

under Western Resources' market-based power sales tariff on file with the Commission. The agreements are proposed to become effective May 19, 1998, May 18, 1998, May 20, 1998, May 28, 1998 and June 17, 1998, respectively.

Copies of the filing were served upon Ameren Services Company, Missouri Public Service, Koch Energy Trading, Inc., PacifiCorp Power Marketing, Inc., Omaha Public Power District, and the Kansas Corporation Commission.

Comment date: July 7, 1998, in accordance with Standard Paragraph E at the end of this notice.

23. PJM Interconnection, L.L.C.

[Docket No. ER98-3402-000]

Take notice that on June 17, 1998, PJM Interconnection, L.L.C. (PJM), tendered for filing amendments to the service agreements for Network Integration Transmission Service for Delmarva Power & Light Company and PP&L, Inc., so as to reflect that, commencing June 1, 1998, the load of the Easton Utilities Commission will be served by PP&L rather than Delmarva.

Copies of this filing were served upon Delmarva, PP&L, Easton, the Maryland Public Service Commission, and the Pennsylvania Public Utility Commission.

PJM requests an effective date of June 1, 1998, for the amendments to the service agreements.

Comment date: July 7, 1998, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2232-334]

Duke Power Company, Notice of Availability of Draft Environmental Assessment

June 25, 1998.

A draft environmental assessment (EA) is available for public review. The draft EA analyzes the environmental impacts of allowing Duke Power Company, licensee for the Catawba-Wateree Project, P-2232-334, to authorize the Charlotte-Mecklenburg Utility District to construct additional facilities at the Catawba River Pumping Station to increase the water withdrawal from Mountain Island Lake for municipal water supply. The EA concludes the proposed action would not constitute a major federal action significantly affecting the quality of the human environment. The Catawba-Wateree Project is on the Catawba and Wateree rivers in North and South Carolina.

the draft EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the draft EA can be obtained by calling the Commission's Public Reference Room at (202) 208-1371.

Please submit any comments on the draft EA within 30 days from the date of this notice. any comments conclusions, or recommendations that draw upon studies, reports, or other working papers of substance should be supported by appropriate documentation. Comments should be addressed to: Mr. David P. Boergers, Acting Secretary, Federal Energy Regulatory Commission, 888 First Street N.E., Washington, D.C. 20426. Please affix Project No. 2232-334 to all comments.

David P. Boergers,

Acting Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 11508-001]

Alaska Power and Telephone Company; Notice of Intent To Prepare an Environmental Assessment and Conduct Public Scoping Meetings and a Site Visit

June 25, 1998.

The Federal Energy Regulatory Commission (Commission) has received an application from the Alaska Power and Telephone Company (AP&T) to license the Wolf Lake Hydroelectric Project, Project No. 11508-001. The proposed 2.2-megawatt project would be located on the east side of Prince of Wales Island along Twelvemile Arm, near Hollis, Alaska.

The Commission intends to prepare an Environmental Assessment (EA) for the project in accordance with the National Environmental Policy Act. In the EA, we will objectively analyze both site-specific and cumulative environmental impacts of the project, and reasonable alternatives as proposed by AP&T, as well as, economic and engineering impacts.

The draft EA will be issued and circulated to those on the mailing lists for this project. All comments filed on the draft EA will be analyzed by the staff and considered in a final EA. The staff's conclusions and recommendations presented in the final EA will then be presented to the Commission to assist in making a licensing decision.

Scoping

At this time, we are asking agencies, native Alaskans, non-governmental organizations, and individuals to help us identify the scope of environmental issues that should be analyzed in the EA, and to provide us with information that may be useful in preparing the EA.

To help focus comments on the environmental issues, a scoping document outlining subject areas to be addressed in the EA will soon be mailed to those on the mailing list for the project. Those not on the mailing list may request a copy of the scoping document from the project coordinator, whose telephone number is listed below. Copies of the scoping document will also be available at the scoping meetings.

