

includes: Electronic Warfare, Airspace, Target Complex (B-16, B-17, B-19, B-20), Tracking/Communications, and Land Training.

This Draft EIS analyzes the environmental impacts associated with the proposed action, three action alternatives, and the no action alternative. Issues and resources analyzed in the Draft EIS include land use, airspace use, biological resources, geology, soils, and minerals, water resources, cultural resources, Native American Religious Concerns, visual resources, Environmental Justice and socioeconomics, recreation, grazing, wild horse and burros, air quality, noise, public safety and hazardous materials.

Public participation has occurred during the EIS process. A Notice of Intent was filed in the **Federal Register** on December 21, 1998, and an open scoping period was held until February 1999. Four public scoping meetings to solicit comments were held in January 1999 in Eureka, Austin, Fallon, and Reno, Nevada. All comments presented to the BLM and Navy throughout the EIS process have been considered.

To assist the BLM and Navy in identifying and considering issues and concerns regarding the proposed action and alternatives, comments on the Draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters in the document. Comments may address the adequacy of the Draft EIS and/or the merits of the alternatives formulated and discussed in the document.

After the comment period ends for the Draft EIS, comments will be analyzed and considered jointly by the BLM and the Navy in preparing the Final EIS.

Minerals Management Service

Agency Information Collection Activities: Submission for Office of Management and Budget Review; Comment Request; Extension

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of extension of a currently approved information collection.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), we are notifying you that MMS is planning to submit an information collection request to the Office of Management and Budget (OMB) to request an extension of a currently approved collection. Under the PRA, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information and to allow 60 days for

public comment in response to the notice. This notice solicits comments on the proposed extension of an existing collection of information titled Directed Third-Party Communications Between Operators and Deliverers of Federal RIK Production to Strategic Petroleum Reserve (OMB Control Number 1010-0130).

DATES: Submit written comments on the collection of information by October 12, 1999.

ADDRESSES: Submit written comments on the collection of information to the Minerals Management Service, Royalty Management Program, Rules and Publications Staff, P.O. Box 25165, MS-3021, Denver, Colorado 80225-0165; courier address is Building 85, Room A613, Denver Federal Center, Denver, Colorado 80225; e-mail address is RMP.comments@mms.gov.

FOR FURTHER INFORMATION CONTACT: For questions concerning this collection of information, please contact Richard Winnor, RIK Study Team, telephone (202) 208-3118. You may also obtain copies of this collection of information by contacting MMS's Information Collection Clearance Officer at (202) 208-7744.

SUPPLEMENTARY INFORMATION:

Under the PRA, Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. Section 3506(c)(2)(A) of the PRA requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, MMS is publishing notice of the proposed collection of information listed below.

With respect to the following collection of information, MMS invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of MMS's functions, including whether the information will have practical utility; (2) the accuracy of MMS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

In addition, the PRA requires agencies to estimate the total annual reporting
