

RESOURCES REPORTS RESTORATION ACT

NOVEMBER 8, 1999.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Mr. YOUNG of Alaska, from the Committee on Resources,
submitted the following

R E P O R T

[To accompany H.R. 3002]

[Including cost estimate of the Congressional Budget Office]

The Committee on Resources, to whom was referred the bill (H.R. 3002) to provide for the continued preparation of certain useful reports concerning public lands, Native Americans, fisheries, wildlife, insular areas, and other natural resources-related matters, and to repeal provisions of law regarding terminated reporting requirements concerning such matters, having considered the same, report favorably thereon without amendment and recommend that the bill do pass.

PURPOSE OF THE BILL

The purpose of H.R. 3002 is to provide for the continued preparation of certain useful reports concerning public lands, Native Americans, fisheries, wildlife, insular areas and other natural resources-related matters, and to repeal provisions of law regarding terminated reported requirements concerning such matters.

BACKGROUND AND NEED FOR LEGISLATION

Section 3003 of the Federal Reports Elimination and Sunset Act of 1997 (FRESA, Public Law 104-66) terminates all reports to Congress contained in House Document 103-7 as of December 21, 1999. This document lists statutorily-required reports to Congress from various Executive branch agencies and was issued by the Clerk of the House in January 1993.

The philosophy of FRESA is to “alleviate the paperwork burden on Executive Branch agencies.” Certainly the reduction of unnecessary paperwork is a worthy goal but some consideration should be

given as to why a statute mandates a certain report and how this information is used by the Congress and the public. In the case of the Committee on Resources, this information greatly aids oversight activities and the development of legislation. The reports also provide the public with valuable insight in how federal tax dollars are being spent.

Without action by Congress, many critical reports will be lost before the end of the year, requiring extensive amendments to underlying statutory authorities to reinstate the reports. To date, only a single House committee has passed legislation reinstating its critical reports so far, and others are just awakening to this problem. Absent action by the Committee on Government Reform to delay or modify the effect of FRESA, each committee will have to act to preserve its critical reports. This bill represents that effort.

The Resources Reports Restoration Act will restore 128 reports critical to the oversight operations of the Committee eliminated by Public Law 104-66. A complete list is appended to this report (Appendix A), but the restored reports include:

- Implementation costs of the Endangered Species Act;
- Notices of withdrawals of public lands;
- Governing international fishery agreements;
- Financial disclosure for certain employees of the Department of the Interior;
- Rehabilitation needs for National Forest System lands;
- Threatened areas on the National Register of Historic Places;
- Management plans for National Parks;
- Proposed oil and gas leasing programs on the Outer Continental Shelf;
- Proposals for projects under the Small Reclamation Projects Act;
- Audits of financial assistance provided to the insular areas of the United States;
- Council on Environmental Quality annual report.

The bill also makes technical changes to some underlying laws which authorize repealed or sunsetted reports.

The Committee did not expect to enact lengthy legislation to preserve reports that it had authored in permanent law. When the House of Representatives first considered the underlying bill for FRESA, it specifically listed 150 reporting requirements which would be eliminated and modified. This list was prepared by the Committee on Government Reform and Oversight after consultation with the various committees of the House, including the Committee on Resources. Unfortunately, section 3003—a Senate provision—remained undisclosed to most House committees until March 25, 1999, when the Chairman of the Committee on Government Reform sent a letter to committee chairmen warning them of the effects of section 3003 and its rapidly approaching deadline.

This tardy notice was compounded by the unavailability of the House Document referenced by section 3003 which was the only source for determining which reporting requirements were affected by the termination. The Clerk of House finally posted the document on the Clerk's web page during the summer of 1999. House Document 103-7 itself was the source of many problems. First, the pub-

lication covered more than mere reports to Congress—it also addressed other submissions such as draft legislation, copies of environmental impact statements, budget documents, and copies of intergovernmental agreements. Few realized the wide-ranging impact of the termination of otherwise innocently termed “reports.” Second, the publication failed to list every report to Congress, creating confusion over which reports were affected. Third, it contained errors in report titles and statutory sources, creating great hurdles in identifying the underlying reports. Finally, it listed reporting requirements which had already been satisfied by the submission of the required materials to Congress and listed reporting requirements which had been repealed.