Scoping Meetings

Two scoping meetings will be held to hear comments on the project that could assist FERC staff in identifying the

scope of environmental issues that should be analyzed in the EA. A public meeting will be held at 6:30 PM on Wednesday, July 29, 1998, at the Hollis Public Library, in Hollis, Alaska. The agency scoping meeting will be held at 1:30 PM on Thursday, July 30, 1998, at the State Capitol Building, Governor's Conference Room, 3rd Floor, corner of 4th and Main Streets, Juneau, Alaska. The public and the agencies may attend either or both meetings, however.

Objectives

At the scoping meetings the staff will: (1) identify preliminary environmental issues related to the proposed project; (2) identify preliminary resource issues that are not important and do not require detailed analysis; (3) identify reasonable alternatives to be addressed in the EA; (4) solicit from the meeting participants all available information, especially quantified data, on the resource issues; and (5) encourage statements from experts and the public on issues that should be analyzed in the EA, including points of view in opposition to, or in support of, the staff's preliminary views.

Procedures

The scoping meetings will be recorded by a court reporter, and all statements will become part of the Commission's public record for the project. Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meetings and assist the staff in defining and clarifying and issues to be addressed in the EA.

Persons choosing not to speak at the meetings, but who have views on the issues or information relevant to the issues, may submit written statements for inclusion in the public record at the meetings. All written correspondence should clearly show the following caption on the first page: Wolf Lake Hydroelectric Project, FERC Project No. 11508-001. Comments and information are due to the Commission no later than August 31, 1998.

Those with comments or information pertaining to this project should file it with the Commission at the following address: David P. Boergers, Acting Secretary, Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

Intervenors—those on the Commission's service list for this proceeding (parties)—are reminded of the Commission's Rules of Practice and Procedure, requiring parties filing documents with the Commission, to serve a copy of the document on each

person whose name appears on the official service list. Further, if a party or interceder files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Site Visit

There will be a tour of the proposed project site on Tuesday, July 28, 1998, to familiarize concerned individuals with the project. Because of the absence of road access at the proposed project site, transportation to the project site would be via helicopter from a location to be identified in Hollis. Those interested in going on the site visit should call the AP&T contact, Mr. Greg Mickelson at (907) 826-3202 by July 21, 1998, for details. The trip is expected to last several hours. In the event of inclement weather or if we are unable to get to the proposed site on the scheduled date, the alternate site visit would be on Wednesday, July 29, 1998, at the same meeting place and time as the preferred scheduled visit.

Any questions regarding this notice maybe directed to Mr. Carl Keller at FERC, (202) 219-2831.

David P. Boergers,

Acting Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6119-4]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Motor Vehicle Emission Certification and Fuel Economy Compliance; Motorcycles, Light Duty Vehicles and Light Duty Trucks

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Emission Certification and Fuel Economy Compliance; Motorcycles, Light Duty Vehicles and Light Duty Trucks; EPA ICR 0783.37, OMB 2060-0104, expires 31 August 1998. The ICR describes the nature of the information collection and its expected burden and

cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before July 31, 1998.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, call Sandy Farmer at EPA, by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download off the Internet at <http://www.epa.gov/icr/icr.htm>, and refer to EPA ICR No. 0783.37.

SUPPLEMENTARY INFORMATION:

Title: Emission Certification and Fuel Economy Compliance; Motorcycles, Light Duty Vehicles and Light Duty Trucks; EPA ICR 0783.37, OMB 2060-0104, expires 31 August 1998. This is a request for extension of a currently approved collection.

Abstract: Under the Clean Air Act (42 U.S.C. 7525), manufacturers and importers of passenger cars, light trucks and motorcycles must have a certificate of conformity issued by EPA covering any vehicle they intend to offer for sale. In addition, car and truck manufacturers (and importers) must also submit information and reports required by the Energy Conservation and Policy Act (15 U.S.C. 2000 *et seq.*) cars and light trucks). EPA reviews vehicle information and test data to verify that the vehicle conforms to appropriate requirements and to verify that the proper testing has been performed. Subsequent audit and enforcement actions may be taken based, in part, on the information submitted. Information submitted is not available to the public until the vehicle(s) to which it pertains is offered for sale; after that time trade secrets qualify for confidential treatment; 42 U.S.C. 7542. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 08 April 1998, (63 FR 17172); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 13,831 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying
