Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Minnesota in the Control of the St. Paul District, U.S. Army Corps of Engineers, St. Paul, MN

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the control of the St. Paul District, U.S. Army Corps of Engineers, St. Paul, MN.

A detailed assessment of the human remains was made by U.S. Army Corps of Engineers and Hamline University Osteology Laboratory professional staff in consultation with representatives of the Sisseton-Wahpeton Sioux Tribe of the Lake Traverse Reservation, the Upper Sioux Indian Community of the Upper Sioux Reservation, the Crow Creek Sioux Tribe of the Crow Creek Reservation, Lower Sioux Mdewakanton Community, Shakopee Mdewakanton Sioux community, Prairie Island Community, Flandreau Santee Sioux Tribe, and Santee Sioux Tribe of the Santee Reservation of Nebraska.

In 1969, human remains representing a minimum of 35 individuals were recovered from the Gull Lake dam site (12 CA37) near Brainerd, MN during legally authorized archeological excavations by the University of Minnesota and the Minnesota Historical Society prior to improvements at the Gull Lake dam. No known individuals were identified. The 1,060 associated funerary objects include ceramic vessels, ceramic sherds, pieces of lithic debris, stone tools and tool fragments, two wood charcoal samples, and fragments of canine, beaver, bear, avian, and moose bone.

Based on continuities of material culture in ceramic styles and construction, archeological evidence indicates long-term occupation of this area by the same cultural group, from the archeologically-defined Brainerd to Kathio-Clam River-Blackduck to Psinomani. The Psinomani, present during the Late Woodland and early Contact periods, are generally regarded as the ancestors of the Dakota. Historic documents indicate that Eastern Dakota bands (Mdewakanton, Wahpekute, Sisseton, and Wahpeton), and related
