SEC. 411. SPECIAL PROCEDURES TO ACHIEVE SAVINGS IN MANDATORY SPENDING THROUGH FY2014.

(a) SENSE OF CONGRESS.—The Congress finds that—

(1) the share of the budget consumed by mandatory spending has been growing since the mid-1970s, and now is about 54 percent;

(2) this portion of the budget is continuing to grow, crowding out other priorities and threatening overall budget control;

(3) mandatory spending is intrinsically difficult to control;

(4) these programs are subject to a variety of factors outside the control of Congress, such as demographics, economic conditions, and medical prices;

(5) Congress should make an effort at least every other year, to review mandatory spending;

(6) the reconciliation process set forth in the Congressional Budget Act of 1974 is a viable tool to reduce the rate of growth in mandatory spending; and

(7) concurrent resolutions on the budget for fiscal years 2007 through 2010 should include reconciliation instructions to committees, every other year, pursuant to section 310(a) of the Congressional Budget Act of 1974 to achieve significant savings in mandatory spending.

TITLE V—SENSE OF THE SENATE

SEC. 501. SENSE OF THE SENATE REGARDING UNAUTHORIZED APPROPRIATIONS.

It is the sense of the Senate that Congress should—

(1) preclude consideration of any bill, joint resolution, motion, amendment, or conference report that would provide an appropriation, in whole or in part, for programs not specifically authorized by law or Treaty stipulation, or the amount of which exceeds the amount specifically authorized by law or Treaty stipulation, or that would provide a limited tax benefit as defined by the Line Item Veto Act of 1996 (Public Law 104–130); and

(2) determine a method for effectively containing the extraordinary growth in unauthorized earmarks.

SEC. 502. SENSE OF THE SENATE REGARDING A COMMISSION TO REVIEW THE PERFORMANCE OF PROGRAMS.

It is the sense of the Senate that a commission should be established to review Federal agencies, and programs within such agencies, including an assessment of programs on an accrual basis, and legislation to implement those recommendations, with the express purpose of providing Congress with recommendations, to realign or eliminate Government agencies and programs that are wasteful, duplicative, inefficient, outdated, irrelevant, or have failed to accomplish their intended purpose.

SEC. 503. SENSE OF THE SENATE REGARDING TRICARE.

It is the sense of the Senate that Congress should provide sufficient funding to the Department of Defense to offer members of the Reserve Component continuous access to TRICARE, for a premium, regardless of their activation status.

SEC. 504. SENSE OF THE SENATE REGARDING TRIBAL COLLEGES AND UNIVERSITIES.

It is the sense of the Senate that—

(1) this resolution recognizes the funding challenges faced by tribal colleges, and universities and assumes that equitable consideration will be provided to them through funding of the Tribally Controlled College or University Assistance Act, the Equity in Educational Land Grant Status Act, title III of the Higher Education Act of 1965, and the National Science Foundation, Department of Defense, and Housing and Urban Development Tribal College and University Programs; and

(2) such equitable consideration reflects the intent of Congress to continue to work toward statutory Federal funding authorization goals for tribal colleges and universities.

SEC. 505. SENSE OF THE SENATE REGARDING SOCIAL SECURITY RESTRUCTURING.

It is the sense of the Senate that—

(1) the President, the Congress, and the American people including seniors, workers, women, minorities, and disabled persons should work together at the earliest opportunity to enact legislation to achieve a solvent and permanently sustainable Social Security system;

(2) Social Security reform must—

(A) protect current and near retirees from any changes to Social Security benefits;

(B) reduce the pressure on future taxpayers and on other budgetary priorities;

(C) provide benefit levels that adequately reflect individual contributions to the Social Security system; and

(D) preserve and strengthen the safety net for vulnerable populations including the disabled and survivors.

SEC. 506. SENSE OF THE SENATE REGARDING FUNDING FOR SUBSONIC AND HYPERSONIC AERONAUTICS RESEARCH BY THE NATIONAL AERONAUTICS AND SPACE ADMINISTRATION.

It is the sense of the Senate that—

(1) the level of funding provided for the Aeronautics Mission Directorate within the National Aeronautics and Space Administration should be increased by \$1,582,700,000 between fiscal year 2006 and fiscal year 2010; and

(2) the increases provided should be applied to the Vehicle Systems portion of the Aeronautics Mission Directorate budget for use in subsonic and hypersonic aeronautical research.

SEC. 507. SENSE OF THE SENATE REGARDING THE ACQUISITION OF THE NEXT GENERATION DESTROYER (DDX).

(a) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) it is ill-advised for the Department of Defense to pursue a winner-take-all strategy for the acquisition of destroyers under the next generation destroyer (DDX) program; and

(2) *the amounts identified in this resolution assume that the Department of Defense will not acquire any destroyer under the next generation destroyer program through a winner-take-all strategy.*

(b) *WINNER-TAKE-ALL STRATEGY DEFINED.—In this section, the term “winner-take-all strategy”, with respect to the acquisition of destroyers under the next generation destroyer program, means the acquisition (including design and construction) of such destroyers through a single shipyard.*

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the concurrent resolution (H. Con. Res. 95), establishing the congressional budget for the United States Government for fiscal year 2006 revising appropriate budgetary levels for fiscal year 2005, and setting forth appropriate budgetary levels for fiscal years 2007 through 2010, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment that is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

DISPLAYS AND AMOUNTS

The required contents of concurrent budget resolutions are set forth in section 301(a) of the Congressional Budget Act of 1974. The years in this document are fiscal years unless otherwise noted.

Both the House-passed and Senate-passed budget resolutions, as well as this conference report, retain the conventional budget function structure of past resolutions. These amounts are not binding; they are intended to provide an overall accounting of estimated spending requirements and priorities according to major categories of government activities. The budget resolution is the only legislative vehicle that reflects such a global assessment of the demands on Federal resources.

The treatment of budget function levels in the respective budget resolutions and the conference report is as follows:

HOUSE RESOLUTION

In the House resolution, the discretionary amounts in each function (amounts controlled through the annual appropriations process) are, in general, the President's recommended functional levels, for the budget year and the outyears, as re-estimated by the Congressional Budget Office [CBO]. In certain functions, the discretionary figures are modified to account for congressional policy judgments.

For mandatory spending—spending not controlled by annual appropriations—the amounts in the function are, in general, current-law levels as estimated by CBO. In some cases, these levels are adjusted to accommodate certain legislative initiatives. In addition, the Allowances function (Function 920) calls for a reduction in total projected mandatory spending of \$68 billion over 5 years, to be achieved through the reconciliation process (see title II). Although specific amounts of the total savings are assigned to specific authorizing committees in reconciliation, the savings amounts are not allocated among specific budget functions. The intent is to assure the widest possible discretion among authorizing committees. Although each authorizing committee in reconciliation is assigned a savings amount, nothing in the budget functions constrains any committee’s policy choices to achieve those savings.

The House resolution also adjusts levels for the current year, fiscal year 2005, to accommodate \$81.1 billion in supplemental funding for military operations in Iraq and Afghanistan, and other enacted legislation.

