

certification shall include the conditions under which the particular compound is believed to be satisfactory for use and the precautions, if any, necessary in the use of such compound for the purpose intended in poultry processing establishments.

(b) As a prerequisite for approval, any compound which is required to be registered under the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act shall be registered and comply with the provisions of that Act. The applicant shall furnish the registration number assigned under the aforesaid Act along with two copies of the label being currently used on the product.

(c) A small sample of the compound (4 to 6 ounces) shall be submitted with the request for approval of its use in poultry processing establishments.

(d) The Administrator will either approve or disapprove the use of a particular compound after a careful evaluation of the data submitted pursuant to paragraph (a) of this section and consideration of any other information that is available pertaining to the compound under consideration.

(e) The Inspection Service is authorized to draw samples of any compound used in any official establishment and make analyses of such compound to determine if the compound conforms to that originally approved and if it is satisfactory for use in official establishments under this section. Whenever the Administrator has reason to believe that a compound may have a deleterious effect on poultry or poultry products, the approval of the particular compound may be suspended, and in such case the processor shall be given an opportunity to show that the compound does not have such effect. After such opportunity has been afforded to the processor, the Administrator shall make a determination as to the effect of the compound on poultry and poultry products and withdraw or reinstate the approval of the compound accordingly. Use of the compound shall not be permitted during the period of suspension.

**§ 381.61 Cleanliness and hygiene of official establishment personnel.**

(a) No official establishment shall employ, in any department where any poultry product is processed or otherwise handled, any person showing evidence of a communicable disease in a transmissible stage or known to be a carrier of such disease, or while affected with boils, sores, infected wounds, or other abnormal sources of microbiological contaminants.

(b) All persons coming in contact with exposed poultry products, or poultry products handling equipment shall wear clean garments and suitable head coverings to prevent hair from falling into poultry products; and shall keep their hands and fingernails clean at all times while thus engaged.

(c) Every person shall wash his hands thoroughly after each use of toilet or change of garments before returning to duties that require the handling of dressed poultry or other poultry product handling equipment.

(d) The use of tobacco in any form, the eating of food, or any other personal habit which may result in adulteration of any poultry product shall not be permitted in any room where exposed dressed poultry or other poultry products are being processed or otherwise handled.

**Subpart I—Operating Procedures**

**§ 381.65 Operations and procedures, generally.**

(a) Operations and procedures involving the processing, other handling, or storing of any poultry product shall be strictly in accord with clean and sanitary practices and shall be conducted in such a manner as will result in sanitary processing, proper inspection, and the production of poultry and poultry products that are not adulterated.

(b) Materials which create any condition that may result in adulteration of poultry products shall not be handled or stored in rooms, compartments, or other places in any official establishment where any poultry product is processed, otherwise handled, or stored.
