# MILITARY PERSONNEL SHORTFALL

The conference agreement includes an additional \$2,810,222,000 for identified shortfalls resulting from unbudgeted additional end strength, which were a result of better-than-projected recruiting and retention levels; recent rate increases in Basic Pay, Retired Pay Accrual, Basic Allowance for Housing, and Basic Allowance for Subsistence; and unanticipated programmatic adjustments such as increased clothing and education costs.

# **OPERATION AND MAINTENANCE**

The conference agreement recommends \$32,547,114,000 for operation and maintenance.

The recommendations for each operation and maintenance account are shown below:

# PAKISTAN COUNTERINSURGENCY FUND

The conferees support the Administration's efforts to increase the counterinsurgency capability of the Pakistani security forces. The conferees believe that international military operations against al-Qaeda and the Taliban in Afghanistan cannot succeed without a strong counterinsurgency effort by security forces in Pakistan. However, the conferees are concerned about providing the Department of Defense with the authority and funding to conduct an assistance program which would traditionally fall under the purview of the Department of State. The conferees believe the Pakistan Counterinsurgency Fund (PCF) should reside within the Department of State but understand the near term needs of the Pakistan Security Forces and the lack of capacity within the State Department warrant an exception to traditional lines of authority. Therefore, the conferees support the Administration's request for this fund under the Department of Defense, but direct the Secretary of Defense and the Secretary of State to jointly develop a plan for transitioning the PCF from the Department of Defense to the Department of State by fiscal year 2010 and to be fully executed by the Department of State by fiscal year 2011. The plan should identify the resources, personnel, and authorities required to facilitate the transfer to the State Department, as well as goals and objectives for the successful completion of this program. In addition, the Secretary of Defense is directed to follow the same reporting requirements that Congress has required for the Afghanistan and Iraq Security Forces Funds as outlined in section 317 of this Act.

The conferees believe civil-military operations are a key component of successful counterinsurgency efforts. However, the conferees do not support the creation of a Commander's Emergency Response Program (CERP) or similar program for Pakistan, and have neither authorized nor provided funding for such a program anywhere in this Act. The conference agreement has made available \$2,000,000 from the Pakistan Counterinsurgency Fund to provide humanitarian assistance to the people of Pakistan only as part of civil-military training exercises carried out with Pakistan's security forces through this fund. Finally, the conferees direct the Department to work with the Government of Pakistan to establish a funding mechanism beginning in fiscal year 2010, using Pakistani funds, which can be applied to humanitarian needs in support of counterinsurgency operations conducted inside of Pakistan.

### FAMILY ADVOCACY PROGRAM

The conference agreement provides \$708,842,000 for family advocacy programs to provide counseling and family assistance including child psychologists, and other intervention efforts which is \$94,000,000 above the request in order to enhance the activities of the Family Advocacy Program and provide for children and families managing the difficult challenges of military service. The funding is provided for, but not limited to, child care, counseling, spouse certification and licensure, and Joint Family Assistance Centers. Funding is also available for the Warrior Family Community Partnership to provide assistance to all soldiers and families.

# COMBAT UNIFORMS

The conferees understand that soldiers deployed to Afghanistan have serious concerns about the current combat uniform which they indicate provides ineffective camouflage given the environment in Afghanistan. Accordingly, the conferees direct that within funding made available the Department of Defense take immediate action to provide combat uniforms to personnel deployed to Afghanistan with a camouflage pattern that is suited to the environment of Afghanistan. The conferees further direct the Secretary of the Army to provide a report on the program plans and budgetary adjustments necessary to provide appropriate uniforms to deployed and deploying troops to Afghanistan. The report shall be submitted to the congressional defense committees by the end of fiscal year 2009.

# PROCUREMENT

The conference agreement recommends \$25,846,718,000 for procurement.

