SEC. 233. PATRIOT ADVANCED CAPABILITY-3 THEATER MISSILE DEFENSE SYSTEM.

(a) **COMPETITION FOR MISSILE SELECTION.**—The Secretary of Defense shall continue the strategy being carried out by the Ballistic Missile Defense Organization as of October 1, 1993, for selection of the best technology (in terms of cost, schedule, risk, and performance) to meet the missile requirements for the Patriot Advanced Capability-3 (PAC-3) theater missile defense system. That strategy, consisting of flight testing, ground testing, simulations, and other analyses of the weapon systems referred to in subsection (d), shall be continued until the Secretary determines that the Ballistic Missile Defense Organization has adequate information upon which to base a decision as to which missile will be selected to proceed into the Engineering and Manufacturing Development stage.

(b) **IMPLICATIONS OF DELAY.**—If there is a delay (based upon the schedule in effect in October 1993) in the selection described in subsection (a) of the missile for the Patriot Advanced Capability-3 system, the Secretary of Defense shall ensure that demonstration and validation of both competing systems can continue as needed to support an informed decision for such selection.

(c) **FUNDING FOR CERTAIN BALLISTIC MISSILE RDT&E.**—If a decision is not made before February 28, 1994, to proceed into the Engineering and Manufacturing Development stage under a weapon system program referred to in subsection (d), the funds appropriated pursuant to the authorization of appropriations in section 201 that are available for engineering and manufacturing development for such a program shall be available for research, development, test, and evaluation of the Patriot PAC-3 Missile program.

(d) COVERED WEAPON SYSTEM PROGRAMS.—For purposes of subsections (a) and (c), the weapon system programs referred to in this subsection are as follows:

- (1) The Patriot Multimode Missile Program.
- (2) The Extended Range Interceptor (ERINT) missile program.

SEC. 234. COMPLIANCE OF BALLISTIC MISSILE DEFENSE SYSTEMS AND COMPONENTS WITH ABM TREATY.

(a) FINDINGS.—Congress makes the following findings:

(1) Section 232(a)(1) of the Missile Defense Act of 1991 (10 U.S.C. 2431 note) establishes a goal for the United States to comply with the ABM Treaty (including any protocol or amendment thereto) and not develop, test, or deploy any ballistic missile defense system, or component thereof, in violation of that treaty (as modified by any protocol or amendment thereto) while deploying an anti-ballistic missile system capable of providing a highly effective defense of the United States against limited attacks of ballistic missiles.

(2) The Department of Defense has conducted no formal compliance review of any of the components or systems scheduled for early deployment as part of either the Theater Missile Defense Initiative or the initial limited defense system to be located at Grand Forks, North Dakota.

(3) The Department of Defense is continuing to obligate hundreds of millions of dollars for the development and testing of systems or components of ballistic missile defense systems before a determination has been made that, if successfully developed, tested, or deployed, those systems and components would be in compliance with the ABM Treaty.

(4) The President requested the authorization and appropriation of additional funds for continued development of such systems and components during fiscal year 1994.

(5) The United States and its allies face existing and expanding threats from ballistic missiles capable of being used as theater weapon systems that are presently possessed by, being developed by, or being acquired by a number of countries, including Iraq, Iran, and North Korea.

(6) Some theater ballistic missiles presently deployed or being developed (such as the Chinese-made CSS-2) have capabilities equal to or greater than the capabilities of missiles which were determined to be strategic missiles more than 20 years ago under the SALT I Interim Agreement of 1972 entered into between the United States and the Soviet Union.

(7) The ABM Treaty was not intended to, and does not, apply to or limit research, development, testing, or deployment of missile defense systems, system upgrades, or system components that are designed to counter modern theater ballistic missiles, regardless of the capabilities of such missiles, unless those systems, system upgrades, or system components are tested against or have demonstrated capabilities to counter modern strategic ballistic missiles.

(8) It is a national security priority of the United States to develop and deploy highly effective theater missile defense systems capable of countering the existing and expanding threats posed by modern theater ballistic missiles as soon as is technically possible.

H. R. 2401—50

(9) It is essential that the Secretary of Defense immediately undertake and complete a review for compliance with the ABM Treaty of proposed theater missile defense systems, system upgrades, and system components so as to not delay the development and deployment of such highly effective theater missile defense systems.

(b) REQUIRED COMPLIANCE REVIEW.—(1) The Secretary of Defense shall review the current baseline configuration of each system or system upgrade specified in paragraph (2), and the system components, to determine whether the development, testing, or deployment of that system or system upgrade would be in compliance with the ABM Treaty, including the interpretation of the Treaty set forth in the enclosure to the July 13, 1993, ACDA letter.

(2) The systems and system upgrades to be reviewed pursuant to paragraph (1) are the following:

- (A) The Patriot Multimode Missile.
- (B) The Extended Range Interceptor (ERINT).
- (C) The Ground-Based Radar for theater missile defenses (GBR-T).
- (D) The Theater High Altitude Area Defense interceptor missile (THAAD).
- (E) The Brilliant Eyes space-based sensor system.
- (F) Upgrades to the AEGIS/SPY radar system of the Navy.
- (G) Upgrades to the Standard Missile-2 (SM-2) interceptor of the Navy.

(3) If during the course of the compliance review under paragraph (1) (or any other such compliance review of a ballistic missile system or system upgrade), an issue arises that appears to indicate that a provision of the ABM Treaty may limit research, development, testing, or deployment by the United States of highly effective theater missile defense systems capable of countering modern theater ballistic missiles, the Secretary of Defense shall immediately submit to the appropriate congressional committees a report on that issue.

(c) REPORT.—(1) For each system and system upgrade specified in paragraph (2) of subsection (b), the Secretary shall submit to the appropriate congressional committees a report on the results of the review required by that subsection. A report may include the results of the reviews of more than one system and system upgrade. For any system or system upgrade determined not to be in compliance with the ABM Treaty, the Secretary shall indicate (A) what changes to the ABM Treaty would be required for the system to be deemed compliant with such modified ABM Treaty, and (B) what changes to the performance capability of the system or system upgrade would be required in order for it to become compliant with the existing Treaty, together with the effect of those performance capability changes on the effectiveness of the planned missile defense architecture.

(2) With regard to the Brilliant Eyes space-based sensor system, the Secretary shall include in the report findings on each of the following issues:

- (A) Whether the current baseline configuration of the Brilliant Eyes space-based sensor system would comply with the ABM Treaty if the system were used in conjunction with the planned ground-based radar system and its ground-based interceptors at Grand Forks, North Dakota.

H. R. 2401—51

(B) If not, whether design changes or operational changes can be made to the Brilliant Eyes space-based sensor system that—

(i) will result in the sensor system, when employed in conjunction with the planned ground-based radar system and its ground-based interceptors, being in compliance with the ABM Treaty; and

(ii) will not prevent the sensor system from performing its strategic defense missions with a high degree of effectiveness.

(C) If not, whether the Brilliant Eyes space-based sensor system can be made, through design changes or operational changes, for use only with theater missile defense systems and be in compliance with the ABM Treaty.

(D) If so, the extent to which deployment of the Brilliant Eyes space-based sensor system would enhance the capability of upper-tier theater defense systems and lower-tier theater defense systems, respectively.

(d) LIMITATIONS ON FUNDING PENDING SUBMISSION OF REPORT.—(1) Not more than 50 percent of the funds reported pursuant to section 231(e) to be allocated for fiscal year 1994 for a system or system upgrade specified in subsection (b)(2) may be obligated for that system or system upgrade, or any of its components, until the Secretary completes the compliance review of such system or system upgrade required by subsection (b) and submits to the appropriate congressional committees the report on the results of the compliance review of that system or system upgrade as required by subsection (c).

(2) Funds appropriated to the Department of Defense for fiscal year 1994, or otherwise made available to the Department of Defense from any funds appropriated for fiscal year 1994 or for any fiscal year before 1994, may not be obligated or expended—

(A) for any development or testing of anti-ballistic missile systems or components except for development and testing consistent with the interpretation of the ABM Treaty set forth in the enclosure to the July 13, 1993, ACDA letter; or

(B) for the acquisition of any material or equipment (including long lead materials, components, piece parts, or test equipment, or any modified space launch vehicle) required or to be used for the development or testing of anti-ballistic missile systems or components, except for material or equipment required for development or testing consistent with the interpretation of the ABM Treaty set forth in the enclosure to the July 13, 1993, ACDA letter.

(e) DEFINITIONS.—In this section:

(1) The term “July 13, 1993, ACDA letter” means the letter dated July 13, 1993, from the Acting Director of the Arms Control and Disarmament Agency to the chairman of the Committee on Foreign Relations of the Senate relating to the correct interpretation of the ABM Treaty and accompanied by an enclosure setting forth such interpretation.

(2) The term “ABM Treaty” means the Treaty between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missiles, signed in Moscow on May 26, 1972.

(3) The term “appropriate congressional committees” means—

H. R. 2401—52

(A) the Committee on Armed Services, the Committee on Foreign Affairs, and the Committee on Appropriations of the House of Representatives; and

(B) the Committee on Armed Services, the Committee on Foreign Relations, and the Committee on Appropriations of the Senate.

SEC. 235. THEATER MISSILE DEFENSE MASTER PLAN.

(a) INTEGRATION AND COMPATIBILITY.—In carrying out the Theater Missile Defense Initiative, the Secretary of Defense shall—

(1) seek to maximize the use of existing systems and technologies; and

(2) seek to promote joint use by the military departments of existing and future ballistic missile defense equipment (rather than each military department developing its own systems that would largely overlap in their capabilities).

The Secretaries of the military departments shall seek the maximum integration and compatibility of their ballistic missile defense systems as well as of the respective roles and missions of those systems.

(b) TMD MASTER PLAN.—The Secretary of Defense shall submit to Congress a report (which shall constitute the TMD master plan) containing a thorough and complete analysis of the future of theater missile defense programs. The report shall include the following:

(1) A description of the mission and scope of Theater Missile Defense.

(2) A description of the role of each of the Armed Forces in Theater Missile Defense.

(3) A description of how those roles interact and complement each other.

(4) An evaluation of the cost and relative effectiveness of each interceptor and sensor under development as part of a Theater Missile Defense system by the Ballistic Missile Defense Organization.

(5) A detailed acquisition strategy which includes an analysis and comparison of the projected acquisition and life-cycle costs of each Theater Missile Defense system intended for production (shown separately for research, development, test, and evaluation, for procurement, for operation and maintenance, and for personnel costs for each system).

(6) Specification of the baseline production rate for each year of the program through completion of procurement.

(7) An estimate of the unit cost and capabilities of each system.

(8) A description of plans for theater and tactical missile defense doctrine, training, tactics, and force structure.

(c) DESCRIPTION OF TESTING PROGRAM.—The Secretary of Defense shall include in the report under subsection (b)—

(1) a description of the current and projected testing program for Theater Missile Defense systems and major components; and

(2) an evaluation of the adequacy of the testing program to simulate conditions similar to those the systems and components would actually be expected to encounter if and when deployed (such as the ability to track and engage multiple targets with multiple interceptors, to discriminate targets from

H. R. 2401—53

decoys and other incoming objects, and to be employed in a shoot-look-shoot firing mode).

