

operating profits, net sales volumes, as well as domestic prices of ammonium nitrate. The allegations of injury and causation are supported by relevant evidence including U.S. Customs import data, lost sales, and pricing information. The Department assessed the allegations and supporting evidence regarding material injury and causation and determined that these allegations are supported by accurate and adequate evidence and meet the statutory requirements for initiation (see *Attachments to Initiation Checklist, Re: Material Injury*, August 12, 1999).

#### Initiation of Antidumping Investigation

Based upon our examination of the petition on solid fertilizer grade ammonium nitrate and petitioner's responses to our supplemental questionnaire clarifying the petition, we have found that the petition meets the requirements of section 732 of the Act. Therefore, we are initiating an antidumping duty investigation to determine whether imports of solid fertilizer grade ammonium nitrate from Russia are being, or are likely to be, sold in the United States at less than fair value. Unless this deadline is extended, we will make our preliminary determinations no later than 140 days after the date of this initiation.

#### Distribution of Copies of the Petition

In accordance with section 732(b)(3)(A) of the Act, a copy of the public version of the petition has been provided to the representatives of Russia. We will attempt to provide a copy of the public version of the petition to each exporter named in the petition, as appropriate.

#### International Trade Commission Notification

We have notified the ITC of our initiations, as required by section 732(d) of the Act.

#### Preliminary Determination by the ITC

The ITC will determine, by no later than September 7, 1999, whether there is a reasonable indication that imports of solid fertilizer grade ammonium nitrate from Russia are causing material injury, or threatening to cause material injury, to a U.S. industry. A negative ITC determination will result in the investigation being terminated; otherwise, this investigation will proceed according to statutory and regulatory time limits.

This notice is published pursuant to section 777(i) of the Act.