The recommendations for each procurement account are shown below:

# STRYKER VEHICLES

The conference agreement supports continuation of the Stryker vehicle program which has demonstrated excellent performance in combat operations in the Central Command area of operations. The conference agreement provides \$200,000,000 above the budget request to procure additional Stryker vehicles. Funds may be used to procure additional medical evacuation vehicles, engineer squad vehicles and other Stryker variants, based on Army needs, and to sustain continued production. As part of the Department of Defense Quadrennial Defense Review, the Army is undertaking a major analysis of its tracked and tactical wheeled vehicle needs. This review will set the course for the future force and help establish the specific vehicle requirements. The conferees direct the Secretary of the Army to provide a report to the congressional defense committees, no later than September 30, 2009 with the plan to sustain Stryker vehicle production and the details on which vehicles (variant and quantity) will be procured with the provided funding.

# RAPID EQUIPPING FORCE

The conference agreement provides \$309,000,000 for the Army Rapid Equipping Force (REF), including \$99,000,000 for Counter Sniper and Soldier Wearable Acoustic Targeting Sniper Systems. This amount should satisfy numerous emergency requests from forward deployed and forward deploying units. The conferees direct the Secretary of the Army to provide an acquisition objective and basis of issue plan for both vehicular and soldier wearable sniper detection equipment within 60 days after enactment of this Act. If shortfalls still exist, the Army is expected to reprogram the necessary funds to accommodate the shortfalls.

# WEAPONS ENHANCEMENT PROGRAM

The budget request included \$32,461,000 for various force protection items and weapons upgrades in Procurement, Marine Corps. The conferees note that the Congress previously provided \$23,000,000 in this procurement line for a requirement that was subsequently not validated and directs the Marine Corps to apply those funds toward the requirements in the fiscal year 2009 supplemental request for weapons enhancements.

### COMBAT OPERATIONS CENTERS

The conferees understand that subsequent to the budget submission, an Urgent Universal Needs Statement for additional Combat Operations Centers for Marine units in support of operations in Afghanistan was validated. The conference agreement provides \$53,200,000 in Procurement, Marine Corps to fully satisfy this requirement.

### EXPLOSIVE ORDNANCE DISPOSAL SYSTEMS

The budget request includes \$35,000,000 for a U.S. Central Command Urgent Universal Needs Statement for a Standoff Suicide Bomber Detection System in Procurement, Marine Corps. The conferees have been informed that the Urgent Universal Needs Statement was suspended following the budget submission and therefore provide no funds for this effort.

## PHYSICAL SECURITY EQUIPMENT

The budget request includes \$112,200,000 in Procurement, Marine Corps for physical security requirements that were previously funded. The conferees deny the redundant funds.

# F-22 AIRCRAFT

The Air Force has informed the Congress that funding in the amount of \$45,000,000 is required for the F-22 Raptor program to avoid a work stoppage in material processing and fabrication activities during fiscal year 2009. The conferees direct the Secretary of the Air Force to use \$45,000,000 from within the funds provided to ensure that work proceeds on schedule. None of the funds provided in this Act shall be used to finance activities to shut-down the F-22A production line. Funds may be used to explore options to develop an export variant of the F-22A.

# NATIONAL GUARD AND RESERVE EQUIPMENT

The National Guard and Reserve components traditionally receive less than a proportionate share of funding to resource their equipment needs. As a result, the conferees recommend funding of \$500,000,000 for the National Guard and Reserve forces. Of that amount, \$300,000,000 is for the Army National Guard; \$50,000,000 for the Air National Guard; \$75,000,000 for the U.S. Army Reserve; \$25,000,000 for the Navy Reserve; \$25,000,000 for the Marine Corps Reserve; and \$25,000,000 for the Air Force Reserve to meet urgent equipment needs that may arise this fiscal year. This funding will allow the National Guard and Reserve components to procure high priority equipment that may be used by these units for both their combat missions and their missions in support of State governors.

