

As part of this request, the Applicants assert that the state of Texas and the state of Louisiana are likely to experience non-routine infestations of aphids during the 1998 cotton growing season. The applicants further claim that, without a specific exemption of FIFRA for the use of flowable carbofuran on cotton to control cotton aphids, cotton growers in the states will suffer significant economic losses. The applicants also detail a use program designed to minimize risks to pesticide handlers and applicators, non-target organisms (both Federally-listed endangered species, and non-listed species), and to reduce the possibility of drift and runoff.

The applicants propose to make no more than two applications of flowable carbofuran on cotton at the rate of 0.25 lb. active ingredient [(a.i.)] (8 fluid oz.) in a minimum of 2 gallons of finished spray per acre by air, or 10 gallons of finished spray per acre by ground application. The total maximum proposed use during the 1998 growing season (March 1, 1998 until September 30, 1998 in Texas, and between June 1, 1998 – September 30, 1998 in Louisiana) would be 0.5 lb. a.i. (16 fluid oz.) per acre. The applicants propose that the maximum acreage which could be treated under the requested exemption would be 1.8 million acres in Texas, and 500,000 acres in Louisiana. If all acres were treated at the maximum proposed rates, then 900,000 lbs. a.i. (225,000 gallons Furadan 4F Insecticide/Nematicide) would be used in Texas; and 250,000 lbs. a.i. would be used in Louisiana.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 require publication of a notice of receipt of an application for a specific exemption proposing use of a chemical (i.e., an active ingredient) which has been the subject of a Special Review within EPA's Office of Pesticide Programs, and the proposed use could pose a risk similar to the risk assessed by EPA under the previous Special Review. Such notice provides for opportunity for public comment on the application.

The official record for this notice, as well as the public version, has been established for this notice under docket number [OPP-181056] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI is available for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal

holidays. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

Electronic comments can be sent directly to EPA at: opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1/6.1 or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP-181056]. Electronic comments on this notice may be filed online at many Federal Depository Libraries.

The Agency, accordingly, will review and consider all comments received during the comment period in determining whether to issue the emergency exemption requested by the Texas Department of Agriculture, and by the Louisiana Department of Agriculture and Forestry.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-181055; FRL 5779-4]

Pyriproxyfen and Buprofezin; Receipt of Application for Emergency Exemptions, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received specific exemption requests from the California Department of Pesticide Regulation (hereafter referred to as the "Applicant") to use the insect growth regulators pyriproxyfen (CAS 95737-68-1) and buprofezin (CAS 69327-76-0) to treat up to 45,000 acres of citrus to control California Red Scale. In the case of pyriproxyfen, the Applicant proposes the first food use of an active ingredient. Buprofezin is an unregistered material, and its proposed use is thus use of a "new" chemical. Therefore, in accordance with 40 CFR 166.24, EPA is

soliciting public comment before making the decision whether or not to grant the exemptions.

DATES: Comments must be received on or before April 9, 1998.

ADDRESSES: Three copies of written comments, bearing the identification notation "OPP-181055," should be submitted by mail to: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Comments and data may also be submitted electronically to: opp-docket@epamail.epa.gov. Follow the instruction under "SUPPLEMENTARY INFORMATION." No Confidential Business Information (CBI) should be submitted through e-mail.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be included in the public record by EPA without prior notice. The public docket is available for public inspection in Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Andrea Beard, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location, telephone number, and e-mail: Rm. 267, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, (703-308-9356); e-mail: beard.andrea@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may, at her discretion, exempt a state agency from any registration provision of FIFRA if she determines that emergency conditions exist which require such exemption. The Applicant has requested the Administrator to issue specific exemptions for the use of pyriproxyfen and buprofezin on citrus to control California Red Scale. Information in

accordance with 40 CFR part 166 was submitted as part of this request.

The Applicant states that California Red Scale is a key pest of citrus, and the single most costly pest to control. The Applicant states that in the past, treatments were not required every year for this pest, but in recent years resistance to the registered materials has built up and growers have had to treat up to three times in a single year. Alternative methods of control (parasite releases and packing house washers) are applied where feasible; however, the Applicant asserts that a different chemistry with a different mode of action is necessary to control the scale. The Applicant asserts that with continued frequent use of currently registered materials, increased resistance is likely, and these materials will quickly become wholly ineffective, leaving growers with no tools to control these damaging pests. The Applicant states that without adequate control of scale in citrus, significant economic losses are expected. The Applicant indicates that one application of either one or the other of the requested chemicals would not provide adequate control throughout the season, and since application of either would be limited to one, is requesting the use of both materials.

The Applicant proposes to apply pyriproxyfen at a rate of 0.108 lb. active ingredient (a.i.) per acre with a maximum of one application per crop season on up to 45,000 acres of citrus. The Applicant proposes to apply buprofezin at a maximum rate of 2.0 lbs. a.i. per acre with a maximum of one application per crop season on up to 45,000 acres of cotton. Therefore, use under these exemptions could potentially amount to a maximum total of 4,860 lbs. of pyriproxyfen and 90,000 lbs. of buprofezin.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 require publication of a notice of receipt in the **Federal Register** for an application for a specific exemption proposing the first food use of an active ingredient, or for use of a new (unregistered) chemical. Such notice provides for opportunity for public comment on the application.

The official record for this notice, as well as the public version, has been established for this notice under docket number [OPP-181055] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI is available

for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The official notice record is located at the address in "ADDRESSES" at the beginning of this document.

Electronic comments can be sent directly to EPA at: opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1/6.1 or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP-181055]. Electronic comments on this notice may be filed online at many Federal Depository Libraries.

The Agency, accordingly, will review and consider all comments received during the comment period in determining whether to issue the emergency exemption requested by the California Department of Pesticide Regulation.

Pyriproxyfen and Buprofezin; Receipt of Application for Emergency Exemptions, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received specific exemption requests from the Arizona Department of Agriculture (hereafter referred to as the "Applicant") to use the insect growth regulators pyriproxyfen (CAS 95737-68-1) and buprofezin (CAS 69327-76-0) to treat up to 430,000 acres of cotton to control the sweet potato, or silverleaf whitefly *Bemisia species*. In the case of pyriproxyfen, the Applicant proposes the first food use of an active ingredient. Buprofezin is an unregistered material, and its proposed use is thus use of a

"new" chemical. Therefore, in accordance with 40 CFR 166.24, EPA is soliciting public comment before making the decision whether or not to grant the exemptions.

DATES: Comments must be received on or before April 9, 1998.

ADDRESSES: Three copies of written comments, bearing the identification notation "OPP-181054," should be submitted by mail to: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Comments and data may also be submitted electronically to: opp-docket@epamail.epa.gov. Follow the instruction under "SUPPLEMENTARY INFORMATION." No Confidential Business Information (CBI) should be submitted through e-mail.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be included in the public record by EPA without prior notice. The public docket is available for public inspection in Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.