SENATE AMENDMENT

The Senate amendment includes all the items required under section 301(a) of the Congressional Budget Act. The Senate amendment sets “first-year” levels for both 2005 and 2006, as the conference report on the 2005 budget resolution was not adopted by the Senate.

CONFERENCE AGREEMENT

In the conference agreement, discretionary spending amounts are generally the President’s recommended levels, for the budget year and the outyears, as re-estimated by CBO. In certain functions, the discretionary figures are modified to account for congressional policy judgments.

For mandatory spending, the functional amounts are generally current-law levels as estimated by CBO. In some cases, these levels are adjusted to accommodate certain legislative initiatives. In addition, the Allowances function (Function 920) calls for a reduction in total projected mandatory spending outlays of \$34.7 billion over 5 years, to be achieved through the reconciliation process (see title II). Although specific portions of this savings amount are assigned to specific authorizing committees in reconciliation, the savings amounts are not allocated among budget functions. The intent is to assure the widest possible discretion among authorizing committees. Although each authorizing committee in reconciliation is assigned a savings amount, nothing in the budget functions constrains any committee’s policy choices to achieve those savings.

The conference agreement also adjusts levels for the current year, fiscal year 2005, to accommodate \$81.9 billion in supplemental funding for military operations in Iraq and Afghanistan.

FUNCTIONS AND REVENUES

Pursuant to section 301(a)(3) of the Budget Act, the budget resolution must set appropriate levels for each major functional category based on the 302(a) allocations and the budgetary totals.

The respective levels of the House resolution, the Senate amendment, and the Conference Agreement for each major budget function, as well as revenue totals, are discussed in the following section. A summary of the overall budget policy is as follows:

Total spending is \$2.562 trillion in budget authority [BA] and \$2.577 trillion in outlays in fiscal year 2006, and \$13.878 trillion in BA and \$13.840 trillion in outlays over 2006–10.

Discretionary spending for fiscal year 2006 totals \$843.0 billion in BA and \$947.3 billion in outlays. These two aggregate amounts (minus cap adjustments in the Senate) are allocated to the Appropriations Committees to be suballocated among their respective appropriations subcommittees. This sum can accommodate the President's recommendation for \$419.5 billion for national defense, \$32.5 billion for homeland security, and \$391.1 billion for other discretionary spending. The total excludes a sum of \$50 billion toward supplemental funding for military operations in Iraq and Afghanistan.

Mandatory spending totals \$1.669 trillion in BA and \$1.598 trillion in outlays in fiscal year 2006, and \$9.401 trillion in BA and \$9.068 trillion in outlays over 2006–10. This includes \$34.7 billion in reconciled mandatory outlay savings over the 5-year period. The total of these savings is reflected in Function 920, and divided among authorizing committees in the reconciliation directives of this conference report. Specific policies will be determined by the committees of jurisdiction.

Revenue totals \$2.195 trillion in fiscal year 2006, and \$12.440 trillion over 5 years. The conference agreement includes tax reductions of \$17.8 billion in fiscal year 2006, and \$105.7 billion over 5 years. Of these amounts, the agreement reconciles \$11.0 billion in tax reduction in 2006, and \$70.0 billion over 5 years. The conference report assumes that tax rates are not increased (as they would be under current law). Specific tax relief policies will be de-

terminated by the Committee on Ways and Means in the House, and the Committee on Finance in the Senate.

The conference report reduces the budget deficit from \$382.7 billion (3.0 percent of gross domestic product [GDP]) in fiscal year 2006, to \$210.9 billion (1.3 percent of GDP) in 2010.

The following section describes the conference report's revenue and spending levels according to the budget's functional categories.

REVENUE

SUMMARY

The component of the budget resolution designated as revenue reflects all of the Federal Government's various tax receipts that are classified as "on budget." This includes individual income taxes; corporate income taxes; excise taxes, such as the gasoline tax; and other taxes, such as estate and gift taxes. The component of social insurance taxes that is collected for the Social Security system—the Old Age and Survivors and Disability Insurance [OASDI] payroll tax—is "off budget." The remaining social insurance taxes (the Hospital Insurance [HI] payroll tax portion of Medicare, the Federal Unemployment Tax Act [FUTA] payroll tax, railroad retirement and other retirement systems) are all on budget. Customs duties, tariffs, and other miscellaneous receipts also are included in the revenue function. Pursuant to the Congressional Budget Act of 1974 and the Budget Enforcement Act of 1990, Social Security payroll taxes, which constitute slightly more than a quarter of all Federal receipts, are not included in the budget resolution.

HOUSE RESOLUTION

The budget resolution calls for \$1.590 trillion in on-budget revenue for fiscal year 2006, and \$9.080 trillion over 2006–10. Total revenue in the budget resolution is \$2.195 trillion for fiscal year 2006 and \$12.441 trillion over 2006–10. The resolution assumes tax reductions of \$16.623 billion for fiscal year 2006 and \$105.715 billion over 2006–10—principally the result of preventing automatic tax increases that otherwise would occur. Of these amounts, the resolution reconciles \$16.623 in tax reduction in 2006, and \$45.0 billion over 5 years.

For a complete summary of the House-passed revenue levels, see H. Rept. 109–17.

SENATE AMENDMENT

The Senate-passed budget resolution includes \$1.589 trillion in on budget revenue for 2006, and \$9.057 trillion over 2006–10. Total revenue in the budget resolution is \$2.193 trillion for fiscal year 2006 and \$12.418 trillion over 2006–10. The resolution assumes policies with a revenue impact of \$19.016 billion for fiscal year 2006 and \$128.580 billion over 2006–10. The Senate resolution assumes that tax rates are not increased (as they would be under current law). The resolution assumes a modest reduction in revenues, relative to the baseline, that balances the need for fiscal responsibility with the need to continue the modest tax rates necessary for economic growth and job creation.

During Senate consideration of the budget resolution, the Senate adopted the Bunning amendment, which reduced revenues by \$63.9 billion over 2006–10, and the Kennedy amendment, which increased revenues by \$5.5 billion over 2006–10.

CONFERENCE AGREEMENT

The conference agreement includes \$1.6 trillion in on-budget revenue for 2006, and \$9.1 trillion over 2006–10. Total revenue is \$2.2 trillion for fiscal year 2006 and \$12.4 trillion over 2006–10. The agreement includes tax reductions of \$17.8 billion for fiscal year 2006 and \$105.7 billion over 2006–10. Of these, the agreement reconciles \$11.0 billion in revenue reductions in fiscal year 2006, and \$70.0 billion over 2006–10.

The conference report assumes that tax rates are not increased (as they would be under current law). Specific tax relief policies will be determined by the Committee on Ways and Means in the House, and the Committee on Finance in the Senate.

COMMERCE AND HOUSING CREDIT: FUNCTION 370

FUNCTION SUMMARY

The Commerce and Housing Credit function includes four components: mortgage credit (usually negative budget authority because receipts tend to exceed the losses from defaulted mortgages); the Postal Service (mostly off budget); deposit insurance; and other advancement of commerce (the majority of the discretionary and mandatory spending in this function).