## MINE RESISTANT AMBUSH PROTECTED VEHICLE FUND

The conferees recommend \$4,543,000,000 for the Mine Resistant Ambush Protected Vehicle Fund, an increase of \$1,850,000,000 above the request and direct that the additional funds shall be for the procurement and fielding of Mine Resistant Ambush Protected All Terrain Vehicles (M-ATV) only. M-ATVs are urgently needed to protect servicemembers against improvised explosive devices and other threats in Afghanistan. These new, lightweight MRAPs operate better than current vehicles in the close urban environments and challenging terrain of Afghanistan. The conferees expect that the Joint Program Office will move rapidly to field these critical force protection assets to the Warfighter.

# RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The conference agreement recommends \$833,499,000 for re-search, development, test and evaluation. The recommendations for each research, development, test and evaluation account are shown below:

# KINETIC ENERGY INTERCEPTOR

The conferees understand a stop work order on the Kinetic Energy Interceptor (KEI) was issued May 11, 2009. However, the KEI program had a booster flight test scheduled in Fall 2009 that could provide an important understanding of the technology risk for any future interceptor development. The conferees further understand that the KEI program has already produced valuable technical accomplishments. The conferees strongly encourage the Missile Defense Agency to execute this test, within funds that have been made available for KEI, to gain significant technical knowledge for this program.

# **REVOLVING AND MANAGEMENT FUNDS**

# DEFENSE WORKING CAPITAL FUNDS

The conference agreement recommends \$861,726,000 for the Defense Working Capital Fund accounts. This supports funding of \$443,200,000 for the Defense Working Capital Fund, Army, to restock spare and repair parts essential to the operational readiness of the Army; \$15,000,000 for the Defense Working Capital Fund, Air Force, for the transportation of Fallen Heroes from the theater of operations; and \$403,526,000 for the Defense Working Capital Fund, Defense-Wide, for contingency operations costs for the Defense Information Systems Agency and the Defense Logistics Agency.

### TRAUMATIC BRAIN INJURY AND PSYCHOLOGICAL HEALTH RESEARCH

The conference agreement provides \$75,000,000 for Traumatic Brain Injury (TBI) and Psychological Health peer-reviewed and/or competitively awarded research, development, test and evaluation efforts. The funding provided is to be allocated as recommended in the House Report 111–105 to validate emergent approaches and technologies and to accelerate on-going programs for early diagnosis, assessment and treatment of TBI and Psychological Health, including spinal cord injury, and complementary and alternative medicine.

### ORTHOPEDIC RESEARCH

The conference agreement provides \$51,000,000 for orthopedic and other trauma research, treatment and rehabilitation including regenerative medicine. This funding will continue and expand the existing orthopedic trauma research program, amputee rehabilitation and reset research, and restoration of function. Serious limb trauma, vascular injuries, major limb tissue damage, and blood flow disruption contribute heavily to United States military casualties in Iraq and Afghanistan. The Department of Defense estimates indicate that nearly two thirds of injuries sustained in combat in Iraq and Afghanistan are musculoskeletal. Extremity injuries are the most prevalent injury, and amputations following battlefield injury now occur at twice the rate as in past wars. Understanding how to treat and facilitate rapid recovery from orthopedic injuries should be one of the top priorities for the Military Health System.

### REHABILITATION EQUIPMENT

The conference agreement provides \$20,000,000 to procure equipment for rehabilitation facilities currently under construction. The equipment will enable continued state-of-the-art care for soldiers with various types of injuries to recover to their full potential and return to a more normal way of life.

### DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

# TITLE VIII

# DEPARTMENT OF HEALTH AND HUMAN SERVICES

#### Administration for Children and Families

#### REFUGEE AND ENTRANT ASSISTANCE

The conference agreement includes \$82,000,000 for refugee and entrant assistance, as proposed by the Senate. The House proposed these funds within the Department of Defense, including transfer authority to other Federal agencies. The conferees intend that these funds be used for the care and custody of unaccompanied alien children, to allow the Office of Refugee Resettlement to implement the provisions of Public Law 110–457, the William Wilberforce Trafficking Victims Protection Reauthorization Act (TVPRA) of 2008. The conferees direct the Department of Health and Human Services, in conjunction with the Department of Homeland Security, to provide a briefing to the Committees on Appropriations no later than July 3, 2009 on the increased costs in fiscal year 2010 associated with implementing the TVPRA.

