NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 11—Criteria and

Procedures for Determining Eligibility for Access to or Control Over Special Nuclear Material.

2. Current OMB approval number: 3150-0062.

3. How often the collection is required: New applications, certifications, and amendments may be submitted at any time. Applications for renewal are submitted every 5 years.

4. Who is required or asked to report: Employees (including applicants for employment), contractors and consultants of NRC licensees and contractors whose activities involve access to or control over special nuclear material at either fixed sites or in transportation activities.

5. The number of annual responses: The majority of responses required under Part 11 are submitted using Standard Form 86, Personnel Security Packet, OMB Clearance No. 3206-0007, and NRC Form 237, Request for Access Authorization, OMB Clearance No. 3150-0050. The response and burden information for those forms is reported separately under those clearances. The remaining number of responses under Part 11 is estimated to be 5.

6. The number of hours needed annually to complete the requirement or request: Approximately 0.25 hours annually per response, for an industry total of 1.25 hours annually.

7. Abstract: NRC regulations in 10 CFR part 11 establish requirements for access to special nuclear material, and the criteria and procedures for resolving questions concerning the eligibility of individuals to receive special nuclear material access authorization. Personal history information which is submitted on applicants for relevant jobs is provided to OPM, which conducts investigations. NRC reviews the results of these investigations and makes determinations of the eligibility of the applicants for access authorization.

Submit, by May 26, 1998, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
