SUMMARY: This notice announces the Forum on Ecological Surveys of Aquatic Nuisance Species. The 1996 amendments to the Nonindigenous Aquatic Nuisance Prevention and Control Act added a new subsection requiring that the Aquatic Nuisance Species (ANS) Task Force, in consultation with the U.S. Coast Guard, conduct ecological surveys in nationally significant estuaries and other waters that are highly susceptible to invasion by ANS resulting from ballast water operations and other operations of vessels and require further study. The surveys shall determine what nonindigenous aquatic species are present and estimate the effectiveness of ballast water and other vessel management guidelines and regulations in abating invasions. Studies of the Chesapeake Bay, San Francisco Bay, and Honolulu Harbor are specifically required.
