**SUPPLEMENTARY INFORMATION:** Public Law 101-514, Section 206, authorizes and directs the Secretary of the Interior to enter into long-term municipal and industrial water supply contracts to meet the immediate water needs of Sacramento County. Contracts under Public Law 101-514, Section 206, are not subject to the prohibition on new Reclamation contracts of Public Law 102-575, Title XXXIV. However, any contracts under Public Law 101-514 are required to have terms and conditions that allow the Secretary to amend the contracts as necessary to meet the obligations of applicable State and Federal laws. The law specifically directs the Secretary to enter into contracts up to 22,000 acre-feet per year with Sacramento County and up to 13,000 acre-feet per year with the San Juan Water District (serving a part of northeastern Sacramento County). Water delivered annually under these contracts is at the discretion of the Secretary, who will make a determination of the amount to be made available "based upon the quantity of water actually needed after considering reasonable efforts to (i) promote full utilization of existing water entitlement within Sacramento County, (ii) implement water conservation and metering programs within areas served by the contract, and (iii) implement programs to maximize to the extent feasible conjunctive use of surface water and groundwater" (Public Law 101-514, Section 206 [b](1)). Of its annual allocation of 22,000 acre-feet per year, the Agency intends to provide up to 7,000 acre-feet per year to the City of Folsom through a subcontract.

No potentially affected Indian Trust Assets (ITA's) have been identified by Reclamation for the proposed project or alternatives.
