U.S. GOVERNMENT PRINTING OFFICE

21–819 WASHINGTON : 1996

*To the House of Representatives:*

I am returning herewith without my approval H.R. 1530, the "National Defense Authorization Act for Fiscal Year 1996."

H.R. 1530 would unacceptably restrict my ability to carry out this country's national security objectives and substantially interfere with the implementation of key national defense programs. It would also restrict the President's authority in the conduct of foreign affairs and as Commander in Chief, raising serious constitutional concerns.

First, the bill requires deployment by 2003 of a costly missile defense system able to defend all 50 States from a long-range missile threat that our Intelligence Community does not foresee in the coming decade. By forcing such an unwarranted deployment decision now, the bill would waste tens of billions of dollars and force us to commit prematurely to a specific technological option. It would also likely require a multiple-site architecture that cannot be accommodated within the terms of the existing ABM Treaty. By setting U.S. policy on a collision course with the ABM Treaty, the bill would jeopardize continued Russian implementation of the START I Treaty as well as Russian ratification of START II—two treaties that will significantly lower the threat to U.S. national security, reducing the number of U.S. and Russian strategic nuclear warheads by two-thirds from Cold War levels. The missile defense provisions would also jeopardize our current efforts to agree on an ABM/TMD (Theater Missile Defense) demarcation with the Russian Federation.

Second, the bill imposes restrictions on the President's ability to conduct contingency operations essential to national security. Its restrictions on funding of contingency operations and the requirement to submit a supplemental appropriations request within a time certain in order to continue a contingency operation are unwarranted restrictions on a President's national security and foreign policy prerogatives. Moreover, by requiring a Presidential certification to assign U.S. Armed Forces under United Nations operational or tactical control, the bill infringes on the President's constitutional authority as Commander in Chief.

Third, H.R. 1530 contains other objectionable provisions that would adversely affect the ability of the Defense Department to carry out national defense programs or impede the Department's ability to manage its day-to-day operations. For example, the bill includes counterproductive certification requirements for the use of Nunn-Lugar Cooperative Threat Reduction (CTR) funds and restricts use of funds for individual CTR programs.

Other objectionable provisions eliminate funding for the Defense Enterprise Fund; restrict the retirement of U.S. strategic delivery systems; slow the pace of the Defense Department's environmental cleanup efforts; and restrict Defense's ability to execute disaster re-

lief, demining, and military-to-military contact programs. The bill also directs the procurement of specific submarines at specific shipyards although that is not necessary for our military mission to maintain the Nation's industrial base.

H.R. 1530 also contains two provisions that would unfairly affect certain service members. One requires medically unwarranted discharge procedures for HIV-positive service members. In addition, I remain very concerned about provisions that would restrict service women and female dependents of military personnel from obtaining privately funded abortions in military facilities overseas, except in cases of rape, incest, or danger to the life of the mother. In many countries, these U.S. facilities provide the only accessible, safe source for these medical services. Accordingly, I urge the Congress to repeal a similar provision that became law in the "Department of Defense Appropriations Act, 1996."

In returning H.R. 1530 to the Congress, I recognize that it contains a number of important authorities for the Department of Defense, including authority for Defense's military construction program and the improvement of housing facilities for our military personnel and their families. It also contains provisions that would contribute to the effective and efficient management of the Department, including important changes in Federal acquisition law.

Finally, H.R. 1530 includes the authorization for an annual military pay raise of 2.4 percent, which I strongly support. The Congress should enact this authorization as soon as possible, in separate legislation that I will be sending up immediately. In the meantime, I will today sign an Executive order raising military pay for the full 2.0 percent currently authorized by the Congress and will sign an additional order raising pay by a further 0.4 percent as soon as the Congress authorizes that increase.

I urge the Congress to address the Administration's objections and pass an acceptable National Defense Authorization Act promptly. The Department of Defense must have the full range of authorities that it needs to perform its critical worldwide missions.

WILLIAM J. CLINTON.

THE WHITE HOUSE, *December 28, 1995.*

H.R. 1530

ONE HUNDRED FOURTH CONGRESS OF THE UNITED STATES OF AMERICA, AT THE FIRST SESSION, BEGUN AND HELD AT THE CITY OF WASHINGTON ON WEDNESDAY, THE FOURTH DAY OF JANUARY, ONE THOUSAND NINE HUNDRED AND NINETY-FIVE

(A) after fiscal year 1999, or

(B) if four submarines are procured as provided for in the plan described in subsection (c), after fiscal year 2001,

will be under one or more contracts that are entered into after competition between potential competitors (as defined in subsection (k)) in which the Secretary solicits competitive proposals and awards the contract or contracts on the basis of price.

(2) Of the amounts specified in subsection (a)(1), not more than $1,000,000,000 may be obligated or expended until the Secretary of Defense, not later than March 15, 1996, accomplishes each of the following:

(A) Submits to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives in accordance with subsection (c) the plan required by that subsection for a program to produce a more capable, less expensive nuclear attack submarine than the submarine design previously designated by the Navy as the New Attack Submarine.

(2) As part of such plan, the Secretary shall provide for a program for the design, development, and procurement of four nuclear attack submarines to be procured during fiscal years 1998 through 2001, the purpose of which shall be to develop and demonstrate new technologies that will result in each successive submarine of those four being a more capable and more affordable submarine than the submarine that preceded it. The program shall be structured so that—

(A) one of the four submarines is to be constructed with funds appropriated for each fiscal year from fiscal year 1998 through fiscal year 2001;

(B) in order to ensure flexibility for innovation, the fiscal year 1998 and the fiscal year 2000 submarines are to be constructed by the Electric Boat Division and the fiscal year 1999 and the fiscal year 2001 submarines are to be constructed by Newport News Shipbuilding;

(C) the design designated by the Navy for the submarine previously designated as the New Attack Submarine will be used as the base design by both contractors;

(D) each contractor shall be called upon to propose improvements, including design improvements, for each successive submarine as new and better technology is demonstrated and matures so that—

(i) each successive submarine is more capable and more affordable; and

(ii) the design for a future class of nuclear attack submarines will incorporate the latest, best, and most affordable technology; and

(E) the fifth and subsequent nuclear attack submarines to be built after the SSN–23 submarine shall be procured as required by subsection (b)(1).

(3) The plan under paragraph (1) shall—

(A) set forth a program to accomplish the design, development, and construction of the four submarines taking maximum advantage of a streamlined acquisition process, as provided under subsection (d);

(B) culminate in selection of a design for a next submarine for serial production not earlier than fiscal year 2003, with such submarine to be procured as required by subsection (b)(1);

(C) identify advanced technologies that are in various phases of research and development, as well as those that are commercially available off-the-shelf, that are candidates to be incorporated into the plan to design, develop, and procure the submarines;

(D) designate the fifth submarine to be procured as the lead ship in the next generation submarine class, unless the Secretary of the Navy, in consultation with the special submarine review panel described in subsection (f), determines that more submarines should be built before the design of the new class of submarines is fixed, in which case each such additional submarine shall be procured in the same manner as is required by subsection (b)(1); and

(E) identify the impact of the submarine program described in paragraph (1) on the remainder of the appropriation account known as ''Shipbuilding and Conversion, Navy'', as such impact relates to—

(i) force structure levels required by the October 1993 Department of Defense report entitled ''Report on the Bottom-Up Review'';

(ii) force structure levels required by the 1995 report on the Surface Ship Combatant Study that was carried out for the Department of Defense; and

The panel shall consist of three members of the Committee on Armed Services of the Senate, who shall be designated by the chairman of that committee, and three members of the Committee on National Security of the House of Representatives, who shall be designated by the chairman of that committee. The members of the panel shall be briefed by the Secretary of the Navy on the status of the submarine modernization program and the status of submarine-related research and development under this section.

(2) Not later than May 1 of each year, the panel shall report to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives on the panel's findings and recommendations regarding the progress of the Secretary in procuring a more capable, less expensive submarine. The panel may recommend any funding adjustments it believes appropriate to achieve this objective.

(g) LINKAGE OF FISCAL YEAR 1998 AND 1999 SUBMARINES.—Funds referred to in subsection (a)(1)(B) that are available for the fiscal year 1998 and fiscal year 1999 submarines under this section may not be expended during fiscal year 1996 for the fiscal year 1998 submarine (other than for design) unless funds are obligated or expended during such fiscal year for a contract in support of procurement of the fiscal year 1999 submarine.

(2) The Director of the Advanced Research Projects Agency shall implement a rapid prototype acquisition strategy for both land-based and at-sea subsystem and system demonstrations of advanced technologies under paragraph (1). Such acquisition strategy shall be developed and implemented in concert with Electric Boat Division and Newport News Shipbuilding and the Navy.

(j) REFERENCES TO CONTRACTORS.—For purposes of this section—

(e) DEFINITIONS.—For purposes of this section, the terms ''full and open competition'' and ''nondevelopmental item'' have the meanings given such terms in section 4 of the Office of Federal Procurement Policy Act (41 U.S.C. 403).

**SEC. 223. LIMITATION ON OBLIGATION OF FUNDS UNTIL RECEIPT OF ELECTRONIC COMBAT CONSOLIDATION MASTER PLAN.**

(a) LIMITATION.—Not more than 75 percent of the amounts appropriated or otherwise made available pursuant to the authorization of appropriations in section 201 for test and evaluation program elements 65896A, 65864N, 65807F, and 65804D in the budget of the Department of Defense for fiscal year 1996 may be obligated until 14 days after the date on which the congressional defense committees receive the plan specified in subsection (b).

(b) PLAN.—The plan referred to in subsection (a) is the master plan for electronic combat consolidation described under Defense-Wide Programs under Research, Development, Test, and Evaluation in the Report of the Committee on Armed Services of the House of Representatives on H.R. 4301 (House Report 103–499), dated May 10, 1994.

**SEC. 224. OBLIGATION OF CERTAIN FUNDS DELAYED UNTIL RECEIPT OF REPORT ON SCIENCE AND TECHNOLOGY RESCISSIONS.**

(a) DELAY IN OBLIGATION OF CERTAIN FUNDS.—None of the amounts appropriated or otherwise made available pursuant to the authorization in section 201(4) may be obligated until 14 days after the date on which the congressional defense committees receive a report by the Under Secretary of Defense (Comptroller) that sets forth in detail the allocation of rescissions for science and technology described in subsection (b).

(b) DESCRIPTION OF RESCISSIONS.—The rescissions for science and technology covered by subsection (a) are the Army, Navy, Air Force, and Defense-wide science and technology (1995/1996) rescissions that are made by the Emergency Supplemental Appropriations and Rescissions for the Department of Defense to Preserve and Enhance Military Readiness Act of 1995 (Public Law 104–6), as set forth in the Joint Explanatory Statement of the Committee of Conference in the conference report accompanying that Act (House Report 104–101).

**SEC. 225. OBLIGATION OF CERTAIN FUNDS DELAYED UNTIL RECEIPT OF REPORT ON REDUCTIONS IN RESEARCH, DEVELOPMENT, TEST, AND EVALUATION.**

(a) DELAY IN OBLIGATION OF CERTAIN FUNDS.—Not more than 50 percent of the amounts appropriated or otherwise made available pursuant to the authorization in section 201(4) may be obligated until 14 days after the date on which the congressional defense committees receive a report by the Under Secretary of Defense (Comptroller) that sets forth in detail the allocation of reductions

for research, development, test, and evaluation described in subsection (b).

(b) DESCRIPTION OF REDUCTIONS.—The reductions for research, development, test, and evaluation covered by subsection (a) are the following Army, Navy, Air Force, and Defense-wide reductions, as required by the Department of Defense Appropriations Act, 1996:

(1) General reductions.

(2) Reductions to reflect savings from revised economic assumptions.

(3) Reductions to reflect the funding ceiling for defense federally funded research and development centers.

(4) Reductions for savings through improved management of contractor automatic data processing costs charged through indirect rates on Department of Defense acquisition contracts.