#### OFFICE OF THE SECRETARY

# PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

#### (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$1,850,000,000 for pandemic influenza preparedness and response as proposed by the House. The Senate proposed \$1,500,000,000 in the Executive Office of the President. Funding is available until expended, as proposed by the House, rather than until September 30, 2010 as proposed by the Senate.

The conference agreement concurs in the House recommendation and does not specify amounts within this appropriation for Federal government agencies outside of the Department of Health and Human Services (HHS). The Senate recommended a number of transfers to other Federal agencies.

The conferees recognize the high level of uncertainty associated with the current H1N1 influenza virus strain and other circulating flu viruses and the urgent need to provide increased resources to Federal, State, and local agencies on the frontlines of responding to disease outbreaks. Lessons learned from past influenza pandemics indicate that influenza can strike a community, affect many individuals, and then return with a vengeance to strike the community months later.

HHS has nearly exhausted all prior appropriated influenza pandemic funds to respond to the current H1N1 influenza outbreak. Supplemental funding is needed to continue to address this current outbreak, but also to prepare for the potential of future outbreaks, increased severity of the virus, or for a new flu strain to emerge. As such, this funding may be used for an array of pandemic influenza preparedness and response activities, including the development and purchase of vaccines, antiviral drugs, medical supplies and personal protective equipment, diagnostic and vaccine delivery equipment, for upgrading State and local public health capacity, and domestic and international surveillance. Additionally, funding may be used to support the activities for which prior funding was provided, but has been diverted to address the current outbreak.

As proposed by the House, the conference agreement includes bill language that permits the Secretary of HHS to transfer funding to other Federal agencies to be used to prepare for and respond to an influenza pandemic. Funds may also be transferred to the Covered Countermeasure Process Fund for the purpose of administering compensation claims for individuals who may experience adverse reactions caused by the administration or use of a covered countermeasure, such as vaccines and antiviral drugs. Such transfers shall be made in consultation with the Director of the Office of Management and Budget (OMB). Not later than 15 days prior to transferring any funds, the Secretary must notify the Committees on Appropriations of the House of Representatives and the Senate of the planned uses of the funds. The Senate did not propose similar language. Additionally, the conferees direct the Secretary to consult with the Director of OMB when making funding allocations within HHS.

Within the total, the conference agreement includes no less than \$200,000,000 for the Centers for Disease Control and Prevention (CDC) as proposed by the House. The Senate did not include a similar provision. CDC is the lead Federal agency involved with detecting, preparing for, and responding to infectious disease outbreaks. Funding will be used for such activities as U.S. and global disease detection and surveillance, laboratory capacity and research, diagnostic capabilities, risk communication, rapid response, distribution of medical supplies and treatments from the Strategic National Stockpile, guidance development, and assistance to State and local governments.

Also within the total, the conference agreement includes no less than \$350,000,000 for upgrading State and local capacity as proposed by the House. The Senate did not include a similar provision. State and local public health systems have been challenged by the economic downturn. These funds will be used to support State and local public health and emergency response infrastructure, such as workforce, laboratory capacity, public communications, and community mitigation guidance and planning.

As proposed by the House, the conferees request that the Secretary of HHS, together with the Director of CDC, examine HHS' response to the early stages of the H1N1 outbreak in Mexico and the laboratory confirmation process to ascertain whether improvements are needed in its current disease detection policies and procedures. HHS should submit a report to the Committees on Appropriations of the House of Representatives and the Senate no later than 90 days after the enactment of this Act. The Senate did not request a similar report.

