

Needs and Uses: The notification burden on PSAPs will be used by carriers to verify that wireless 911 calls are referred to PSAPs who have the technical capability to use the data to the caller's benefit. TTY and dispatch notification requirements will be used to avoid consumer confusion as to the ability to reach 911 services using their wireless handsets. These notifications will also avoid delays in emergency response time. The quarterly reports will be used to monitor the progress of TTY compatibility. Consultations on the specific meaning assigned to pseudo-ANI are appropriate to ensure that all parties are working with the same information. Coordination between carriers and State and local entities to determine the PSAPs that are appropriate to receive 911 calls is necessary because of the difficulty in assigning PSAPs based on the location of the caller. The deployment schedule that should be submitted by carriers seeking a waiver of the Phase I or Phase II schedule will be used by the Commission to guarantee that the rules adopted in this proceeding are enforced in as timely a manner as possible within technological constraints.

Title: Section 73.1590, Equipment Performance Measurements.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Businesses or other for profit; not-for-profit institutions.

Number of Respondents: 5,052 AM stations, 7,787 FM stations and 312 TV stations.

Estimated Time Per Response: 0.5 hours for AM/FM stations and 18 hours for TV stations.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Estimated Cost Per Respondent: N/A.

Total Annual Burden: 12,036 hours.

Needs and Uses: Section 73.1590 requires licensees of AM, FM and TV stations to make audio and video equipment performance measurements for each main transmitter. These measurements and a description of the equipment and procedure used in making the measurements must be kept on file at the transmitter for two years. In addition, this information must be made available to the FCC upon request. The data is used by station licensees to minimize the potential for interference to other stations and by the FCC staff in field investigations to identify sources of interference.

FEDERAL RESERVE SYSTEM

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice.

SUMMARY: On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board of Governors of the Federal Reserve System (Board) its approval authority under the Paperwork Reduction Act, as per 5 CFR 1320.16, to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board under conditions set forth in 5 CFR 1320 Appendix A.1. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number. Board-approved collections of information will be incorporated into the official OMB inventory of currently approved collections of information. Copies of the OMB 83-Is, supporting statements, and the approved collection of information instruments will be placed into OMB's public docket files. The following information collections, which are being handled under this delegated authority, have received initial Board approval and are hereby published for comment. At the end of the comment period, the proposed information collections, along with an analysis of comments and recommendations received, will be submitted to the Board for final approval under OMB delegated authority. Comments are invited on the following: a. Whether the proposed collections of information are necessary for the proper performance of the Federal Reserve's functions; including whether the information has practical utility; b. the accuracy of the Federal Reserve's estimates of the burden of the proposed information collection, including the validity of the methodology and assumptions used; c. ways to enhance the quality, utility, and clarity of the information to be collected; and d. ways to minimize the burden of information collection on