**SEC. 226. ADVANCED FIELD ARTILLERY SYSTEM (CRUSADER).**

(a) AUTHORITY TO USE FUNDS FOR ALTERNATIVE PROPELLANT TECHNOLOGIES.—During fiscal year 1996, the Secretary of the Army may use funds appropriated for the liquid propellant portion of the Advanced Field Artillery System (Crusader) program for fiscal year 1996 for alternative propellant technologies and integration of those technologies into the design of the Crusader if—

(1) the Secretary determines that the technical risk associated with liquid propellant will increase costs and delay the initial operational capability of the Crusader; and

(2) the Secretary notifies the congressional defense committees of the proposed use of the funds and the reasons for the proposed use of the funds.

(b) LIMITATION.—The Secretary of the Army may not spend funds for the liquid propellant portion of the Crusader program after August 15, 1996, unless—

(1) the report required by subsection (c) has been submitted by that date; and

(2) such report includes documentation of significant progress, as determined by the Secretary, toward meeting the objectives for the liquid propellant portion of the program, as set forth in the baseline description for the Crusader program and approved by the Office of the Secretary of Defense on January 4, 1995.

(c) REPORT REQUIRED.—Not later than August 1, 1996, the Secretary of the Army shall submit to the congressional defense committees a report containing documentation of the progress being made in meeting the objectives set forth in the baseline description for the Crusader program and approved by the Office of the Secretary of Defense on January 4, 1995. The report shall specifically address the progress being made toward meeting the following objectives:

(1) Establishment of breech and ignition design criteria for rate of fire for the cannon of the Crusader.

(2) Selection of a satisfactory ignition concept for the next prototype of the cannon.

(3) Selection, on the basis of modeling and simulation, of design concepts to prevent chamber piston reversals, and validation of the selected concepts by gun and mock chamber firings.

(4) Achievement of an understanding of the chemistry and physics of propellant burn resulting from the firing of liquid

propellant into any target zone, and achievement, on the basis of modeling and simulation, of an ignition process that is predictable.

(5) Completion of an analysis of the management of heat dissipation for the full range of performance requirements for the cannon, completion of concept designs supported by that analysis, and proposal of such concept designs for engineering.

(6) Development, for integration into the next prototype of the cannon, of engineering designs to control pressure oscillations in the chamber of the cannon during firing.

(7) Completion of an assessment of the sensitivity of liquid propellant to contamination by various materials to which it may be exposed throughout the handling and operation of the cannon, and documentation of predictable reactions of contaminated or sensitized liquid propellant.

(d) ADDITIONAL MATTERS TO BE COVERED BY REPORT.—The report required by subsection (c) also shall contain the following:

(1) An assertion that all the known hazards associated with liquid propellant have been identified and are controllable to acceptable levels.

(2) An assessment of the technology for each component of the Crusader (the cannon, vehicle, and crew module), including, for each performance goal of the Crusader program (including the goal for total system weight), information about the maturity of the technology to achieve that goal, the maturity of the design of the technology, and the manner in which the design has been proven (for example, through simulation, bench testing, or weapon firing).

(3) An assessment of the cost of continued development of the Crusader after August 1, 1996, and the cost of each unit of the Crusader in the year the Crusader will be completed.

**SEC. 227. DEMILITARIZATION OF CONVENTIONAL MUNITIONS, ROCKETS, AND EXPLOSIVES.**

Of the amount appropriated pursuant to the authorization in section 201 for explosives demilitarization technology, $15,000,000 shall be available to establish an integrated program for the development and demonstration of conventional munitions and explosives demilitarization technologies that comply with applicable environmental laws for the demilitarization and disposal of unserviceable, obsolete, or nontreaty compliant munitions, rocket motors, and explosives.

**SEC. 228. DEFENSE AIRBORNE RECONNAISSANCE PROGRAM.**

(a) LIMITATION.—Not more than three percent of the total amount appropriated for research and development under the Defense Airborne Reconnaissance program pursuant to the authorizations of appropriations in section 201 may be obligated for systems engineering and technical assistance (SETA) contracts until—

(1) funds are obligated (out of such appropriated funds) for—

(A) the upgrade of U–2 aircraft senior year electro-optical reconnaissance sensors to the newest configuration; and

(B) the upgrade of the U–2 SIGINT system; and

(2) the Under Secretary of Defense for Acquisition and Technology submits the report required under subsection (b).

(b) REPORT ON U–2-RELATED UPGRADES.—(1) Not later than April 1, 1996, the Under Secretary of Defense for Acquisition and Technology shall transmit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on obligations of funds for upgrades relating to airborne reconnaissance by U–2 aircraft.

(2) The report shall set forth the specific purposes under the general purposes described in subparagraphs (A) and (B) of subsection (a)(1) for which funds have been obligated (as of the date of the report) and the amounts that have been obligated (as of such date) for those specific purposes.

## Subtitle C—Ballistic Missile Defense Act of 1995

**SEC. 231. SHORT TITLE.**

This subtitle may be cited as the "Ballistic Missile Defense Act of 1995".

**SEC. 232. FINDINGS.**

Congress makes the following findings:

(1) The emerging threat that is posed to the national security interests of the United States by the proliferation of ballistic missiles is significant and growing, both in terms of numbers of missiles and in terms of the technical capabilities of those missiles.

(2) The deployment of ballistic missile defenses is a necessary, but not sufficient, element of a broader strategy to discourage both the proliferation of weapons of mass destruction and the proliferation of the means of their delivery and to defend against the consequences of such proliferation.

(3) The deployment of effective Theater Missile Defense systems can deter potential adversaries of the United States from escalating a conflict by threatening or attacking United States forces or the forces or territory of coalition partners or allies of the United States with ballistic missiles armed with weapons of mass destruction to offset the operational and technical advantages of the United States and its coalition partners and allies.

(4) United States intelligence officials have provided intelligence estimates to congressional committees that (A) the trend in missile proliferation is toward longer range and more sophisticated ballistic missiles, (B) North Korea may deploy an intercontinental ballistic missile capable of reaching Alaska or beyond within five years, and (C) although a new, indigenously developed ballastic missile threat to the continental United States is not foreseen within the next ten years, determined countries can acquire intercontinental ballistic missiles in the near future and with little warning by means other than indigenous development.

(5) The development and deployment by the United States and its allies of effective defenses against ballistic missiles of all ranges will reduce the incentives for countries to acquire such missiles or to augment existing missile capabilities.

(6) The concept of mutual assured destruction (based upon an offense-only form of deterrence), which is the major philo-

sophical rationale underlying the ABM Treaty, is now questionable as a basis for stability in a multipolar world in which the United States and the states of the former Soviet Union are seeking to normalize relations and eliminate Cold War attitudes and arrangements.

(7) The development and deployment of a National Missile Defense system against the threat of limited ballistic missile attacks—

(A) would strengthen deterrence at the levels of forces agreed to by the United States and Russia under the Strategic Arms Reduction Talks Treaty (START–I); and

(B) would further strengthen deterrence if reductions below the levels permitted under START–I should be agreed to and implemented in the future.

(8) The distinction made during the Cold War, based upon the technology of the time, between strategic ballistic missiles and nonstrategic ballistic missiles, which resulted in the distinction made in the ABM Treaty between strategic defense and nonstrategic defense, has become obsolete because of technological advancement (including the development by North Korea of long-range Taepo-Dong I and Taepo-Dong II missiles) and, therefore, that distinction in the ABM Treaty should be reviewed.

**SEC. 233. BALLISTIC MISSILE DEFENSE POLICY.**

It is the policy of the United States—

(1) to deploy affordable and operationally effective theater missile defenses to protect forward-deployed and expeditionary elements of the Armed Forces of the United States and to complement the missile defense capabilities of forces of coalition partners and of allies of the United States;

(2) to—

(A) deploy a National Missile Defense system that—

(i) is affordable and operationally effective against limited, accidental, or unauthorized ballistic missile attacks on the territory of the United States; and

(ii) can be augmented over time as the threat changes to provide a layered defense against limited, accidental, or unauthorized ballistic missile threats;

(B) initiate negotiations with the Russian Federation as necessary to provide for the National Missile Defense system specified in section 235; and

(C) consider, if those negotiations fail, the option of withdrawing from the ABM Treaty in accordance with the provisions of Article XV of that treaty, subject to consultations between the President and the Congress;

(3) to ensure congressional review, before deployment of the system specified in paragraph (2), of (A) the affordability and operational effectiveness of such system, (B) the threat to be countered by such a system, and (C) ABM Treaty considerations with respect to such a system; and

(4) to seek a cooperative, negotiated transition to a regime that does not feature an offense-only form of deterrence as the basis for strategic stability.

**SEC. 234. THEATER MISSILE DEFENSE ARCHITECTURE.**

(a) ESTABLISHMENT OF CORE PROGRAM.—To implement the policy established in paragraph (1) of section 233, the Secretary of

Defense shall restructure the core theater missile defense program to consist of the following systems, to be carried out so as to achieve the specified capabilities:

(1) The Patriot PAC–3 system, with a first unit equipped (FUE) during fiscal year 1998.

(2) The Navy Lower Tier (Area) system, with a user operational evaluation system (UOES) capability during fiscal year 1997 and an initial operational capability (IOC) during fiscal year 1999.

(3) The Theater High-Altitude Area Defense (THAAD) system, with a user operational evaluation system (UOES) capability not later than fiscal year 1998 and a first unit equipped (FUE) not later than fiscal year 2000.

(4) The Navy Upper Tier (Theater Wide) system, with a user operational evaluation system (UOES) capability during fiscal year 1999 and an initial operational capability (IOC) during fiscal year 2001.

(b) USE OF STREAMLINED ACQUISITION PROCEDURES.—The Secretary of Defense shall prescribe and use streamlined acquisition policies and procedures to reduce the cost and increase the efficiency of developing and deploying the theater missile defense systems specified in subsection (a).

(c) INTEROPERABILITY AND SUPPORT OF CORE SYSTEMS.—To maximize effectiveness and flexibility of the systems comprising the core theater missile defense program, the Secretary of Defense shall ensure that those systems are integrated and complementary and are fully capable of exploiting external sensor and battle management support from systems such as—

(A) the Cooperative Engagement Capability (CEC) system of the Navy;

(B) airborne sensors; and

(C) space-based sensors (including, in particular, the Space and Missile Tracking System).

(d) FOLLOW-ON SYSTEMS.—(1) The Secretary of Defense shall prepare an affordable development plan for theater missile defense systems to be developed as follow-on systems to the core systems specified in subsection (a). The Secretary shall make the selection of a system for inclusion in the plan based on the capability of the system to satisfy military requirements not met by the systems in the core program and on the capability of the system to use prior investments in technologies, infrastructure, and battle-management capabilities that are incorporated in, or associated with, the systems in the core program.

(2) The Secretary may not proceed with the development of a follow-on theater missile defense system beyond the Demonstration/Validation stage of development unless the Secretary designates that system as a part of the core program under this section and submits to the congressional defense committees notice of that designation. The Secretary shall include with any such notification a report describing—

(A) the requirements for the system and the specific threats that such system is designed to counter;

(B) how the system will relate to, support, and build upon existing core systems;

(C) the planned acquisition strategy for the system; and

(D) a preliminary estimate of total program cost for that system and the effect of development and acquisition of such system on Department of Defense budget projections.

(e) PROGRAM ACCOUNTABILITY REPORT.—(1) As part of the annual report of the Ballistic Missile Defense Organization required by section 224 of Public Law 101–189 (10 U.S.C. 2431 note), the Secretary of Defense shall describe the technical milestones, the schedule, and the cost of each phase of development and acquisition (together with total estimated program costs) for each core and follow-on theater missile defense program.

(2) As part of such report, the Secretary shall describe, with respect to each program covered in the report, any variance in the technical milestones, program schedule milestones, and costs for the program compared with the information relating to that program in the report submitted in the previous year and in the report submitted in the first year in which that program was covered.