(d) RELATIONSHIP TO ARMS CONTROL TREATIES.—The Secretary shall include in the report under subsection (b) a statement of how production and deployment of any projected Theater Missile Defense program will conform to all relevant arms control agreements. The report shall describe any potential noncompliance with any such agreement, when such noncompliance is expected to occur, and whether provisions need to be renegotiated within that agreement to address future contingencies.

(e) SUBMISSION OF REPORT.—The report required by subsection (b) shall be submitted as part of the next annual report of the Secretary submitted to Congress under section 224 of Public Law 101-189 (10 U.S.C. 2431 note).

(f) OBJECTIVES OF PLAN.—In preparing the master plan, the Secretary shall—

(1) seek to maximize the use of existing technologies (such as SM-2, AEGIS, Patriot, and THAAD) rather than develop new systems;

(2) seek to maximize integration and compatibility among the systems, roles, and missions of the military departments; and

(3) seek to promote cross-service use of existing equipment (such as development of Army equipment for the Marine Corps or ground utilization of an air or sea system).

(g) REVIEW AND REPORT ON DEPLOYMENT OF BALLISTIC MISSILE DEFENSES.—(1) The Secretary of Defense shall conduct an intensive and extensive review of opportunities to streamline the weapon systems acquisition process applicable to the development, testing, and deployment of theater ballistic missile defenses with the objective of reducing the cost of deployment and accelerating the schedule for deployment without significantly increasing programmatic risk or concurrency.

(2) In conducting the review, the Secretary shall obtain recommendations and advice from—

(A) the Defense Science Board;

(B) the faculty of the Industrial College of the Armed Forces; and

(C) federally funded research and development centers supporting the Office of the Secretary of Defense.

(3) Not later than May 1, 1994, the Secretary shall submit to the congressional defense committees a report on the Secretary's findings resulting from the review under paragraph (1), together with any recommendations of the Secretary for legislation. The Secretary shall submit the report in unclassified form, but may submit a classified version of the report if necessary to clarify any of the information in the findings or recommendations or any related information. The report may be submitted as part of the next annual report of the Secretary submitted to Congress under section 224 of Public Law 101-189 (10 U.S.C. 2431 note).

SEC. 236. LIMITED DEFENSE SYSTEM DEVELOPMENT PLAN.

(a) REQUIREMENT FOR REPORT.—(1) The Secretary of Defense shall submit to the congressional defense committees a report on the development plan for a Limited Defense System covering the period of fiscal years 1994 through 1999.

H. R. 2401—54

(2) The report under paragraph (1) shall be submitted not later than May 30, 1994, and may be included in the next annual report on ballistic missile defenses submitted to Congress under section 224 of Public Law 101-189 (10 U.S.C. 2431 note).

(b) ISSUES TO BE ADDRESSED IN REPORT.—The report under subsection (a) shall include discussion of the following matters:

(1) The proposed Limited Defense System architecture.

(2) The systems and components to be developed to implement that architecture.

(3) The extent to which those systems and components can be developed during the period referred to in subsection (a), assuming annual funding for the Limited Defense System averaging \$600,000,000 per year.

(4) The additional funding required and the additional time required after fiscal year 1999 in order for initial deployment of a limited, ABM-Treaty-compliant capability at a single site to be implemented.

(5) The variations in both required funding and required time after fiscal year 1999 for the same initial deployment to be implemented—

(A) if funding for a Limited Defense System during fiscal years 1995 through 1999 averages \$750,000,000 per year; and

(B) if funding for a Limited Defense System during fiscal years 1995 through 1999 averages \$450,000,000 per year.

(6) The extent to which missile defense technologies and components that are developed for Theater Missile Defense systems to be deployed before fiscal year 2000 can reduce the development costs and lead-times for development and deployment of a Limited Defense System.

(7) The extent to which acquisition streamlining can be applied to the development of a Limited Defense System.

(8) The extent to which the testing and simulation infrastructure, the level of engineering and technical support, the extensive reliance on studies and analyses by contractors, and the substantial use of outside contractors for systems engineering and technical analysis which the Ballistic Missile Defense Organization has inherited from the Strategic Defense Initiative Organization can be reduced given the re-evaluation of the Ballistic Missile Defense program that has emerged from the Bottom-Up Review of the Secretary of Defense which was conducted during 1993.

(9) Such other matters as the Secretary considers important.

SEC. 237. THEATER AND LIMITED DEFENSE SYSTEM TESTING.

(a) TESTING OF THEATER MISSILE DEFENSE INTERCEPTORS.—Except for the acquisition of those production representative missiles required for the completion of developmental and operational testing, the Secretary of Defense may not approve a theater missile defense interceptor program proceeding into the Low-Rate Initial Production (Milestone IIIA) acquisition stage until the Secretary certifies to the congressional defense committees that more than two realistic live-fire tests, consistent with section 2366 of title 10, United States Code, have been conducted, the results of which demonstrate the achievement by the interceptors of the weapons

systems performance goals specified in the system baseline document established pursuant to section 2435(a)(1)(A) of title 10, United States Code, before the program entered engineering and manufacturing systems development. The live-fire tests demonstrating such results shall involve multiple interceptors and multiple targets in the presence of realistic countermeasures.

(b) **ADVANCE REVIEW AND APPROVAL OF PROPOSED DEVELOPMENTAL TESTS OF LIMITED DEFENSE SYSTEM PROGRAM PROJECTS.**—A developmental test may not be conducted under the Limited Defense System program element of the Ballistic Missile Defense Program until the Secretary of Defense reviews and approves (or approves with changes) the test plan for such developmental test.

(c) **INDEPENDENT MONITORING OF TESTS.**—(1) The Secretary shall provide for monitoring of the implementation of each test plan referred to in subsection (b) by a group composed of persons who—

(A) by reason of education, training, or experience are qualified to monitor the testing covered by the plan; and

(B) are not assigned or detailed to, or otherwise performing duties of, the Ballistic Missile Defense Organization and are otherwise independent of such organization.

(2) The monitoring group shall submit to the Secretary its analysis of, and conclusions regarding, the conduct and results of each test monitored by the group.

SEC. 238. ARROW TACTICAL ANTI-MISSILE PROGRAM.

(a) **ENDORSEMENT OF COOPERATIVE RESEARCH AND DEVELOPMENT.**—Congress reiterates its endorsement (previously stated in section 225(a)(5) of Public Law 101–510 (104 Stat. 1515) and section 241(a) of Public Law 102–190 (105 Stat. 1326)) of a continuing program of cooperative research and development, jointly funded by the United States and Israel, on the Arrow Tactical Anti-Missile program.

(b) **PROGRAM GOAL.**—The goal of the cooperative program is to demonstrate the feasibility and practicality of the Arrow system and to permit the government of Israel to make a decision on its own initiative regarding deployment of that system without financial participation by the United States beyond the research and development stage.

(c) **ARROW CONTINUING EXPERIMENTS.**—The Secretary of Defense, from amounts appropriated to the Department of Defense pursuant to section 201 for Defense-wide activities and available for the Ballistic Missile Defense Organization, shall fund the United States contribution to the fiscal year 1994 Arrow Continuing Experiments program in an amount not to exceed \$56,400,000.

(d) **ARROW DEPLOYABILITY INITIATIVE.**—(1) Subject to paragraph (2), the Secretary of Defense may obligate funds appropriated pursuant to section 201 in an amount not to exceed \$25,000,000 for the purpose of research and development of technologies associated with deploying the Arrow missile in the future (including technologies associated with battle management, lethality, system integration, and test bed systems).

(2) Funds may not be obligated for the purpose stated in paragraph (1) (other than as required to satisfy the conditions set forth in this paragraph) unless the President certifies to Congress that—

(A) the United States and the government of Israel have entered into an agreement governing the conduct and funding of research and development projects for the purpose stated in paragraph (1);

(B) each project in which the United States will join under that agreement (i) will have a benefit for the United States, and (ii) has not been barred by other congressional direction;

(C) the Arrow missile has successfully completed a flight test in which it intercepted a target missile under realistic test conditions; and

(D) the government of Israel is continuing, in accordance with its previous public commitments, to adhere to export controls pursuant to the Guidelines and Annex of the Missile Technology Control Regime.

(e) SENSE OF CONGRESS ON EXPEDITING TEST PROGRAM.—It is the sense of Congress that, in order to expedite the test program for the Arrow missile, the United States should seek to initiate with the government of Israel discussions on the agreement referred to in subsection (d)(2)(A) without waiting for the condition specified in subsection (d)(2)(C) to be met first.

SEC. 239. REPORT ON ARROW TACTICAL ANTI-MISSILE PROGRAM.

(a) REPORT REQUIRED.—Not later than April 1, 1994, the Secretary of Defense shall submit to the congressional defense committees a report on the Arrow Tactical Anti-Missile program. The Secretary shall design the report to provide those committees with the information they need in order to perform their oversight function. The Secretary shall obtain the information for the report from actual program data to which the United States Government has access, to the extent possible, or, if necessary, from the best estimates available to the United States Government.

(b) CONTENT OF REPORT.—The report shall include (at a minimum) the following:

(1) The development and procurement schedules for the program.

(C) the weapon proliferation implications.

(c) FORM OF REPORT.—The Secretary shall submit the report in classified and unclassified versions.

H. R. 2401—57

(d) CONSTRUCTION OF SECTION.—Nothing in this section shall be construed to endorse United States participation in any aspect of the Arrow program beyond the research and development programs authorized by law.

SEC. 240. TECHNICAL AMENDMENTS TO ANNUAL REPORT REQUIREMENT TO REFLECT CREATION OF BALLISTIC MISSILE DEFENSE ORGANIZATION.

Section 224 of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (10 U.S.C. 2431 note) is amended—

(1) by striking out “Strategic Defense Initiative” each place it appears (other than in subsection (b)(5)) and inserting in lieu thereof “Ballistic Missile Defense program”;

(2) by striking out “Strategic Defense Initiative” in subsection (b)(5) and inserting in lieu thereof “Ballistic Missile Defense”;

(3) by striking out “SDI” each place it appears and inserting in lieu thereof “BMD”; and

(4) by striking out the section heading and inserting in lieu thereof the following:

“SEC. 224. ANNUAL REPORT ON BALLISTIC MISSILE DEFENSE PROGRAM.”.

SEC. 241. CLEMENTINE SATELLITE PROGRAM.

(a) FINDING.—The Congress finds that the program of the Ballistic Missile Defense Organization that is known as the “Clementine” program, consisting of a satellite space project that will, among other matters, provide valuable information about asteroids in the vicinity of Earth, represents an important opportunity for transfer of Department of Defense technology for civilian purposes and should be supported.

(b) CONGRESSIONAL VIEWS.—The Congress urges the Secretary of Defense—

(1) to identify an appropriate management structure within either the Advanced Research Projects Agency or one of the military departments to which the Clementine program and related programs of general applicability to civilian, commercial, and military space programs might be transferred; and

(2) to consider funding for the Clementine program to be a priority within whatever agency or department is identified as described in paragraph (1) and to provide funds for that program at an appropriate level.