The mortgage credit component of this function includes housing assistance through the Federal Housing Administration, the Government National Mortgage Association [Ginnie Mae], and rural housing programs of the Department of Agriculture. The function also includes net postal service spending and spending for deposit insurance activities of banks, thrifts, and credit unions. Finally, most, but not all, of the Commerce Department is provided for in this function, including the International Trade Administration, the Bureau of Economic Analysis, the Patent and Trademark Office, the National Institute of Standards and Technology, the National Telecommunications and Information Administration, and the Bureau of the Census; as well as independent agencies such as the Securities and Exchange Commission, the Commodity Futures Trading Commission, the Federal Trade Commission, the Federal Communications Commission, and the majority of the Small Business Administration.

More than two-thirds of the spending in Function 370 is out of the FCC's Universal Service Fund. This fund collects receipts (which appear in roughly offsetting amounts on the revenue side of the budget) raised by certain telecommunications operators from charges on their customers to promote service to low-income users and high-cost areas, as well as new services.

Mandatory spending levels reflect the CBO baseline. In addition, the conference agreement includes mandatory levels in Function 920 (Allowances). EDUCATION, TRAINING, EMPLOYMENT AND SOCIAL SERVICES:
FUNCTION 500

FUNCTION SUMMARY

The function titled Education, Training, Employment, and Social Services primarily covers Federal spending within the Departments of Education, Labor, and Health and Human Services for programs that directly provide—or assist States and localities in providing—services to young people and adults. Its activities provide developmental services to low-income children; support programs for disadvantaged and other elementary and secondary school students; make grants and loans to post secondary students; and maintain job-training and employment services.

HOUSE RESOLUTION

The resolution calls for \$92.0 billion in budget authority and \$91.0 billion in outlays in fiscal year 2006, and \$451.7 billion in budget authority and \$446.7 billion in outlays over 5 years. For a complete summary of the House-passed function levels, including the discretionary and mandatory spending breakdown, see H. Rept. 109–17.

The Senate amendment reflects a total of \$98.4 billion in BA and \$88.5 billion in outlays for fiscal year 2006, and \$460.0 billion in BA and \$450.3 billion in outlays over 5 years.

CONFERENCE AGREEMENT

The totals for this function appear in the budget resolution conference agreement tables. Discretionary spending levels for both the budget year and the outyears reflect the President's recommended levels, as re-estimated by CBO, with the following adjustments: the discretionary levels are increased by \$1.04 billion in BA in fiscal year 2006 for Department of Education programs. These increases include \$0.6 billion above the President's request to maintain funding for Community Development Block Grants at 2005 levels, and an additional \$0.4 billion to accommodate a \$100 increase in Pell Grants in 2006. Mandatory spending levels reflect the CBO baseline, adjusted to support state-based abstinence grants. The conference agreement also includes a reserve fund to accommodate potential legislation addressing the shortfall in BA in the Pell Grant Program, and procedures modifying the budgetary treatment of Pell Grant funding. In addition, the conference agreement includes mandatory levels in Function 920 (Allowances). These levels reflect the sum of the reconciliation savings targets set for authorizing committees to achieve in spending programs under their jurisdictions. How these changes would affect programs in various functions will depend on the actual reconciliation legislation that is enacted.

Although the Congress strongly supports the Federal student loan programs, it is increasingly concerned that the subsidy estimates for the Ford Direct Loan Program do not reflect the program's true cost to the Federal Government. For example, the President's 2006 budget reveals that although the program was expected to result in a net savings of \$2 billion from its inception through fiscal year 2004, the actual experience is that the program resulted in a net cost to taxpayers of \$3 billion over the same period. This represents a \$5-billion underestimate of the program's actual cost to taxpayers over roughly 10 years. Accordingly, the Congress supports the administration's continuing efforts to direct the Department of Education to refine and improve its cost estimating techniques for this program.

The Congress believes it is important for estimates to be corrected for all known deficiencies so that the decision makers have sufficient information to compare the cost to taxpayers of competing policy options, and large-scale structural reform proposals, in the student loan programs.

HEALTH: FUNCTION 550

SOCIAL SECURITY: FUNCTION 650

FUNCTION SUMMARY

This function consists of the Social Security Program, or Old Age, Survivors, and Disability Insurance [OASDI]. It is the largest budget function in terms of outlays, and provides funds for the Government's largest entitlement program. Under provisions of the Congressional Budget Act and the Budget Enforcement Act, Social Security trust funds are considered to be off budget. But a small

portion of spending within Function 650—including general fund transfers of taxes paid on Social Security benefits—is on budget. The presentations below, therefore, refer to only the on-budget portion of Function 650.

HOUSE RESOLUTION

The resolution calls for \$15.9 billion in on-budget budget authority and \$15.9 billion in outlays in fiscal year 2006, and \$99.1 billion in budget authority and \$99.1 billion in outlays over 5 years. CONFERENCE AGREEMENT

The totals for this function appear in the budget resolution conference agreement tables. No mandatory assumptions are reflected in this function.

ALLOWANCES: FUNCTION 920

FUNCTION SUMMARY

The Allowances function is used for planning purposes to address the budgetary effects of proposals or assumptions that cross various other budget functions. Once such changes are enacted, the budgetary effects are distributed to the appropriate budget functions.

HOUSE RESOLUTION

The function totals are \$47.903 billion in budget authority and \$24.359 billion in outlays in fiscal year 2006; and \$9.963 billion in budget authority and –\$16.969 billion in outlays for 2006–10. The figures include \$50.0 billion in discretionary budget authority and \$32.0 billion in outlays in fiscal year 2006 toward likely costs for continuing military operations in Afghanistan and Iraq. The figures also include proposed mandatory savings of \$2.097 in budget authority and \$7.641 in outlays in fiscal year 2006, and \$40.037 billion in budget authority and \$66.969 billion in outlays for 2006–10. For a complete summary of the House-passed function totals, including the discretionary and mandatory spending breakdown, see H. Rept. 109–17.

SENATE AMENDMENT

The Senate amendment reflects a total of –\$6.1 billion in BA and –\$3.2 billion in outlays in fiscal year 2006, and –\$6.3 billion in BA and –\$6.1 billion in outlays over 5 years.

CONFERENCE AGREEMENT

The agreement calls for a total of \$48.5 billion in budget authority and \$60.9 billion in outlays in fiscal year 2006, and \$19.1 billion in BA and \$64.5 billion in outlays over 5 years. The discretionary levels are \$50.0 billion in BA and \$62.4 billion in outlays in fiscal year 2006, and \$50.0 billion in BA and \$99.1 billion in outlays over 5 years. Mandatory amounts are –\$1.5 billion in BA and –\$1.5 billion in outlays in fiscal year 2006, and \$30.9 billion in BA and \$34.7 billion in outlays over 5 years.

These figures are derived as follows:

The conference report calls for \$50.0 billion in discretionary budget authority and \$62.4 billion in outlays in fiscal year 2006. This is to anticipate the likelihood of supplemental appropriations for continuing military operations in Afghanistan and Iraq. It is an estimate for anticipated annual costs. It is an attempt not to predetermine the scope or intensity of operations, troop levels, or which weapons and supplies the Department of Defense will need, but rather to make the budget reflect a likely future expenditure. Over 5 years, outlays from the 2006 budget authority total \$50.0 billion.

