SUPPLEMENTARY INFORMATION:

I. Abstract

Under provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), NOAA is responsible for management of the Nation's marine fisheries. As part of its efforts to enforce fishery regulations, NOAA has included in some of those regulations requirements that fishing gear be marked. The ability to link gear to its owner or operator is essential for enforcement in these fisheries, and the identification of gear is also useful in actions concerning the damage or loss of gear. NOAA has previously received Paperwork Reduction Act clearance for all of its gear-marking requirements under one Office of Management and Budget (OMB) control number, 0648-0305, but for internal management reasons NOAA intends that future clearances will be obtained on a regional or fishery basis. This notice is for requirements imposed on foreign fishing vessels authorized to deploy gear in the U.S. Exclusive Economic Zone. At this time no vessels have such an authorization.

II. Method of Collection

Deployed gear which is not physically and continuously attached to the vessel must be marked by a buoy displaying the vessel identification of the vessel that deployed the gear and must have attached a light visible for two miles at night in good visibility.