Working from House Document 103–7, staff compiled an initial list of reports which appeared to affect Resources Committee issues. After identifying the correct statutory source for each of the reports, staff then eliminated those reports which were repealed, satisfied, otherwise overtaken by events, or not in the Committee’s jurisdiction. The remaining reports were then exempted from the operation of section 3003—thus preserving them for use by the Committee and the public—in subsection (a) of the bill. Based on recommendations of the Office of Legislative Counsel, subsections (b) and (c) contain amendments to several (but not all) statutory reporting provisions which have been repealed or sunsetted. Time constraints preclude additional “mop-up” work in this area, but the Committee intends to work on technical amendments in another vehicle soon.

COMMITTEE ACTION

H.R. 3002 was introduced on October 4, 1999, by Congressman Don Young (R-AK). The bill was referred to the Committee on Resources. On October 6, 1999, the Full Resources Committee met to consider the bill. No amendments were offered and the bill was ordered favorably reported to the House of Representatives by voice vote.

COMMITTEE OVERSIGHT FINDINGS AND RECOMMENDATIONS

Regarding clause 2(b)(1) of rule X and clause 3(c)(1) of rule XIII of the Rules of the House of Representatives, the Committee on Resources’ oversight findings and recommendations are reflected in the body of this report.

CONSTITUTIONAL AUTHORITY STATEMENT

Article I, section 8 and Article IV, section 3 of the Constitution of the United States grant Congress the authority to enact this bill.

COMPLIANCE WITH HOUSE RULE XIII

1. *Cost of Legislation.*—Clause 3(d)(2) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison by the Committee of the costs which would be incurred in carrying out this bill. However, clause 3(d)(3)(B) of that rule provides that this requirement does not apply when the Committee has included in its report a timely submitted cost estimate of the bill pre-

pared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act of 1974.

2. *Congressional Budget Act.*—As required by clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974, this bill does not contain any new budget authority, spending authority, credit authority, or an increase or decrease in revenues or tax expenditures.

3. *Government Reform Oversight Findings.*—Under clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the Committee has received no report of oversight findings and recommendations from the Committee on Government Reform on this bill.

4. *Congressional Budget Office Cost Estimate.*—Under clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 403 of the Congressional Budget Act of 1974, the Committee has received the following cost estimate for this bill from the Director of the Congressional Budget Office:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, October 29, 1999.

Hon. DON YOUNG,
*Chairman, Committee on Resources,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 3002, the Resources Reports Restoration Act.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contacts are Megan Carroll (for federal costs), Marjorie Miller (for the state and local impact), and Keith Mattrick (for the private-sector impact).

Sincerely,

BARRY B. ANDERSON
(For Dan L. Crippen, Director).

Enclosure.

H.R. 3002—Resources Reports Restoration Act

Summary: Under current law, certain federal and nonfederal reporting requirements will expire on December 21, 1999. H.R. 3002 would require certain land and resource management agencies to continue to prepare 128 of these reports. Based on information from several of these agencies, CBO estimates that extending these reporting requirements would cost about \$1 million a year starting in fiscal year 2001, subject to the availability of appropriated funds. The bill would not affect direct spending or receipts; therefore, pay-as-you-go procedures would not apply.

H.R. 3002 contains intergovernmental mandates as defined in the Unfunded Mandates Reform Act (UMRA), but CBO estimates that the costs of these mandates would be small—well below the threshold established in that act (\$50 million in 1996, adjusted annually for inflation). A few of the reporting requirements that would be reinstated by this bill are mandates currently imposed on the governments of U.S. territories. Reinstating those requirements would be new mandates.

H.R. 3002 would impose a private-sector mandate by making permanent a requirement on two private foundations to submit annual reports to the Congress. CBO estimates that the direct costs of the mandate would fall well below the threshold established in UMRA (\$100 million in 1996, adjusted annually for inflation).

Estimated cost to the Federal Government: Several federal agencies, including the Department of the Interior's land and resource management agencies, the Forest Service, the Department of Energy, the Environmental Protection Agency, the Council for Environmental Quality, the Department of Commerce, and the Department of Justice, are responsible for the reports that would be continued under H.R. 3002. The contents of these reports vary from routine reports on resource data, updates on specific projects or programs, financial and audit reports, to comprehensive reports on the performance of large programs.

H.R. 3002 references some reports that are not submitted by agencies now, or that replicate data compiled and submitted in other reports. Based on information provided by several agencies, CBO estimates that less than a dozen of the reports that would be continued under the bill cost more than \$50,000 annually to prepare. These include reports prepared by the Department of Energy, the Council on Environmental Quality, the Environmental Protection Agency, and agencies within the Department of the Interior. We estimate that continuing about half of the reports listed in the bill would not affect spending because agencies plan to continue to prepare them after the requirement to do so expires, or because agencies currently expend little effort to meet the reporting requirements. For other reports cited in the bill, we estimate that agencies would incur annual costs of \$5,000 to \$15,000 to continue preparing reports. In total, CBO estimates that implementing H.R. 3002 would increase discretionary spending by about \$1 million a year over the 2001–2004 period, assuming appropriation of the necessary amounts.

