

affect the quality of the human environment.

The applicant shall provide information on compliance with local zoning laws and regulations, and effects on traffic patterns (including, for example, adequacy of roads and parking places, increase or decrease of traffic hazards and congestion, and favorable impacts such as potential decrease in pollution or fuel consumption). The FDIC may request additional information, as warranted, on other matters. Based on its evaluation of this information, the FDIC will prepare the EA.

### 2. Finding of No Significant Impact

If the EA indicates that approval of the filing will not significantly affect the quality of the human environment, the NEPA process will conclude with a FONSI to document the FDIC's determination of no significant effect on the human environment.

### 3. Environmental Impact Statement

If the EA indicates that approval of the filing may significantly affect the quality of the human environment, the FDIC will prepare an EIS in accordance with the CEQ regulations.

### F. Public Involvement

Pursuant to the CEQ regulations, the FDIC will make diligent efforts to involve the public in its NEPA compliance activities. In addition to the public notice requirements set forth in part 303, the FDIC will apprise the public of the availability of any environmental impact statements it prepares and will provide opportunity for public comment prior to the finalization of those documents.

### G. Summary and Conclusion

Most of the filings made by depository institutions pursuant to part 303 will fall within the categorical exclusions established by this Statement of Policy. For those filings not falling within the categorical exclusions, or involving extraordinary circumstances, the FDIC will analyze relevant information with respect to environmental factors and incorporate it into the FDIC's environmental assessment. Filings that require the FDIC's preparation of an environmental impact statement are expected to be extremely rare. When those instances arise, the FDIC will comply with the requirements of the CEQ regulations regarding the preparation and processing of environmental impact statements.

### H. Information Requests

Inquiries regarding specific filings and requests for documents and information should be directed to the appropriate regional director of the FDIC's Division of Supervision.

By order of the Board of Directors.

Dated at Washington, D.C., this 7th day of July, 1998.

Federal Deposit Insurance Corporation.

**James LaPierre,**

*Deputy Executive Secretary.*