As proposed by the House, the conferees direct the Secretary of HHS to provide monthly reports to the Committees on Appropriations of the House of Representatives and the Senate updating the status of actions taken and funds obligated in this and previous appropriations Acts for pandemic influenza preparedness and response activities. These reports should be provided no later than 15 days after the end of each month. Further, the Secretary shall include appropriations provided in this Act when preparing the semiannual report to Congress on influenza pandemic preparedness spending. The Senate did not propose similar language.

#### *Contingent emergency appropriation*

The conference agreement includes an additional \$5,800,000,000 as a contingent emergency appropriation to provide Federal, State, and local public health and emergency response agencies with resources to effectively respond should an escalation of the H1N1 virus or another emergent influenza virus require a national vaccination program. On June 2, 2009, the President submitted a request for \$2,000,000,000 in contingent funds, plus authority to transfer and redirect Recovery Act and other prior appro-

priations for this purpose. The conferees agree that additional, substantial, and flexible resources should be provided to respond to this emerging situation; however, the conferees believe they should be provided in a more efficient manner.

Moreover, to ensure that these resources are used for urgent needs, with oversight and accountability, this funding is available for obligation only if the President provides written notice to Congress that emergency funds are required to address critical needs related to emerging influenza viruses. Funds may be transferred to other appropriation accounts of the Department of Health and Human Services and other Federal agencies in consultation with the Director of the Office of Management and Budget. Further, none of the funds provided through this contingent emergency appropriation shall be made available for obligation until 15 days following the submittal of detailed obligation plans to the Committees on Appropriations of the House of Representatives and the Senate. Such plans shall identify the amounts and the activities for which funds are specified by the President, shall be prepared by HHS or any other Federal agency receiving funds, and shall be coordinated with the Executive Office of the President.

#### GENERAL PROVISIONS—THIS TITLE

#### (TRANSFER OF FUNDS)

Sec. 801. The conference agreement includes a provision as proposed by the Senate to provide the Department of Labor expanded transfer authority for administrative funding appropriated in the American Recovery and Reinvestment Act. The House bill did not include a similar provision.

Sec. 802. The conference agreement includes a provision as proposed by the House to make a technical correction to the fiscal year 2009 Omnibus Appropriations Act to permit the higher foster care children adoption incentive payments to States authorized by the Fostering Connections to Success and Increasing Adoptions Act of 2008 (Public Law 110–351). The Senate bill did not include a similar provision.

Sec. 803. The conference agreement includes bill language, not in either House or Senate bills, to enable the Department of Education to expedite the awarding of American Recovery and Reinvestment Act (ARRA) funding available for the Centers for Independent Living program and allow multiple year awards. The conferees expect that this authority will help the Department begin to make ARRA awards under this program in the current fiscal year and request monthly reports to the Committees on Appropriations of the House of Representatives and the Senate on actions taken to make all awards under this program.

#### (INCLUDING TRANSFER OF FUNDS)

Sec. 804. The conference agreement includes a provision that permits the Secretary of Education to transfer up to \$10,260,000 to the Career, Technical, and Adult Education account for carrying out Adult Education State Grants from amounts that would otherwise lapse at the end of fiscal year 2009, with notification to the Committees on Appropriations. The Senate proposed language authorizing a transfer of up to \$17,678,270 for this purpose, while the House bill did not include similar language.

# TITLE IX

# LEGISLATIVE BRANCH

#### U.S. CAPITOL POLICE

# GENERAL EXPENSES

The agreement includes \$71,606,000 for the acquisition and installation of a new radio system for the U.S. Capitol Police as proposed by both the House and the Senate. This is the same amount as the supplemental request. The Government Accountability Office will support the Capitol Police in the execution of this critical project and have been requested by the House and Senate Appropriations Committees to provide regular updates of progress in meeting critical system deadlines and performance standards.

The agreement accepts the Senate structure of the appropriations language which deletes a proviso included in the House bill and the supplemental request that would have placed \$6,500,000 of this amount in a contingency reserve.