The conference agreement also adjusts levels for the current year, fiscal year 2005, to accommodate \$81.9 billion in supplemental funding for military operations in Iraq and Afghanistan.

The function also reflects a net reduction of \$34.7 billion in outlays over 5 years in projected mandatory spending called for in the conference report. The budget recognizes the significance and rapid growth of mandatory spending—spending not subject to annual appropriations—which now consumes about 55 percent of total Federal spending (excluding interest). Total mandatory spending (including interest) is growing at a rate of about 6.4 percent per year. At its current rate, net non-interest mandatory spending will consume 61 percent of total spending in just 10 years—increasingly crowding out other priorities. Spending control depends on controlling the rate of mandatory spending growth. Therefore, to slow the growth of total mandatory spending, the conference agreement includes reconciliation directives to a range of authorizing committees (see the Reconciliation discussion in this report), the sum of which is reflected in this function. The committees are free to legislate savings provisions in any of the mandatory programs in their jurisdictions, so long as they achieve their respective reconciliation targets.

UNDISTRIBUTED OFFSETTING RECEIPTS: FUNCTION 950

FUNCTION SUMMARY

This function consists of receipts to the Treasury. Receipts recorded in this function are either intrabudgetary (a payment from one Federal agency to another, such as agency payments to the retirement trust funds) or proprietary (a payment from the public for some kind of business transaction with the Government). The main types of receipts recorded in this function are: the payments Federal employees and agencies make to employee retirement trust funds; payments made by companies for the right to explore and

produce oil and gas on the Outer Continental Shelf, and payments by those who bid for the right to buy or use public property or resources, such as the electromagnetic spectrum. These receipts are treated as negative spending.

HOUSE RESOLUTION

The resolution calls for a total of $-\$67.1$ billion in unified budget authority and $-\$67.1$ billion in outlays in fiscal year 2006 (with the minus signs again indicating receipts into the Treasury). The function totals are $-\$375.7$ billion in budget authority and $-\$376.4$ billion in outlays over 5 years. For a complete summary of the House-passed function levels, including the discretionary and mandatory spending breakdown, see H. Rept. 109–17.

SENATE AMENDMENT

The Senate amendment reflects a total of $-\$67.1$ billion in BA and $-\$67.1$ billion in outlays in fiscal year 2006, and $-\$385.1$ billion in BA and $-\$385.8$ billion in outlays over 5 years.

CONFERENCE AGREEMENT

The totals for this function appear in the budget resolution conference agreement tables. The discretionary levels, for both the budget year and the outyears, reflect the President's recommended levels, as re-estimated by CBO. Mandatory spending levels reflect the CBO baseline. In addition, the conference agreement includes mandatory levels in Function 920 (Allowances). These levels reflect the sum of the reconciliation savings targets set for authorizing committees to achieve in spending programs under their jurisdictions. How these changes would affect programs in various functions will depend on the actual reconciliation legislation that is enacted.

RECONCILIATION INSTRUCTIONS

The reconciliation process set forth in section 310 of the Congressional Budget Act of 1974 provides Congress with expedited procedures to achieve changes in spending and revenues. Using the reconciliation procedures, Congress directs its committees to submit legislation to achieve specified changes in laws within their respective jurisdictions to their respective Budget Committees or, if only one committee is so reconciled, to report the changes directly to the House or Senate by a date certain.

HOUSE RESOLUTION

Section 201: Reconciliation in the House

The House amendment provides instructions for two reconciliation bills. The first instructs nine authorizing committees to achieve specified savings in direct spending; the second provides for a reduction in revenue.

The committees may make whatever changes in law they deem appropriate to meet the specified amount of savings for fiscal year 2006 and for the period of fiscal years 2006 through 2010. (1) The Agriculture Committee is instructed to reduce direct spending from current law levels by \$797 million in 2006 and \$5.278 billion for fiscal years 2006–2010; (2) the Education and Workforce Committee is instructed to reduce direct spending from current law levels by \$2.097 billion in fiscal year 2006 and \$21.410 billion for fiscal years 2006–2010; (3) the Energy and Commerce Committee is instructed to reduce direct spending from current law levels by \$630 million in fiscal year 2006 and \$20.002 billion for fiscal years 2006–2010; (4) the Financial Services Committee is instructed to reduce direct spending from current law levels by \$30 million in fiscal year 2006 and \$270 million for fiscal years 2006–2010; (5) the Judiciary Committee is instructed to reduce direct spending from current law levels by \$123 million in fiscal year 2006 and \$603 million for fiscal years 2006–2010; (6) the Resources Committee is instructed to reduce direct spending from current law levels by \$96 million in fiscal year 2006 and \$1.413 billion for fiscal years 2006–2010; (7) the Transportation and Infrastructure Committee is instructed to reduce direct spending from current law levels by \$12 million in fiscal year 2006 and \$103 million for fiscal years 2006–2010; (8) the Veterans' Affairs Committee is instructed to reduce direct spending from current law levels by \$155 million in fiscal year 2006 and \$798 million for fiscal years 2006–2010; and, (9) the Committee on Ways and Means is instructed to reduce the deficit by \$3.907 billion in fiscal year 2006 and by \$18.680 billion for fiscal years 2006–2010.

In the House-passed budget resolution, the first reconciliation submissions must be transmitted to the Budget Committee by September 16, 2005.

The second reconciliation instruction directs the Committee on Ways and Means to report a measure to reduce taxes by \$16.623 billion in 2006 and by \$45.000 billion for fiscal years 2006–2010. These amounts are sufficient to accommodate an extension of certain expiring tax provisions from the 2001 Economic Growth and

Tax Relief Reconciliation Act and the 2003 Jobs and Growth Tax Relief Reconciliation Act, and certain other tax relief.

The second reconciliation bill must be reported by the Ways and Means Committee to the House floor by June 24, 2005.

SENATE AMENDMENT

Section 201: Reconciliation in the Senate

The Senate amendment contains instructions for three separate bills. The first instruction directs six authorizing committees to submit to the Senate Committee on the Budget, changes in laws by June 6, 2005, sufficient to reduce outlays by \$2.46 billion in fiscal year 2006, and \$17 billion for the period of fiscal years 2006 through 2010.

CONFERENCE AGREEMENT

Section 201: Reconciliation in the House

The conference agreement provides for three reconciliation bills, and provides instructions to House committees to make changes in programs within their jurisdiction to achieve the levels provided for in the budget resolution.