SEC. 242. COOPERATION OF UNITED STATES ALLIES ON DEVELOPMENT OF TACTICAL AND THEATER MISSILE DEFENSES.

(a) FINDINGS.—Congress makes the following findings:

(1) Systems to provide effective defense against theater and tactical ballistic missiles that may be developed and deployed by the United States have the potential to make contributions to the national security interests of nations that are allies of the United States that would be equal to or greater than the contributions such systems would make to the national security interests of the United States.

(2) The cost of developing and deploying a broad spectrum of such systems will be several tens of billions of dollars.

(3) A truly cooperative multinational approach to the development and deployment of such systems could substantially reduce the financial burden of such an undertaking on any

one country and would involve additional sources of technological expertise.

(4) While leaders of nations that are allies of the United States have stated an interest in becoming involved, or increasing involvement, in United States tactical missile defense programs, the governments of those nations are unlikely to support programs for theater missile defense development and deployment unless, at a minimum, they can participate in meaningful ways in the planning and execution of such programs, including active participation in research and development and production of the systems involved.

(5) Given the high cost of developing theater ballistic missile defense systems, the participation of United States allies in the efforts to develop tactical missile defenses would result in substantial savings to the United States.

(b) PLAN AND REPORTS.—(1) The Secretary of Defense shall develop a plan to coordinate development and implementation of Theater Missile Defense programs of the United States with theater missile defense programs of United States allies, with the goal of avoiding duplication of effort, increasing interoperability, and reducing costs. The plan shall set forth in detail any financial, in-kind, or other form of participation by each nation in cooperative efforts to plan, develop, produce, and deploy theater ballistic missile defenses for the mutual benefit of the countries involved.

(2) The Secretary shall submit to Congress a report on the plan developed under paragraph (1). The report shall be submitted in both classified and unclassified versions, as appropriate, and may be submitted as a component of the next Theater Missile Defense Initiative report to Congress.

(3) The Secretary shall include in each annual Theater Missile Defense Initiative report to Congress a report on actions taken to implement the plan developed under paragraph (1). Each such report shall set forth the status of discussions between the United States and United States allies for the purposes stated in that paragraph and shall state the status of contributions by those allies to the Theater Missile Defense Cooperation Account, shown separately for each allied country covered by the plan.

(c) RESTRICTION ON FUNDS.—Of the total amount appropriated pursuant to authorizations in this Act for theater ballistic missile defense programs, not more than 80 percent may be obligated until—

(1) the report under subsection (b)(2) is submitted to Congress; and

(2) the President certifies in writing to Congress that representatives of the United States have formally submitted to each of the member nations of the North Atlantic Treaty Organization and to Japan, Israel, and South Korea a proposal concerning the matters described in the report.

The President may submit with such certification a report of similar formal contacts with any other country that the President considers appropriate.

(d) SENSE OF CONGRESS.—It is the sense of Congress that whenever the United States deploys theater ballistic missile defenses to protect another country, or the military forces of another country, that has not provided financial or in-kind support for development of theater ballistic missile defenses, the United States should consider whether it is appropriate to seek reimbursement

from that country to cover at least the incremental cost to the United States of such deployment.

(e) ALLIED PARTICIPATION IN TMD PROGRAMS.—Congress encourages allies of the United States, and particularly those allies that would benefit most from deployment of Theater Missile Defense systems, to participate in, or to increase participation in, cooperative Theater Missile Defense programs of the United States. Congress also encourages participation by the United States in cooperative theater missile defense efforts of allied nations as such programs emerge.

(f) FUND FOR ALLIED CONTRIBUTIONS.—(1) Chapter 155 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 2609. Theater Missile Defense: acceptance of contributions from allies; Theater Missile Defense Cooperation Account

“(a) ACCEPTANCE AUTHORITY.—The Secretary of Defense may accept from any allied foreign government or any international organization any contribution of money made by such foreign government or international organization for use by the Department of Defense for Theater Missile Defense programs.

“(b) ESTABLISHMENT OF THEATER MISSILE DEFENSE COOPERATION ACCOUNT.—(1) There is established in the Treasury a special account to be known as the ‘Theater Missile Defense Cooperation Account’.

“(2) Contributions accepted by the Secretary of Defense under subsection (a) shall be credited to the Account.

“(c) USE OF THE ACCOUNT.—Funds in the Account are hereby made available for obligation for research, development, test, and evaluation, and for procurement, for Theater Missile Defense programs of the Department of Defense.

“(d) INVESTMENT OF MONEY.—(1) Upon request by the Secretary of Defense, the Secretary of the Treasury may invest money in the Account in securities of the United States or in securities guaranteed as to principal and interest by the United States.

“(2) Any interest or other income that accrues from investment in securities referred to in paragraph (1) shall be deposited to the credit of the Account.

“(e) NOTIFICATION OF CONDITIONS.—The Secretary of Defense shall notify Congress of any condition imposed by the donor on the use of any contribution accepted by the Secretary under the authority of this section.

“(f) ANNUAL AUDIT BY GAO.—The Comptroller General of the United States shall conduct an annual audit of money accepted by the Secretary of Defense under this section and shall submit a copy of the results of each such audit to Congress.

“(g) REGULATIONS.—The Secretary of Defense shall prescribe regulations to carry out this section.”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“2609. Theater Missile Defense: acceptance of contributions from allies; Theater Missile Defense Cooperation Account.”.

(b) **WAIVER AUTHORITY.**—The Secretary may waive the provisions of subsection (a) in the case of a particular program, project, or activity if the Secretary certifies to the congressional defense committees that it is in the national security interest of the United States to provide management and budget responsibility for that program, project, or activity through the Ballistic Missile Defense Organization.

(c) **REPORT REQUIRED.**—As a part of the report required by section 231(e), the Secretary shall submit to the congressional defense committees a report identifying—

(2) the agency or military department to which each such transfer was made; and

(3) the date on which each such transfer was made.

(d) **DEFINITION.**—For the purposes of this section, the term “far-term follow-on technology” means a technology that is not incorporated into a ballistic missile defense architecture and is not likely to be incorporated within 15 years into a weapon system for ballistic missile defense.

(a) GENDER NEUTRALITY REQUIREMENT.—In the case of any military occupational career field that is open to both male and female members of the Armed Forces, the Secretary of Defense—

(1) shall ensure that qualification of members of the Armed Forces for, and continuance of members of the Armed Forces in, that occupational career field is evaluated on the basis of common, relevant performance standards, without differential standards or evaluation on the basis of gender;

(2) may not use any gender quota, goal, or ceiling except as specifically authorized by law; and

(3) may not change an occupational performance standard for the purpose of increasing or decreasing the number of women in that occupational career field.

(b) REQUIREMENTS RELATING TO USE OF SPECIFIC PHYSICAL REQUIREMENTS.—(1) For any military occupational specialty for which the Secretary of Defense determines that specific physical requirements for muscular strength and endurance and cardiovascular capacity are essential to the performance of duties, the Secretary shall prescribe specific physical requirements for members in that specialty and shall ensure (in the case of an occupational specialty that is open to both male and female members of the Armed Forces) that those requirements are applied on a gender-neutral basis.

(2) Whenever the Secretary establishes or revises a physical requirement for an occupational specialty, a member serving in that occupational specialty when the new requirement becomes effective, who is otherwise considered to be a satisfactory performer, shall be provided a reasonable period, as determined under regulations prescribed by the Secretary, to meet the standard established by the new requirement. During that period, the new physical requirement may not be used to disqualify the member from continued service in that specialty.

(c) NOTICE TO CONGRESS OF CHANGES.—Whenever the Secretary of Defense proposes to implement changes to the occupational standards for a military occupational field that are expected to result in an increase, or in a decrease, of at least 10 percent in the number of female members of the Armed Forces who enter, or are assigned to, that occupational field, the Secretary of Defense shall submit to Congress a report providing notice of the change and the justification and rationale for the change. Such changes may then be implemented only after the end of the 60-day period beginning on the date on which such report is submitted.

“§ 1058. Dependents of members separated for dependent abuse: transitional compensation

“(a) AUTHORITY TO PAY COMPENSATION.—The Secretary of Defense, with respect to the armed forces (other than the Coast Guard when it is not operating as a service in the Navy), and the Secretary of Transportation, with respect to the Coast Guard when it is not operating as a service in the Navy, may each establish a program to pay monthly transitional compensation in accordance with this section to dependents or former dependents of a member of the armed forces described in subsection (b).

“(B) forfeiting all pay and allowances pursuant to a sentence of a court-martial; or

“(2) who is administratively separated from active duty in accordance with applicable regulations if the basis for the separation includes a dependent-abuse offense.

“(c) DEPENDENT-ABUSE OFFENSES.—For purposes of this section, a dependent-abuse offense is conduct by an individual while a member of the armed forces on active duty for a period of more than 30 days—

“(1) that involves abuse of the spouse or a dependent child of the member; and

“(2) that is a criminal offense specified in regulations prescribed by the Secretary of Defense under subsection (j).

“(d) RECIPIENTS OF PAYMENTS.—In any case of a separation from active duty as described in subsection (b), the Secretary shall pay such compensation to dependents or former dependents of the former member as follows:

such dependent child of the former member who does not reside in that household.

“(3) If there is no spouse or former spouse who is (or but for subsection (g) would be) eligible under paragraph (1), such compensation shall be paid to the dependent children of the former member.

“(4) For purposes of paragraphs (2) and (3), an individual’s status as a ‘dependent child’ shall be determined as of the date on which the member is convicted of the dependent-abuse offense or, in a case described in subsection (b)(2), as of the date on which the member is separated from active duty.

“(e) COMMENCEMENT AND DURATION OF PAYMENT.—(1) Payment of transitional compensation under this section shall commence as of the date of the discontinuance of the member’s pay and allowances pursuant to the separation or sentencing of the member and, except as provided in paragraph (2), shall be paid for a period of 36 months.

“(B) 12 months.

“(f) AMOUNT OF PAYMENT.—(1) Payment to a spouse or former spouse under this section for any month shall be at the rate in effect for that month for the payment of dependency and indemnity compensation under section 1311(a)(1) of title 38.

“(3) If compensation is paid under this section to a child or children pursuant to subsection (d)(2) or (d)(3), such compensation shall be paid in equal shares, with the amount of such compensation for any month determined in accordance with the rates in effect for that month under section 1313 of title 38.

“(g) SPOUSE AND FORMER SPOUSE FORFEITURE PROVISIONS.—(1) If a former spouse receiving compensation under this section remarries, the Secretary shall terminate payment of such compensation, effective as of the date of such marriage. The Secretary may not renew payment of compensation under this section to such former spouse in the event of the termination of such subsequent marriage.

“(2) If after a punitive or other adverse action is executed in the case of a former member as described in subsection (b) the former member resides in the same household as the spouse or former spouse, or dependent child, to whom compensation is otherwise payable under this section, the Secretary shall terminate payment of such compensation, effective as of the time the former member begins residing in such household. Compensation paid for a period after the former member’s separation, but before the former member resides in the household, shall not be recouped. If the former member subsequently ceases to reside in such house-

hold before the end of the period of eligibility for such payments, the Secretary may not resume such payments.

