

rectangles (including squares), triangles, hexagons, octagons or other convex polygons. SSB includes cold-finished SSBs that are turned or ground in straight lengths, whether produced from hot-rolled bar or from straightened and cut rod or wire, and reinforcing bars that have indentations, ribs, grooves, or other deformations produced during the rolling process.

Except as specified above, the term does not include stainless steel semi-finished products, cut-length flat-rolled products (*i.e.*, cut-length rolled products which if less than 4.75 mm in thickness have a width measuring at least 10 times the thickness or if 4.75 mm or more in thickness having a width which exceeds 150 mm and measures at least twice the thickness), wire (*i.e.*, cold-formed products in coils, of any uniform solid cross section along their whole length, which do not conform to the definition of flat-rolled products), and angles, shapes and sections.

The SSB subject to this order is currently classifiable under subheadings 7222.10.0005, 7222.10.0050, 7222.20.0005, 7222.20.0045, 7222.20.0075, and 7222.30.0000 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of this order is dispositive.

Final Results of Changed Circumstances Review and Revocation of Order in Part

Pursuant to section 751(d)(1) of the Act, the Department may partially revoke an antidumping duty order based on a review under section 751(b) of the Act (*i.e.*, a changed-circumstances review). Section 751(b)(1) of the Act requires a changed-circumstances review to be conducted upon receipt of a request containing information concerning changed circumstances sufficient to warrant a review.

The Department's regulations at 19 CFR 351.216 provide that the Department will conduct a changed-circumstances review based upon "changed circumstances sufficient to warrant a review". Section 782(h) of the Act and 19 CFR 351.222(g)(1)(i) provide further that the Department may revoke an order, or revoke an order in part, if it determines that the order (or part of the order) under review is no longer of interest to domestic interested parties.

Based on the fact that no other domestic interested parties have objected to the position taken by the petitioners that they have no further interest in the application of the order to imports of K-M35FL steel bar from

Japan, we have determined that there are changed circumstances sufficient to warrant revocation of the order in part. Therefore, the Department is revoking in part the antidumping duty order on stainless steel bar from Japan, in accordance with sections 751(b) and 782(h) of the Act and 19 CFR 351.222(g)(1)(i). This partial revocation will apply to all entries of K-M35FL from Japan entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this changed circumstances review.

The Department will instruct the Customs Service to cease suspension of liquidation and collection of cash deposits on entries of K-M35FL from Japan entered, or withdrawn from the warehouse, for consumption on or after the publication date of the final results of this changed circumstances review. Additionally, the Department will instruct the Customs Service to proceed with liquidation, without regard to antidumping duties, and to refund with interest any estimated duties collected with respect to unliquidated entries of K-M35FL from Japan or withdrawn from warehouse for consumption on or after the publication date of the final results of this changed-circumstances review, in accordance with section 778 of the Act.

We are issuing and publishing this determination and notice in accordance with sections 751(b)(1) and 777(i)(1) of the Act and 19 CFR 351.216 and 351.222.

Dated: September 10, 1999.

Richard W. Moreland,

Acting Assistant Secretary for Import Administration.
