Proposed CERCLA Administrative Agreement; Li Tungsten Superfund Site, Glen Cove, Nassau County, NY

AGENCY: Environmental Protection
 Agency (EPA).

ACTION: Notice; request for public
 comment.

SUMMARY: Consistent with EPA's May 24, 1995 "Guidance on Agreements with Prospective Purchasers of Contaminated Property," notice is hereby given of a proposed prospective purchaser agreement ("agreement") with the Glen Cove Industrial Development Agency ("IDA") concerning parcels of real property which include the Li Tungsten Superfund Site in Glen Cove, Nassau County, New York (the "Properties"). The IDA intends to purchase the Properties. Under the agreement, the IDA will make an initial payment of \$100,000 to the Hazardous Substances Superfund, to be followed by possible subsequent payment(s) to the Superfund in an amount to be determined based on future proceeds received by the IDA from disposition of the Properties. These payments will be made in exchange for a covenant not to sue pursuant to sections 106 and 107(a) of CERCLA, 42 U.S.C. 9606 and 9607(a). By publication of this Notice, a fifteen (15) day period has been established in which the United States will accept written comments relating to the agreement. The United States will consider all comments received and may modify or withdraw its consent to the agreement if comments received disclose facts or considerations which indicate that the agreement is inappropriate, improper, or inadequate. The United States' response to any

comments received will be available for public inspection at the U.S. Environmental Protection Agency, Region II, Superfund Records Center, 290 Broadway, 18th Floor, New York, NY 10007–1866.

DATES: Comments must be submitted on or before May 17, 1999.

ADDRESSES: The proposed agreement is available for public inspection at the U.S. Environmental Protection Agency, Region II, Superfund Records Center, 290 Broadway, 18th Floor, New York, NY 10007–1866. A copy of the proposed agreement may also be obtained from the individual listed below. Comments should reference the Li Tungsten Superfund Site, Glen Cove, New York and EPA Index No. CERCLA–02–99–2008, and should be addressed to the individual listed below.

FOR FURTHER INFORMATION CONTACT: James Doyle, Assistant Regional Counsel, New York/Caribbean Superfund Branch, Office of Regional Counsel, U.S. Environmental Protection Agency, Region II, 290 Broadway, 17th Floor, New York, NY 10007–1866, Telephone: (212) 637–3165.

Dated: April 13, 1999.

William J. Muszynski,

Regional Administrator, Region II.

Notice of Proposed Administrative Order on Consent Pursuant to Section 122(g) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), Osage Metals Superfund Site, Kansas City, KS, Docket No. CERCLA–7–99–0014

AGENCY: Environmental Protection
 Agency (EPA).

ACTION: Notice of proposed
 administrative order on consent, Osage
 Metals Superfund Site, Kansas City,
 Kansas.

SUMMARY: Notice is hereby given that a proposed administrative order on consent regarding the Osage Metals Superfund Site, was signed by 40 private parties, approved by the United States Department of Justice (DOJ) on March 23, 1999, and signed by the United States Environmental Protection Agency (EPA) on March 31, 1999.

DATES: EPA will receive, comments
 relating to the proposed agreement and
 covenant not to sue until June 1, 1999.

ADDRESSES: Comments should be addressed to Audrey Asher, Senior Assistant Regional Counsel, United States Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101 and should refer to *the Osage Metals Superfund Site Administrative Order on Consent, EPA Docket No. CERCLA–7–99–0014*.

The proposed agreement may be examined or obtained in person or by mail at the office of the United States Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, KS 66101 (913) 551–7255.

SUPPLEMENTARY INFORMATION: The proposed agreement concerns the 1.7-acre Osage Metals Superfund Site ("Site"), located at 120 Osage Avenue in Kansas City, Kansas. The Site was the location of metals salvage and reclamation facilities between 1948 and 1993. Samples taken at the Site in 1994 found polychlorinated biphenyls ("PCBs") in surface soils at levels as high as 334 mg/kg, and lead contamination in levels as high as 56,600 mg/kg. The EPA approved a removal action at the Site on February 13, 1995, and began cleanup in March of 1995. EPA completed its work in October 1995. No further response action is anticipated.

As of May 31, 1998 EPA and DOJ had incurred costs in excess of \$1.3 million exclusive of interest. Each of the proposed settlors arranged for disposal of capacitors contaminated with PCBs with PCB Treatment, Inc. PCB Treatment, Inc., then arranged for disposal at the Site of scrap metal from the capacitors.

EPA has determined that any party who arranged for disposal of between 206 and 89,387 pounds of capacitors contributed a *de minimis* volume of waste to the Site and that such wastes are not more toxic than any other hazardous substance at the Site.

Each settlor will pay a share of costs based on its volumetric share of capacitor weight compared to all capacitor weight with an additional premium.

Through this settlement EPA will recover over \$30,000. EPA has recovered \$80,000 through a consent decree with the former owner/operator and over \$233,399 through Administrative Orders on Consent with other potentially responsible parties at the Site. Negotiations of other settlements with potentially responsible parties are pending.