“(3) In a case in which the victim of the dependent-abuse offense resulting in a punitive or other adverse action described in subsection (b) was a dependent child, the Secretary concerned may not pay compensation under this section to a spouse or former spouse who would otherwise be eligible to receive such compensation if the Secretary determines (under regulations prescribed under subsection (j)) that the spouse or former spouse was an active participant in the conduct constituting the dependent-abuse offense.

“(h) EFFECT OF CONTINUATION OF MILITARY PAY.—In the case of payment of transitional compensation by reason of a total forfeiture of pay and allowances pursuant to a sentence of a court-martial, payment of transitional compensation shall not be made for any period for which an order—

“(1) suspends, in whole or in part, that part of a sentence that includes forfeiture of the member’s pay and allowance; or

“(2) otherwise results in continuation, in whole or in part, of the member’s pay and allowances.

“(i) COORDINATION OF BENEFITS.—The Secretary concerned may not make payments to a spouse or former spouse under both this section and section 1408(h)(1) of this title. In the case of a spouse or former spouse for whom a court order provides for payments by the Secretary pursuant to section 1408(h)(1) of this title and to whom the Secretary offers payments under this section, the spouse or former spouse shall elect which to receive.

“(j) REGULATIONS.—(1) The Secretary of Defense shall prescribe regulations to carry out this section with respect to the armed forces (other than the Coast Guard when it is not operating as a service in the Navy). The Secretary of Transportation shall prescribe regulations to carry out this section with respect to the Coast Guard when it is not operating as a service in the Navy.

“(2) Regulations prescribed under paragraph (1) shall include the criminal offenses, or categories of offenses, under the Uniform Code of Military Justice (chapter 47 of this title), Federal criminal law, the criminal laws of the States and other jurisdictions of the United States, and the laws of other nations that are to be considered to be dependent-abuse offenses for the purposes of this section.

“(k) DEPENDENT CHILD DEFINED.—In this section, the term ‘dependent child’, with respect to a member or former member of the armed forces referred to in subsection (b), means an unmarried child, including an adopted child or a stepchild, who was residing with the member at the time of the dependent-abuse offense resulting in the separation of the former member and—

“(1) who is under 18 years of age;

“(2) who is 18 years of age or older and is incapable of self-support because of a mental or physical incapacity that existed before the age of 18 and who is (or, at the time a punitive or other adverse action was executed in the case of the former member as described in subsection (b), was) dependent on the former member for over one-half of the child’s support; or

“(3) who is 18 years of age or older but less than 23 years of age, is enrolled in a full-time course of study in an institution of higher learning approved by the Secretary of

Defense and who is (or, at the time a punitive or other adverse action was executed in the case of the former member as described in subsection (b), was) dependent on the former member for over one-half of the child's support.”.

“(B) If each form of the punishment that would result in the termination of eligibility to receive retired pay is later remitted, set aside, or mitigated to a punishment that does not result in the termination of that eligibility, a payment of benefits to the eligible recipient under this subsection that is based on the punishment so vacated, set aside, or mitigated shall cease. The cessation of payments shall be effective as of the first day of the first month following the month in which the Secretary concerned notifies the recipient of such benefits in writing that payment of the benefits will cease. Subtitle G—Other Matters

SEC. 571. POLICY CONCERNING HOMOSEXUALITY IN THE ARMED FORCES.

(a) CODIFICATION.—(1) Chapter 37 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 654. Policy concerning homosexuality in the armed forces

“(a) FINDINGS.—Congress makes the following findings:

“(1) Section 8 of article I of the Constitution of the United States commits exclusively to the Congress the powers to raise and support armies, provide and maintain a Navy, and make rules for the government and regulation of the land and naval forces.

“(2) There is no constitutional right to serve in the armed forces.

“(3) Pursuant to the powers conferred by section 8 of article I of the Constitution of the United States, it lies within the discretion of the Congress to establish qualifications for and conditions of service in the armed forces.

“(4) The primary purpose of the armed forces is to prepare for and to prevail in combat should the need arise.

“(5) The conduct of military operations requires members of the armed forces to make extraordinary sacrifices, including the ultimate sacrifice, in order to provide for the common defense.

“(6) Success in combat requires military units that are characterized by high morale, good order and discipline, and unit cohesion.

“(7) One of the most critical elements in combat capability is unit cohesion, that is, the bonds of trust among individual service members that make the combat effectiveness of a military unit greater than the sum of the combat effectiveness of the individual unit members.

“(8) Military life is fundamentally different from civilian life in that—

“(A) the extraordinary responsibilities of the armed forces, the unique conditions of military service, and the critical role of unit cohesion, require that the military community, while subject to civilian control, exist as a specialized society; and

“(B) the military society is characterized by its own laws, rules, customs, and traditions, including numerous restrictions on personal behavior, that would not be acceptable in civilian society.

“(9) The standards of conduct for members of the armed forces regulate a member’s life for 24 hours each day beginning at the moment the member enters military status and not ending until that person is discharged or otherwise separated from the armed forces.

“(10) Those standards of conduct, including the Uniform Code of Military Justice, apply to a member of the armed forces at all times that the member has a military status, whether the member is on base or off base, and whether the member is on duty or off duty.

“(11) The pervasive application of the standards of conduct is necessary because members of the armed forces must be ready at all times for worldwide deployment to a combat environment.

“(12) The worldwide deployment of United States military forces, the international responsibilities of the United States, and the potential for involvement of the armed forces in actual combat routinely make it necessary for members of the armed forces involuntarily to accept living conditions and working conditions that are often spartan, primitive, and characterized by forced intimacy with little or no privacy.

“(13) The prohibition against homosexual conduct is a long-standing element of military law that continues to be necessary in the unique circumstances of military service.

“(14) The armed forces must maintain personnel policies that exclude persons whose presence in the armed forces would create an unacceptable risk to the armed forces’ high standards of morale, good order and discipline, and unit cohesion that are the essence of military capability.

“(15) The presence in the armed forces of persons who demonstrate a propensity or intent to engage in homosexual acts would create an unacceptable risk to the high standards of morale, good order and discipline, and unit cohesion that are the essence of military capability.

“(b) POLICY.—A member of the armed forces shall be separated from the armed forces under regulations prescribed by the Secretary of Defense if one or more of the following findings is made and approved in accordance with procedures set forth in such regulations:

“(1) That the member has engaged in, attempted to engage in, or solicited another to engage in a homosexual act or acts unless there are further findings, made and approved in accordance with procedures set forth in such regulations, that the member has demonstrated that—

Subtitle E—Commission on Roles and Missions of the Armed Forces

SEC. 951. FINDINGS.

Congress makes the following findings:

(1) The current allocation of roles and missions among the Armed Forces evolved from the practice during World War II to meet the Cold War threat and may no longer be appropriate for the post-Cold War era.

(2) Many analysts believe that a realignment of those roles and mission is essential for the efficiency and effectiveness of the Armed Forces, particularly in light of lower budgetary resources that will be available to the Department of Defense in the future.

(3) The existing process of a triennial review of roles and missions by the Chairman of the Joint Chiefs of Staff pursuant to provisions of law enacted by the Goldwater-Nichols Department of Defense Reorganization Act of 1986 has not produced the comprehensive review envisioned by Congress.

(4) It is difficult for any organization, and may be particularly difficult for the Department of Defense, to reform itself without the benefit and authority provided by external perspectives and analysis.

SEC. 952. ESTABLISHMENT OF COMMISSION.

(a) **ESTABLISHMENT.**—There is hereby established a commission to be known as the Commission on Roles and Missions of the Armed Forces (hereinafter in this subtitle referred to as the “Commission”).

(2) The Commission shall convene its first meeting within 30 days after the first date on which all members of the Commission have been appointed. At that meeting, the Commission shall develop an agenda and a schedule for carrying out its duties.

SEC. 953. DUTIES OF COMMISSION.

(a) **IN GENERAL.**—The Commission shall—

(3) make recommendations for changes in the current definition and distribution of those roles, missions, and functions.

In developing that framework, the Commission shall consider—

(1) static efficiency (such as duplicative overhead and economies of scale);

(2) dynamic effectiveness (including the benefits of competition and the effect on innovation);

(3) interoperability, responsiveness, and other aspects of military effectiveness in the field;

(4) gaps in mission coverage and so-called orphan missions that are inadequately served by existing organizational entities;

(5) division of responsibility on the battlefield;

(6) exploitation of new technology and operational concepts;

(7) the degree of disruption that a change in roles and missions would entail; and

(8) the experience of other nations.

(e) RECOMMENDATIONS CONCERNING MILITARY ROLES AND MISSIONS.—Based upon the conceptual framework developed under subsection (d) to evaluate possible changes to the existing allocation among the Armed Forces of military roles, missions, and functions, the Commission shall recommend—

(1) the functions for which each military department should organize, train, and equip forces;

(2) the missions of combatant commands; and

(3) the roles that Congress should assign to the various military elements of the Department of Defense.

(f) RECOMMENDATIONS CONCERNING CIVILIAN ELEMENTS OF DEPARTMENT OF DEFENSE.—The Commission may address the roles, missions, and functions of civilian portions of the Department of

Defense and other national security agencies to the extent that changes in these areas are collateral to changes considered in military roles, missions, and functions.

(2) Semiperishable items, such as canned goods, are stored in four depots of the Defense Logistics Agency, and perishable items, including fresh and frozen vegetables, fruits, and meats, are stored in 21 contractor-operated Defense Subsistence Offices.

(3) Private sector end-users, including independent restaurants, hospitals, and hotels, obtain food through direct delivery from commercial distributors of food.

(4) In a comprehensive inventory reduction plan issued in May 1990, the Secretary of Defense concluded that there was no benefit to using the food supply system of the Department of Defense in circumstances in which the food requirements of the Department could be met through the use of commercial distributors of food.

(5) In a report published in June 1993, the General Accounting Office determined that the Department of Defense could achieve substantial cost savings by expanding the use of commercial distributors of food and related commercial practices in the food supply system of the Department.

(b) REVIEW.—The Secretary of Defense shall conduct a review of the food supply and distribution practices of the Department of Defense. The review shall include the following:

(1) An evaluation of the feasibility of, and the economic advantages and disadvantages of, the expanded use of full-line commercial distributors of food to deliver food directly to military end-users.

(2) An evaluation of the potential for the expanded use of such commercial distributors to reduce the need for the storage of food (except for war reserve stocks and items bound for overseas) directly by the Department of Defense and to eliminate the requirement for Defense Subsistence Offices and certain warehouse activities at military installations.

(3) A comparison of the cost of using the Department of Defense food supply and distribution system to meet the Department of Defense food requirements with the cost of using commercial distributors of food to meet such requirements.

(4) A consideration of any obstacles that would hinder the ability of the Department of Defense to procure commercial food items and to institute commercial practices with respect to food supply and distribution.

(c) REPORT.—Not later than March 1, 1994, the Secretary shall submit to the congressional defense committees a report on the findings, conclusions, and recommendations of the Secretary as a result of the review conducted under subsection (b).

