SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of FIFRA, provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

II. Intent to Delete Uses

This notice announces receipt by the Agency of applications from registrants to delete uses in two chlorpyrifos

pesticide registrations listed in Table 1 below. These registrations are listed by registration number, product names, active ingredients and the specific uses deleted. Although the food use site being deleted has been a registered site for chlorpyrifos products, a tolerance has not been established for this commodity under the Federal Food, Drug, and Cosmetic Act (FFDCA). Therefore, under FIFRA section 2(bb), this uses represent an unreasonable adverse effect on the environment, as it would result in human dietary risk from residues resulting from use of a pesticide in or on food inconsistent with the standard under section 408 of FFDCA. As such, the Agency is hereby waiving the 180-day comment period normally given for the deletion of a minor use, in accordance with FIFRA section 6(f)(1)(c). The Agency has determined that, while these actions require publication for the purpose of announcement, a comment period is not warranted.
