

be satisfactory. No formal comment letter was sent to the preparing agency.

Other

ERP No. LD-USA-L11032-AK Rating E02, Alaska Army Lands Withdrawal Renewal for Fort Wainwright and Fort Greely West Training Area, Approval of Permits and Licenses, City of Fairbanks, City of North Pole and City of Delta Junction, North Star Borough, AK.

Summary: EPA expressed environmental objections to the proposed project on the basis of a restricted range of alternatives and the potential environmental impacts. EPA requested more information on existing environmental conditions, more site-specific evaluation of direct and cumulative impacts, and a consideration of additional renewal periods.

Dated: May 18, 1999.

William D. Dickerson,

Director, NEPA Compliance Division, Office of Federal Activities.

National Drinking Water Advisory Council Small Systems Implementation Working Group; Notice of Conference Call

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Under section 10(a)(2) of Public Law 92-423, the "The Federal Advisory Committee Act," notice is hereby given that a conference call of the Small Systems Implementation Working Group of the National Drinking Water Advisory Council (NDWAC) established under the Safe Drinking Water Act, as amended (42 U.S.C. 300f *et seq.*), will be held on May 25, 1999, from 10 a.m.-12 p.m., EDT. The call will be held at the U.S. Environmental Protection Agency, 401 M Street S.W., Room 1132 East Tower, Washington, DC. The meeting is open to the public, but seating will be limited.

The purpose of this meeting is to review draft reports relating to system demographics and regulatory impacts. Statements will be taken from the public on this call as time allows.

For more information please contact Peter E. Shanaghan, Designated Federal Officer, Small Systems Implementation Working Group, U.S. EPA, Office of Ground Water and Drinking Water

(4606), 401 M Street SW, Washington, DC 20460. The telephone number is 202-260-5813 and the e-mail address is shanaghan.peter@epa.gov.

Dated: May 14, 1999.

Charlene E. Shaw,

Designated Federal Officer, National Drinking Water Advisory Council.

Science Advisory Board; Notification of Public Advisory Committee Meeting; Open Meeting

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Clean Air Scientific Advisory Committee (CASAC) of the Science Advisory Board (SAB) will meet on Wednesday and Thursday, June 9-10, 1999 at the U.S.

Environmental Protection Agency (US EPA), Environmental Research Center, Main Auditorium, Route 54 and Alexander Drive, Research Triangle Park, NC 27711. The meeting will begin at 8:30 am and end no later than 5:30 pm on June 9th and begin at 8:00 am and end no later than 4:00 pm on June 10th. All times noted are Eastern Daylight Time. The meeting is open to the public. Due to limited space, seating at the meeting will be on a first-come basis. For further information concerning various aspects of the meeting, please contact the individuals listed below. Important Notice: Documents that are the subject of SAB reviews are normally available from the originating EPA office and are not available from the SAB Office—information concerning availability of documents from the relevant Program Office is included below.

Purpose of the Meeting: Three issues will be discussed at this meeting:

(a) *Review of Carbon Monoxide National Ambient Air Quality Standards (NAAQS)*—The Committee will begin its review of the Carbon Monoxide National Ambient Air Quality Standards (NAAQS) with a review of the National Center for Environmental Assessment's (NCEA) draft Air Quality Criteria for Carbon Monoxide (External Review Draft) 1999, EPA/600/P-99/001. The Committee will also provide advice and comment to the Office of Air Quality Planning and Standards (OAQPS) on its draft Estimation of Carbon Monoxide Exposures and Associated Carboxyhemoglobin Levels

in Denver Residents Using pNEM/CO (Version 2.0) At this meeting (the first in a series of meetings), EPA is seeking advice and comment from CASAC with regard to the scientific soundness of the draft CO Criteria Document for its subsequent use in providing scientific bases for Agency decisions on retention or the possible need for revision to the existing CO NAAQS. The CASAC review will focus on the extent to which the draft document: (1) adequately identifies and poses pertinent issues that need to be addressed in the document; (2) accurately and concisely summarizes relevant key findings from previous CO criteria review(s); (3) accurately and concisely summarizes and assesses important newly available pertinent information (or have any important new studies been omitted?); (4) appropriately interprets and synthesizes the assessed information; and (5) arrives at sound conclusions and findings, taking into account the newly available data assessed. For information on obtaining copies of the two Carbon Monoxide NAAQS documents identified above, or to obtain information concerning contact individuals, please see 64 FR 13198-13199, March 17, 1999.

(b) *Consultation on the Diesel Health Assessment*—With two past CASAC reviews of the draft Diesel Engine Exhaust Health Assessments, the most recent being on May 5-6, 1998 (see 63 FR 17000, April 7, 1998), NCEA believes that a Consultation with CASAC to review progress on current work to revise the Assessment is timely. The primary focus of this Consultation is on the issues raised earlier by CASAC (see CASAC Report #EPA-SAB-CASAC-99-001, October 7, 1998, available from the Science Advisory Board on its website (WWW.EPA.GOV/SAB) or at: (202) 260-4126, FAX: (202) 260-1889, please give the title and report number and your name and address when requesting a copy via phone or fax) and how NCEA would address these issues. Given the importance of completing the Assessment and providing it to the Agency's Mobile Sources Program, a discussion with CASAC, at this juncture, would be useful to both NCEA and CASAC. The document titled, Discussion Paper for CASAC—Diesel Exhaust Health Assessment, is available on the NCEA page of the Internet at HTTP://WWW.EPA.GOV/NCEA under the What's New and Publications menus. A limited number of paper copies are available from the Technical Information Staff (8623D), NCEA-W; telephone: (202) 564-3261; FAX: (202) 565-0050. If you are requesting a paper
