

previously mentioned sources, and \$16,000 in interest income, the Committee will have adequate funds to meet its 1999–2000 expenses.

A review of historical information and preliminary information pertaining to the 1999–2000 fiscal year indicates that the grower price for the season could range between \$.30 and \$.45 per pound of papayas. Therefore, the estimated assessment revenue for the 1999–2000 fiscal year as a percentage of total grower revenue could range between 1.8 and 2.7 percent.

This action increases the assessment obligation imposed on handlers. While assessments impose some additional costs on handlers, the costs are minimal and uniform on all handlers. Some of the additional costs may be passed on to producers. However, these costs are offset by the benefits derived by the operation of the marketing order. In addition, the Committee's meeting was widely publicized throughout the Hawaii papaya industry and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the April 22, 1999, meeting was a public meeting and all entities, both large and small, were able to express views on this issue.

This rule imposes no additional reporting or recordkeeping requirements on either small or large Hawaii papaya handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

The Department has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

A proposed rule concerning this action was published in the **Federal Register** on September 2, 1999 (64 FR 48115). Copies of the proposed rule were also mailed or sent via facsimile to all papaya handlers. Finally, the proposal was made available through the Internet by the Office of the Federal Register. The period of comments ended October 4, 1999. No comments were received.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at the following web site: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the

information and recommendation submitted by the Committee and other available information, it hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it also found and determined that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** because: (1) Handlers are already receiving 1999–2000 crop papayas from growers; (2) the 1999–2000 fiscal year began on July 1 and the order requires that the assessment rate apply to all papayas received during that fiscal year; (3) the Committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis; (4) handlers are aware of this action which was recommended at a public meeting, and is similar to other assessment rate actions issued in past years; (5) a 30-day comment period was provided for in the proposed rule, and no comments were received.