(f) REPORTS ON TMD SYSTEM LIMITATIONS UNDER ABM TREATY.—(1) Whenever, after January 1, 1993, the Secretary of Defense issues a certification with respect to the compliance of a particular Theater Missile Defense system with the ABM Treaty, the Secretary shall transmit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a copy of such certification. Such transmittal shall be made not later than 30 days after the date on which such certification is issued, except that in the case of a certification issued before the date of the enactment of this Act, such transmittal shall be made not later than 60 days after the date of the enactment of this Act.

(2) If a certification under paragraph (1) is based on application of a policy concerning United States compliance with the ABM Treaty that differs from the policy of the United States specified in section 237(b)(1), the Secretary shall include with the transmittal under that paragraph a report providing a detailed assessment of—

(A) how the policy applied differs from the policy of the United States specified in section 237(b)(1); and

(B) how the application of that policy (rather than the policy specified in section 237(b)(1)) will affect the cost, schedule, and performance of that system.

**SEC. 235. NATIONAL MISSILE DEFENSE SYSTEM ARCHITECTURE.**

(a) REQUIREMENT FOR DEVELOPMENT OF SYSTEM.—To implement the policy established in paragraph (2) of section 233, the Secretary of Defense shall develop for deployment an affordable and operationally effective National Missile Defense (NMD) system which shall achieve an initial operational capability (IOC) by the end of 2003.

(b) ELEMENTS OF THE NMD SYSTEM.—The system to be developed for deployment shall include the following elements:

(1) Ground-based interceptors capable of being deployed at multiple sites, the locations and numbers of which are to be determined so as to optimize defensive coverage of the continental United States, Alaska, and Hawaii against limited, accidental, or unauthorized ballistic missile attacks.

(2) Fixed ground-based radars.

(3) Space-based sensors, including the type of space-based sensors known as ABM-adjunct sensors (and specifically including the system known as the Space and Missile Tracking System), such ABM-adjunct sensors—

(A) not being prohibited by the ABM Treaty; and

(B) being capable of cuing ground-based anti-ballistic missile interceptors and of providing initial targeting vectors.

(4) Battle management, command, control, and communications (BM/C$^3$).

(c) IMPLEMENTATION.—The Secretary shall—

(1) during fiscal year 1996 initiate required preparatory and planning actions (such as initial site surveys and selection and planning for the necessary environmental impact studies) that are necessary so as to be capable of meeting the initial operational capability (IOC) date specified in subsection (a);

(2) plan to conduct by the end of 1998 an integrated systems test which uses elements (including BM/C$^3$ elements) that are representative of and traceable to the National Missile Defense system architecture specified in subsection (b);

(3) prescribe and use streamlined acquisition policies and procedures to reduce the cost and increase the efficiency of developing the system specified in subsection (b); and

(4) develop an affordable NMD follow-on program which—

(A) leverages off of the NMD system specified in subsection (a), and

(B) can augment that system, as the threat changes, to provide for a layered defense.

(d) REPORT ON PLAN FOR NMD SYSTEM DEVELOPMENT AND DEPLOYMENT.—Not later than the date on which the President submits the budget for fiscal year 1997 under section 1105 of title 31, United States Code, the Secretary of Defense shall submit to the congressional defense committees a report containing the following matters:

(1) The Secretary's plan for carrying out this section.

(2) The Secretary's estimate of the appropriations required for research, development, test, evaluation, and for procurement, for each of fiscal years 1997 through 2003 in order to achieve the initial operational capability date specified in subsection (a).

(3) A sensitivity analysis of options to improve the effectiveness of such system by adding one or a combination of the following:

(A) Additional ground-based interceptors.

(B) Sea-based missile defense systems.

(C) Space-based kinetic energy interceptors.

(D) Space-based directed energy systems.

(4) A determination of the point at which any activity that is required to be carried out under this section and section 233(2) would conflict with the terms of the ABM Treaty, together with a description of any such activity, the legal basis for the Secretary's determination, and an estimate of the time at which such point would be reached in order to meet the initial operational capability date specified in subsection (a).

**SEC. 236. POLICY REGARDING THE ABM TREATY.**

(a) FINDINGS.—Congress makes the following findings:

(1) Article XIII of the ABM Treaty envisions "possible changes in the strategic situation which have a bearing on the provisions of this treaty".

(2) Articles XIII and XIV of the treaty establish means for the parties to amend the treaty, and the parties have in the past used those means to amend the treaty.

(3) Article XV of the treaty establishes the means for a party to withdraw from the treaty, upon six months notice "if it decides that extraordinary events related to the subject matter of this treaty have jeopardized its supreme interests".

(4) The policies, programs, and requirements of this subtitle can be accomplished through processes specified within, or consistent with, the ABM Treaty, which anticipates the need and provides the means for amendment to the Treaty.

(5) Previous discussions between the United States and Russia, based on Russian President Yeltsin's proposal for a Global Protection System, held promise of an agreement to amend the ABM Treaty to allow (among other measures) deployment of as many as four ground-based interceptor sites in addition to the one site permitted under the ABM Treaty and unrestricted exploitation of sensors based within the atmosphere and in space.

(b) ABM TREATY NEGOTIATIONS.—In light of the findings in subsection (a), Congress urges the President to pursue high-level discussions with the Russian Federation to amend the ABM Treaty to allow—

(1) deployment of multiple ground-based ABM sites to provide effective defense of the territory of the United States against limited ballistic missile attack;

(2) the unrestricted exploitation of sensors based within the atmosphere and in space; and

(3) increased flexibility for development, testing, and deployment of follow-on NMD systems.

**SEC. 237. PROHIBITION ON USE OF FUNDS TO IMPLEMENT AN INTERNATIONAL AGREEMENT CONCERNING THEATER MISSILE DEFENSE SYSTEMS.**

(a) FINDINGS.—(1) Congress hereby reaffirms—

(A) the finding in section 234(a)(7) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 107 Stat. 1595; 10 U.S.C. 2431 note) that the ABM Treaty was not intended to, and does not, apply to or limit research, development, testing, or deployment of missile defense systems, system upgrades, or system components that are designed to counter modern theater ballistic missiles, regardless of the capabilities of such missiles, unless those systems, system upgrades, or system components are tested against or have demonstrated capabilities to counter modern strategic ballistic missiles; and

(B) the statement in section 232 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103–337; 108 Stat. 2700) that the United States shall not be bound by any international agreement entered into by the President that would substantively modify the ABM Treaty unless the agreement is entered into pursuant to the treaty making power of the President under the Constitution.

(2) Congress also finds that the demarcation standard described in subsection (b)(1) for compliance of a missile defense system, system upgrade, or system component with the ABM Treaty is based upon current technology.

(b) SENSE OF CONGRESS CONCERNING COMPLIANCE POLICY.—It is the sense of Congress that—

(1) unless a missile defense system, system upgrade, or system component (including one that exploits data from space-based or other external sensors) is flight tested in an ABM-qualifying flight test (as defined in subsection (e)), that system, system upgrade, or system component has not, for purposes of the ABM Treaty, been tested in an ABM mode nor been given capabilities to counter strategic ballistic missiles and, therefore, is not subject to any application, limitation, or obligation under the ABM Treaty; and

(2) any international agreement that would limit the research, development, testing, or deployment of missile defense systems, system upgrades, or system components that are designed to counter modern theater ballistic missiles in a manner that would be more restrictive than the compliance criteria specified in paragraph (1) should be entered into only pursuant to the treaty making powers of the President under the Constitution.

(c) PROHIBITION ON FUNDING.—Funds appropriated or otherwise made available to the Department of Defense for fiscal year 1996 may not be obligated or expended to implement an agreement, or any understanding with respect to interpretation of the ABM Treaty, between the United States and any of the independent states of the former Soviet Union entered into after January 1, 1995, that—

(1) would establish a demarcation between theater missile defense systems and anti-ballistic missile systems for purposes of the ABM Treaty; or

(2) would restrict the performance, operation, or deployment of United States theater missile defense systems.

(d) EXCEPTIONS.—Subsection (c) does not apply—

(1) to the extent provided by law in an Act enacted after this Act;

(2) to expenditures to implement that portion of any such agreement or understanding that implements the policy set forth in subsection (b)(1); or

(3) to expenditures to implement any such agreement or understanding that is approved as a treaty or by law.

(e) ABM-QUALIFYING FLIGHT TEST DEFINED.—For purposes of this section, an ABM-qualifying flight test is a flight test against a ballistic missile which, in that flight test, exceeds (1) a range of 3,500 kilometers, or (2) a velocity of 5 kilometers per second.

**SEC. 238. BALLISTIC MISSILE DEFENSE COOPERATION WITH ALLIES.**

It is in the interest of the United States to develop its own missile defense capabilities in a manner that will permit the United States to complement the missile defense capabilities developed and deployed by its allies and possible coalition partners. Therefore, the Congress urges the President—

(1) to pursue high-level discussions with allies of the United States and selected other states on the means and methods by which the parties on a bilateral basis can cooperate in

the development, deployment, and operation of ballistic missile defenses;

(2) to take the initiative within the North Atlantic Treaty Organization to develop consensus in the Alliance for a timely deployment of effective ballistic missile defenses by the Alliance; and

(3) in the interim, to seek agreement with allies of the United States and selected other states on steps the parties should take, consistent with their national interests, to reduce the risks posed by the threat of limited ballistic missile attacks, such steps to include—

(A) the sharing of early warning information derived from sensors deployed by the United States and other states;

(B) the exchange on a reciprocal basis of technical data and technology to support both joint development programs and the sale and purchase of missile defense systems and components; and

(C) operational level planning to exploit current missile defense capabilities and to help define future requirements.

**SEC. 239. ABM TREATY DEFINED.**

For purposes of this subtitle, the term ''ABM Treaty'' means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, and signed at Moscow on May 26, 1972, and includes the Protocols to that Treaty, signed at Moscow on July 3, 1974.

**SEC. 240. REPEAL OF MISSILE DEFENSE ACT OF 1991.**

The Missile Defense Act of 1991 (10 U.S.C. 2431 note) is repealed.

''(a) TESTING OF THEATER MISSILE DEFENSE INTERCEPTORS.—(1) The Secretary of Defense may not approve a theater missile defense interceptor program proceeding beyond the low-rate initial production acquisition stage until the Secretary certifies to the congressional defense committees that such program has successfully completed initial operational test and evaluation.

''(2) In order to be certified under paragraph (1) as having been successfully completed, the initial operational test and evaluation conducted with respect to an interceptors program must have included flight tests—

''(A) that were conducted with multiple interceptors and multiple targets in the presence of realistic countermeasures; and

''(B) the results of which demonstrate the achievement by the interceptors of the baseline performance thresholds.

''(3) For purposes of this subsection, the baseline performance thresholds with respect to a program are the weapons systems performance thresholds specified in the baseline description for the system established (pursuant to section 2435(a)(1) of title 10, United States Code) before the program entered the engineering and manufacturing development stage.

''(4) The number of flight tests described in paragraph (2) that are required in order to make the certification under paragraph (1) shall be a number determined by the Secretary of Defense to be sufficient for the purposes of this section.

''(5) The Secretary may augment live-fire testing to demonstrate weapons system performance goals for purposes of the certification under paragraph (1) through the use of modeling and simulation that is validated by ground and flight testing.''.

**SEC. 253. REPEAL OF MISSILE DEFENSE PROVISIONS.**

The following provisions of law are repealed:

## Subtitle B—Depot-Level Activities

**SEC. 311. POLICY REGARDING PERFORMANCE OF DEPOT-LEVEL MAINTENANCE AND REPAIR FOR THE DEPARTMENT OF DEFENSE.**

(a) FINDINGS.—Congress makes the following findings:

(1) The Department of Defense does not have a comprehensive policy regarding the performance of depot-level maintenance and repair of military equipment.

(2) The absence of such a policy has caused the Congress to establish guidelines for the performance of such functions.

(3) It is essential to the national security of the United States that the Department of Defense maintain an organic capability within the department, including skilled personnel, technical competencies, equipment, and facilities, to perform depot-level maintenance and repair of military equipment in order to ensure that the Armed Forces of the United States are able to meet training, operational, mobilization, and emergency requirements without impediment.

