Office of the Under Secretary

Type of Review: New.

Title: Local Implementation of Federal Programs.

Frequency: One time.

Affected Public: State, local or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden: Responses: 849; Burden Hours: 872.

Abstract: The Department of Education is charged with evaluating Title I of ESEA and other elementary and secondary education legislation enacted by the 103rd Congress. These studies will collect information on the operations and effects at the district level of legislative provisions and federal assistance, in the context of state education reform efforts. Findings will

be used in reporting to Congress and improving information dissemination. Respondents are local superintendents, directors of federal programs, directors of research and assessment, and school principals.

No comments were received during the 60-day comment period. Minor revisions have been made to the instrument during the interim. There are two differences between the earlier version of the survey and the revised version being submitted to OMB, the are as follows:

(1) The original survey addressed a wide range of topics concerning the implementation of federal programs, with emphasis on data use, cross-program coordination, intergovernmental relations, and services to homeless children and youth. The revised survey is more focused on data needed for ED reporting to Congress under the Government Performance and Results Act (GPRA). It incorporates a number of data elements required in the Department's Strategic Plan and Annual Performance Plans. Questions about services to homeless children and youth have been dropped, and the number of questions about intergovernmental relations and the implementation of specific federal programs has been reduced.

(2) The revised version required a smaller sample. Rather than drawing a large random sample of approximately 1500 districts stratified by poverty and district size as previously planned, the instrument will now draw a smaller random sample of 789 districts that will permit national estimates, but not estimates for distinct strata. Additionally, the entire sample of districts in the ED Study of Education Resources and Funding is being incorporated into this sample so that the two studies can share key data elements.
