

(202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927-5850. For information on embargoes and quota re-openings, call (202) 482-3715.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limit for Category 443 is being increased for swing and carryover, reducing the limit for Category 410 to account for the swing being applied.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 62 FR 66057, published on December 17, 1997). Also see 62 FR 63525, published on December 1, 1997.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 3, 1998.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on November 24, 1997 by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in Poland and exported during the period which began on January 1, 1998 and extends through December 31, 1998.

Effective on September 10, 1998, you are directed to adjust the current limits for the following categories, as provided for under the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted limit ¹
410	2,629,654 square meters.
443	266,544 numbers.

¹ The limits have not been adjusted to account for any imports exported after December 31, 1997.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 6355-01-M

DEPARTMENT OF DEFENSE

Department of the Army

Draft Environmental Impact Statement for Schofield Barracks Wastewater Treatment Plant Effluent Treatment and Disposal, Oahu, HI

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: This Notice of Availability is for a Draft Environmental Impact Statement (DEIS) to assess the effects of implementing a system to dispose of wastewater effluent from Schofield Barracks, Wheeler Army Airfield, and adjacent military lands.

DATES: Written public comments received within 45 days of the publication of the Environmental Protection Agency's Notice of Availability for this action will be addressed in the Final Environmental Impact Statement.

ADDRESSES: Written comments should be forwarded to: U.S. Army Engineer District, Honolulu, ATTN: CEPOH-ED-E (Mr. Edward Yamada), Fort Shafter, HI 96858-5440.

FOR FURTHER INFORMATION CONTACT: Mr. Edward Yamada at (808) 438-5421 or fax: (808) 438-7801.

SUPPLEMENTARY INFORMATION: Under the lead alternative, the Army would improve its Schofield Barracks Wastewater Treatment Plant to provide a higher quality effluent that would

meet new State of Hawaii guidelines for effluent reuse. Part of the effluent would be used to irrigate two Army golf courses. The balance would then be provided to Dole Foods Corporation and possibly other agricultural interests for irrigation reuse in Central Oahu. Wet weather discharge would be into Lake Wilson, an agricultural reservoir owned by Dole Foods Corporation. The lead alternative would preclude the construction of a long pipeline to the coastline and avoid disposal into the ocean.

Other alternatives considered by the DEIS include the no action alternative, which would limit the use of the Army effluent under the State of Hawaii guidelines for effluent reuse, and a joint project with the City and County of Honolulu (CCH) that would require construction of a new 14-mile pipeline from Central Oahu to the CCH's Honouliuli Wastewater Treatment Plant at the Ewa area.

None of the alternatives considered, with the possible exception of the no action alternative, are anticipated to have significant environmental impact. The Army's lead alternative provides the most potential for effluent reuse in Central Oahu.

Public scoping meetings have been held and public meetings will be held after distribution of the DEIS. All interested individuals, private organizations, and government agencies are encouraged to provide input into the EIS review process.

Coordination will be undertaken with adjoining land owners; the U.S. Environmental Protection Agency; other Federal agencies; State of Hawaii agencies such as the Department of Health, Department of Land and Natural Resources, Department of Transportation, Department of Business and Economic Development, Office of State Planning, and Office of Environmental Quality Control; City and County of Honolulu agencies such as Board of Water Supply, Department of Public Works, Department of Land Utilization, and Department of General Planning; and organizations such as the Mililani and Wahiawa Neighborhood Boards.

The U.S. Army Corps of Engineers will act as an agent and point of contact for the proponent 25th Infantry Division (Light) and U.S. Army Hawaii.