(4) The organic capability of the Department of Defense to perform depot-level maintenance and repair of military equipment must satisfy known and anticipated core maintenance and repair requirements across the full range of peacetime and wartime scenarios.

(5) Although it is possible that savings can be achieved by contracting with private-sector sources for the performance

of some work currently performed by Department of Defense depots, the Department of Defense has not determined the type or amount of work that should be performed under contract with private-sector sources nor the relative costs and benefits of contracting for the performance of such work by those sources.

(b) SENSE OF CONGRESS.—It is the sense of Congress that there is a compelling need for the Department of Defense to articulate known and anticipated core maintenance and repair requirements, to organize the resources of the Department of Defense to meet those requirements economically and efficiently, and to determine what work should be performed by the private sector and how such work should be managed.

(c) REQUIREMENT FOR POLICY.—Not later than March 31, 1996, the Secretary of Defense shall develop and report to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a comprehensive policy on the performance of depot-level maintenance and repair for the Department of Defense that maintains the capability described in section 2464 of title 10, United States Code.

(d) CONTENT OF POLICY.—In developing the policy, the Secretary of Defense shall do each of the following:

(1) Identify for each military department, with the concurrence of the Secretary of that military department, those depot-level maintenance and repair activities that are necessary to ensure the depot-level maintenance and repair capability as required by section 2464 of title 10, United States Code.

(2) Provide for performance of core depot-level maintenance and repair capabilities in facilities owned and operated by the United States.

(3) Provide for the core capabilities to include sufficient skilled personnel, equipment, and facilities that—

(A) is of the proper size (i) to ensure a ready and controlled source of technical competence and repair and maintenance capability necessary to meet the requirements of the National Military Strategy and other requirements for responding to mobilizations and military contingencies, and (ii) to provide for rapid augmentation in time of emergency; and

(B) is assigned sufficient workload to ensure cost efficiency and technical proficiency in time of peace.

(4) Address environmental liability.

(5) In the case of depot-level maintenance and repair workloads in excess of the workload required to be performed by Department of Defense depots, provide for competition for those workloads between public and private entities when there is sufficient potential for realizing cost savings based on adequate private-sector competition and technical capabilities.

(6) Address issues concerning exchange of technical data between the Federal Government and the private sector.

(7) Provide for, in the Secretary's discretion and after consultation with the Secretaries of the military departments, the transfer from one military department to another, in accordance with merit-based selection processes, workload that supports the core depot-level maintenance and repair capabilities in facilities owned and operated by the United States.

(3) Any applicable recommendations of the Defense Base Closure and Realignment Commission that are required to be implemented under the Defense Base Closure and Realignment Act of 1990.

(4) The extent to which the readiness of the Armed Forces would be affected by a necessity to construct new facilities to accommodate any redistribution of depot-level maintenance and repair workloads that is made in accordance with the recommendation of the Defense Base Closure and Realignment Commission, under the Defense Base Closure and Realignment Act of 1990, that such workloads be consolidated at Department of Defense depots or private-sector facilities.

(5) Analyses of costs and benefits of alternatives, including a comparative analysis of—

(A) the costs and benefits, including any readiness implications, of any proposed policy to convert to contractor performance of depot-level maintenance and repair workloads where the workload is being performed by Department of Defense personnel; and

(B) the costs and benefits, including any readiness implications, of a policy to transfer depot-level maintenance and repair workloads among depots.

(f) REPEAL OF 60/40 REQUIREMENT AND REQUIREMENT RELATING TO COMPETITION.—(1) Sections 2466 and 2469 of title 10, United States Code, are repealed.

(2) An analysis of the distribution during the five fiscal years ending with fiscal year 1995 of the depot-level maintenance and repair workload of the Department of Defense between depot-level activities of the Department of Defense and non-Government personnel, measured by direct labor hours and by amounts expended, and displayed, for that five-year period and for each year of that period, so as to show (for each military department (and separately for the Navy and Marine Corps)) such distribution.

(3) A projection of the distribution during the five fiscal years beginning with fiscal year 1997 of the depot-level maintenance and repair workload of the Department of Defense between depot-level activities of the Department of Defense and non-Government personnel, measured by direct labor hours and by amounts expended, and displayed, for that five-year period and for each year of that period, so as to show (for each military department (and separately for the Navy and Marine Corps)) such distribution that would be accomplished under a new policy as required under subsection (c).

"(n) UNIFORM NATIONAL DISCHARGE STANDARDS FOR VESSELS OF THE ARMED FORCES.—

"(1) APPLICABILITY.—This subsection shall apply to vessels of the Armed Forces and discharges, other than sewage, incidental to the normal operation of a vessel of the Armed Forces, unless the Secretary of Defense finds that compliance with this subsection would not be in the national security interests of the United States.

"(2) DETERMINATION OF DISCHARGES REQUIRED TO BE CONTROLLED BY MARINE POLLUTION CONTROL DEVICES.—

"(A) IN GENERAL.—The Administrator and the Secretary of Defense, after consultation with the Secretary of the department in which the Coast Guard is operating, the Secretary of Commerce, and interested States, shall jointly determine the discharges incidental to the normal operation of a vessel of the Armed Forces for which it is reasonable and practicable to require use of a marine pollution control device to mitigate adverse impacts on the marine environment. Notwithstanding subsection (a)(1) of section 553 of title 5, United States Code, the Administrator and the Secretary of Defense shall promulgate the determinations in accordance with such section. The Secretary of Defense shall require the use of a marine pollution control device on board a vessel of the Armed Forces in any case in which it is determined that the use of such a device is reasonable and practicable.

"(B) CONSIDERATIONS.—In making a determination under subparagraph (A), the Administrator and the Secretary of Defense shall take into consideration—

"(i) the nature of the discharge;

"(ii) the environmental effects of the discharge;

"(iii) the practicability of using the marine pollution control device;

"(iv) the effect that installation or use of the marine pollution control device would have on the operation or operational capability of the vessel;

"(v) applicable United States law;

"(vi) applicable international standards; and

"(vii) the economic costs of the installation and use of the marine pollution control device.

"(3) PERFORMANCE STANDARDS FOR MARINE POLLUTION CONTROL DEVICES.—

"(A) IN GENERAL.—For each discharge for which a marine pollution control device is determined to be required under paragraph (2), the Administrator and the Secretary of Defense, in consultation with the Secretary of the department in which the Coast Guard is operating, the Secretary of State, the Secretary of Commerce, other interested Federal agencies, and interested States, shall jointly promulgate Federal standards of performance for each marine pollution control device required with respect to the discharge. Notwithstanding subsection (a)(1) of section 553 of title 5, United States Code, the Administrator and the Secretary of Defense shall promulgate the standards in accordance with such section.

"(B) CONSIDERATIONS.—In promulgating standards under this paragraph, the Administrator and the Secretary of Defense shall take into consideration the matters set forth in paragraph (2)(B).

"(C) CLASSES, TYPES, AND SIZES OF VESSELS.—The standards promulgated under this paragraph may—

"(i) distinguish among classes, types, and sizes of vessels;

"(ii) distinguish between new and existing vessels; and

"(B) STANDARDS.—The Administrator and the Secretary of Defense shall—

"(i) promulgate standards of performance for a marine pollution control device under paragraph (3) not later than 2 years after the date of a determination under paragraph (2) that the marine pollution control device is required; and

"(ii) every 5 years—

"(I) review the standards; and

"(II) if necessary, revise the standards, consistent with paragraph (3)(B) and based on significant new information.

"(C) REGULATIONS.—The Secretary of Defense shall promulgate regulations with respect to a marine pollution control device under paragraph (4) as soon as practicable after the Administrator and the Secretary of Defense promulgate standards with respect to the device under paragraph (3), but not later than 1 year after the Administrator and the Secretary of Defense promulgate the standards. The regulations promulgated by the Secretary of Defense under paragraph (4) shall become effective upon promulgation unless another effective date is specified in the regulations.

"(D) PETITION FOR REVIEW.—The Governor of any State may submit a petition requesting that the Secretary of Defense and the Administrator review a determination under paragraph (2) or a standard under paragraph (3), if there is significant new information, not considered previously, that could reasonably result in a change to the particular determination or standard after consideration of the matters set forth in paragraph (2)(B). The petition shall be accompanied by the scientific and technical information on which the petition is based. The Administrator and the Secretary of Defense shall grant or deny the petition not later than 2 years after the date of receipt of the petition.

"(6) EFFECT ON OTHER LAWS.—

"(A) PROHIBITION ON REGULATION BY STATES OR POLITICAL SUBDIVISIONS OF STATES.—Beginning on the effective date of—

"(i) a determination under paragraph (2) that it is not reasonable and practicable to require use of a marine pollution control device regarding a particular discharge incidental to the normal operation of a vessel of the Armed Forces; or

"(ii) regulations promulgated by the Secretary of Defense under paragraph (4);

except as provided in paragraph (7), neither a State nor a political subdivision of a State may adopt or enforce any statute or regulation of the State or political subdivision with respect to the discharge or the design, construction, installation, or use of any marine pollution control device required to control discharges from a vessel of the Armed Forces.

"(B) FEDERAL LAWS.—This subsection shall not affect the application of section 311 to discharges incidental to the normal operation of a vessel.

"(7) ESTABLISHMENT OF STATE NO-DISCHARGE ZONES.—

"(A) STATE PROHIBITION.—

"(i) IN GENERAL.—After the effective date of—

"(I) a determination under paragraph (2) that it is not reasonable and practicable to require use of a marine pollution control device regarding a particular discharge incidental to the normal operation of a vessel of the Armed Forces; or

"(II) regulations promulgated by the Secretary of Defense under paragraph (4);

if a State determines that the protection and enhancement of the quality of some or all of the waters within the State require greater environmental protection, the State may prohibit 1 or more discharges incidental to the normal operation of a vessel, whether treated or not treated, into the waters. No prohibition shall apply until the Administrator makes the determinations described in subclauses (II) and (III) of subparagraph (B)(i).

"(ii) DOCUMENTATION.—To the extent that a prohibition under this paragraph would apply to vessels of the Armed Forces and not to other types of vessels, the State shall document the technical or environmental basis for the distinction.

"(B) PROHIBITION BY THE ADMINISTRATOR.—

"(i) IN GENERAL.—Upon application of a State, the Administrator shall by regulation prohibit the discharge from a vessel of 1 or more discharges incidental to the normal operation of a vessel, whether treated or not treated, into the waters covered by the application if the Administrator determines that—

"(I) the protection and enhancement of the quality of the specified waters within the State require a prohibition of the discharge into the waters;

"(II) adequate facilities for the safe and sanitary removal of the discharge incidental to the normal operation of a vessel are reasonably available for the waters to which the prohibition would apply; and

"(III) the prohibition will not have the effect of discriminating against a vessel of the Armed Forces by reason of the ownership or operation by the Federal Government, or the military function, of the vessel.

"(ii) APPROVAL OR DISAPPROVAL.—The Administrator shall approve or disapprove an application submitted under clause (i) not later than 90 days after the date on which the application is submitted to the Administrator. Notwithstanding clause (i)(II), the Administrator shall not disapprove an application for the sole reason that there are not adequate facilities to remove any discharge incidental to the normal operation of a vessel from vessels of the Armed Forces.

"(C) APPLICABILITY TO FOREIGN FLAGGED VESSELS.—A prohibition under this paragraph—

"(i) shall not impose any design, construction, manning, or equipment standard on a foreign flagged vessel engaged in innocent passage unless the prohibition implements a generally accepted international rule or standard; and

"(ii) that relates to the prevention, reduction, and control of pollution shall not apply to a foreign flagged vessel engaged in transit passage unless the prohibition implements an applicable international regulation regarding the discharge of oil, oily waste, or any other noxious substance into the waters.

