#### El Paso Natural Gas Company; Notice of Request Under Blanket Authorization

August 3, 1998.

Take notice that on July 28, 1998, El Paso Natural Gas Company (El Paso), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP98-698-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to construct and operate a delivery point in Dona Ana County, New Mexico to permit the firm transportation and delivery of natural gas to PNM Gas Services, a division of Public Service Company of New Mexico (PNM), under El Paso's blanket certificate issued in Docket Nos. CP82-435-000 and CP88-433-000, pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

El Paso states that it provides firm transportation service for PNM pursuant to the terms and conditions of a Transportation Service Agreement dated November 12, 1990. El Paso states the proposed quantity of natural gas to be transported on a firm basis to the Santa Teresa Delivery Point is estimated to be 1,825,000 Mcf annually, or an average of 5,000 Mcf per day. The estimated maximum peak day natural gas requirement is 15,000 Mcf.

El Paso's request states that PNM seeks to deliver natural gas to new customers from a point on El Paso's 26" O.D. California Line (Line No. 1100) and 30" O.D. California First Loop Line (Line No. 1103) in Dona Ana County, New Mexico. El Paso states that PNM will use the gas to serve the residential, commercial and industrial requirements of its new customers in the Santa Teresa, New Mexico area.

El Paso states that construction of the proposed delivery point is not prohibited by its existing tariff, and that it has sufficient capacity to accomplish the deliveries of the requested gas volumes without detriment or disadvantage to El Paso's other customers. El Paso also states that the estimated cost of the Santa Teresa Delivery Point is \$67,700.

El Paso avers that its environmental analysis supports the conclusion that construction and operation of the proposed Santa Teresa Delivery Point
