Missouri National Recreational River (59-mile District)

AGENCY: National Park Service, Interior.

ACTION: Availability of the Draft Environmental Impact Statement and General Management Plan.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces the availability of the draft environmental impact statement (DEIS) and general management plan for the Missouri National Recreational River 59-mile district located in portions of Clay, Union, and Yankton counties, South Dakota; and Cedar, Dixon, and Knox counties in Nebraska. The DEIS responds to Public Law 95-625 (1978), which amended the Wild and Scenic Rivers Act by adding a 59-mile reach of the Missouri River below the Gavins Point Dam to the National Wild and Scenic Rivers System. The NPS prepared this DEIS to update a previous management plan written in 1980 by the Heritage Conservation and Recreation Service and only partially implemented. Cooperating agencies included the U.S. Army Corps of Engineers; U.S. Fish and Wildlife Service; Nebraska Game and Parks Commission; South Dakota Game, Fish, and Parks Department; South Dakota Region Three Planning; and Nebraska Lewis and Clark Planning District.

Two management Alternatives and a "Continuing Existing Conditions" (no action) alternative are described. Boundary descriptions are included with each management alternative. Alternative 1, the no action alternative calls for continued management under the 1980 plan. The boundary under this alternative would remain the same as determined in the 1978 legislation and the 1980 plan. Alternative 2, Resource Protection (the preferred alternative) gives relative equal weight to biologic resource protection, habitat restoration, and recreational development. This alternative calls for low impact recreational activities. Alternative 3, the Recreational Alternative would provide greater recreational opportunity and increased visitor facilities while protecting existing resources. Less priority would be placed on habitat restoration efforts. The boundary for alternatives 2 and 3 is the same and would be similar to the 1980 boundary with the addition of land containing archeological sites and some areas of active erosion. A portion of Clay County

Park is removed from the boundary so as not to exceed legislative acreage limits.

All management action alternatives are expected to provide a mechanism for long-term resource protection and to accommodate recreational use of the river without impacting private property values.

DATES: Comments on the DEIS should be received no later than December 18, 1998. Public meetings will be held in various Nebraska and South Dakota River communities during November 1998, and will be announced in local news media when schedules are final.

ADDRESSES: Comments on the DEIS should be submitted to the Superintendent, Missouri National Recreational River, P.O. Box 591, O'Neill, Nebraska 68763, or by e-mail to MNRR_Superintendent@nps.gov.

FOR FURTHER INFORMATION CONTACT: Paul Hedren, Superintendent, Missouri National Recreational River at the above address, or call 402-336-3970.

SUPPLEMENTARY INFORMATION: Public reading copies of the DEIS will be available for review at the Department of Interior Natural Resources Library, 1849 C Street, NW., Washington, DC 20240, and at public libraries and county courthouses in Yankton and Vermillion, South Dakota; Sioux City, Iowa; and Center, Hartington, and Ponca, Nebraska.

Dated: October 5, 1998.

William W. Schenk,

Regional Director, Midwest Region.