"(8) PROHIBITION RELATING TO VESSELS OF THE ARMED FORCES.—After the effective date of the regulations promulgated by the Secretary of Defense under paragraph (4), it shall be unlawful for any vessel of the Armed Forces subject to the regulations to—

"(A) operate in the navigable waters of the United States or the waters of the contiguous zone, if the vessel is not equipped with any required marine pollution control device meeting standards established under this subsection; or

"(B) discharge overboard any discharge incidental to the normal operation of a vessel in waters with respect to which a prohibition on the discharge has been established under paragraph (7).

"(9) ENFORCEMENT.—This subsection shall be enforceable, as provided in subsections (j) and (k), against any agency of the United States responsible for vessels of the Armed Forces notwithstanding any immunity asserted by the agency.".

The Secretary shall prescribe the rate on the basis of the best available estimate of risk and financial exposure, levels of subscription by members, and other relevant factors.

"(b) LEVEL PREMIUMS.—The premium rate prescribed for the first year of insurance coverage of an insured member shall be continued without change for subsequent years of insurance coverage, except that the Secretary, after consultation with the Board of Actuaries, may adjust the premium rate in order to fund inflation-adjusted benefit increases on an actuarially sound basis.

**"§ 12527. Payment of premiums**

"(a) METHODS OF PAYMENT.—(1) The monthly premium for coverage of a member under the insurance program shall be deducted and withheld from the insured member's pay for each month.

No disbursing or certifying officer shall be responsible for any loss resulting from an advance under this subsection.

"(c) PREMIUMS TO BE DEPOSITED IN FUND.—Premium amounts deducted and withheld from the pay of insured members and premium amounts paid directly to the Secretary shall be credited monthly to the Fund.

**"§ 12528. Reserve Mobilization Income Insurance Fund**

"(a) ESTABLISHMENT.—There is established on the books of the Treasury a fund to be known as the 'Reserve Mobilization Income Insurance Fund', which shall be administered by the Secretary of the Treasury. The Fund shall be used for the accumulation of funds in order to finance the liabilities of the insurance program on an actuarially sound basis.

"(b) ASSETS OF FUND.—There shall be deposited into the Fund the following:

The income on such investments shall be credited to the Fund.

"(e) ANNUAL ACCOUNTING.—At the beginning of each fiscal year, the Secretary, in consultation with the Board of Actuaries and the Secretary of the Treasury, shall determine the following:

The Board shall conduct the first valuation and determine a premium rate methodology not later than six months after the insurance program is established.

"(c) EFFECTS OF CHANGED BENEFITS.—If at the time of any actuarial valuation under subsection (b) there has been a change in benefits under the insurance program that has been made since the last such valuation and such change in benefits increases or decreases the present value of amounts payable from the Fund, the Board of Actuaries shall determine a premium rate methodology, and recommend to the Secretary a premium schedule, for the liquidation of any liability (or actuarial gain to the Fund) resulting from such change and any previous such changes so that the present value of the sum of the scheduled premium payments (or reduction in payments that would otherwise be made)

equals the cumulative increase (or decrease) in the present value of such benefits.

"(d) ACTUARIAL GAINS OR LOSSES.—If at the time of any such valuation the Board of Actuaries determines that there has been an actuarial gain or loss to the Fund as a result of changes in actuarial assumptions since the last valuation or as a result of any differences, between actual and expected experience since the last valuation, the Board shall recommend to the Secretary a premium rate schedule for the amortization of the cumulative gain or loss to the Fund resulting from such changes in assumptions and any previous such changes in assumptions or from the differences in actual and expected experience, respectively, through an increase or decrease in the payments that would otherwise be made to the Fund.

"(e) INSUFFICIENT ASSETS.—If at any time liabilities of the Fund exceed assets of the Fund as a result of members of the Ready Reserve being ordered to active duty as described in section 12521(2) of this title, and funds are unavailable to pay benefits completely, the Secretary shall request the President to submit to Congress a request for a special appropriation to cover the unfunded liability. If appropriations are not made to cover an unfunded liability in any fiscal year, the Secretary shall reduce the amount of the benefits paid under the insurance program to a total amount that does not exceed the assets of the Fund expected to accrue by the end of such fiscal year. Benefits that cannot be paid because of such a reduction shall be deferred and may be paid only after and to the extent that additional funds become available.

"(f) DEFINITION OF PRESENT VALUE.—The Board of Actuaries shall define the term 'present value' for purposes of this subsection.

**"§ 12530. Payment of benefits**

"(2) A member may direct that payments of insurance benefits for a person designated under paragraph (1) be deposited with a bank or other financial institution to the credit of the designated person.

"(d) RECIPIENTS IN EVENT OF DEATH OF INSURED MEMBER.—Any insurance payable under the insurance program on account of a deceased member's period of covered service shall be paid, upon the establishment of a valid claim, to the beneficiary or beneficiaries which the deceased member designated in writing. If no such designation has been made, the amount shall be payable in accordance with the laws of the State of the member's domicile.

**"§ 12531. Purchase of insurance**

"(2) For the purposes of carrying out this chapter, the Secretary may use the facilities and services of any insurance company issuing any policy for purposes of subsection (a), may designate one such company as the representative of the other companies for such purposes, and may contract to pay a reasonable fee to the designated company for its services.

"(d) REINSURANCE.—The Secretary shall arrange with each insurance company issuing any policy for purposes of subsection (a) to reinsure, under conditions approved by the Secretary, portions of the total amount of the insurance under such policy or policies with such other insurance companies (which meet qualifying criteria prescribed by the Secretary) as may elect to participate in such reinsurance.

"(e) TERMINATION.—The Secretary may at any time terminate any policy purchased under this section.

**"§ 12532. Termination for nonpayment of premiums; forfeiture**

**SEC. 522. AUTHORITY TO AWARD DECORATIONS RECOGNIZING ACTS OF VALOR PERFORMED IN COMBAT DURING THE VIETNAM CONFLICT.**

(a) FINDINGS.—Congress makes the following findings:

(1) The Ia Drang Valley (Pleiku) campaign, carried out by the Armed Forces in the Ia Drang Valley of Vietnam from October 23, 1965, to November 26, 1965, is illustrative of the many battles during the Vietnam conflict which pitted forces of the United States against North Vietnamese Army regulars and Viet Cong in vicious fighting.

(2) Accounts of those battles that have been published since the end of that conflict authoritatively document numerous and repeated acts of extraordinary heroism, sacrifice, and bravery on the part of members of the Armed Forces, many of which have never been officially recognized.

(3) In some of those battles, United States military units suffered substantial losses, with some units sustaining casualties in excess of 50 percent.

(4) The incidence of heavy casualties throughout the Vietnam conflict inhibited the timely collection of comprehensive and detailed information to support recommendations for awards recognizing acts of heroism, sacrifice, and bravery.

(5) Subsequent requests to the Secretaries of the military departments for review of award recommendations for such

acts have been denied because of restrictions in law and regulations that require timely filing of such recommendations and documented justification.

(6) Acts of heroism, sacrifice, and bravery performed in combat by members of the Armed Forces deserve appropriate and timely recognition by the people of the United States.

(7) It is appropriate to recognize acts of heroism, sacrifice, or bravery that are belatedly, but properly, documented by persons who witnessed those acts.

(b) WAIVER OF TIME LIMITATIONS FOR RECOMMENDATIONS FOR AWARDS.—(1) Any decoration covered by paragraph (2) may be awarded, without regard to any time limit imposed by law or regulation for a recommendation for such award to any person for actions by that person in the Southeast Asia theater of operations while serving on active duty during the Vietnam era. The waiver of time limitations under this paragraph applies only in the case of awards for acts of valor for which a request for consideration is submitted under subsection (c).

(2) Paragraph (1) applies to any decoration (including any device in lieu of a decoration) that, during or after the Vietnam era and before the date of the enactment of this Act, was authorized by law or under regulations of the Department of Defense or the military department concerned to be awarded to members of the Armed Forces for acts of valor.

(c) REVIEW OF REQUESTS FOR CONSIDERATION OF AWARDS.—(1) The Secretary of each military department shall review each request for consideration of award of a decoration described in subsection (b) that are received by the Secretary during the one-year period beginning on the date of enactment of this Act.

(2) The Secretaries shall begin the review within 30 days after the date of the enactment of this Act and shall complete the review of each request for consideration not later than one year after the date on which the request is received.

(3) The Secretary may use the same process for carrying out the review as the Secretary uses for reviewing other recommendations for award of decorations to members of the Armed Forces under the Secretary's jurisdiction for valorous acts.

(d) REPORT.—(1) Upon completing the review of each such request under subsection (c), the Secretary shall submit a report on the review to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives.

(2) The report shall include, with respect to each request for consideration received, the following information:

(2) Paragraph (1) applies to any decoration (including any device in lieu of a decoration) that, during or after the period described in paragraph (1) and before the date of the enactment of this Act, was authorized by law or under the regulations of the Department of Defense or the military department concerned to be awarded to a person for an act, achievement, or service performed by that person while serving on active duty.

(b) REVIEW OF REQUESTS FOR CONSIDERATION OF AWARDS.—(1) The Secretary of each military department shall review each request for consideration of award of a decoration described in subsection (a) that is received by the Secretary during the one-year period beginning on the date of the enactment of this Act.

(2) The Secretaries shall begin the review within 30 days after the date of the enactment of this Act and shall complete the review of each request for consideration not later than one year after the date on which the request is received.

War II. The purpose of the review shall be to determine whether any such award should be upgraded to the Medal of Honor.

(2) If the Secretary concerned determines, based upon the review under paragraph (1), that such an upgrade is appropriate in the case of any person, the Secretary shall submit to the President a recommendation that the President award the Medal of Honor to that person.

(b) WAIVER OF TIME LIMITATIONS.—A Medal of Honor may be awarded to a person referred to in subsection (a) in accordance with a recommendation of the Secretary concerned under that subsection without regard to—

(b) SENSE OF CONGRESS.—In light of the findings specified in subsection (a), it is the sense of Congress that—

(1) the Secretary of Defense should develop a program to ensure that such covered beneficiaries who reside in a region in which the TRICARE program has been implemented continue to have adequate access to health care services after the implementation of the TRICARE program; and

(2) as a means of ensuring such access, the budget for fiscal year 1997 submitted by the President under section 1105 of title 31, United States Code, should provide for reimbursement by the Health Care Financing Administration to the Department of Defense for health care services provided to such covered beneficiaries in medical treatment facilities of the Department of Defense.

(a) FINDINGS.—Congress makes the following findings:

(1) A requirement for the Department of the Navy to acquire 19 large, medium-speed, roll-on/roll-off (LMSR) vessels was established by the Secretary of Defense in the Mobility Requirements Study conducted after the Persian Gulf War pursuant to section 909 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101–510; 104 Stat. 1623) and was revalidated by the Secretary of Defense in the report entitled "Mobility Requirements Study Bottom-Up Review Update", submitted to Congress in April 1995.

(2) The Strategic Sealift Program is a vital element of the national military strategy calling for the Nation to be able to fight and win two nearly simultaneous major regional contingencies.

(3) The Secretary of the Navy has entered into contracts with shipyards covering acquisition of a total of 17 such LMSR vessels, of which five are vessel conversions and 12 are new construction vessels. Under those contracts, the Secretary has placed orders for the acquisition of 11 vessels and has options for the acquisition of six more, all of which would be new construction vessels. The options allow the Secretary to place orders for one vessel to be constructed at each of two shipyards for award before December 31, 1995, December 31, 1996, and December 31, 1997, respectively.

(4) Acquisition of an additional two such LMSR vessels, for a total of 19 vessels (the requirement described in paragraph (1)) would contribute to preservation of the industrial base of United States shipyards capable of building auxiliary and sealift vessels.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of the Navy should plan for, and budget to provide for, the acquisition as soon as possible of a total of 19 large, medium-speed, roll-on/roll-off (LMSR) vessels (the number determined to be required in the Mobility Requirements Study referred to in subsection (a)(1)), rather than only 17 such vessels (the number of vessels under contract as of May 1995).

