SUPPLEMENTARY INFORMATION:

Title: Control Technology for Equivalent Emissions Limitations by Permit (OMB Control No. 2060-0266; EPA ICR No. 1648.02). This is a reinstatement, with change, of the previously approved ICR for the proposed rule for which approval has expired.

Abstract: section 112(j) of the Clean Air Act as amended in 1990 requires that if EPA fails to promulgate a standard for a category or subcategory of major sources on schedule, then 18 months after the scheduled date of promulgation, sources must submit a permit application. States (with approved title V operating permit programs) will issue permits containing emission limitations equivalent to what

EPA would have promulgated. Complying sources must submit a complete section 112(j) permit application that satisfies the criteria of 40 CFR part 63 subpart B. The information collected in the application documents will be used by the State agency for the purposes of permit approval, compliance determination, and the selection of particular control technology on a case-by-case basis. The mandatory need and authority for this information collection is contained in section 112(j) of the Clean Air Act as amended in 1990 (42 U.S.C. 7401, *et seq.*, as amended by Pub. L. 101-549). Any confidential information submitted to a permitting authority will be safeguarded according to that agency's policies. The EPA will safeguard submitted confidential information according to policies in 40 CFR chapter I part 2 subpart B—Confidentiality of Business Information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Pulp and paper combustions sources and State/ local agencies.

Estimated Number of Respondents: 149.

Frequency of Response: 1.

Estimated Total Annual Hour Burden: 19,743 hours.