Subtitle G—Congressional Findings, Policies, Commendations, and Commemorations

SEC. 1161. SENSE OF CONGRESS REGARDING JUSTIFICATION FOR CONTINUING THE EXTREMELY LOW FREQUENCY (ELF) COMMUNICATION SYSTEM.

(a) FINDINGS.—The Congress makes the following findings:

(1) There is a need to re-evaluate all defense spending in light of the changed circumstances of the post-Cold War era and budget and fiscal constraints.

(2) The Extremely Low Frequency Communications System (ELF System) was originally designed to play a role in the strategic deterrence mission against the former Soviet Union.

(3) The threat of nuclear war has greatly diminished since the collapse of the Soviet Union.

(4) The ELF System is increasingly in use for communications with attack submarines in addition to ballistic missile submarines.

(5) There have been questions raised about the effects of ELF operations on human health and the environment and ongoing studies of those effects are due to be concluded during 1994.

(b) EVALUATION AND REPORT BY SECRETARY OF DEFENSE.—The Secretary of Defense shall submit to the congressional defense committees, before consideration by Congress of the fiscal year 1995 defense budget, a report containing the results of an evaluation of the benefits and costs of continued operation of the Extremely Low Frequency Communications System and the benefits and costs

H. R. 2401—218

of any alternatives to that system. The report shall be based upon an evaluation conducted by the Secretary after the date of the enactment of this Act.

(c) SENSE OF CONGRESS.—It is the sense of Congress that the bases at which the Extremely Low Frequency Communication System is located, having been considered for closure or realignment in the 1993 base closure process, should again be considered for closure or realignment in the round of military base closures to take place in 1995.

SEC. 1162. SENSE OF CONGRESS REGARDING THE IMPORTANCE OF NAVAL OCEANOGRAPHIC SURVEY AND RESEARCH IN THE POST-COLD WAR PERIOD.

(a) FINDINGS.—Congress makes the following findings:

(1) Oceanographic research and survey work is a critical element to the ability of the Navy to conduct successful operations in littoral waters of the world.

(2) Over the five-year period of fiscal years 1989 through 1993, the Navy experienced a significant diminution in its oceanographic research and survey capability due to budget reductions that resulted in (A) a reduction in the level of effort for Navy oceanographic research and survey activities by almost 50 percent, and (B) a reduction from 12 to 7 in the number of Navy ships dedicated to oceanographic survey and research activities.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) reductions in the funding, activities, and capability of the Navy to conduct oceanographic survey and research work, in addition to the reductions referred to in subsection (a)(2), would further reduce the level of oceanographic survey and research work of the Navy and should be avoided; and

(2) funding for oceanographic survey and research activities of the Navy should be maintained at levels sufficient to ensure that the Navy can exploit every opportunity to survey and research littoral waters critical to the operational needs of the Navy.

SEC. 1163. SENSE OF CONGRESS REGARDING UNITED STATES POLICY ON PLUTONIUM.

(a) FINDING.—The Congress finds that reprocessing spent nuclear fuel referred to in subsection (c) to recover plutonium may pose serious environmental hazards and increase the risk of proliferation of weapons-usable plutonium.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that the President should take action to encourage the reduction or cessation of the reprocessing of spent nuclear fuel referred to in subsection (c) to recover plutonium until the environmental and proliferation concerns related to such reprocessing are resolved.

(c) COVERED SPENT NUCLEAR FUEL.—The spent nuclear fuel referred to in subsections (a) and (b) is spent nuclear fuel used in a commercial nuclear power reactor by the Government of a foreign country or by a foreign-owned or foreign-controlled entity.

SEC. 1164. SENSE OF SENATE ON ENTRY INTO THE UNITED STATES OF CERTAIN FORMER MEMBERS OF THE IRAQI ARMED FORCES.

It is the sense of the Senate that no person who was a member of the armed forces of Iraq during the period from August 2,

H. R. 2401—219

1990, through February 28, 1991, and who is in a refugee camp in Saudi Arabia as of the date of enactment of this Act should be granted entry into the United States under the Immigration and Nationality Act unless the President certifies to Congress before such entry that such person—

(1) assisted the United States or coalition armed forces after defection from the armed forces of Iraq or after capture by the United States or coalition armed forces; and

(2) did not commit or assist in the commission of war crimes.

SEC. 1165. U.S.S. INDIANAPOLIS MEMORIAL, INDIANAPOLIS, INDIANA.

(a) FINDINGS.—Congress makes the following findings:

(1) On July 30, 1945, during the closing days of World War II, the U.S.S. Indianapolis (CA-35) was sunk as a result of a torpedo attack on that ship.

(2) The memorial to the U.S.S. Indianapolis (CA-35) to be located on the east bank of the Indianapolis water canal in downtown Indianapolis, Indiana, will honor the personal sacrifice of the 1,197 servicemen who were aboard the U.S.S. Indianapolis (CA-35) on that day, 881 of whom died as one of the greatest single combat losses suffered by the United States Navy in World War II.

(3) The memorial will pay fitting tribute to that gallant ship and her final crew and will forever commemorate the place of the U.S.S. Indianapolis in United States Navy history as the last major ship lost in World War II.

(4) The memorial to the U.S.S. Indianapolis symbolizes the devoted service of the United States Navy and Marine Corps personnel, particularly those who lost their lives at sea in the Pacific Theater during World War II, whose dedication and sacrifice in the cause of liberty and freedom were instrumental in the triumph of the United States and its allies in that war.

(5) The citizens of the United States have a continuing obligation to educate future generations about the military and other historic endeavors of the United States.

(b) RECOGNITION AS A NATIONAL MEMORIAL.—The memorial to the U.S.S. Indianapolis (CA-35) in Indianapolis, Indiana, is hereby recognized as the national memorial to the U.S.S. Indianapolis (CA-35) and to the final crew of that historic warship.

TITLE XIV—MATTERS RELATING TO ALLIES AND OTHER NATIONS

Subtitle A—Defense Burden Sharing

SEC. 1401. DEFENSE BURDENS AND RESPONSIBILITIES.

(a) FINDINGS.—Congress makes the following findings:

(1) Since fiscal year 1985, the budget of the Department of Defense has declined by 34 percent in constant fiscal year 1985 dollars.

(2) During the past few years, the United States military presence overseas has declined significantly in the following ways:

(A) Since fiscal year 1986, the number of United States military personnel permanently stationed overseas has declined by almost 200,000.

(B) From fiscal year 1989 to fiscal year 1994, spending by the United States to support the stationing of United States military forces overseas will have declined by 36 percent.

(C) Since January 1990, the Department of Defense has announced the closure, reduction, or transfer to standby status of 840 United States military facilities overseas, which is approximately a 50 percent reduction in the number of such facilities.

(3) The United States military presence overseas will continue to decline as a result of actions by the executive branch and as a result of the following provisions of law:

(A) Section 1302 of the National Defense Authorization Act for Fiscal Year 1993, which requires a 40 percent reduction by September 30, 1996, in the number of United States military personnel permanently stationed ashore in overseas locations.

(B) Section 1303 of the National Defense Authorization Act for Fiscal Year 1993, which provides that no more than 100,000 United States military personnel may be permanently stationed ashore in NATO member countries after September 30, 1996.

(C) Section 1301 of the National Defense Authorization Act for Fiscal Year 1993, which reduced the spending proposed by the Department of Defense for overseas basing activities during fiscal year 1993 by \$500,000,000.

(D) Sections 913 and 915 of the National Defense Authorization Act for Fiscal Years 1990 and 1991, which

H. R. 2401—277

directed the President to develop a plan to gradually reduce the United States military force structure in East Asia.

(4) The East Asia Strategy Initiative, which was developed in response to sections 913 and 915 of the National Defense Authorization Act for Fiscal Years 1990 and 1991, has resulted in the withdrawal of 12,000 United States military personnel from Japan and the Republic of Korea since fiscal year 1990.

(5) In response to actions by the executive branch and the Congress, allied countries in which United States military personnel are stationed and alliances in which the United States participates have agreed to reduce the costs incurred by the United States in basing military forces overseas in the following ways:

(A) Under the 1991 Special Measures Agreement between Japan and the United States, Japan will pay by 1995 almost all yen-denominated costs of stationing United States military personnel in Japan.

(B) The Republic of Korea has agreed to pay by 1995 one-third of the won-based costs incurred by the United States in stationing United States military personnel in the Republic of Korea.

(C) The North Atlantic Treaty Organization (NATO) has agreed that the NATO Infrastructure Program will adapt to support post-Cold War strategy and could pay the annual operation and maintenance costs of facilities in Europe and the United States that would support the reinforcement of Europe by United States military forces and the participation of United States military forces in peacekeeping and conflict prevention operations.

(D) Such allied countries and alliances have agreed to share more fully the responsibilities and burdens of providing for mutual security and stability through steps such as the following:

(i) The Republic of Korea has assumed the leadership role regarding ground combat forces for the defense of the Republic of Korea.

(ii) NATO has adopted the new mission of conducting peacekeeping operations and is, for example, providing land, sea, and air forces for United Nations efforts in the former Yugoslavia.

(iii) The countries of western Europe are contributing substantially to the development of democracy, stability, and open market societies in eastern Europe and the former Soviet Union.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the forward presence of United States military personnel stationed overseas continues to be important to United States security interests;

(2) that forward presence facilitates efforts to pursue United States security interests on a collective basis rather than pursuing them on a far more costly unilateral basis or receding into isolationism;

(3) the bilateral and multilateral arrangements and alliances in which that forward presence plays a part must be further adapted to the security environment of the post-Cold War period;

H. R. 2401—278

(4) the cost-sharing percentages for the NATO Infrastructure Program should be reviewed with the aim of reflecting current economic, political, and military realities and thus reducing the United States cost-sharing percentage; and

(5) the amounts obligated to conduct United States overseas basing activities should decline significantly in fiscal year 1994 and in future fiscal years as—

(A) the number of United States military personnel stationed overseas continues to decline; and

(B) the countries in which United States military personnel are stationed and the alliances in which the United States participates assume an increased share of United States overseas basing costs.

(c) REDUCING UNITED STATES OVERSEAS BASING COSTS.—(1) In order to achieve additional savings in overseas basing costs, the President should—

(A) continue with the reductions in United States military presence overseas as required by sections 1302 and 1303 of the National Defense Authorization Act for Fiscal Year 1993; and

(B) intensify efforts to negotiate a more favorable host-nation agreement with each foreign country to which this paragraph applies under paragraph (3)(A).

(2) For purposes of paragraph (1)(B), a more favorable host-nation agreement is an agreement under which such foreign country—

(A) assumes an increased share of the costs of United States military installations in that country, including the costs of—

(i) labor, utilities, and services;

(ii) military construction projects and real property maintenance;

(iii) leasing requirements associated with the United States military presence; and

(iv) actions necessary to meet local environmental standards;

(B) relieves the United States of all tax liability that, with respect to forces located in that country, is incurred by the Armed Forces of the United States under the laws of that country and the laws of the community where those forces are located; and

(C) ensures that goods and services furnished in that country to the Armed Forces of the United States are provided at minimum cost and without imposition of user fees.

