DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket No. CP98-645-000]****Trunkline Gas Company; Notice of Application**

August 3, 1998.

Take notice that on June 30, 1998, Trunkline Gas Company (Trunkline), 5400 Westheimer Court, Houston, Texas 77056, filed an application with the Commission in Docket No. CP98-645-000 pursuant to Section 7 of the Natural Gas Act (NGA) for permission and approval to abandon by transfer approximately 720 miles of mainline transmission pipeline facilities to its affiliate, Trunkline A.P. Pipeline Company (TAPPC), all as more fully set forth in the request which is open to the public for inspection.

Trunkline proposes to abandon by transfer approximately 720 miles of 26-inch diameter pipeline (Line 100-1) and to reduce its certificated mainline capacity from the current level of 1,810 MDt equivalent of natural gas per day to 1,555 MDt equivalent of natural gas per day. Line 100-1 extends from the Longville compressor station in Grant Parish, Louisiana, to the Bourbon measuring station in Douglas County, Illinois. Trunkline states that TAPPC would convert Line 100-1 to the transportation of hydrocarbon vapor, such as ethane and related hydrocarbon vapors. Trunkline also states that TAPPC would use Line 100-1 in conjunction with new Illinois processing facilities to be built by Aux Sable Liquid L.P. TAPPC would use the acquired pipeline to transport hydrocarbon vapors from Illinois to the Louisiana Gulf Coast region.

Trunkline states that it proposes to abandon Line 100-1 in response to the under-utilization of Trunkline's system that exists on an annual basis and the excess capacity which exists in the Midwest region. Trunkline also states

that in the absence of vigorous discounting practices, the actual under-utilization of its system would be substantially greater. Trunkline further states that the proposed abandonment of Line 100-1 would have no adverse effect on the service needs of existing or future customers and would not affect Trunkline's ability to meet all of its firm service obligations.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the NGA and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Trunkline to appear or be represented at the hearing.

David P. Boergers,

Secretary.