Section 201(a) directs eight committees to slow the growth of mandatory spending in programs within their jurisdiction. (1) The Agriculture Committee is instructed to reduce direct spending from current law levels by \$173 million in 2006 and \$3 billion for fiscal years 2006–2010; (2) the Education and Workforce Committee is instructed to reduce direct spending from current law levels by \$992 million in fiscal year 2005 and 2006, and \$12.651 billion for fiscal years 2005–2010; (3) the Energy and Commerce Committee is instructed to reduce direct spending from current law levels by \$2 million in fiscal year 2006 and \$14.734 billion for fiscal years 2006–2010; (4) the Financial Services Committee is instructed to reduce direct spending from current law levels by \$30 million in fiscal year 2006 and \$470 million for fiscal years 2006–2010; (5) the Judiciary Committee is instructed to reduce direct spending from current law levels by \$60 million in fiscal year 2006 and \$300 million for fiscal years 2006–2010; (6) the Resources Committee is in-

structed to reduce direct spending from current law levels by \$2.4 billion for fiscal years 2006–2010; (7) the Transportation and Infrastructure Committee is instructed to reduce direct spending from current law levels by \$12 million in fiscal year 2006 and \$103 million for fiscal years 2006–2010; (8) the Committee on Ways and Means is instructed to reduce the deficit by \$250 million in fiscal year 2006 and by \$1 billion for fiscal years 2006–2010. These changes are to be submitted to the House Budget Committee by September 16, 2005.

Section 201(b) instructs the House Committee on Ways and Means to report a reconciliation bill to the House floor by September 23, 2005; this measure is to reduce the level of revenue collected by the Federal government by \$11 billion in fiscal year 2006 and by \$70 billion for fiscal years 2006–2010.

Section 201(c) instructs the House Committee on Ways and Means to report a reconciliation bill to change the public debt limit to \$8.965 trillion by September 30, 2005.

Section 201(d) gives the Chairman of the House Committee on the Budget authority similar to that afforded to the Chairman of the Senate Budget Committee under the Congressional Budget Act, to make adjustments in the allocations and aggregates subsequent to the enactment of reconciliation if the effect of complying with reconciliation instructions resulted in a mix of outlay and revenue levels not contemplated by the budget resolution, but nevertheless deficit-neutral.

Section 202: Reconciliation in the Senate

The conference agreement adopts the form of the Senate-passed resolution and provides for three reconciliation bills. The first instruction directs eight authorizing committees to report to the Senate Committee on the Budget, changes in laws by September 16, 2005 sufficient to reduce outlays by \$1.5 billion in fiscal year 2006, and \$34.7 billion for the period of fiscal years 2006 through 2010.

The second instruction directs the Senate Committee on Finance to report to the Senate changes in law to reduce the total level of revenues by not more than \$11.0 billion for fiscal year 2006, and \$70.0 billion for the period of fiscal years 2006 through 2010, not later than September 23, 2005.

RESERVE FUNDS

A budget resolution does not become law and cannot amend law. However, pursuant to section 301(b)(4) of the Congressional Budget Act, some provisions in the resolution may affect the consideration of legislation in order to implement and enforce the underlying policy assumptions, if any. The conference agreement contains a number of provisions which implement policies assumed in this resolution.

In general, a reserve fund (or discretionary adjustment) permits the Chairman of the Committee on the Budget to increase the section 302 allocations and other appropriate levels set out in this resolution, including, in the Senate, the discretionary spending limits, once certain conditions have been met. The authority to make these adjustments is solely within the discretion of the Chairman and may be made when the committee of jurisdiction reports a measure that satisfies the conditions set out in the reserve fund.

HOUSE RESOLUTION

Section 301: Contingency procedure for surface transportation

This section of the House resolution permits the Chairman of the Committee on the Budget to adjust the appropriate levels in the budget resolution to accommodate legislation increasing spending for highway and transit programs above the levels in the budget resolution to the extent there are offsets for the additional spending.

Subsection (a) permits the Chairman of the Committee on the Budget to increase the Committee on Transportation and Infrastructure's allocation for legislation that increases mandatory contract authority for highway and transit programs financed out of the Highway Trust Fund. In order to make the adjustment, the additional spending must be offset by a reduction in mandatory outlays out of the Fund or receipts appropriated to the Fund.

Because any additional contract authority provided pursuant to subsection (a) would be made available for obligation through a change in obligation limitations, subsection (b) permits the Chairman of the Committee on the Budget to increase the Appropriations Committee's allocation of discretionary outlays to the extent legislation increases the obligation limits for highway programs above the levels assumed in the budget resolution. In order to make the adjustment, legislation must first be enacted in compliance with subsection (a).

SENATE AMENDMENT

Section 301: Reserve Fund for Health Information Technology and Pay-for-Performance

The Senate amendment includes a deficit-neutral reserve fund for health information technology.

To qualify for the reserve fund, legislation from the Health, Education, Labor and Pensions Committee or the Finance Committee must include language that provides incentives or other support for adoption of information technology to improve quality in health care; and provides for performance-based payments that are based on accepted clinical performance measures and improve the quality in healthcare.

The reserve fund permits the Budget Chairman to adjust allocation levels and would assist the HELP and Finance Committees to work together to craft legislation.

The Committee intends to enforce five-year budget neutrality in the evaluation of legislation that would qualify for this reserve fund.

Section 302: Reserve Fund for Asbestos Injury Trust Fund

The Senate amendment includes a deficit-neutral reserve fund for asbestos injury compensation legislation. The committee recognizes the urgent need for litigation reform for victims of asbestos exposure. The committee intends any asbestos compensation fund to protect the budget and taxpayers from a financial obligation associated with outstanding claims, debt of the fund and interest on such debt.

Section 303: Reserve Fund for the Uninsured

The Senate amendment includes a deficit-neutral reserve fund for legislation that would address health care costs, coverage, or care for the uninsured. The legislation could improve the safety net by providing the uninsured with access to integrated and other health care services. The legislation could also increase the number of people who have health insurance directly or through reform mechanisms that are designed to reduce the growth of health care costs. Such mechanisms may include tax- and market-based measures, such as tax credits, deductibility, regulatory reforms, consumer-directed initiatives, and other measures targeted to key segments of the uninsured, such as individuals without employer-sponsored coverage and college students and recent graduates. However, the resolution provides that any measure designed to increase coverage for certain populations not achieve this result primarily by increasing premiums for the currently insured, as might result from a measure that permits preferential regulation for select groups and results in adverse selection.

The reserve fund allows the Chairman to adjust applicable allocations and aggregates to accommodate this legislation if the Committee on Finance or the Committee on Health, Education, Labor, and Pensions reports a bill that meets the standards of this reserve fund.

Section 304: Reserve Fund for Land and Water Conservation Fund

The Senate amendment includes a reserve fund stipulating that if legislation is enacted that opens ANWR to drilling, an amount equal to \$1.05 billion of the associated receipts will be devoted to appropriations for the Land and Water Conservation Programs, the Forest Legacy Program, and the Coastal and Estuarine Land Protection Program (\$350 million per year in 2008, 2009, and 2010).

Section 305: Reserve Fund for the Federal Pell Grant Program

The Senate amendment includes a reserve fund for \$4.3 billion in budget authority only for legislation that retires the existing shortfall in budget authority for Pell Grant funding.

Section 306: Reserve Fund for Higher Education

The Senate amendment includes a reserve fund (\$5.510 billion in budget authority and \$5.006 billion in outlays over the 2006–2010 period) to cover the new costs of initiatives in the reauthorization of the Higher Education Act to provide increased access to college for low- and middle-income students.

Section 307: Reserve Fund for Energy Legislation

The Senate amendment includes a reserve fund for energy policy legislation, which totals \$0.1 billion in budget authority for 2006 and \$2.0 billion in budget authority for the 2006–2010 period (and associated outlays).

