

FEDERAL REGISTER, for construction or renovation of pumpout and dump stations necessary to ensure that there are adequate and reasonably available stations to meet the needs of recreational vessels using the coastal waters of the State.

Private facilities. Private facilities include those operated by the following:

- (1) For profit or non-profit private marinas, docks, etc.;
- (2) For profit or non-profit concessionaires, whether they are leased or private facilities, on public lands; or
- (3) Yacht or boating clubs, whether they are open to the public or members-only facilities.

Public facilities. Public facilities include municipal, county, port authority, State and Federal marinas, docks, etc., operated by those agencies.

Pumpout station. A facility that pumps or receives sewage from a type III marine sanitation device (holding tank) installed on board vessels.

Reasonable open periods. This part does not specify hours, days and seasons, however, some suggested examples, provided no other factors are involved, are presented:

- (1) Pumpout/dump stations may be open during the same period the fuel docks are normally open.
- (2) Pumpout stations may be open when the marina is open and staff is present to pump out boats.
- (3) Pumpout/dump stations may be open during the hours considered to be normal marina business hours as adjusted by seasonal differences.

Recreational vessel. Watercraft manufactured for operation, or operated, primarily for pleasure. This term includes any watercraft leased, rented, or chartered to another for the latter's pleasure.

Renovation. Major rehabilitation of a facility to restore it to its original intended purpose.

Surveys. Those surveys identified in the technical guidelines as published in the FEDERAL REGISTER. Surveys are designed to determine the number and location of all operational pumpout and dump stations at public and private marinas, mooring areas, docks, and other boating access facilities within the coastal zone. Surveys also are designed to determine the number of rec-

reational vessels in coastal waters with holding tanks or portable toilets, and the areas of coastal waters where those vessels congregate.

Type III marine sanitation device (holding tank). Any equipment for installation on board a vessel which is specifically designed to receive, retain, and discharge sewage.

[59 FR 11206, Mar. 10, 1994, as amended at 62 FR 45348, Aug. 27, 1997]

§85.12 Information collection, record-keeping, and reporting requirements.

(a) The information collection requirements for this grant program, except for surveys, are those necessary to comply with 43 CFR 12 which include a narrative statement as identified in 85.22 Grant Proposals. The collection of survey information contained in this rule was approved by the Office of Management and Budget as required by 44 U.S.C. 3501 *et seq.*, October 18, 1993, OMB No. 1018-0086, expiration date September 30, 1996.

(b) Record keeping requirements include the tracking of costs and accomplishments related to the grant as required by 43 CFR 12.60, monitoring and reporting program performance (43 CFR 12.80), and financial reporting (43 CFR 12.81).

(c) Reporting requirements include retention and access requirements as required by 43 CFR 12.82.

Subpart B—Application for Grants

§85.20 Eligible activities.

(a) Eligible grant activities—coastal States:

(1) Eligible activities include identification in the coastal zone of all operational pumpout and dump stations, and surveys of recreational vessels in coastal waters with holding tanks or portable toilets, and the areas where those vessels congregate. Also eligible are costs of developing a list, including chart coordinates, of all operational pumpout and dump stations in the coastal zone of the State, for submission to the Fish and Wildlife Service.

(2) Plans for construction and renovation of pumpout and dump stations in the coastal zone of the State necessary to ensure that these stations are
