DEPARTMENT OF THE TREASURY**Customs Service****Revised National Customs Automation
Program Test Regarding
Reconciliation**

AGENCY: Customs Service, Treasury.

ACTION: General notice.

SUMMARY: On February 6, 1997, a notice was published in the **Federal Register** announcing a Customs prototype test of reconciliation. A subsequent notice, published in the **Federal Register** on September 30, 1997, announced modifications to the originally planned test. In response to comments received pursuant to that notice and discussions with the trade community, Customs has made further enhancements to the reconciliation prototype. These enhancements include a blanket application option to entry-by-entry flagging and, for Reconciliations involving duties, taxes, or fees due, the option of filing aggregate data for the Reconciliation in lieu of entry-by-entry data. This document serves as a replacement for all previous notices for this prototype, which is known as the ACS Reconciliation Prototype. The changes to the prototype detailed herein do not affect the previously announced start date of October 1, 1998, nor do they affect the policy which makes this prototype the exclusive means to reconcile entries, pursuant to 19 U.S.C. 1484(b).

This document invites public comments concerning any aspect of the planned test, informs interested members of the public of the requirements for voluntary participation, and establishes the process for developing evaluation criteria. This document also serves to open the application period. Certain information, as outlined in this notice, must be filed in an application with Customs prior to an applicant being approved for participation. It is important to note that certain aspects of this prototype may be modified prior to implementation of the final reconciliation program.

EFFECTIVE DATES: The testing period of this prototype will commence no earlier than October 1, 1998, will run for approximately two years, and may be extended. The prototype will be limited to consumption entries filed on or after October 1, 1998, through September 30, 2000. Comments concerning this notice and applications to participate in the prototype are requested by March 31, 1998.