Section 308: Reserve Fund for Safe Importation of Prescription Drugs

The Senate amendment includes a reserve fund in relation to the importation of FDA-approved prescription drugs from specified foreign countries. If the Committee on Health, Education, Labor, and Pensions produces legislation that allows for the safe importation of prescription drugs, the Budget Committee Chairman may revise the Committee on Health, Education, Labor, and Pension's allocations to reflect the savings associated with this legislation.

Section 309: Adjustment for Surface Transportation

The Senate amendment includes a mechanism to increase allocations of contract authority and outlays for the relevant committees that report legislation relating to the reauthorization of and appropriation for surface transportation programs, provided that the reauthorization (by virtue of a title reported by the Committee on Finance) makes available new net resources for the highway trust fund that offset the resulting outlays—without increasing the deficit.

Section 310: Reserve fund for the bipartisan Medicaid commission

The Senate amendment includes a reserve fund for legislation that creates a bipartisan commission charged with reviewing and recommending long term goals for the effective operation of Medicaid.

Section 311: Deficit neutral reserve fund for patriotic employers of national guardsmen and reservists

The Senate amendment includes a reserve fund for deficit-neutral legislation that provides a 50-percent tax credit to employees who are on active duty status as members of the Guard or Reserve to make up the difference between the employee's civilian pay and military pay and/or for compensation paid to a worker hired to replace an active duty Guard or Reserve employee.

Section 312: Deficit neutral reserve fund for the Family Opportunity Act

The Senate amendment includes a reserve fund for deficit-neutral legislation that provides families of disabled children with the opportunity to purchase Medicaid coverage.

Section 313: Deficit neutral reserve fund for the restoration of SCHIP funds

The Senate amendment includes a reserve fund for deficit-neutral legislation that provides for the restoration of unexpended funds under the State Children's Health Insurance Program that reverted to the Treasury on October 1, 2004 and that may provide for the redistribution of such funds for outreach and enrollment as well as for coverage initiatives.

Section 314: Reserve fund for funding of Hope credit

The Senate amendment includes a reserve fund for deficit-neutral legislation that increases the Hope credit to \$4,000 and makes the credit available for 4 years.

Section 315: Deficit neutral reserve fund for influenza vaccine shortage prevention

The Senate amendment includes a reserve fund for deficit-neutral legislation that increases the participation of manufacturers in the production of influenza vaccine, and bioterror countermeasures, increase research and innovation in new technologies for the development of influenza vaccine, and enhances the ability of the United States to track and respond to domestic influenza outbreaks as well as pandemic containment efforts.

Section 316: Reserve fund for extension of treatment of combat pay for earned income and child tax credits

The Senate amendment includes a reserve fund for deficit neutral legislation that makes permanent the taxpayer election to treat combat pay otherwise excluded from gross income under section 112 of Internal Revenue Code as earned income for purposes of the earned income credit and makes permanent the treatment of such combat pay as earned income for purposes of the child tax credit.

CONFERENCE AGREEMENT

Section 301: Adjustment for Surface Transportation

Section 301 of the conference agreement is similar to section 301 of the House resolution and section 309 of the Senate amendment and allows for adjustments to committee allocations for changes in surface transportation policy to the extent that amounts in excess of those assumed in this resolution must be offset by new revenues or a reduction in trust fund mandatory outlays.

Section 302: Reserve fund for the Family Opportunity Act

Section 302 of the conference agreement retains the language of section 312 of the Senate amendment which provides for a reserve fund for legislation to enable the expansion of Medicaid coverage for children with special needs to permit their parents to purchase such coverage—with a modification. The conference agreement applies in both the House of Representatives and the Senate and permits the appropriate Budget Committee chairman to adjust committee allocations and other appropriate budgetary aggregates and allocations for legislation that is reported (and amendments thereto, or any conference report thereon) from the Senate Finance Committee, or the House Committee on Energy and Commerce, if the committees report legislation that expands Medicaid coverage for children with special needs to permit their parents to purchase such coverage. In order for the adjustments to be made, the Senate Finance Committee must be within its 302 allocation, and the legislation reported by committees in both Houses must be deficit neutral in fiscal year 2006 and for the period of fiscal years 2006 through 2010.

Section 303: Reserve fund for the Federal Pell Grant Program

Section 303 retains the language of section 305 of the Senate amendment which establishes a reserve fund for a measure that provides appropriations for the shortfall within the Federal Pell

Grant program, with certain modifications. The reserve fund in the conference agreement applies in both the House of Representatives and the Senate and permits the appropriate Budget Committee chairman to adjust committee allocations and other appropriate budgetary aggregates and allocations by up to \$4.3 billion in budget authority for the purpose of repaying the Pell shortfall. It may apply to a measure reported by the Appropriations Committee of either House, or by the relevant authorizing committee, though it is intended that the spending associated with this reserve fund be classified as mandatory. In order for the adjustments to be made, the committee in the Senate must be within its 302 allocations, and the legislation reported by a committee in the House must be deficit-neutral in fiscal year 2006 and the period of fiscal years 2006 through 2010.

A change in the way new Pell Grant spending is estimated is included in the "Budget Enforcement" of this conference agreement.

Guidelines for estimating a bill, joint resolution, amendment or conference report providing budget authority for the shortfall in the Federal Pell Grant Program:

Notwithstanding Rule 3 of the Budget Scorekeeping Guidelines set forth in the joint explanatory statement of the committee of conference accompanying Conference Report No. 105-217, the provisions of any bill or joint resolution, amendment offered thereto or conference report submitted thereon, that provides budget authority for the shortfall in the Federal Pell Grant program, shall be treated as direct spending, under section 252 of the Balanced Budget and Emergency Deficit Control Act of 1985, by the Congressional Budget Office, and by the Chairmen of the House and Senate Budget Committees, as appropriate, under the Congressional Budget Act of 1974.

Section 304: Reserve fund for the uninsured

The conference agreement retains the Senate (section 303) reserve fund for legislation relating to health insurance for the uninsured. The reserve fund is deficit-neutral. The reserve fund in the conference agreement applies in both the House of Representatives and the Senate.

Section 305: Reserve fund for the disposal of underutilized Federal real property

Section 304 establishes a reserve fund in the House of Representatives for Federal real property disposal. If the House Committee on Government Reform reports a bill designed to enhance the ability of the Federal government to dispose of unused and underutilized Federal real property assets, then the House Budget Committee Chairman may increase the allocation to that committee by \$50 million in fiscal year 2006, and by the same amount over five years.

The Federal government is one of the world's largest real property owners with a real estate portfolio of over 3.2 billion square feet consisting of nearly 525,000 buildings valued at over \$328 billion. The proposed reserve fund would facilitate the consideration of legislation to remove barriers that discourage the disposal of unneeded property and create incentives to encourage agencies to

dispose of such property at fair market value, thereby increasing receipts to the Federal treasury.

