

scope of environmental issues that should be analyzed in the EA. A public meeting will be held at 6:30 PM on Wednesday, July 29, 1998, at the Hollis Public Library, in Hollis, Alaska. The agency scoping meeting will be held at 1:30 PM on Thursday, July 30, 1998, at the State Capitol Building, Governor's Conference Room, 3rd Floor, corner of 4th and Main Streets, Juneau, Alaska. The public and the agencies may attend either or both meetings, however.

Objectives

At the scoping meetings the staff will: (1) identify preliminary environmental issues related to the proposed project; (2) identify preliminary resource issues that are not important and do not require detailed analysis; (3) identify reasonable alternatives to be addressed in the EA; (4) solicit from the meeting participants all available information, especially quantified data, on the resource issues; and (5) encourage statements from experts and the public on issues that should be analyzed in the EA, including points of view in opposition to, or in support of, the staff's preliminary views.

Procedures

The scoping meetings will be recorded by a court reporter, and all statements will become part of the Commission's public record for the project. Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meetings and assist the staff in defining and clarifying and issues to be addressed in the EA.

Persons choosing not to speak at the meetings, but who have views on the issues or information relevant to the issues, may submit written statements for inclusion in the public record at the meetings. All written correspondence should clearly show the following caption on the first page: Wolf Lake Hydroelectric Project, FERC Project No. 11508-001. Comments and information are due to the Commission no later than August 31, 1998.

Those with comments or information pertaining to this project should file it with the Commission at the following address: David P. Boergers, Acting Secretary, Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

Intervenors—those on the Commission's service list for this proceeding (parties)—are reminded of the Commission's Rules of Practice and Procedure, requiring parties filing documents with the Commission, to serve a copy of the document on each

person whose name appears on the official service list. Further, if a party or interceder files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Site Visit

There will be a tour of the proposed project site on Tuesday, July 28, 1998, to familiarize concerned individuals with the project. Because of the absence of road access at the proposed project site, transportation to the project site would be via helicopter from a location to be identified in Hollis. Those interested in going on the site visit should call the AP&T contact, Mr. Greg Mickelson at (907) 826-3202 by July 21, 1998, for details. The trip is expected to last several hours. In the event of inclement weather or if we are unable to get to the proposed site on the scheduled date, the alternate site visit would be on Wednesday, July 29, 1998, at the same meeting place and time as the preferred scheduled visit.

Any questions regarding this notice maybe directed to Mr. Carl Keller at FERC, (202) 219-2831.

David P. Boergers,

Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6119-4]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Motor Vehicle Emission Certification and Fuel Economy Compliance; Motorcycles, Light Duty Vehicles and Light Duty Trucks

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Emission Certification and Fuel Economy Compliance; Motorcycles, Light Duty Vehicles and Light Duty Trucks; EPA ICR 0783.37, OMB 2060-0104, expires 31 August 1998. The ICR describes the nature of the information collection and its expected burden and

cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before July 31, 1998.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, call Sandy Farmer at EPA, by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download off the Internet at <http://www.epa.gov/icr/icr.htm>, and refer to EPA ICR No. 0783.37.

SUPPLEMENTARY INFORMATION:

Title: Emission Certification and Fuel Economy Compliance; Motorcycles, Light Duty Vehicles and Light Duty Trucks; EPA ICR 0783.37, OMB 2060-0104, expires 31 August 1998. This is a request for extension of a currently approved collection.

Abstract: Under the Clean Air Act (42 U.S.C. 7525), manufacturers and importers of passenger cars, light trucks and motorcycles must have a certificate of conformity issued by EPA covering any vehicle they intend to offer for sale. In addition, car and truck manufacturers (and importers) must also submit information and reports required by the Energy Conservation and Policy Act (15 U.S.C. 2000 *et seq.*) cars and light trucks). EPA reviews vehicle information and test data to verify that the vehicle conforms to appropriate requirements and to verify that the proper testing has been performed. Subsequent audit and enforcement actions may be taken based, in part, on the information submitted. Information submitted is not available to the public until the vehicle(s) to which it pertains is offered for sale; after that time trade secrets qualify for confidential treatment; 42 U.S.C. 7542. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 08 April 1998, (63 FR 17172); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 13,831 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers and importers of passenger cars, light trucks and motorcycles.

Estimated Number of Respondents: 70.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 968,175 hours.

Estimated Total Annualized Cost Burden: \$12,700,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No 0783.37 and OMB Control No. 2060-0104 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460;

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA 725 17th Street, NW, Washington, DC 20503.

Dated: June 25, 1998.

Joseph Retzer,

Director, Regulatory Information Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6118-7]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; New Source Performance Standards for Portland Cement Plants

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C.

3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: New Source Performance Standards for Portland Cement Plants, OMB Control No. 2060-0025, expiration date 8/31/98. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before July 31, 1998.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, call Sandy Farmer at EPA, by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download off the Internet at <http://www.epa.gov/icr/icr.htm>, and refer to EPA ICR No. 1051.07

SUPPLEMENTARY INFORMATION:

Title: New Source Performance Standards for Portland Cement Plants, OMB Control No. 2060-0025; EPA ICR No. 1051.07; expiring 8/31/98. This is a request for the extension of a currently approved collection.

Abstract: Entities potentially affected by this action are portland cement plants with the following facilities: kilns, clinker coolers, raw mill systems, raw mill dryers, raw material storage, clinker storage, finished product storage, conveyor transfer points, bagging and bulk loading and unloading systems. The Administrator has judged that PM emissions from portland cement plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Owners/operators of portland cement plants must notify EPA of construction, modification, startups, shut downs, date and results of initial performance test and excess emissions. In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of

information was published on 3/5/98. No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 279 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators of Portland Cement Plants.

Estimated Number of Respondents: 113.

Frequency of Response: Initial and semiannual.

Estimated Total Annual Hour Burden: 7,968 hours.

Estimated Total Annualized Cost Burden: \$941,720.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1051.07 and OMB Control No. 2060-0025 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460;

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: June 25, 1998.