(c) ADDITIONAL NEW CONSTRUCTION CONTRACT OPTION.—The Secretary of the Navy should negotiate with each of the two shipyards holding new construction contracts referred to in subsection (a)(3) (Department of the Navy contracts numbered N00024–93–C–2203 and N00024–93–C–2205) for an option under each such contract for construction of one additional such LMSR vessel, with

such option to be available to the Secretary for exercise during 1995, 1996, or 1997.

(d) REPORT.—The Secretary of the Navy shall submit to the congressional defense committees, by March 31, 1996, a report stating the intentions of the Secretary regarding the acquisition of options for the construction of two additional LMSR vessels as described in subsection (c).

For purposes of this section, the term ''current system'' shall be considered also to include any retirement system (besides the one in which the individual is participating at the time of making the election) in which such individual previously participated since the move on which the election is based.

(ii) CONDITION SUBSEQUENT RELATING TO REPAYMENT OF LUMP-SUM CREDIT.—In the case of an individual who has received such individual's lump-sum credit (within the meaning of section 8401(19) of title 5, United States Code, or a similar payment) from such individual's previous system, the payment described in clause (i) shall not be made (and the election to which it relates shall be ineffective) unless such lump-sum credit is redeposited or otherwise paid at such time and in such manner as shall be required under applicable regulations. Regulations to carry out this clause shall include provisions for the computation of interest (consistent with section 8334(e) (2) and (3) of title 5, United States Code), if no provisions for such computation otherwise exist.

(I) appropriate transfers of individual and Government contributions are made to the Civil Service Retirement and Disability Fund; and

(II) the actuarial present value of future benefits under FERS attributable to service made creditable by such election is fully funded.

(E) ALTERNATIVE ELECTION FOR AN INDIVIDUAL THEN PARTICIPATING IN A NAFI RETIREMENT SYSTEM.—

(i) APPLICABILITY.—This subparagraph applies with respect to any individual who—

(I) is then currently participating in any retirement system established for employees described in section 2105(c) of title 5, United States Code (in this subparagraph referred to as a "NAFI retirement system"); and

(II) would then otherwise be eligible to make an election under subparagraphs (A) through (C) of this paragraph (determined disregarding the matter in subclause (I) of subparagraph (B) before the first semicolon therein) based on a move from FERS.

(ii) ELECTION.—An individual described in clause (i) may, instead of making an election for which such individual is otherwise eligible under this paragraph, elect to have all prior qualifying FERS service of such individual treated as creditable service for purposes of determining eligibility for benefits under a NAFI retirement system, but not for purposes of computing

the amount of any such benefits except as provided in clause (v)(II).

(v) FUNDING REQUIREMENTS.—

(I) IN GENERAL.—Except as provided in subclause (II), nothing in this section or in any other provision of law or any other authority shall be considered to require any payment or transfer of monies in order for an election under this subparagraph to be effective.

(II) CONTRIBUTION REQUIRED ONLY IF INDIVIDUAL ELECTS TO HAVE SERVICE MADE CREDITABLE FOR COMPUTATION PURPOSES AS WELL.—Under regulations prescribed by the appropriate administrative authority, an individual making an election under this subparagraph may further elect to have the qualifying FERS service made creditable for computation purposes under a NAFI retirement system, but only if the individual pays or arranges to pay, at a time and in a manner satisfactory to such administrative authority, the amount necessary to fully fund the actuarial present value of future benefits under the NAFI retirement system attributable to the qualifying FERS service.

(3) INFORMATION.—The regulations under subsection (b) shall include provisions under which any individual—

(A) shall, upon request, be provided information or assistance in determining whether such individual is eligible to make an election under paragraph (2) and, if so, the exact amount of any payment which would be required of such individual in connection with any such election; and

(B) may seek any other information or assistance relating to any such election.

# TITLE XIII—MATTERS RELATING TO OTHER NATIONS

## Subtitle A—Peacekeeping Provisions

### SEC. 1301. PLACEMENT OF UNITED STATES FORCES UNDER UNITED NATIONS OPERATIONAL OR TACTICAL CONTROL.

(a) FINDINGS.—Congress finds the following:

(1) The President has made United Nations peace operations a major component of the foreign and security policies of the United States.

(2) The President has committed United States military personnel under United Nations operational control to missions in Haiti, Croatia, and Macedonia that could endanger those personnel.

(3) The President has committed the United States to deploy as many as 25,000 military personnel to Bosnia-Herzegovina as peacekeepers under NATO operational control in the event that the parties to that conflict reach a peace agreement.

(4) Although the President has insisted that he will retain command of United States forces at all times, in the past this has meant administrative control of United States forces only, while operational control has been ceded to United Nations commanders, some of whom were foreign nationals.

(5) The experience of United States forces participating in combined United States-United Nations operations in Somalia, and in combined United Nations-NATO operations in the former Yugoslavia, demonstrate that prerequisites for effective military operations such as unity of command and clarity of mission have not been met by United Nations command and control arrangements.

(6) Despite the many deficiencies in the conduct of United Nations peace operations, there may be unique occasions when it is in the national security interests of the United States to participate in such operations.

(b) POLICY.—It is the sense of Congress that—

(1) the President should consult closely with Congress regarding any United Nations peace operation that could involve United States combat forces and that such consultations should continue throughout the duration of such activities;

(2) the President should consult with Congress before a vote within the United Nations Security Council on any resolution which would authorize, extend, or revise the mandate for any such activity;

(3) in view of the complexity of United Nations peace operations and the difficulty of achieving unity of command and expeditious decisionmaking, the United States should participate in such operations only when it is clearly in the national security interest to do so;

(4) United States combat forces should be under the operational control of qualified commanders and should have clear and effective command and control arrangements and rules of engagement (which do not restrict their self-defense in any way) and clear and unambiguous mission statements; and

(5) none of the Armed Forces of the United States should be under the operational control of foreign nationals in United Nations peace enforcement operations except in the most extraordinary circumstances.

(c) DEFINITIONS.—For purposes of subsections (a) and (b):

(1) The term ''United Nations peace enforcement operations'' means any international peace enforcement or similar activity that is authorized by the United Nations Security Council under chapter VII of the Charter of the United Nations.

(2) The term ''United Nations peace operations'' means any international peacekeeping, peacemaking, peace enforcement, or similar activity that is authorized by the United Nations Security Council under chapter VI or VII of the Charter of the United Nations.

**''§ 405. Placement of United States forces under United Nations operational or tactical control: limitation**

''(a) LIMITATION.—Except as provided in subsections (b) and (c), funds appropriated or otherwise made available for the Department of Defense may not be obligated or expended for activities of any element of the armed forces that after the date of the enactment of this section is placed under United Nations operational or tactical control, as defined in subsection (f).

''(b) EXCEPTION FOR PRESIDENTIAL CERTIFICATION.—(1) Subsection (a) shall not apply in the case of a proposed placement of an element of the armed forces under United Nations operational or tactical control if the President, not less than 15 days before the date on which such United Nations operational or tactical control is to become effective (or as provided in paragraph (2)), meets the requirements of subsection (d).

''(2) If the President certifies to Congress that an emergency exists that precludes the President from meeting the requirements of subsection (d) 15 days before placing an element of the armed forces under United Nations operational or tactical control, the President may place such forces under such operational or tactical control and meet the requirements of subsection (d) in a timely manner, but in no event later than 48 hours after such operational or tactical control becomes effective.

''(c) ADDITIONAL EXCEPTIONS.—(1) Subsection (a) shall not apply in the case of a proposed placement of any element of the armed forces under United Nations operational or tactical control if the Congress specifically authorizes by law that particular placement of United States forces under United Nations operational or tactical control.

"(2) Subsection (a) shall not apply in the case of a proposed placement of any element of the armed forces in an operation conducted by the North Atlantic Treaty Organization.

"(d) PRESIDENTIAL CERTIFICATIONS.—The requirements referred to in subsection (b)(1) are that the President submit to Congress the following:

"(1) Certification by the President that it is in the national security interests of the United States to place any element of the armed forces under United Nations operational or tactical control.

"(2) A report setting forth the following:

"(A) A description of the national security interests that would be advanced by the placement of United States forces under United Nations operation or tactical control.

"(B) The mission of the United States forces involved.

"(C) The expected size and composition of the United States forces involved.

"(F) The extent to which the United States forces involved will rely on forces of other countries for security and defense and an assessment of the capability of those other forces to provide adequate security to the United States forces involved.

"(G) The exit strategy for complete withdrawal of the United States forces involved.

"(H) The extent to which the commander of any unit of the armed forces proposed for placement under United Nations operational or tactical control will at all times retain the right—

"(i) to report independently to superior United States military authorities; and

"(ii) to decline to comply with orders judged by the commander to be illegal or beyond the mandate of the mission to which the United States agreed with the United Nations, until such time as that commander receives direction from superior United States military authorities with respect to the orders that the commander has declined to comply with.

"(I) The extent to which the United States will retain the authority to withdraw any element of the armed forces from the proposed operation at any time and to take any action it considers necessary to protect those forces if they are engaged.

"(J) The anticipated monthly incremental cost to the United States of participation in the United Nations operation by the United States forces which are proposed to be placed under United Nations operational or tactical control.

(a) REPORT ON EFFECTS OF MORATORIUM.—Not later than April 30 of each of 1996, 1997, and 1998, the Chairman of the Joint Chiefs of Staff shall submit to the congressional defense committees a report on the projected effects of a moratorium on the defensive use of antipersonnel mines and antitank mines by the Armed Forces. The report shall include a discussion of the following matters:

(1) The extent to which current doctrine and practices of the Armed Forces on the defensive use of antipersonnel mines and antitank mines adhere to applicable international law.

(2) The effects that a moratorium would have on the defensive use of the current United States inventory of remotely delivered, self-destructing antitank systems, antipersonnel mines, and antitank mines.

(3) The reliability of the self-destructing antipersonnel mines and self-destructing antitank mines of the United States.

(4) The cost of clearing the antipersonnel minefields currently protecting Naval Station Guantanamo Bay, Cuba, and other United States installations.

(5) The cost of replacing antipersonnel mines in such minefields with substitute systems such as the Claymore mine, and the level of protection that would be afforded by use of such a substitute.

(6) The extent to which the defensive use of antipersonnel mines and antitank mines by the Armed Forces is a source of civilian casualties around the world, and the extent to which the United States, and the Department of Defense particularly, contributes to alleviating the illegal and indiscriminate use of such munitions.

(7) The extent to which the threat to the security of United States forces during operations other than war and combat operations would increase as a result of such a moratorium.

(b) CERTIFICATION REQUIRED BEFORE OBSERVANCE OF MORATORIUM.—Any moratorium imposed by law (whether enacted before, on, or after the date of the enactment of this Act) on the use of antipersonnel landmines by the Armed Forces may be implemented only if (and after) the Secretary of Defense, after consultation with the Chairman of the Joint Chiefs of Staff, certifies to Congress that—

(1) the moratorium will not adversely affect the ability of United States forces to defend against attack on land by hostile forces; and

(2) the Armed Forces have systems that are effective substitutes for antipersonnel landmines.

**SEC. 1403. EXTENSION AND AMENDMENT OF COUNTER-PROLIFERATION AUTHORITIES.**

**SEC. 1404. LIMITATION ON RETIREMENT OR DISMANTLEMENT OF STRATEGIC NUCLEAR DELIVERY SYSTEMS.**

(a) SENSE OF CONGRESS.—It is the sense of Congress that, unless and until the START II Treaty enters into force, the Secretary of Defense should not take any action to retire or dismantle, or to prepare to retire or dismantle, any of the following strategic nuclear delivery systems:

(1) B-52H bomber aircraft.

(2) Trident ballistic missile submarines.

(3) Minuteman III intercontinental ballistic missiles.

(4) Peacekeeper intercontinental ballistic missiles.

(b) LIMITATION ON USE OF FUNDS.—Funds available to the Department of Defense may not be obligated or expended during fiscal year 1996 for retiring or dismantling, or for preparing to retire or dismantle, any of the strategic nuclear delivery systems specified in subsection (a).

**SEC. 1405. CONGRESSIONAL FINDINGS AND SENSE OF CONGRESS CONCERNING TREATY VIOLATIONS.**

(a) REAFFIRMATION OF PRIOR FINDINGS CONCERNING THE KRASNOYARSK RADAR.—Congress, noting its previous findings with respect to the large phased-array radar of the Soviet Union known as the "Krasnoyarsk radar" stated in paragraphs (1) through (4) of section 902(a) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100–180; 101 Stat. 1135) (and reaffirmed in section 1006(a) of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101–189; 103 Stat. 1543)), hereby reaffirms those findings as follows:

(1) The 1972 Anti-Ballistic Missile Treaty prohibits each party from deploying ballistic missile early warning radars except at locations along the periphery of its national territory and oriented outward.

(2) The 1972 Anti-Ballistic Missile Treaty prohibits each party from deploying an ABM system to defend its national territory and from providing a base for any such nationwide defense.

(3) Large phased-array radars were recognized during negotiation of the Anti-Ballistic Missile Treaty as the critical long lead-time element of a nationwide defense against ballistic missiles.

(4) In 1983 the United States discovered the construction, in the interior of the Soviet Union near the town of Krasnoyarsk, of a large phased-array radar that has subsequently been judged to be for ballistic missile early warning and tracking.

(b) FURTHER REFERENCE TO 1987 CONGRESSIONAL STATEMENTS.—Congress further notes that in section 902 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100–180; 101 Stat. 1135) Congress also—

(1) noted that the President had certified that the Krasnoyarsk radar was an unequivocal violation of the 1972 Anti-Ballistic Missile Treaty; and

(2) stated it to be the sense of the Congress that the Soviet Union was in violation of its legal obligation under that treaty.

(c) FURTHER REFERENCE TO 1989 CONGRESSIONAL STATEMENTS.—Congress further notes that in section 1006(b) of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101–189; 103 Stat. 1543) Congress also—

(1) again noted that in 1987 the President declared that radar to be a clear violation of the 1972 Anti-Ballistic Missile Treaty and noted that on October 23, 1989, the Foreign Minister of the Soviet Union conceded that the Krasnoyarsk radar is a violation of the 1972 Anti-Ballistic Missile Treaty; and

(2) stated it to be the sense of the Congress that the Soviet Union should dismantle the Krasnoyarsk radar expeditiously and without conditions and that until such radar was completely dismantled it would remain a clear violation of the 1972 Anti-Ballistic Missile Treaty.

(d) ADDITIONAL FINDINGS.—Congress also finds, with respect to the Krasnoyarsk radar, that retired Soviet General Y.V. Votintsev, Director of the Soviet National Air Defense Forces from 1967 to 1985, has publicly stated—

(1) that he was directed by the Chief of the Soviet General staff to locate the large phased-array radar at Krasnoyarsk despite the recognition by Soviet authorities that the location of such a radar at that location would be a clear violation of the 1972 Anti-Ballistic Missile Treaty; and

(2) that Marshal D.F. Ustinov, Soviet Minister of Defense, threatened to relieve from duty any Soviet officer who continued to object to the construction of a large-phased array radar at Krasnoyarsk.

(e) SENSE OF CONGRESS CONCERNING SOVIET TREATY VIOLATIONS.—It is the sense of Congress that the government of the Soviet Union intentionally violated its legal obligations under the 1972 Anti-Ballistic Missile Treaty in order to advance its national security interests.

(f) SENSE OF CONGRESS CONCERNING COMPLIANCE BY RUSSIA WITH ARMS CONTROL OBLIGATIONS.—In light of subsections (a) through (e), it is the sense of Congress that the United States should remain vigilant in ensuring compliance by Russia with its arms control obligations and should, when pursuing future arms control agreements with Russia, bear in mind violations of arms control obligations by the Soviet Union.

**SEC. 1406. SENSE OF CONGRESS ON RATIFICATION OF CHEMICAL WEAPONS CONVENTION AND START II TREATY.**

(a) FINDINGS.—Congress makes the following findings:

(1) Proliferation of chemical or nuclear weapons materials poses a danger to United States national security, and the threat or use of such materials by terrorists would directly threaten United States citizens at home and abroad.

(2) Events such as the March 1995 terrorist release of a chemical nerve agent in the Tokyo subway, the threatened use of chemical weapons during the 1991 Persian Gulf War, and the widespread use of chemical weapons during the Iran-

Iraq War of the 1980's are all potent reminders of the menace posed by chemical weapons, of the fact that the threat of chemical weapons is not sufficiently addressed, and of the need to outlaw the development, production, and possession of chemical weapons.

(3) The Chemical Weapons Convention negotiated and signed by President Bush would make it more difficult for would-be proliferators, including terrorists, to acquire or use chemical weapons, if ratified and fully implemented, as signed, by all signatories.

(4) United States military authorities, including Chairman of the Joint Chiefs of Staff General John Shalikashvili, have stated that United States military forces will deter and respond to chemical weapons threats with a robust chemical defense and an overwhelming superior conventional response, as demonstrated in the Persian Gulf War, and have testified in support of the ratification of the Chemical Weapons Convention.

(5) The United States intelligence community has testified that the Convention will provide new and important sources of information, through regular data exchanges and routine and challenge inspections, to improve the ability of the United States to assess the chemical weapons status in countries of concern.

(6) The Convention has not entered into force for lack of the requisite number of ratifications.

(7) Russia has signed the Convention, but has not yet ratified it.

(8) There have been reports by Russian sources of continued Russian production and testing of chemical weapons, including a statement by a spokesman of the Russian Ministry of Defense on December 5, 1994, that "We cannot say that all chemical weapons production and testing has stopped altogether.".

(9) The Convention will impose a legally binding obligation on Russia and other nations that possess chemical weapons and that ratify the Convention to cease offensive chemical weapons activities and to destroy their chemical weapons stockpiles and production facilities.

(10) The United States must be prepared to exercise fully its rights under the Convention, including the request of challenge inspections when warranted, and to exercise leadership in pursuing punitive measures against violators of the Convention, when warranted.

(11) The United States should strongly encourage full implementation at the earliest possible date of the terms and conditions of the United States-Russia bilateral chemical weapons destruction agreement signed in 1990.

(12) The START II Treaty negotiated and signed by President Bush would help reduce the danger of potential proliferators, including terrorists, acquiring nuclear warheads and materials, and would contribute to United States-Russian bilateral efforts to secure and dismantle nuclear warheads, if ratified and fully implemented as signed by both parties.

(13) It is in the national security interest of the United States to take effective steps to make it more difficult for proliferators or would-be terrorists to obtain chemical or nuclear materials for use in weapons.

(14) The President has urged prompt Senate action on, and advice and consent to ratification of, the START II Treaty and the Chemical Weapons Convention.

(15) The Chairman of the Joint Chiefs of Staff has testified to Congress that ratification and full implementation of both treaties by all parties is in the United States national interest and has strongly urged prompt Senate advice and consent to their ratification.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States, Russia, and all other parties to the START II Treaty and the Chemical Weapons Convention should promptly ratify and fully implement, as negotiated, both treaties.

**SEC. 1407. IMPLEMENTATION OF ARMS CONTROL AGREEMENTS.**

(a) FUNDING.—Of the amounts appropriated pursuant to authorizations in sections 102, 103, 104, 201, and 301, the Secretary of Defense may use an amount not to exceed $239,941,000 for implementing arms control agreements to which the United States is a party.

(b) LIMITATION.—(1) Funds made available pursuant to subsection (a) for the costs of implementing an arms control agreement may not (except as provided in paragraph (2)) be used to reimburse expenses incurred by any other party to the agreement for which (without regard to any executive agreement or any policy not part of an arms control agreement)—

(A) the other party is responsible under the terms of the arms control agreement; and

(B) the United States has no responsibility under the agreement.

(2) The limitation in paragraph (1) does not apply to a use of funds to carry out an arms control expenses reimbursement policy of the United States described in subsection (c).

(c) COVERED ARMS CONTROL EXPENSES REIMBURSEMENT POLICIES.—Subsection (b)(2) applies to a policy of the United States to reimburse expenses incurred by another party to an arms control agreement if—

(1) the policy does not modify any obligation imposed by the arms control agreement;

(2) the President—

(A) issued or approved the policy before the date of the enactment of this Act; or

(B) entered into an agreement on the policy with the government of another country or approved an agreement on the policy entered into by an official of the United States and the government of another country; and

(3) the President has notified the designated congressional committees of the policy or the policy agreement (as the case may be), in writing, at least 30 days before the date on which the President issued or approved the policy or has entered into or approved the policy agreement.

(d) DEFINITIONS.—For the purposes of this section:

(1) The term ''arms control agreement'' means an arms control treaty or other form of international arms control agreement.

(2) The term ''executive agreement'' means an international agreement entered into by the President that is not authorized

by law or entered into as a Treaty to which the Senate has given its advice and consent to ratification.

The terms of the special use authorization shall be identical in substance to the lease that the special use authorization is superseding, including the expiration date and any payments owed the United States. On issuance of the special use authorization, the lease shall become void.

(2) In addition to the authority provided in paragraph (1), the Secretary of Agriculture may issue special use authorizations to persons for use of the Midewin National Tallgrass Prairie for agricultural purposes. to the same terms and conditions, as apply to the permit at the time of the transfer.

**SEC. 3414. CONDITIONS ON SALE PROCESS.**

(a) NOTICE REGARDING SALE CONDITIONS.—The Secretary may not enter into any contract for the sale of Naval Petroleum Reserve Numbered 1 under section 3412 until the end of the 31-day period beginning on the date on which the Secretary submits to the appropriate congressional committees a written notification—

**SEC. 3415. TREATMENT OF STATE OF CALIFORNIA CLAIM REGARDING RESERVE.**

(a) RESERVATION OF FUNDS.—After the costs incurred in the conduct of the sale of Naval Petroleum Reserve Numbered 1 under section 3412 are deducted, nine percent of the remaining proceeds from the sale of the reserve shall be reserved in a contingent fund in the Treasury for payment to the State of California for the Teachers' Retirement Fund of the State in the event that, and to the extent that, the claims of the State against the United States regarding production and proceeds of sale from Naval Petroleum Reserve Numbered 1 are—

(1) settled by agreement with the United States under subsection (c); or

(2) finally resolved in favor of the State by a court of competent jurisdiction, if a settlement agreement is not reached.

(b) DISPOSITION OF FUNDS.—In such amounts as may be provided in appropriation Acts, amounts in the contingent fund shall be available for paying a claim described in subsection (a). After final disposition of the claims, any unobligated balance in the contingent fund shall be credited to the general fund of the Treasury. If no payment is made from the contingent fund within 10 years after the effective date, amounts in the contingent fund shall be credited to the general fund of the Treasury.

The Secretary shall base the amount of the offered settlement payment from the contingent fund on the fair value for the State's claims, including the mineral estate, not to exceed the amount reserved in the contingent fund.

(d) RELEASE OF CLAIMS.—Acceptance of the settlement offer made under subsection (c) shall be subject to the condition that all claims against the United States by the State of California for the Teachers' Retirement Fund of the State be released with respect to lands in Naval Petroleum Reserve Numbered 1, including sections 16 and 36 of township 30 south, range 23 east, Mount Diablo Principal Meridian, California, or production or proceeds of sale from the reserve.

**SEC. 3416. STUDY OF FUTURE OF OTHER NAVAL PETROLEUM RESERVES.**

**"§ 2305a. Design-build selection procedures**

"(a) AUTHORIZATION.—Unless the traditional acquisition approach of design-bid-build established under the Brooks Architect-Engineers Act (41 U.S.C. 541 et seq.) is used or another acquisition procedure authorized by law is used, the head of an agency shall use the two-phase selection procedures authorized in this section for entering into a contract for the design and construction of a public building, facility, or work when a determination is made under subsection (b) that the procedures are appropriate for use.

"(b) CRITERIA FOR USE.—A contracting officer shall make a determination whether two-phase selection procedures are appropriate for use for entering into a contract for the design and construction of a public building, facility, or work when the contracting officer anticipates that three or more offers will be received for such contract, design work must be performed before an offeror can develop a price or cost proposal for such contract, the offeror will incur a substantial amount of expense in preparing the offer,

and the contracting officer has considered information such as the following:

"(1) The extent to which the project requirements have been adequately defined.

"(2) The time constraints for delivery of the project.

"(3) The capability and experience of potential contractors.

"(5) The capability of the agency to manage the two-phase selection process.

"(6) Other criteria established by the agency.

"(c) PROCEDURES DESCRIBED.—Two-phase selection procedures consist of the following:

"(1) The agency develops, either in-house or by contract, a scope of work statement for inclusion in the solicitation that defines the project and provides prospective offerors with sufficient information regarding the Government's requirements (which may include criteria and preliminary design, budget parameters, and schedule or delivery requirements) to enable the offerors to submit proposals which meet the Government's needs. If the agency contracts for development of the scope of work statement, the agency shall contract for architectural and engineering services as defined by and in accordance with the Brooks Architect-Engineers Act (40 U.S.C. 541 et seq.).

"(2) The contracting officer solicits phase-one proposals that—

"(A) include information on the offeror's—

"(i) technical approach; and

"(ii) technical qualifications; and

"(i) detailed design information; or

The agency evaluates phase-one proposals on the basis of the phase-one evaluation factors set forth in the solicitation.

"(4) The contracting officer selects as the most highly qualified the number of offerors specified in the solicitation to provide the property or services under the contract and requests the selected offerors to submit phase-two competitive proposals that include technical proposals and cost or price information. Each solicitation establishes with respect to phase two—

"(A) the technical submission for the proposal, including design concepts or proposed solutions to requirements addressed within the scope of work (or both), and

of proposals in accordance with paragraphs (2), (3), and (4) of section 2305(a) of this title.

"(d) SOLICITATION TO STATE NUMBER OF OFFERORS TO BE SELECTED FOR PHASE TWO REQUESTS FOR COMPETITIVE PROPOSALS.—A solicitation issued pursuant to the procedures described in subsection (c) shall state the maximum number of offerors that are to be selected to submit competitive proposals pursuant to subsection (c)(4). The maximum number specified in the solicitation shall not exceed 5 unless the agency determines with respect to an individual solicitation that a specified number greater than 5 is in the Government's interest and is consistent with the purposes and objectives of the two-phase selection process.

"(1) regarding the factors that may be considered in determining whether the two-phase contracting procedures authorized by subsection (a) are appropriate for use in individual contracting situations;

**SEC. 5312. SOLUTIONS-BASED CONTRACTING PILOT PROGRAM.**

(a) IN GENERAL.—The Administrator may authorize the heads of any of the executive agencies, in accordance with subsection (d)(2), to carry out a pilot program to test the feasibility of using solutions-based contracting for acquisition of information technology.

(b) SOLUTIONS-BASED CONTRACTING DESCRIBED.—For purposes of this section, solutions-based contracting is an acquisition method under which the acquisition objectives are defined by the Federal Government user of the technology to be acquired, a streamlined contractor selection process is used, and industry sources are allowed to provide solutions that attain the objectives effectively.

(c) PROCESS REQUIREMENTS.—The Administrator shall require use of a process with the following aspects for acquisitions under the pilot program:

(1) ACQUISITION PLAN EMPHASIZING DESIRED RESULT.—Preparation of an acquisition plan that defines the functional requirements of the intended users of the information technology to be acquired, identifies the operational improvements to be achieved, and defines the performance measurements to be applied in determining whether the information technology acquired satisfies the defined requirements and attains the identified results.

(2) RESULTS-ORIENTED STATEMENT OF WORK.—Use of a statement of work that is limited to an expression of the end results or performance capabilities desired under the acquisition plan.

(3) SMALL ACQUISITION ORGANIZATION.—Assembly of a small acquisition organization consisting of the following:

(A) An acquisition management team, the members of which are to be evaluated and rewarded under the pilot program for contributions toward attainment of the desired results identified in the acquisition plan.

(4) USE OF SOURCE SELECTION FACTORS EMPHASIZING SOURCE QUALIFICATIONS AND COSTS.—Use of source selection factors that emphasize—

(A) the qualifications of the offeror, including such factors as personnel skills, previous experience in providing other private or public sector organizations with solutions for attaining objectives similar to the objectives of the acquisition, past contract performance, qualifications of the proposed program manager, and the proposed management plan; and

(B) the costs likely to be associated with the conceptual approach proposed by the offeror.

(5) OPEN COMMUNICATIONS WITH CONTRACTOR COMMUNITY.—Open availability of the following information to potential offerors:

(A) The agency mission to be served by the acquisition.

(B) The functional process to be performed by use of information technology.

(C) The process improvements to be attained.

(6) SIMPLE SOLICITATION.—Use of a simple solicitation that sets forth only the functional work description, the source selection factors to be used in accordance with paragraph (4), the required terms and conditions, instructions regarding submission of offers, and the estimate of the Federal Government's budget for the desired work.

(7) SIMPLE PROPOSALS.—Submission of oral presentations and written proposals that are limited in size and scope and contain information on—

(A) the offeror's qualifications to perform the desired work;

(B) past contract performance;

(C) the proposed conceptual approach; and

(D) the costs likely to be associated with the proposed conceptual approach.

(8) SIMPLE EVALUATION.—Use of a simplified evaluation process, to be completed within 45 days after receipt of proposals, which consists of the following:

(A) Identification of the most qualified offerors that are within the competitive range.

(B) Issuance of invitations for at least three and not more than five of the identified offerors to make oral presentations to, and engage in discussions with, the evaluating personnel regarding, for each offeror—

(i) the qualifications of the offeror, including how the qualifications of the offeror relate to the approach proposed to be taken by the offeror in the acquisition; and

(ii) the costs likely to be associated with the approach.

(C) Evaluation of the qualifications of the identified offerors and the costs likely to be associated with the offerors' proposals on the basis of submissions required

under the process and any oral presentations made by, and any discussions with, the offerors.

(9) SELECTION OF MOST QUALIFIED OFFEROR.—A selection process consisting of the following:

(A) Identification of the most qualified source, and ranking of alternative sources, primarily on the basis of the oral proposals, presentations, and discussions, and written proposals submitted in accordance with paragraph (7).

(B) Conduct for 30 to 60 days of a program definition phase (funded, in the case of the source ultimately awarded the contract, by the Federal Government)—

(i) during which the selected source, in consultation with one or more intended users, develops a conceptual system design and technical approach, defines logical phases for the project, and estimates the total cost and the cost for each phase; and

(ii) after which a contract for performance of the work may be awarded to that source on the basis of cost, the responsiveness, reasonableness, and quality of the proposed performance, and a sharing of risk and benefits between the source and the Government.

(C) Conduct of as many successive program definition phases with alternative sources (in the order ranked) as is necessary in order to award a contract in accordance with subparagraph (B).

(10) SYSTEM IMPLEMENTATION PHASING.—System implementation to be executed in phases that are tailored to the solution, with various contract arrangements being used, as appropriate, for various phases and activities.

(1) JOINT PUBLIC-PRIVATE WORKING GROUP.—The Administrator, in consultation with the Administrator for the Office of Information and Regulatory Affairs, shall establish a joint working group of Federal Government personnel and representatives of the information technology industry to design a plan for conduct of any pilot program carried out under this section.

(2) CONTENT OF PLAN.—The plan shall provide for use of solutions-based contracting in the Department of Defense and not more than two other executive agencies for a total of—

(A) not more than 10 projects, each of which has an estimated cost of between $25,000,000 and $100,000,000; and

(B) not more than 10 projects, each of which has an estimated cost of between $1,000,000 and $5,000,000, to be set aside for small business concerns.

(3) COMPLEXITY OF PROJECTS.—(A) Subject to subparagraph (C), each acquisition project under the pilot program shall be sufficiently complex to provide for meaningful evaluation of the use of solutions-based contracting for acquisition of information technology for executive agencies.

(B) In order for an acquisition project to satisfy the requirement in subparagraph (A), the solution for attainment of the executive agency's objectives under the project should not be obvious, but rather shall involve a need for some innovative development and systems integration.

(C) An acquisition project should not be so extensive or lengthy as to result in undue delay in the evaluation of the use of solutions-based contracting.

(e) MONITORING BY GAO.—The Comptroller General of the United States shall—

(1) monitor the conduct, and review the results, of acquisitions under the pilot program; and

(2) submit to Congress periodic reports containing the views of the Comptroller General on the activities, results, and findings under the pilot program.

If the Administrator determines it is not practicable to provide such access through FACNET, the Administrator shall provide such access through another automated system that has the capability to perform the functions listed in subsection (b)(1) and meets the requirement of subsection (b)(2).

(b) ADDITIONAL FACNET FUNCTIONS.—(1) In addition to the functions specified in section 30(b) of the Office of Federal Procurement Policy Act (41 U.S.C. 426(b)), the FACNET architecture shall have the capability to perform the following functions:

(B) Provide for updating that information to reflect changes in prices, features, and performance as soon as information on the changes becomes available.

(C) Enable users to make on-line computer comparisons of the prices, features, and performance of similar products and services offered by various vendors.

(2) The FACNET architecture shall be used to place orders under the multiple award schedules in a fiscal year for an amount equal to at least 60 percent of the total amount spent for all orders under the multiple award schedules in that fiscal year.

(c) STREAMLINED PROCEDURES.—

(1) PILOT PROGRAM.—Upon certification by the Administrator of General Services that the FACNET architecture meets the requirements of subsection (b)(1) and was used as required by subsection (b)(2) in the fiscal year preceding the fiscal year in which the certification is made, the Administrator for Federal

Procurement Policy may establish a pilot program to test streamlined procedures for the procurement of information technology products and services available for ordering through the multiple award schedules.

(2) APPLICABILITY TO MULTIPLE AWARD SCHEDULE CONTRACTS.—Except as provided in paragraph (4), the pilot program shall be applicable to all multiple award schedule contracts for the purchase of information technology and shall test the following procedures:

(A) A procedure under which negotiation of the terms and conditions for a covered multiple award schedule contract is limited to terms and conditions other than price.

(B) A procedure under which the vendor establishes the prices under a covered multiple award schedule contract and may adjust those prices at any time in the discretion of the vendor.

(ii) agrees to terms and conditions that the Administrator determines as being required by law or as being appropriate for the purchase of commercial items; and

(iii) agrees to establish and update prices, features, and performance and to accept orders electronically through the automated system established pursuant to subsection (a).

(3) COMPTROLLER GENERAL REVIEW AND REPORT.—(A) Not later than three years after the date on which the pilot program is established, the Comptroller General of the United States shall review the pilot program and report to the Congress on the results of the pilot program.

(iv) The impact of the pilot program on small businesses and socially and economically disadvantaged small businesses.

(4) WITHDRAWAL OF SCHEDULE OR PORTION OF SCHEDULE FROM PILOT PROGRAM.—The Administrator may withdraw a multiple award schedule or portion of a schedule from the pilot program if the Administrator determines that (A) price competition is not available under such schedule or portion thereof, or (B) the cost to the Government for that schedule or portion thereof for the previous year was higher than it would have been if the contracts for such schedule or portion thereof had been awarded using procedures that would apply if the pilot program were not in effect. The Administrator

shall notify Congress at least 30 days before the date on which the Administrator withdraws a schedule or portion thereof under this paragraph. The authority under this paragraph may not be delegated.

(5) TERMINATION OF PILOT PROGRAM.—Unless reauthorized by law, the authority of the Administrator to award contracts under the pilot program shall expire four years after the date on which the pilot program is established. Contracts entered into before the authority expires shall remain in effect in accordance with their terms notwithstanding the expiration of the authority to award new contracts under the pilot program.