(3)(A) Except as provided in subparagraph (B), paragraph (1)(B) applies with respect to—

(i) each country of the North Atlantic Treaty Organization (other than the United States); and

(ii) each other foreign country with which the United States has a bilateral or multilateral defense agreement that provides for the assignment of combat units of the Armed Forces of the United States to permanent duty in that country or the placement of combat equipment of the United States in that country.

(B) Paragraph (1) does not apply with respect to—

(i) a foreign country that receives assistance under section 23 of the Arms Export Control Act (22 U.S.C. 2763) (relating

H. R. 2401—279

to the foreign military financing program) or under the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2346 et seq.); or

(ii) a foreign country that has agreed to assume, not later than September 30, 1996, at least 75 percent of the nonpersonnel costs of United States military installations in the country.

(d) OBLIGATIONAL LIMITATION.—(1) The total amount appropriated to the Department of Defense for Military Personnel, for Operation and Maintenance, and for military construction (including construction and improvement of military family housing) that is obligated to conduct overseas basing activities during fiscal year 1994 may not exceed \$16,915,400,000 (such amount being the amount appropriated for such purposes for fiscal year 1993 reduced by \$3,300,000,000), except to the extent provided by the Secretary of Defense under paragraph (3).

(2) For purposes of this subsection, the term “overseas basing activities” means the activities of the Department of Defense for which funds are provided through appropriations for Military Personnel, for Operation and Maintenance (including appropriations for family housing operations), and for military construction (including construction and improvement of military family housing) for the payment of costs for Department of Defense overseas military units and the costs for all dependents who accompany Department of Defense personnel outside the United States.

(3) The Secretary of Defense may increase the amount of the limitation under paragraph (1) by such amount or amounts as the Secretary determines to be necessary in the national interest, but not to exceed a total increase of \$582,700,000. The Secretary may not increase the amount of such limitation under the preceding sentence until the Secretary provides notice to Congress of the Secretary’s intent to authorize such an increase and a period of 15 days elapses after the day on which such notice is provided.

(e) ALLOCATIONS OF SAVINGS.—Any amounts appropriated to the Department of Defense for fiscal year 1994 for the purposes covered by subsection (d)(1) that are not available to be used for those purposes by reason of the limitation in that subsection shall be allocated by the Secretary of Defense for operation and maintenance and for military construction activities of the Department of Defense at military installations and facilities located inside the United States.

SEC. 1411. FINDINGS, SENSE OF CONGRESS, AND REPORT REQUIREMENT CONCERNING NORTH ATLANTIC TREATY ORGANIZATION.

(a) FINDINGS.—The Congress makes the following findings:

(1) The North Atlantic Treaty Organization (NATO) has successfully met the challenge of helping to maintain the peace, security, and freedom of the United States and its NATO allies for more than 40 years.

(2) The national security interests of the United States have been well served by the process of consultation, coordination, and military cooperation in the NATO framework.

(3) Recent history has witnessed radical changes in the international security environment, including the fall of the Berlin Wall, the unification of Germany, the disbanding of the Warsaw Pact and the disintegration of the Soviet Union.

(4) The military threats which NATO was established to deter have greatly diminished with the end of the Cold War.

(5) The post-Cold War security situation continues to present a wide array of challenges to United States national interests, many of which interests the United States shares with its allies in Europe and Canada.

(6) The international community may prove capable of deterring many threats to the common peace if it can respond decisively to aggression.

(7) The United States must share the responsibilities and the burdens of pursuing international security and stability with other nations.

(8) Several of the newly democratic nations of Central and Eastern Europe and the former Soviet Union have expressed interest in seeking membership in NATO.

(9) Many of the security challenges facing the post-Cold War world would be best handled through coherent multilateral responses.

(10) The United States should never send its military forces into combat unless they are provided with the best opportunity to accomplish their objectives with as little risk as possible.

(11) Military interventions against antagonistic armed forces cannot be conducted safely or effectively on a multilateral basis unless such operations are jointly planned in advance and are executed by units which have trained together and are familiar with each others' operational procedures.

(12) NATO is currently the only organization with the experience, trained staff, and infrastructure necessary to support military cooperation with the major military allies of the United States.

(13) The NATO allies already have volunteered to consider requests from the United Nations and the Conference on Security and Cooperation in Europe for assistance in maintaining the peace.

(14) Justification of the relevance of NATO in the post-Cold War world will depend largely upon the alliance's ability to adapt its mission, area of responsibility, and procedures to the new security environment.

(15) Justification of future United States support for the alliance and for a United States military presence in Europe will depend upon NATO's ability to address those security interests which the United States shares with its allies in Europe and Canada.

(16) The meeting of the NATO heads of state scheduled for January 1994, presents an excellent opportunity for the President to articulate a new, broader security mission for the alliance in the post-Cold War world, one which will enable it to address a wider array of threats to its members' interests and which will help to share more effectively the burden of international security requirements.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) old threats to the security of the United States and its allies in the North Atlantic Treaty Organization having greatly diminished, and new, more diverse challenges having arisen (including ethno-religious conflict in Central and Eastern Europe and the former Soviet Union and the proliferation of weapons of mass destruction in regions proximate to alliance territory), NATO's mission must be redefined so that it may respond to such challenges to its members' security even when those challenges emanate from beyond the geographic boundaries of its members' territories;

(2) NATO should review its consultative mechanisms in order to maximize its ability to marshal political, diplomatic, social, and economic solidarity, buttressed by credible military capability, and to bring the full weight and scope of its cooperative efforts to bear in addressing the new challenges; and

(3) future United States military involvement in, and contributions to, NATO should be determined in relation to the alliance's success or failure in adapting itself to confronting the challenges of the post-Cold War world.

(c) REPORT.—Not later than 30 days after the date of the enactment of this Act, the President shall transmit a report to the Committee on Armed Services and the Committee on Foreign Relations of the Senate and the Committee on Armed Services and the Committee on Foreign Affairs of the House of Representatives. The report shall contain recommendations on the following:

(1) The manner in which NATO can formulate and implement a strategy to address the new, more disparate threats to the security of its members.

(2) The manner in which NATO should continue to adapt its consultative process, including efforts to extend that process to the new democracies of Central and Eastern Europe and the former Soviet Union, so as to enhance its political, diplomatic, social, economic, and military efforts to project stability eastward and maximize its capabilities in crisis prevention and crisis management.

(3) The feasibility of having NATO conduct security operations beyond the geographic boundaries of the alliance.

(4) The manner in which NATO should restructure its forces, training and equipment for the new security environment, including with regard to multinational peacekeeping activities.

(5) The desirability of expanding the alliance to include traditionally neutral nations or the new democratic nations of Central and Eastern Europe and the former Soviet Union that wish to join NATO.

(6) The proper size and composition of United States forces to be deployed in Europe to assist in the implementation of NATO's new mandate and possible reduction in United States military deployments in Europe in the event of the alliance's failure to adopt a new mandate.

(7) The structure and organization of NATO headquarters, with particular attention to the need to reinvigorate the NATO Military Committee.

(8) The extent to which NATO liaison teams should be assigned to the United Nations and the Conference on Security and Cooperation in Europe so as to facilitate better coordination among these organizations, especially in regard to crisis prevention and crisis management.

(9) The desirability of having additional NATO forces train in North America in a manner supportive of NATO's proposed new strategy.

(10) The structure of NATO's military command, with particular attention to the need to make NATO's Rapid Reaction Force a credible deterrent to regional aggression.

(11) The levels of United States, European, and Canadian defense budgets and their ability to finance forces consistent with the implementation of NATO's new mandate.

SEC. 1412. MODIFICATION OF CERTAIN REPORT REQUIREMENTS.

(b) REPORT ON ALLIED CONTRIBUTIONS.—Section 1046(e) of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102–190; 105 Stat. 1467; 22 U.S.C. 1928 note) is amended—

- (1) by striking out “and” at the end of paragraph (2);

- (3) by adding at the end the following new paragraph:

(c) FINDING AND SENSE OF CONGRESS.—(1) The Congress finds that the Secretary of Defense did not submit to Congress in a timely manner the report on allied contributions to the common defense required under section 1003(c) of the National Defense Authorization Act, 1985 (Public Law 98–525; 22 U.S.C. 1928 note), to be submitted not later than April 1, 1993.

(2) It is the sense of Congress that the timely submission of such report to Congress each year is essential to the deliberation by Congress concerning the annual defense program.

SEC. 1413. PERMANENT AUTHORITY TO CARRY OUT AWACS MEMORANDA OF UNDERSTANDING.

Section 516(a)(3) of the Foreign Assistance Act of 1961 (22 U.S.C. 2321j(a)(3)) is amended by inserting “or fiscal year 1992” after “fiscal year 1991”.

SEC. 1422. REPORT ON EFFECT OF INCREASED USE OF DUAL-USE TECHNOLOGIES ON ABILITY TO CONTROL EXPORTS.

(a) REPORT REQUIREMENT.—Not later than six months after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report assessing what effect the increased use of dual-use and commercial technologies and items by the Department of Defense could have on the ability of the United States to control adequately the export of sensitive dual-use and military technologies and items to nations to whom the receipt of such technologies is contrary to United States national security interests.

(b) EFFECT ON DEFENSE PROGRAMS.—The report required by subsection (a) shall include—

- (1) an assessment of the national security implications of any lowering of licensing controls on the export of dual-use items and technology, to include an assessment of the effect such lowering of controls could have on operational

United States defense programs and capabilities and planned United States defense programs and capabilities;

(2) a description of the steps the Secretary of Defense intends to take to ensure that any decontrol of dual-use items and technology does not place at risk the technology and defense capability lead that the United States currently enjoys; and

(3) a description of the steps the Department of Defense intends to take to mitigate any possible increase in the proliferation threat resulting from decontrol of dual-use items and technology.

(c) CONSULTATION.—The report required by subsection (a) shall be prepared in consultation with the Director of Central Intelligence.

SEC. 1423. EXTENSION OF LANDMINE EXPORT MORATORIUM.

(a) FINDINGS.—The Congress makes the following findings:

(1) Anti-personnel landmines, which are designed to maim and kill people, have been used indiscriminately in dramatically increasing numbers around the world. Hundreds of thousands of noncombatant civilians, including children, have been the primary victims. Unlike other military weapons, landmines often remain implanted and undiscovered after conflict has ended, causing massive suffering to civilian populations.

(2) Tens of millions of landmines have been strewn in at least 62 countries, often making whole areas uninhabitable. The Department of State estimates that there are more than 10,000,000 landmines in Afghanistan, 9,000,000 in Angola, 4,000,000 in Cambodia, 3,000,000 in Iraqi Kurdistan, and 2,000,000 each in Somalia, Mozambique, and the former Yugoslavia. Hundreds of thousands of landmines were used in conflicts in Central America in the 1980s.

(3) Advanced technologies are being used to manufacture sophisticated mines which can be scattered remotely at a rate of 1,000 per hour. These mines, which are being produced by many industrialized countries, were found in Iraqi arsenals after the Persian Gulf War.

(4) At least 300 types of anti-personnel landmines have been manufactured by at least 44 countries, including the United States. However, the United States is not a major exporter of landmines. During the 10 years from 1983 through 1992, the United States approved 10 licenses for the commercial export of anti-personnel landmines with a total value of \$980,000 and the sale under the Foreign Military Sales program of 108,852 anti-personnel landmines.