Section 306: Reserve fund for health information technology and pay-for-performance

The conference agreement retains the language of section 301 of the Senate amendment, which establishes a reserve fund for health information technology and pay-for-performance, with a modification. The reserve fund in the conference agreement applies to the Senate and permits the Budget Committee chairman to adjust committee allocations and other appropriate budgetary aggregates and allocations for such purpose, except that the legislation must be deficit-neutral for the period of fiscal years 2006 through 2010.

Section 307: Reserve fund for Asbestos Injury Trust Fund

The conference agreement retains with modification the Senate reserve fund (section 302) for legislation relating to the asbestos injury trust fund, which provides for monetary compensation to impaired victims of asbestos-related disease who can establish that asbestos exposure is a substantial contributing factor in causing their condition, does not compensate unimpaired claimants or those suffering from a disease who cannot establish asbestos exposure was a substantial factor causing their disease and is estimated to remain funded from non-taxpayer sources for the life of the fund. Assuming the Committee is within its allocation as provided under section 302(a) of the Congressional Budget Act of 1974 the Chairman of the Budget Committee may make the appropriate adjustments in allocations and aggregates to the extent that such legislation would not increase the deficit for the period of fiscal years 2006–2056.

Section 308: Reserve fund for energy legislation

The conference agreement retains the Senate (section 307) reserve fund for legislation relating to national energy policy.

Section 309: Reserve fund for the safe importation of prescription drugs

The conference agreement retains the Senate (section 308) reserve fund for legislation relating to the safe importation of prescription drugs. The reserve fund is deficit-neutral.

Section 310: Reserve fund for the restoration of SCHIP funds

The conference agreement retains the Senate (section 309) reserve fund for legislation relating to the restoration of SCHIP funds. The reserve fund is deficit-neutral.

BUDGET ENFORCEMENT

Under section 301 of the Budget Act, the budget resolution may include special procedures to enforce the spending and revenue levels contained in the resolution and the allocations found in the accompanying joint statement of managers.

HOUSE RESOLUTION

Section 401: Emergency legislation

Section 401 provides Congress with the authority to designate spending provisions as “emergencies.” It adopts criteria for evaluating emergency spending. It also exempts from budget controls supplemental appropriations for the Department of Defense for contingency operations related to the global war on terrorism.

Section 401(a) provides a special exemption from budget controls for a supplemental spending measure for the Department of Defense for “contingency operations related to the global war on terrorism.” Though \$50 billion has been budgeted for fiscal year 2006 in the budget resolution for this purpose, the final amount has yet to be determined. The final level of the supplemental will depend on the President’s request and the response of the Appropriations committees of the House and the Senate.

Subsection (b) exempts spending designated as an emergency from points of order and other provisions of the Congressional Budget Act.

Section 402: Compliance with section 13301 of the Budget Enforcement Act of 1990

This section provides authority to include the administrative expenses related to Social Security in the allocation to the Appropriations Committee. This language is necessary to ensure that the Appropriations Committee retains control of administrative expenses through the Congressional budget process.

Section 403: Application and effect of changes in allocations and aggregates

This section sets forth the procedures for making adjustments for the reserve funds included in this resolution. Subsection (a)(1) and (2) provide that the adjustments may only be made during the interval that the legislation is under consideration and do not take effect until the legislation is actually enacted. This is approximately consistent with the procedures for making adjustments for various initiatives under section 314 of the Congressional Budget Act.

Subsection (a)(3) provides that in order to make the adjustments provided for in the reserve funds, the Chairman of the House Budget Committee is directed to insert these adjustments in the Congressional Record.

Subsection (b) clarifies that any adjustments made under any of the reserve funds in the resolution have the same effect as if they were part of the original levels set forth in section 101.

Subsection (c) clarifies that the House Budget Committee determines the levels and estimates used to enforce points of order, as is the case for enforcing budget-related points of order.

Section 404: Restrictions on advance appropriations

The section includes a general restriction that limits the programs that may receive an advance appropriation and the total level of such appropriations. Advance appropriations may be provided for the accounts in appropriation bills identified under the

section “Accounts Identified Advanced Appropriations” in this Joint Statement of Managers on the Conference Report on the Budget Resolution in the section detailing the conference agreement. The amount in the House resolution was limited for these accounts to \$23.568 billion in budget authority. The amount is essentially the same as provided in previous budget resolutions, but it was adjusted to reflect advance appropriations provided for any year.

The section defines an “advance appropriation” as any new discretionary budget authority making general appropriations or continuing appropriations for fiscal year 2006 that first becomes available for any fiscal year after 2006.

Section 405: Special rule in the House for certain 302(b) suballocations

Under section 302(b) of the Congressional Budget Act of 1974, the Appropriations Committee suballocates its section 302(a) allocation among its various subcommittees. The recent reorganization of the House Appropriations subcommittees, however, eliminated the subcommittee responsible for legislative branch appropriations. To allow the House Appropriations Committee to report a bill providing legislative branch appropriations and then go to conference with the Senate on that bill, a special rule was required that allows the House Appropriations Committee to make a section 302(b) suballocation for legislative branch operations.

Section 406: Special procedures to achieve savings in mandatory spending through fiscal year 2014

Section 406 describes the sense of Congress that during the four fiscal years following the budget year, at least every other concurrent resolution on the budget should include reconciliation instructions to authorizing committees to achieve significant savings in mandatory spending.

SENATE AMENDMENT

Section 401: Restrictions on advance appropriations

The Senate amendment includes language limiting the use of advance appropriations. This restriction was first included in the fiscal year 2001 budget resolution and was included and revised in the conference agreements for the 2002, 2004, and 2005 resolutions as well. The Senate amendment restricts advance appropriations to an annual limit of \$23.393 billion to both the fiscal years 2006 and 2007 appropriation bills and limits permissible advance appropriations to those programs that are listed in the statement of managers accompanying the conference report on the budget resolution.

The list of permissible advances in the respective appropriations bill is as follows:

ACCOUNTS IDENTIFIED FOR ADVANCE APPROPRIATIONS

Interior: Elk Hills

Labor, HHS:

Corporation for Public Broadcasting
Employment and Training Administration
Education for the Disadvantaged

School Improvement
 Children and Family Services (Head Start)
 Special Education
 Vocational and Adult Education
 Transportation, Treasury:
 Payment to Postal Service
 Section 8 Renewals

Section 402: Emergency legislation

In general, the Senate's emergency rule addresses three issues with respect to emergency spending: the ability to designate spending as an emergency, the restatement of the Senate point of order with respect to the use of that designation, and the exemption of defense appropriations and overseas contingent operations from that point of order.

Section 403: Supermajority Enforcement

Section 403 of the Senate amendment extends the 60-vote requirement for points of order, waivers and appeals with respect to those budget-related points of order for which this requirement would have expired on September 30, 2008 for an additional two years (until September 30, 2010).

Section 403 also extends the supermajority enforcement of waivers and appeals to the unfunded mandates points of order (section 425(a)(1) and (2) of the Congressional Budget Act of 1974) for five years (until September 30, 2010). For the past 10 years, these points of order could have been waived by a simple majority vote.