Pay-as-you-go considerations: None.

Estimated impact on State, local, and tribal governments: Under current law, the governments of U.S. territories must prepare comprehensive annual financial reports, publish these reports, and submit them to the Congress and to the Secretary of the Interior. The requirements that the territories submit these reports to the Congress would sunset under current law, but would be restored by H.R. 3002. Restoring these requirements would be mandates as defined in UMRA, but the cost would be small—well below the UMRA threshold (\$50 million in 1996, adjusted annually for inflation). H.R. 3002 would reinstate a number of other reporting requirements that affect U.S. territories, but the rest are all conditions of federal assistance, and thus would not constitute mandates.

Estimated impact on the private sector: Current law, which is set to expire on December 21, 1999, requires two private foundations—the National Park Foundation and the National Fish and Wildlife Foundation—to submit annual reports on their activities to the Congress. The foundations were established as federally chartered corporations by the Congress to accept and administer donations toward natural and cultural resource conservation programs. H.R.

3002 would make the reporting requirement on the foundations permanent. Based on information provided by the foundations, CBO estimates that the direct cost, if any, of extending the existing mandate would be minimal and thus would fall well below the annual threshold established in UMRA (\$100 million in 1996, adjusted annually for inflation).

Estimate prepared by: Federal costs: Megan Carroll; Impact on State, local, and tribal governments: Marjorie Miller; Impact on the private sector: Keith Mattrick.

Estimate approved by: Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.

COMPLIANCE WITH PUBLIC LAW 104-4

This bill contains no unfunded mandates as defined in Public Law 104-4.

PREEMPTION OF STATE, LOCAL, OR TRIBAL LAW

This bill is not intended to preempt any State, local, or tribal law.

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman):

TITLE II—CENTRAL UTAH PROJECT CONSTRUCTION

* * * * *

SEC. 211. AUDIT OF CENTRAL UTAH PROJECT COST ALLOCATIONS.

Not later than one year after the date on which the Secretary declares the Central Utah Project to be substantially complete, the Comptroller General of the United States shall conduct an audit of the allocation of costs of the Central Utah Project to irrigation, municipal and industrial, and other project purposes and submit a report of such audit to the Secretary [and to the Congress]. The audit shall be conducted in accordance with regulations which the Comptroller General shall prescribe not later than one year after the date of enactment of this Act. Upon a review of such report, the Secretary shall reallocate such costs as may be necessary. Any amount allocated to municipal and industrial water in excess of the total maximum repayment obligation contained in repayment contracts dated December 28, 1965, and November 26, 1985, shall be deferred for as long as the District is not found to be in substantial noncompliance with the water management improvement program provided in section 207 and the stream flows provided in title III are maintained. If at any time the Secretary finds that such program is in substantial noncompliance or that such stream flows are

not being maintained, the Secretary shall, within six months of such finding and after public notice, take action to initiate repayment of all such reimbursable costs.

Such evaluation shall be based solely on the resources and values of such lands and the extent to

which national policies and programs for management of such resources and values would be furthered by such acquisition. Promptly after the completion of such evaluation, the Secretary shall report the results thereof to the [Committee on Interior and Insular Affairs of the United States House of Representatives, the Committee on Energy and Natural Resources of the United States Senate, and] the Representatives and Senators from the State of Nevada.

SECTION 8 OF THE ACT OF SEPTEMBER 7, 1976

AN ACT To authorize the Secretary of the Interior to make compensation for damages arising out of the failure of the Teton Dam a feature of the Teton Basin Federal reclamation project in Idaho, and for other purposes.

[SEC. 8. At the end of the year following the approval of this Act and each year thereafter until the completion of the claims program, the Secretary shall make an annual report to the Congress of all claims submitted to him under this Act stating the name of each claimant, the amount claimed, a brief description of the claim, and the status or disposition of the claim including the amount of each administrative payment and award under the Act.]

SECTION 3 OF THE ACT OF JUNE 15, 1977

AN ACT To authorize appropriations for continuation of construction of distribution systems and drains of the San Luis Unit, Central Valley project, California, to mandate the extension and review of the project by the Secretary, and for other purposes.

