To provide for greater responsibility in lending and expanded cancellation of debts owed to the United States and the international financial institutions by low-income countries, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

DECEMBER 16, 2009

Ms. Waters (for herself, Mr. Frank of Massachusetts, Mr. Bachus, Mrs. Maloney, Mrs. Biggert, Mr. Gutierrez, Mr. Payne, Ms. Lee of California, Mr. Cleaver, and Mr. Walden) introduced the following bill; which was referred to the Committee on Financial Services

A BILL

To provide for greater responsibility in lending and expanded cancellation of debts owed to the United States and the international financial institutions by low-income countries, and for other purposes.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "Jubilee Act for Re-
- 5 sponsible Lending and Expanded Debt Cancellation of
- 6 2009".

1 SEC. 2. FINDINGS.

2	The Congress finds the following:
3	(1) Many low-income countries have been strug-
4	gling under the burden of international debts for
5	many years.
6	(2) Since 1996, when the Heavily Indebted
7	Poor Countries Initiative (HIPC) was created, more
8	than 30 nations have seen some form of debt relief
9	totaling more than \$100,000,000,000.
10	(3) Congress has demonstrated its support for
11	bilateral and multilateral debt relief through the en-
12	actment of comprehensive debt relief initiatives for
13	heavily indebted low-income countries in—
14	(A) title V of H.R. 3425 of the 106th Con-
15	gress, as enacted into law by section 1000(a)(5)
16	of the Act entitled "An Act making consoli-
17	dated appropriations for the fiscal year ending
18	September 30, 2000, and for other purposes",
19	approved November 29, 1999 (Public Law 106–
20	113; 113 Stat. 1501–311) and the amendments
21	made by such title;
22	(B) title II of H.R. 5526 of the 106 th
23	Congress, as enacted into law by section 101(a)
24	of the Act entitled "An Act making appropria-
25	tions for foreign operations, export financing,
26	and related programs for the fiscal year ending

- September 30, 2001, and for other purposes", approved November 6, 2000 (Public Law 106– 429; 114 Stat. 1900A–5); and
- 4 (C) title V of the United States Leadership
 5 Against HIV/AIDS, Tuberculosis, and Malaria
 6 Act of 2003 (Public Law 108–25; 117 Stat.
 7 747) and the amendment made by such title.
 - (4) In 2005, the United States and other G–8 nations reached an agreement to provide cancellation of 100 percent of the debts owed by eligible poor nations to Paris Club members, the IMF, the World Bank, and the African Development Bank. The Inter-American Development Bank reached an agreement in early 2007 to provide similar treatment.
 - (5) The 2005 agreement led to the creation of the Multilateral Debt Relief Initiative (MDRI). As of August 2009, 26 nations have seen the majority of their debts to the IMF, World Bank, and African Development Bank cancelled under the terms of the MDRI. In March 2007, the Inter-American Development Bank announced it would provide full debt cancellation to 5 Latin American countries on MDRI terms.

- 1 (6) Resources released by debt relief efforts to 2 date are reaching the poor. Cameroon used the 3 \$29,800,000 of savings it gained from the MDRI in 2006 for national poverty reduction priorities, in-5 cluding infrastructure, social sector and governance 6 reforms. Uganda used its \$57,900,000 savings in 7 2006 on improving energy infrastructure to try to 8 ease acute electricity shortages, as well as primary 9 education, malaria control, healthcare and water in-10 frastructure (specifically targeting the poor and under-served villages). Zambia used its savings of 12 \$23,800,000 under the MDRI in 2006 to increase 13 spending agricultural projects, such 14 smallholder irrigation and livestock disease control, 15 as well as to eliminate fees for healthcare in rural 16 areas.
 - (7) While debt cancellation has a record of success, there remains an unfinished agenda on international debt. There are a number of challenges to both the effective reduction of poverty and inequality and the achievement of broader debt cancellation.
 - (8) A critical issue which needs to be addressed on debt is the way that non-concessional lenders stand to gain financially from lending to poor countries that have benefited from debt relief without

- having paid for past debt relief or facing the prospect of paying for the future relief of unsustainable and irresponsible new lending. In these cases, the gains of debt relief for poor debtor countries are at risk of being eroded. This takes the form of new lending to countries that have received debt cancellation from countries including China.
 - (9) It is also essential that all lenders and borrowers accept co-responsibility and learn from past mistakes—as evidenced by the debt crisis itself—by making more productive investment choices and engaging in more responsible lending and borrowing in the future. In October 2006, Norway became the first creditor to accept co-responsibility for past lending mistakes and cancelled the debt of 5 nations on the grounds that the loans reflected poor development policy.
 - (10) A growing number of governments and intergovernmental bodies, including the United Kingdom, the European Commission, and Norway, are raising concerns about the harmful impacts of certain economic policy conditionalities. Many impoverished countries that have received debt cancellation under the HIPC and MDRI initiatives have done so at a high social cost, because they have had

to implement certain economic policy conditions, including the privatization of essential basic services such as water, and comply with other harmful requirements. Some of these policies have had the effect of limiting fiscal space for productive investment and threatening growth and human development. Several countries currently eligible for debt cancellation under the HIPC or MDRI programs are facing extended delays in receiving cancellation because they are struggling to comply with such requirements from the IMF and World Bank.

