

Hydropower Licensing has reviewed the application for a new license for the existing Kern River No. 1 Project. The project is located near Bakersfield, in Kern County, California.

On July 31, 1997, the Commission staff issued and distributed to all parties a draft environmental assessment on the project, and requested that comments be filed with the Commission within 30 days. At the request of the Fish and Wildlife Service the comment period was extended an additional 30 days to September 30, 1997. Comments were filed and are addressed in the final environmental assessment (FEA).

The FEA contains the staff's analysis of the potential environmental impacts of the project and has concluded that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Room, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.

Acting Secretary.

SUMMARY: EPA has received a specific exemption request from the Washington Department of Agriculture (hereafter referred to as the "Applicant") to use the pesticide bifenthrin (CAS 8657-04-3 *cis* and 83322-02-5 *trans*), formulated as Brigade WSB, to treat up to 9,500 acres of raspberries to control weevils. This is the sixth year this use has been requested, and it has been allowed under section 18 for the past 5 years. Since this request proposes a use which has been requested or granted in any 3 previous years, and a complete application for registration and petition for tolerance has not yet been submitted to the Agency, EPA is soliciting public comment before making the decision whether or not to grant the exemption, in accordance with 40 CFR 166.24(a)(6).

DATES: Comments must be received on or before April 9, 1998.

ADDRESSES: Three copies of written comments, bearing the identification notation "OPP-181057," should be

submitted by mail to: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. SUPPLEMENTARY INFORMATION: Pursuant to section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may, at her discretion, exempt a state agency from any registration provision of FIFRA if she determines that emergency conditions exist which require such exemption. The Applicant has requested the Administrator to issue a specific exemption for the use of bifenthrin on raspberries to control weevils. Information in accordance with 40 CFR part 166 was submitted as part of this request.

According to the Applicant, this emergency exists because of the loss of the chlorinated hydrocarbon insecticides. Initially, raspberry growers obtained some relief through use of carbofuran under an exemption; however, that use was later disallowed