(5) The United States signed, but has not ratified, the 1980 Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed To Be Excessively Injurious or To Have Indiscriminate Effects. Protocol II of the Convention, otherwise known as the Landmine Protocol, prohibits the indiscriminate use of landmines.

(6) When it signed the 1980 Convention, the United States stated: "We believe that the Convention represents a positive step forward in efforts to minimize injury or damage to the civilian population in time of armed conflict. Our signature of the Convention reflects the general willingness of the United States to adopt practical and reasonable provisions concerning

the conduct of military operations, for the purpose of protecting noncombatants.”

(7) The United States also indicated that it had supported procedures to enforce compliance, which were omitted from the Convention’s final draft. The United States stated: “The United States strongly supported proposals by other countries during the Conference to include special procedures for dealing with compliance matters, and reserves the right to propose at a later date additional procedures and remedies, should this prove necessary, to deal with such problems.”

(8) The lack of compliance procedures and other weaknesses have significantly undermined the effectiveness of the Landmine Protocol. Since it entered into force on December 2, 1983, the number of civilians maimed and killed by anti-personnel landmines has multiplied.

(9) Since October 23, 1992, when a one-year moratorium on sales, transfers, and exports by the United States of anti-personnel landmines was enacted into law (in section 1365 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 22 U.S.C. 2778 note)), the European Parliament has issued a resolution calling for a five year moratorium on sales, transfers, and exports of anti-personnel landmines and the Government of France has announced that it has ceased all sales, transfers, and exports of anti-personnel landmines.

(10) On December 2, 1993, 10 years will have elapsed since the 1980 Convention entered into force, triggering the right of any party to request a United Nations conference to review the Convention. Amendments to the Landmine Protocol may be considered at that time. A formal request has been made to the United Nations Secretary General for a review conference. With necessary preparations and consultations among governments, a review conference is not expected to be convened before late 1994 or early 1995.

(11) The United States should continue to set an example for other countries in such negotiations by extending the moratorium on sales, transfers, and exports of anti-personnel landmines for an additional three years. A moratorium of that duration would extend the prohibition on the sale, transfer, and export of anti-personnel landmines a sufficient time to take into account the results of a United Nations review conference.

(b) STATEMENT OF POLICY.—

(1) It is the policy of the United States to seek verifiable international agreements prohibiting the sale, transfer or export, and further limiting the manufacture, possession and use, of anti-personnel landmines.

(2) It is the sense of the Congress that—

(A) the President should submit the 1980 Convention on Certain Conventional Weapons to the Senate for ratification; and

(B) the United States should—

(i) participate in a United Nations conference to review the Landmine Protocol; and

(ii) actively seek to negotiate under United Nations auspices a modification of the Landmine Protocol, or another international agreement, to prohibit the sale,

transfer, or export of anti-personnel landmines and to further limit the manufacture, possession, and use of anti-personnel landmines.

(c) **THREE-YEAR EXTENSION OF LANDMINE MORATORIUM.**—Section 1365(c) of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 22 U.S.C. 2778 note) is amended by striking out “For a period of one year beginning on the date of the enactment of this Act” and inserting in lieu thereof “During the four-year period beginning on October 23, 1992”.

(d) **DEFINITION.**—For purposes of this section, the term “anti-personnel landmine” means any of the following:

(1) Any munition placed under, on, or near the ground or other surface area, or delivered by artillery, rocket, mortar, or similar means or dropped from an aircraft and which is designed to be detonated or exploded by the presence, proximity, or contact of a person.

(2) Any device or material which is designed, constructed, or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act.

(3) Any manually-emplaced munition or device designed to kill, injure, or damage and which is actuated by remote control or automatically after a lapse of time.

“(d) **DEFINITION.**—In this section, the term ‘major non-NATO ally’ has the meaning given that term in section 2350a(i)(3) of this title.”.

H. R. 2401—287

SEC. 1432. AMERICAN DIPLOMATIC FACILITIES IN GERMANY.

(a) LIMITATION ON SOURCE OF FUNDS FOR NEW UNITED STATES DIPLOMATIC FACILITIES.—(1) As of January 1, 1995, the United States may not purchase, construct, lease, or otherwise occupy any facility as an embassy, chancery, or consular facility in Germany unless that facility is purchased, constructed, modified, or leased with funds provided by the Government of Germany as an offset for the value of facilities returned by the United States Government to the Government of Germany pursuant to Article 52 of the Status-of-Forces Agreement with the Government of Germany in effect on the date of the enactment of this Act.

SEC. 1433. CONSENT OF CONGRESS TO SERVICE BY RETIRED MEMBERS IN MILITARY FORCES OF NEWLY DEMOCRATIC NATIONS.

(a) FINDINGS.—The Congress makes the following findings:

(1) It is in the national security interest of the United States to promote democracy throughout the world.

(2) The armed forces of newly democratic nations often lack the democratic traditions that are a hallmark of the Armed Forces of the United States.

(3) The understanding of military roles and missions in a democracy is essential for the development and preservation of democratic forms of government.

(4) The service of retired members of the Armed Forces of the United States in the armed forces of newly democratic nations could lead to a better understanding of military roles and missions in a democracy.

(b) CONSENT OF CONGRESS.—(1) Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 1058. Military service of retired members with newly democratic nations: consent of Congress

“(a) CONSENT OF CONGRESS.—Subject to subsection (b), Congress consents to a retired member of the uniformed services—

“(2) accepting compensation associated with such employment, office, or position.

“(b) APPROVAL REQUIRED.—The consent provided in subsection (a) for a retired member of the uniformed services to accept employment or hold an office or position shall apply to a retired member only if the Secretary concerned and the Secretary of State jointly approve the employment or the holding of such office or position.

“(f) RETIRED MEMBER DEFINED.—In this section, the term ‘retired member’ means a member or former member of the uniformed services who is entitled to receive retired or retainer pay.

“(g) CIVIL EMPLOYMENT BY FOREIGN GOVERNMENTS.—For a provision of law providing the consent of Congress to civil employment by foreign governments, see section 908 of title 37.”.

(2) in failing to make such efforts adequately, the United States Government has failed in its obligation to support the servicemen and their families involved in the incident and generally to support members of the Armed Forces carrying out missions on behalf of the United States.

(b) SEMIANNUAL REPORT.—Not later than December 1 and June 1 of each year, the Secretary of Defense shall submit to the Committees on Armed Services and Foreign Affairs of the House of Representatives and the Committees on Armed Services and Foreign Relations of the Senate a report on the efforts made by the Government of the United States during the preceding six-month period to seek the payment of fair and equitable compensation by the Government of Peru (1) to the survivors of Master Sergeant Joseph Beard, Jr., United States Air Force, who was killed in the attack described in subsection (a), and (2) to the other crew members who were wounded in the attack and survived.

(2) The term “intelligence community” has the meaning given such term in section 3 of the National Security Act of 1947 (50 U.S.C. 401a).

Subtitle B—International Nonproliferation Activities

SEC. 1611. NUCLEAR NONPROLIFERATION.

(a) FINDINGS.—The Congress finds the following:

(1) The United States has been seeking to contain the spread of nuclear weapons technology and materials.

(2) With the end of the Cold War and the breakup of the Soviet Union, the proliferation of nuclear weapons is now a leading military threat to the national security of the United States and its allies.

(3) The United Nations Security Council declared on January 31, 1992, that “proliferation of all weapons of mass destruction constitutes a threat to international peace and security” and committed to taking appropriate action to prevent proliferation from occurring.

(4) Aside from the five declared nuclear weapon states, a number of other nations have or are pursuing nuclear weapons capabilities.

(5) The IAEA is a valuable international institution to counter proliferation, but the effectiveness of its system to safeguard nuclear materials may be adversely affected by financial constraints.

(6) The Nuclear Non-Proliferation Treaty codifies world consensus against further nuclear proliferation and is scheduled for review and extension in 1995.

(7) The Nuclear Nonproliferation Act of 1978 declared that the United States is committed to continued strong support for the Nuclear Non-Proliferation Treaty and to a strengthened and more effective IAEA, and established that it is United States policy to establish more effective controls over the transfer of nuclear equipment, materials, and technology.

(b) COMPREHENSIVE NUCLEAR NONPROLIFERATION POLICY.—In order to end nuclear proliferation and reduce current nuclear arsenals and supplies of weapons-usable nuclear materials, it should be the policy of the United States to pursue a comprehensive policy to end the further spread of nuclear weapons capability, roll back nuclear proliferation where it has occurred, and prevent the use of nuclear weapons anywhere in the world, with the following additional objectives:

(1) Successful conclusion of all pending nuclear arms control and disarmament agreements with all the republics of the former Soviet Union and their secure implementation.

(2) Full participation by all the republics of the former Soviet Union in all multilateral nuclear nonproliferation efforts and acceptance of IAEA safeguards on all their nuclear facilities.

H. R. 2401—303

(3) Strengthening of United States and international support to the IAEA so that the IAEA has the technical, financial, and political resources to verify that countries are complying with their nonproliferation commitments.

(4) Strengthening of nuclear export controls in the United States and other nuclear supplier nations, impose sanctions on individuals, companies, and countries which contribute to nuclear proliferation, and provide increased public information on nuclear export licenses approved in the United States.

(5) Reduction in incentives for countries to pursue the acquisition of nuclear weapons by seeking to reduce regional tensions and to strengthen regional security agreements, and encourage the United Nations Security Council to increase its role in enforcing international nuclear nonproliferation agreements.

(6) Support for the indefinite extension of the Nuclear Non-Proliferation Treaty at the 1995 conference to review and extend that treaty and seek to ensure that all countries sign the treaty or participate in a comparable international regime for monitoring and safeguarding nuclear facilities and materials.

(7) Reaching agreement with the Russian Federation to end the production of new types of nuclear warheads.

(8) Pursuing, once the START I treaty and the START II treaty are ratified by all parties, a multilateral agreement to significantly reduce the strategic nuclear arsenals of the United States and the Russian Federation to below the levels of the START II treaty, with lower levels for the United Kingdom, France, and the People's Republic of China.

(9) Reaching immediate agreement with the Russian Federation to halt permanently the production of fissile material for weapons purposes, and working to achieve worldwide agreements to—

(A) end in the shortest possible time the production of weapons-usable fissile material;

(B) place existing stockpiles of such materials under bilateral or international controls; and

(C) require countries to place all of their nuclear facilities dedicated to peaceful purposes under IAEA safeguards.

(10) Strengthening IAEA safeguards to more effectively verify that countries are complying with their nonproliferation commitments and provide the IAEA with the political, technical, and financial support necessary to implement the necessary safeguard reforms.

(11) Conclusion of a multilateral comprehensive nuclear test ban treaty.

(c) REQUIREMENTS FOR IMPLEMENTATION OF POLICY.—(1) Not later than 180 days after the date of the enactment of this Act, the President shall submit to the Congress a report, in unclassified form, with a classified appendix if necessary, on the actions the United States has taken and the actions the United States plans to take during the succeeding 12-month period to implement each of the policy objectives set forth in this section.