- (11) There is also an urgent need to look beyond the constraints of current debt relief initiatives to address the need for expanded debt cancellation. The current initiatives allow countries to qualify for relief based on economic criteria rather than human needs. A January 2007 report by the United Nations Human Rights Council found that eligibility for debt cancellation should be expanded to cover all low-income countries.
- (12) The Government of the United Kingdom has proposed that qualification for the MDRI be extended to the 67 nations which qualify for assistance exclusively from the International Development Association. To be eligible for cancellation, countries

- 1 must meet economic criteria pertaining to public fi-2 nancial management, anti-corruption measures, and 3 budget transparency.
- 4 (13) Since debt cancellation is an essential com-5 ponent of the United States development assistance 6 strategy and the United States has been able to lead 7 the debt cancellation efforts of the international 8 community by example, the United States should 9 continue to work to improve and expand initiatives 10 in this area.
- 11 (14) The United States has been a leader in 12 supporting debt relief efforts to date and should con-13 tinue to work to improve and expand initiatives in 14 this area.
- 15 SEC. 3. CANCELLATION OF DEBT OWED BY ELIGIBLE LOW-
- 16 **INCOME COUNTRIES.**
- 17 Title XVI of the International Financial Institutions
- 18 Act (22 U.S.C. 262p—262p—8) is amended by adding at
- 19 the end the following:
- 20 "SEC. 1626. CANCELLATION OF DEBT OWED BY ELIGIBLE

- 3 negotiate an agreement to accomplish the following:
- "(1) Cancellation by each international financial institution of all debts owed to the institution by
 eligible low-income countries, and, to the extent possible, financing the debt cancellation from the ongoing operations, procedures, and accounts of the institution, without undermining the financial integrity
 of the institution.
 - "(2) Cancellation by the United States of all debts owed to it by eligible low-income countries.
 - "(3) Ensuring that any waiting period for the enhanced debt cancellation is not excessive.

 - "(5) Encouraging the government of each eligible low-income country to allocate at least 20 percent of its national budget towards poverty-alleviation programs such as the provision of basic health

 - "(2) Work to ensure that the external financing needs of low-income countries are met primarily through grant financing rather than new lending.
 - "(3) Work within the IMF and World Bank to reform the Low Income Country Debt Sustainability Framework, including the establishment of independent entities, which should be comprised of representatives from individual countries, creditors, academic experts, civil society, and other experts, to provide oversight and input into country debt sustainability assessments.

11 SEC. 5. SENSE OF THE CONGRESS.

- 12 It is the sense of the Congress that to further the
- 13 goals of debt reduction for low-income countries, in addi-
- 14 tion to the efforts described in this Act, the United States
- 15 should pay off outstanding arrearages to the International
- 16 Development Association and regional development banks,
- 17 and become current on all debt reduction efforts, including
- 18 those carried out by the International Development Asso-
- 19 ciation and under the Enhanced Heavily Indebted Poor
- 20 Countries Initiative and the Multilateral Debt Relief Ini-
- 21 tiative.

22 SEC. 6. SENSE OF THE CONGRESS.

- 23 (a) FINDINGS.—A March 2009 IMF report on the
- 24 impact of the global financial crisis found that the crisis
- 25 is expected to have a major impact on low-income coun-

- 1 tries, especially in sub-Saharan Africa. The report noted
- 2 that over the past decade, debt relief initiatives have sig-
- 3 nificantly reduced the large external debts with which low
- 4 income countries have often struggled, and that a lower
- 5 debt servicing burden has also freed greater resources for
- 6 development spending. The report also found that the
- 7 global financial crisis has led to lower levels of remit-
- 8 tances, lower aid inflows and reduced revenues from for-
- 9 eign direct investment, which has put pressure on low in-
- 10 come countries to undertake new borrowing. According to
- 11 the report, 31 low income countries are projected to be
- 12 at high risk of debt distress in 2009. Countries at risk
- 13 of debt distress face an increased risk of defaulting on
- 14 their foreign debts, posing high risks for consumers and
- 15 bondholders in the United States and elsewhere.
- 16 (b) Sense of the Congress.—It is the sense of
- 17 the Congress that—
- 18 (1) in order to help avoid a chaotic series of de-
- 19 faults, both creditors and debtors should have the
- opportunity to turn to an international mechanism
- 21 to seek orderly debt work-outs; and
- 22 (2) the Secretary of the Treasury should sup-
- port the establishment of such a mechanism for or-
- derly, quick, predictable, and equitable resolutions of
- sovereign debt disputes under the form of ad hoc ar-

- 1 bitration panels, a standing insolvency court under
- 2 the administration of a specialized United Nations
- 3 body such as the Permanent Court on Arbitration,

4 or similar alternatives.
