I. Introduction

The Federal Energy Regulatory
Commission (Commission) is revising
its regulations governing oil pipelines at
18 CFR Parts 341, 342, 343, and 346 to
remove various provisions that are
either outdated or in conflict with other
oil pipeline regulations. The goals of
these revisions are to clarify the
Commission's regulations and bring
them up to date. The Commission is
also revising 18 CFR Parts 3, 357, 362,
and 385 to conform to the other changes
adopted here.

II. Background

Jurisdiction over oil pipelines, as it
relates to the establishment of rates or
charges for the transportation of oil by
pipeline or to the establishment of
valuations for pipelines, was transferred
from the Interstate Commerce
Commission (ICC) to the Commission
pursuant to sections 306 and 402 of the
Department of Energy Organization Act
(DOE Act).¹ At the time the DOE Act
transferred jurisdiction over oil pipeline
rates to the Commission, the regulations
governing oil pipelines were located in
the ICC's regulations at Title 49 of the
Code of Federal Regulations (CFR).
Initially, the Commission ordered that
the regulations concerning oil pipelines
remain in effect until modified by the
Commission. In Order No. 119,² the
Commission started transferring some of
the ICC's oil pipeline regulations from
Title 49 of the Code of Federal
Regulations to the Commission's
regulations in Title 18. Parts 357³ and
362⁴ are among some of the
Commission's current regulations that¹ Department of Energy Organization Act, 42
U.S.C. 7155 and 7172(b) (1988).² Regulation of Interstate Oil Pipelines, Order No.

(Regulations Preambles, 1977-1981) ¶ 30,226 (Dec.
19, 1980).³ Part 357 addresses the annual special or
periodic reports that carriers subject to Part I of the
Interstate Commerce Act are required to file.⁴ 18 CFR Part 362 sets forth the various
requirements for valuation.