Section 404: Discretionary spending limits in the Senate

Section 404 of the Senate amendment sets out congressional discretionary spending limits for the first three years covered by the 2006 budget resolution (fiscal years 2006, 2007 and 2008) with respect to both budget authority and outlays for the first year, and budget authority for the second and third years. Since the advent of statutory discretionary spending limits in 1990, a majority of budget resolution conference reports have included language dealing with 'congressional caps.'

Section 404 of the Senate amendment sets the following amounts as the discretionary spending limits:

For fiscal year 2006: \$848.1 billion in new budget authority and \$916.4 billion in outlays for the discretionary category.

For fiscal year 2007: \$868.5 billion in new budget authority for the discretionary category.

For fiscal year 2008: \$891.4 billion in new budget authority for the discretionary category.

The Senate amendment also provides for a number of cap adjustments. The cap adjustments permit the chairman of the Committee on the Budget to increase the discretionary spending limit, the section 302(a) allocation to the Committee on Appropriations, and any other appropriate levels in the resolution if an appropriations bill provides additional resources for the programs specified in the adjustment. The resolution allows for adjustments to discretionary spending limits for four program integrity programs: continuing disability reviews, internal revenue service tax enforce-

ment, health care fraud and abuse control, and unemployment insurance improper payments.

Section 405: Application and effect of changes in allocations and aggregates

The Senate amendment also provides for a number of cap adjustments. The cap adjustments permit resolution retains language from previous resolutions clarifying the process for implementing any adjustment made pursuant to the reserve funds and discretionary adjustments and the status of these adjusted levels. It also clarifies that the Budget Committee determines scoring for purposes of points of order.

Section 406: Adjustments to reflect changes in concepts and definitions

Section 406(a) of the Senate amendment also allows adjustments for changes in budgetary concepts. It provides that upon enactment of legislation that changes funding of an existing program from discretionary to mandatory (or vice versa) the chairman of the Committee on the Budget will adjust the levels in this budget resolution (including the discretionary spending limits) to reflect such a change.

Section 406(b) sets forth a change in the way the Federal Pell Grant Program should be estimated upon the adoption of the FY 2006 budget resolution.

Section 407: Limitation on long-term spending proposals

Section 407 creates a new point of order against legislation that would cause a net increase in direct spending in excess of \$5,000,000,000 in any of the four ten-year periods beginning in 2016 through 2055, as measured against current out-year estimates prepared by the Congressional Budget Office.

The point of order may be waived by 60 votes. An appeal of the ruling of the chair also requires 60 votes. The section will remain in effect until September 30, 2010.

Section 408: Exercise of rulemaking powers.

The Senate amendment restates the Congress's authority to legislate its rules of procedure.

CONFERENCE AGREEMENT

Section 401: Restrictions on advance appropriations

Section 401 reflects an overall limit on advance appropriations of \$23.158 billion in fiscal year 2007, which is the same limit on advance appropriations as has been included in all previous limitations on advance appropriations in past budget resolutions.

The list of permissible advances is as follows:

PART B: ADVANCE APPROPRIATIONS FOR FISCAL YEAR 2008

Corporation for Public Broadcasting

Section 402: Emergency legislation

Section 402(a) of the conference agreement largely follows section 401 of the House resolution with respect to the rule on emergency spending and the designation for contingency operations related to the global war on terrorism.

Section 402(b) follows the Senate amendment with regard to emergency spending and its exemption for overseas contingent operations.

Section 402(c) of the conference agreement sets forth common criteria for both Houses of Congress for spending that may be properly defined as an emergency requirement. In order to trigger the exemptions included in this section in either the House of Representatives or the Senate, spending must be 'designated by the Congress to be emergency legislation pursuant to section 402 of H. Con. Res. 95.'

Section 403: Extension of Senate enforcement

Section 403 of the conference agreement contains language similar to section 403 of the Senate amendment. It extends voting requirements applicable to Senate budget enforcement procedures.

Section 404: Discretionary spending limits in the Senate

Section 404 of the conference agreement retains the language of section 404 of the Senate amendment, with adjusted figures to reflect the conference agreement.

Section 405: Application and effect of changes in allocations and aggregates

Section 405 of the conference agreement retains the language of section 403 of the House resolution (which is identical to section 405 of the Senate amendment) clarifying both the process for making adjustments under the reserve funds and the status of the adjusted levels. It also determines scoring for purposes of enforcing budget related points of order.

Section 406: Adjustments to reflect changes in concepts and definitions

The House recedes to the Senate on section 406 of the Senate amendment with an amendment. Subsection 406(a) authorizes the chairmen of the Committees on the Budget of the House and the Senate to adjust the resolution to take into account changes in budgetary concepts and definitions upon enactment of such legislation.

Subsection 406(b) retains the language from section 406 of the Senate amendment regarding a change in the rules used to estimate the annual cost of the Federal Pell Grant program, and made it applicable in both the House of Representatives and the Senate.

Section 407: Limitation on long-term spending proposals.

Section 407(a) requires that the Director of the Congressional Budget Office prepare for the House and Senate, an analysis of measures that would cause a net increase in direct spending in excess of \$5,000,000,000 in any of the four ten-year periods beginning in 2016 through 2055.

Section 407(b) creates a new point of order in the Senate against any legislation that exceeds the threshold specified in subsection (a). The point of order may be waived and the rulings of the chair may be appealed by 60 votes.

The section remains in effect until September 30, 2010.

Section 408: Compliance with section 13301 of the Budget Enforcement Act of 1990

Section 408 of the conference agreement retains the language of section 402 of the House resolution, and applies it to the Senate. That section provides for the budgetary treatment of discretionary spending for the Social Security Administration.

Section 409: Exercise of rulemaking powers

In section 409, the House recedes to section 408 of the Senate amendment, which affirms that the budget resolution is an act of congressional rulemaking and subject to revisions by either House. Section 409 of the conference agreement states the authority by which Congress adopts the various budgetary enforcement rules and procedures for the consideration of certain legislation set out in the budget resolution.

Section 410: Treatment of allocations in the House

This section is identical to section 405 of the House-passed budget resolution, and applies only in the House of Representatives, and adds a clarification on the display of allocations to au-

thorizing committees made pursuant to section 302(a) of the Congressional Budget Act of 1974.

Section 411: Special procedures to achieve savings in mandatory spending through 2014

This section is identical to section 406 of the House-passed budget resolution, and applies only in the House of Representatives.

PUBLIC DEBT: AMENDING THE STATUTORY LIMIT PURSUANT TO HOUSE RULE XXVII

The adoption of this conference agreement by the two Houses would result in the engrossment of a House Joint Resolution adjusting the level of the statutory limit on the public debt pursuant to House Rule XXVII. In consonance with clause 3 of that rule, the conferees contemplate a joint resolution of the following form:

Resolved, by the Senate and the House of Representatives of the United States of America in Congress assembled, That subsection (b) of section 3101 of title 31, United States Code, is amended by striking out the dollar limitation contained in such subsection and inserting in lieu thereof \$8,965,000,000,000.

If the joint resolution is enacted to raise the debt limit to the level contemplated by this conference agreement, the limit will be increased from \$8.184 trillion to \$8.965 trillion, an increase of \$781 billion.

Legislative jurisdiction over the public debt remains with the Finance Committee in the Senate and the Committee on Ways and Means in the House.