(2) Not later than 180 days after the date of the enactment of this Act, the President shall submit to the Congress a report in unclassified form, with a classified appendix if necessary, which—

H. R. 2401—304

(A) addresses the implications of the adoption by the United States of a policy of no-first-use of nuclear weapons;

(B) addresses the implications of an agreement with the other nuclear weapons states to adopt such a policy; and

(C) addresses the implications of a verifiable bilateral agreement with the Russian Federation under which both countries withdraw from their arsenals and dismantle all tactical nuclear weapons, and seek to extend to all nuclear weapons states this zero option for tactical nuclear weapons.

(d) DEFINITIONS.—For purposes of this section:

(1) The term “IAEA” means the International Atomic Energy Agency.

(2) The term “IAEA safeguards” means the safeguards set forth in an agreement between a country and the IAEA, as authorized by Article III(A)(5) of the Statute of the International Atomic Energy Agency.

(3) The term “non-nuclear weapon state” means any country that is not a nuclear weapon state.

(4) The term “Nuclear Non-Proliferation Treaty” means the Treaty on the Non-Proliferation of Nuclear Weapons, signed at Washington, London, and Moscow on July 1, 1968.

(5) The term “nuclear weapon state” means any country that is a nuclear-weapon state, as defined by Article IX(3) of the Treaty on the Non-Proliferation of Nuclear Weapons, signed at Washington, London, and Moscow on July 1, 1968.

(6) The term “weapons-usable fissile materials” means highly enriched uranium and separated or reprocessed plutonium.

(7) The term “policy of no first use of nuclear weapons” means a commitment not to initiate the use of nuclear weapons.

(8) The term “START II treaty” means the Treaty on Further Reductions and Limitations of Strategic Offensive Arms, signed by the United States and the Russian Federation on January 3, 1993.

SEC. 1612. CONDITION ON ASSISTANCE TO RUSSIA FOR CONSTRUCTION OF PLUTONIUM STORAGE FACILITY.

(a) LIMITATION.—Until a certification under subsection (b) is made, no funds may be obligated or expended by the United States for the purpose of assisting the Ministry of Atomic Energy of Russia to construct a storage facility for surplus plutonium from dismantled weapons.

(b) CERTIFICATION OF RUSSIA’S COMMITMENT TO HALT CHEMICAL SEPARATION OF WEAPON-GRADE PLUTONIUM.—The prohibition in subsection (a) shall cease to apply upon a certification by the President to Congress that Russia—

(1) is committed to halting the chemical separation of weapon-grade plutonium from spent nuclear fuel; and

(2) is taking all practical steps to halt such separation at the earliest possible date.

(c) SENSE OF CONGRESS ON PLUTONIUM POLICY.—It is the sense of Congress that a key objective of the United States with respect to the nonproliferation of nuclear weapons should be to obtain a clear and unequivocal commitment from the Government of Russia that it will (1) cease all production and separation of weapon-grade plutonium, and (2) halt chemical separation of plutonium produced in civil nuclear power reactors.

(d) REPORT.—Not later than June 1, 1994, the President shall submit to Congress a report on the status of efforts by the United States to secure the commitments and achieve the objective described in subsections (b) and (c). The President shall include in the report a discussion of the status of joint efforts by the United States and Russia to replace any remaining Russian plutonium production reactors with alternative power sources or to convert such reactors to operation with alternative fuels that would permit their operation without generating weapon-grade plutonium.

SEC. 1613. NORTH KOREA AND THE TREATY ON THE NON-PROLIFERATION OF NUCLEAR WEAPONS.

(a) FINDINGS.—The Congress finds the following:

(1) The Treaty on the Non-Proliferation of Nuclear Weapons, to which 156 states are party, is the cornerstone of the international nuclear nonproliferation regime.

(2) Any nonnuclear weapon state that is a party to the Treaty on the Non-Proliferation of Nuclear Weapons is obligated to accept International Atomic Energy Agency safeguards on all source or special fissionable material that is within its territory, under its jurisdiction, or carried out under its control anywhere.

(3) The International Atomic Energy Agency is permitted to conduct inspections in a nonnuclear weapon state that is a party to the Treaty at any site, whether or not declared by that state, to ensure that all source or special fissionable material in that state is under safeguards.

(4) North Korea acceded to the Treaty on the Non-Proliferation of Nuclear Weapons as a nonnuclear weapons state in December 1985.

(5) North Korea, after acceding to that Treaty, refused until 1992 to accept International Atomic Energy Agency safeguards as required under the Treaty.

(6) Inspections of North Korea's nuclear materials by the International Atomic Energy Agency suggested discrepancies in North Korea's declarations regarding special nuclear materials.

(7) North Korea has not given a scientifically satisfactory explanation for those discrepancies.

(8) North Korea refused to provide International Atomic Energy Agency inspectors with full access to two sites for the purposes of verifying its compliance with the Treaty on the Non-Proliferation of Nuclear Weapons.

(9) When called upon by the International Atomic Energy Agency to provide such full access as required by the Treaty, North Korea announced its intention to withdraw from the Treaty, effective after the required three months notice.

(10) After intensive negotiations with the United States, North Korea agreed to suspend its intention to withdraw from the Treaty on the Non-Proliferation of Nuclear Weapons and begin consultations with the International Atomic Energy Agency on providing access to its suspect sites.

(11) In an attempt to persuade North Korea to abandon its nuclear weapons program, the United States has offered to discuss with North Korea specific incentives that could be provided for North Korea once (A) outstanding inspection issues between North Korea and the International Atomic Energy

Agency are resolved, and (B) progress is made in bilateral talks between North Korea and South Korea.

(b) CONGRESSIONAL STATEMENTS.—The Congress—

(1) notes that the continued refusal of North Korea nearly eight years after ratification of the Treaty on the Non-Proliferation of Nuclear Weapons to fully accept International Atomic Energy Agency safeguards raises serious questions regarding a possible North Korean nuclear weapons program;

(2) notes that possession by North Korea of nuclear weapons (A) would threaten peace and stability in Asia, (B) would jeopardize the existing nuclear non-proliferation regime, and (C) would undermine the goal of the United States to extend the Treaty on the Non-Proliferation of Nuclear Weapons at the 1995 review conference;

(3) urges continued pressure from the President, United States allies, and the United Nations Security Council on North Korea to adhere to the Treaty and provide full access to the International Atomic Energy Agency in the shortest time possible;

(4) urges the President, United States allies, and the United Nations Security Council to press for continued talks between North Korea and South Korea on denuclearization of the Korean peninsula;

(5) urges that no trade, financial, or other economic benefits be provided to North Korea by the United States or United States allies until North Korea has (A) provided full access to the International Atomic Energy Agency, (B) satisfactorily explained any discrepancies in its declarations of bomb-grade material, and (C) fully demonstrated that it does not have or seek a nuclear weapons capability; and

(6) calls on the President and the international community to take steps to strengthen the international nuclear non-proliferation regime.

SEC. 1614. SENSE OF CONGRESS RELATING TO THE PROLIFERATION OF SPACE LAUNCH VEHICLE TECHNOLOGIES.

(a) FINDINGS.—The Congress finds the following:

(1) The United States has joined with other nations in the Missile Technology Control Regime (MTCR), which restricts the transfer of missiles or equipment or technology that could contribute to the design, development, or production of missiles capable of delivering weapons of mass destruction.

(2) Missile technology is indistinguishable from, and interchangeable with, space launch vehicle technology.

(3) Transfers of missile technology or space launch vehicle technology cannot be safeguarded in a manner that would provide timely warning of diversion for military purposes.

(4) It has been United States policy since agreeing to the guidelines of the Missile Technology Control Regime to treat the sale or transfer of space launch vehicle technology as restrictively as the sale or transfer of missile technology.

(5) Previous congressional action on missile proliferation, notably title XVII of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 104 Stat. 1738), has explicitly supported the policy described in paragraph (4) through such actions as the statutory definition of the term “missile” to mean “a category I system as defined in the MTCR

H. R. 2401—307

Annex, and any other unmanned delivery system of similar capability, as well as the specially designed production facilities for these systems”.

(6) There is strong evidence that emerging national space launch programs in the Third World are not economically viable.

(7) The United States has been successful in dissuading other countries from pursuing space launch vehicle programs in part by offering to cooperate with those countries in other areas of space science and technology.

(8) The United States has successfully dissuaded other MTCR adherents, and countries who have agreed to abide by MTCR guidelines, from providing assistance to emerging national space launch programs in the Third World.

(b) STRICT INTERPRETATION OF MTCR.—The Congress supports the strict interpretation by the United States of the Missile Technology Control Regime concerning—

(1) the inability to distinguish space launch vehicle technology from missile technology under the regime; and

(2) the inability to safeguard space launch vehicle technology in a manner that would provide timely warning of the diversion of such technology to military purposes.

(c) SENSE OF CONGRESS.—It is the sense of Congress that the United States Government and the governments of other nations adhering to the Missile Technology Control Regime should be recognized by the international community for—

(1) the success of those governments in restricting the export of space launch vehicle technology and of missile technology; and

(2) the significant contribution made by the imposition of such restrictions to reducing the proliferation of missile technology capable of being used to deliver weapons of mass destruction.

(d) DEFINITION.—For purposes of this section, the term “Missile Technology Control Regime” or “MTCR” means the policy statement, between the United States, the United Kingdom, the Federal Republic of Germany, France, Italy, Canada, and Japan, announced on April 16, 1987, to restrict sensitive missile-relevant transfers based on the MTCR Annex, and any amendments thereto.

TITLE XXIX—DEFENSE BASE CLOSURE AND REALIGNMENT

Subtitle A—Base Closure Community Assistance

SEC. 2901. FINDINGS.

Congress makes the following findings:

(1) The closure and realignment of military installations within the United States is a necessary consequence of the end of the Cold War and of changed United States national security requirements.

(2) A military installation is a significant source of employment for many communities, and the closure or realignment of an installation may cause economic hardship for such communities.

(3) It is in the interest of the United States that the Federal Government facilitate the economic recovery of communities that experience adverse economic circumstances as a result of the closure or realignment of a military installation.

(4) It is in the interest of the United States that the Federal Government assist communities that experience adverse economic circumstances as a result of the closure of military installations by working with such communities to identify and implement means of reutilizing or redeveloping such installations in a beneficial manner or of otherwise revitalizing such communities and the economies of such communities.

(5) The Federal Government may best identify and implement such means by requiring that the head of each department or agency of the Federal Government having jurisdiction over a matter arising out of the closure of a military installation under a base closure law, or the reutilization and redevelopment of such an installation, designate for each installation to be closed an individual in such department or agency who shall provide information and assistance to the transition coordinator for the installation designated under section 2915 on the assistance, programs, or other activities of such department or agency with respect to the closure or reutilization and redevelopment of the installation.

(6) The Federal Government may also provide such assistance by accelerating environmental restoration at military installations to be closed, and by closing such installations, in a manner that best ensures the beneficial reutilization and redevelopment of such installations by such communities.

(7) The Federal Government may best contribute to such reutilization and redevelopment by making available real and personal property at military installations to be closed to communities affected by such closures on a timely basis, and, if appropriate, at less than fair market value.
