**DEPARTMENT OF ENERGY****Record of Decision for Long-Term Management and Use of Depleted Uranium Hexafluoride**

**AGENCY:** Department of Energy.

**ACTION:** Record of Decision.

**SUMMARY:** The Department of Energy ("DOE" or "the Department") issued the Final Programmatic Environmental Impact Statement for Alternative Strategies for the Long-Term Management and Use of Depleted Uranium Hexafluoride (Final PEIS) on April 23, 1999. DOE has considered the environmental impacts, benefits, costs, and institutional and programmatic needs associated with the management and use of its approximately 700,000 metric tons of depleted uranium hexafluoride (DUF<sub>6</sub>). DOE has decided to promptly convert the depleted UF<sub>6</sub> inventory to depleted uranium oxide, depleted uranium metal, or a combination of both. The depleted uranium oxide will be used as much as possible and the remaining depleted uranium oxide will be stored for potential future uses or disposal, as necessary. At this time, the Department does not believe that long-term storage as depleted uranium metal and disposal as depleted uranium metal are reasonable alternatives; however, the Department remains open to exploring these options further. Pursuant to this Record of Decision (ROD), any proposal to proceed with the siting, construction, and operation of a facility or facilities will involve additional review under the National Environmental Policy Act (NEPA). DOE anticipates that approximately 4,700 cylinders containing depleted UF<sub>6</sub> that are located at the East Tennessee Technology Park (formerly known as the K-25 Site), in Oak Ridge, Tennessee, would be shipped to a conversion facility. Uses for the converted product potentially include Government applications and applications that may be developed by the private sector.

**ADDRESSES:** The Final PEIS and ROD are available on the Office of Environment, Safety and Health NEPA home page at <http://www.eh.doe.gov/nepa> or on the Office of Nuclear Energy, Science and Technology (NE) home page at <http://www.ne.doe.gov>.