# CONGRESSIONAL BUDGET OFFICE

#### SALARIES AND EXPENSES

The agreement includes \$2,000,000 as proposed by the Senate for the Congressional Budget Office. These funds remain available until September 30, 2010. The funding provides increased resources to expedite CBO's evaluation and scoring of major legislation expected to be considered during the remainder of fiscal year 2009 and will accelerate staffing increases proposed in the fiscal year 2010 budget request. These funds were not in the supplemental request or the House bill.

# SEC. 901—GENERAL PROVISION

The agreement does not include a general provision proposed by the Senate related to Committee funding. The House included no similar language.

The conferees also recommend a rescission of \$143,242,000 from a prior year appropriation due to the cancellation of military construction projects in Iraq. The agreement includes a provision as proposed by the Senate to require a prefinancing statement for each project in Afghanistan be submitted to NATO before funds can be obligated or expended. #### OVERSEAS DEPLOYMENTS AND EMERGENCY DESIGNATIONS

Sec. 14102. The conference agreement includes a global designation, as proposed by the House, providing that each amount in titles I, II, IV, V, VII, VIII, IX, XII, XIII, XIV, and VI, except amounts under the heading "Coast Guard Operating Expenses", is designated as necessary to meet emergency needs pursuant to sections 403(a) and 423(b) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010. The agreement also includes a global designation, as proposed by the House, providing that all other amounts in the bill, except certain amounts rescinded in section 309 of the conference report, are designated as being for overseas deployments and other activities pursuant to sections 401(c)(4) and 423(a) of S. Con. Res. 13 (111th Congress). The Senate included emergency and overseas deployment designations on an account-by-account basis.

#### RESTRICTIONS AND REQUIREMENTS REGARDING THE TRANSFER AND RELEASE OF GUANTANAMO BAY DETAINEES

Sec. 14103. The conference agreement includes language prohibiting current detainees from being released in the continental United States, Alaska, Hawaii or D.C. The agreement also prohibits current detainees from being transferred to the U.S., except to be prosecuted, and only 45 days after Congress receives a plan detailing the risks involved and a plan for mitigating such risk; cost of the transfer; legal rationale and court demands; and a copy of the notification provided to the Governor of the receiving state (or the Mayor of the District of Columbia) 14 days before a transfer with a certification by the Attorney General that the individual poses little or no security risk.

Under the conference agreement, current detainees cannot be transferred or released to another country unless the President submits to Congress 15 days prior to such transfer: (a) the name of the individual and the country to which the individual will be transferred; (b) an assessment of risks posed and actions taken to mitigate such risks; and (c) the terms of the transfer agreement with the other country, including any financial assistance. Finally, the agreement includes language requiring the President to submit a report to Congress describing the disposition of each current detainee before the facility can be closed.

The conference agreement deletes the language included in title II of the Senate amendment that prohibited the use of funds appropriated or made available by this or any prior Act to transfer, release or incarcerate Guantanamo detainees to or within the U.S.

The conference agreement also deletes a provision proposed by the House that required the President to submit to Congress by October 1, 2009 a comprehensive plan on the proposed disposition of the Guantanamo Bay detention facilities.

# NOTIFICATION OF EMERGENCY LEGISLATION

The congressional budget resolution (S. Con. Res. 13) agreed to by Congress for fiscal year 2010 includes provisions relating to the notification of emergency spending. These provisions require a statement of how the emergency provisions contained in the conference agreement meet the criteria for emergency spending as identified in the budget resolution.

The conference agreement contains emergency funding for fiscal year 2009 primarily for natural disasters and the threat of pandemic influenza. Funding for natural disasters includes, but is not limited to, wildland fires, flooding in the Upper Midwest and Pacific Northwest, for ice storms, for Katrina hurricane recovery and subsequent storms, including Hurricanes Ike and Gustav in the gulf coast region, and for other needs. The funding is related to unanticipated needs and is for situations that are sudden, urgent, and unforeseen, specifically prevention of pandemic influenza and other disasters. These needs meet the criteria for emergencies.