SEC. 3. Neither the Secretary nor any of his representatives shall approve any amendatory or other contract modifying the current water service contract of June 5, 1963 (contract numbered 14-06-200-495-A) or the current repayment contract of April 1, 1965 (contract numbered 14-06-200-2020-A), or any temporary contract extending more than one hundred and eighty days beyond December 31, 1977, prior to the completion of the report of the task force required in section 2 or January 1, 1978, whichever occurs first. [No such contract shall be approved by the Secretary or his representative prior to submission to the Congress for a period of not more than ninety days (which ninety days, however, shall not include days on which either the House of Representatives or the Senate is not in session because of an adjournment of more than three calendar days to a date certain).]

SECTION 4 OF THE ACT OF OCTOBER 3, 1980

AN ACT To authorize the Secretary of the Interior to engage in feasibility investigations of certain water resource developments, and for other purposes.

SEC. 4. In preparing the studies and review authorized by subsections (11) and (12) of section 1 and section 3, the Secretary of the Interior shall fully describe all potential beneficial or detrimental impacts resulting from the construction or operation of the projects under study. [The Secretary shall further make recommendations to the Congress for assuring that neither the construction nor the operation of any such project results in the dete-

rioration of the water quality and ecology of the Sacramento-San Joaquin Delta or the San Francisco Bay estuarine system.】

SECTION 3 OF THE ACT OF SEPTEMBER 30, 1982

AN ACT To authorize the Secretary of the Interior to proceed with development of the WEB pipeline, to provide for the study of South Dakota water projects to be developed in lieu of the Oahe and Pollock-Herreid irrigation projects, and to make available Missouri basin pumping power to projects authorized by the Flood Control Act of 1944 to receive such power.

* * * * *

SEC. 3. The Secretary is authorized, in cooperation with the State of South Dakota, to conduct a feasibility investigation of the alternate uses of facilities constructed for use in conjunction with the Oahe Unit, initial stage, James Division, Pick-Sloan Missouri Basin Program, South Dakota【, and to report to the Congress the findings of such study along with his recommendations】.

SECTION 8 OF THE COLORADO RIVER FLOODWAY PROTECTION ACT

【CERTIFICATION OF COMPLIANCE

【SEC. 8. The Secretary of the Interior shall, on behalf of each Federal agency concerned, make written certification that each agency has complied with the provisions of the Act during each fiscal year beginning after Spetember 30, 1985. * * * * *

[(g)(1)] The Secretary shall submit to the President, for inclusion in each report required to be transmitted to the Congress under section 801, a report which sets forth—

[(A)] the current Indian sanitation facility priority system of the Service;

[(B)] the methodology for determining sanitation deficiencies;

[(C)] the level of sanitation deficiency for each sanitation facilities project of each Indian tribe or community;

[(D)] the amount of funds necessary to raise all Indian tribes and communities to a level I sanitation deficiency; and

[(E)] the amount of funds necessary to raise all Indian tribes and communities to zero sanitation deficiency.

[(2)] In preparing each report required under paragraph (1) (other than the initial report), the Secretary shall consult with Indian tribes and tribal organizations (including those tribes or tribal organizations operating health care programs or facilities under any contract entered into with the Service under the Indian Self-Determination Act) to determine the sanitation needs of each tribe.

[(3)] The methodology used by the Secretary in determining sanitation deficiencies for purposes of paragraph (1) shall be applied uniformly to all Indian tribes and communities.

[(4)] For purposes of this subsection, the sanitation deficiency levels for an Indian tribe or community are as follows:

[(A)] level I is an Indian tribe or community with a sanitation system—

[(i)] which complies with all applicable water supply and pollution control laws, and

[(ii)] in which the deficiencies relate to routine replacement, repair, or maintenance needs;

[(B)] level II is an Indian tribe or community with a sanitation system—

[(i)] which complies with all applicable water supply and pollution control laws, and

[(ii)] in which the deficiencies relate to capital improvements that are necessary to improve the facilities in order to meet the needs of such tribe or community for domestic sanitation facilities;

[(C)] level III is an Indian tribe or community with a sanitation system which—

[(i)] has an inadequate or partial water supply and a sewage disposal facility that does not comply with applicable water supply and pollution control laws, or

[(ii) has no solid waste disposal facility;

[(D) level IV is an Indian tribe or community with a sanitation system which lacks either a safe water supply system or a sewage disposal system; and

[(E) level V is an Indian tribe or community that lacks a safe water supply and a sewage disposal system.

[(5) For purposes of this subsection, any Indian tribe or community that lacks the operation and maintenance capability to enable its sanitation system to meet pollution control laws may not be treated as having a level I or II sanitation deficiency.]
