDP has not successfully met its goals and objectives or appears unlikely to become successful, the State may submit a recommendation to NMFS that the CDP be partially suspended, suspended, or terminated. The State must set out, in writing, the reasons for recommending suspension or termination of the CDP.

(4) After review of the State's recommendation and reasons thereof, NMFS will notify the Governor, in writing, of approval or disapproval of the recommendation within 30 days of its receipt. In the case of suspension or termination, NMFS will publish notification in the FEDERAL REGISTER, with reasons thereof.

[63 FR 30403, June 4, 1998]

EFFECTIVE DATE NOTE: At 63 FR 30403, June 4, 1998, §679.30 was revised. Section 679.30(a)(5)(i)(A)(2) contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

§679.31 CDQ reserves.

Portions of the CDQ and PSQ reserves for each subarea or district may be allocated for the exclusive use of CDQ applicants in accordance with CDPs approved by the Governor in consultation with the Council and approved by NMFS. NMFS will allocate no more than 33 percent of the total CDQ for all subareas and districts combined to any one applicant with an approved CDP application.

(a) *Pollock CDQ reserve (applicable through December 31, 1998).* In the proposed and final harvest specifications required by §679.20(c), one-half of the pollock TAC placed in the reserve for each subarea or district of the BSAI will be apportioned to a CDQ reserve for each subarea or district.

(b) *Halibut CDQ reserve.* (1) NMFS will annually withhold from IFQ allocation

the proportions of the halibut catch limit that are specified in paragraph (b) of this section for use as a CDQ reserve.

(2) Portions of the CDQ for each specified IPHC regulatory area may be allocated for the exclusive use of an eligible Western Alaska community or group of communities in accordance with a CDP approved by the Governor in consultation with the Council and approved by NMFS.

(3) The proportions of the halibut catch limit annually withheld for the halibut CDQ program, exclusive of issued QS, and the eligible communities for which they shall be made available are as follows for each IPHC regulatory area:

(i) *Area 4B.* In IPHC regulatory area 4B, 20 percent of the annual halibut quota shall be made available to eligible communities physically located in, or proximate to, this regulatory area.

(ii) *Area 4C.* In IPHC regulatory area 4C, 50 percent of the halibut quota shall be made available to eligible communities physically located in IPHC regulatory area 4C.

(iii) *Area 4D.* In IPHC regulatory area 4D, 30 percent of the annual halibut quota shall be made available to eligible communities located in, or proximate to, IPHC regulatory areas 4D and 4E.

(iv) *Area 4E.* In IPHC regulatory area 4E, 100 percent of the halibut quota shall be made available to eligible communities located in, or proximate to, IPHC regulatory area 4E. A fishing trip limit of 6,000 lb (2.7 mt) applies to halibut CDQ harvesting in IPHC regulatory area 4E.

(4) For the purposes of this section, “proximate to” an IPHC regulatory area means within 10 nm from the point where the boundary of the IPHC regulatory area intersects land.

(c) *Groundfish CDQ reserves.* (See § 679.20(b)(1)(iii))

(d) *Crab CDQ reserves.* King and Tanner crab species in the Bering Sea and Aleutian Islands Area that have a guideline harvest level specified by the State of Alaska that is available for commercial harvest are apportioned to a crab CDQ reserve as follows:

(1) For calendar year 2000, and thereafter, 7.5 percent;

(2) For calendar year 1999 (applicable through December 31, 1999), 5 percent; and

(3) For calendar year 1998 (applicable through December 31, 1998), 3.5 percent.

(e) *PSQ reserve.* (See § 679.21(e)(1)(i) and (e)(2)(ii)).

(f) *Reallocation of CDQ or PSQ reserves* (Applicable through December 31, 1998). If the Regional Administrator determines that any amount of a CDQ or PSQ reserve will not be used during the remainder of the 1998 fishing year, the Regional Administrator may reallocate any unused amount of the CDQ reserve back to the non-specified reserve established by § 679.20(b)(1)(ii) and may reallocate any unused amount of a PSQ reserve back to non-CDQ fisheries in proportion to those fisheries’ 1998 apportionment of PSC limits established by § 679.21.

(g) *Non-specific CDQ reserve.* Annually, NMFS will apportion 15 percent of each squid, arrowtooth flounder, and “other species” CDQ for each CDQ group to a non-specific CDQ reserve. A CDQ group’s non-specific CDQ reserve must be for the exclusive use of that CDQ group. A release from the non-specific CDQ reserve to the CDQ group’s squid, arrowtooth flounder, or “other species” CDQ is a technical amendment as described in § 679.30(g)(5). The technical amendment must be approved before harvests relying on CDQ transferred from the non-specific CDQ reserve may be conducted.

[63 FR 8361, Feb. 19, 1998, as amended at 63 FR 30407, June 4, 1998]

§ 679.32 Groundfish and halibut CDQ catch monitoring.

(a) *Applicability.* (1) The CDQ group and the operator or manager of a buying station, the operator of a vessel, and the manager of a shoreside processor must comply with the requirements of this section for all CDQ and PSQ caught while groundfish CDQ fishing as defined at § 679.2, with the exceptions listed in paragraphs (a)(2) and (a)(3) of this section. In addition, the CDQ group is responsible for ensuring that vessels and processors listed as eligible on the CDQ group’s approved CDP comply with all requirements of this section while harvesting or processing CDQ species.
