Penalties may include temporary or permanent suspension from participation in the Outward Processing Program. In determining the appropriate penalty, CITA will consider all relevant factors, including the seriousness of the violation, previous violations by the participant, the experience of the participant with the Outward Processing Program, and the steps taken by the participant to prevent future violations.

Committee for the Implementation of Textile Agreements

December 8, 1999.

Commissioner of Customs
Department of Treasury, Washington, DC
20229

Dear Commissioner: This directive sets forth the requirements for participation in the Outward Processing Program for textiles and apparel and provides for enforcement procedures to ensure that these requirements are met.

Effective on January 1, 2000, no quantitative restrictions shall apply to qualifying textile products which are exported from a participating country to the United States under the Outward Processing Program for textiles and apparel. However, products that qualify for Outward Processing Program treatment must be certified by the participating government and shall be monitored by the U.S. Customs Service. Each shipment must be certified by the placement of the original square-shaped stamped marking in blue ink on the front of the commercial invoice. Qualifying products must be either manufactured (that is, both cut and assembled) in a participating country or cut in the United States and assembled in a participating country and must be assembled or manufactured (that is, both cut and assembled) from fabric formed in the United States.

General Requirements; Qualifying Products

In order to qualify for Outward Processing Program treatment, qualifying wool apparel products must meet the following requirements:

(1) the product must be either manufactured from fabric that is both cut and assembled in a participating country, or from fabric which is cut in the United States and assembled in a participating country. A participating country is a country with which the United States has entered into a bilateral agreement regarding the Outward Processing Program;

(2) the product must be assembled or manufactured (that is, both cut and assembled) from fabric which is formed in the United States; i.e., all fabric components of the product must be U.S. formed. This requirement applies to all textile components of the product, including linings and pocketing except as provided in (4) below. Greige goods imported into, and then finished in, the United States are not considered fabric formed in the United States. Fabric that is woven or knitted in the United States from yarn is considered U.S. formed;

(3) the importer of the qualifying wool apparel product and the exporter of the U.S. formed fabric or its component parts must be the same entity or person;

(4) findings and trimmings of non-U.S. origin may be incorporated into the product provided they do not exceed 25 percent of the cost of the fabric in the product. Findings and trimmings include sewing thread, hooks and eyes, snaps, buttons, "bow buds," decorative lace trim, zippers, including zipper tapes, and labels;

(5) upon entry into the United States, the product must be classified under a subheading of heading 9802 of the Harmonized Tariff Schedule of the United States (HTS) created to capture such trade (9802.00.8016) or qualify for the special "S" prefix indicating the item was produced with U.S. formed fabric.

Nothing in these requirements precludes performing any operation in the United States.

Record keeping Requirements

Participants are required to retain the following documents for review by Customs:

- (1) entry documents made during the quarter;
- (2) design style costing sheets or similar documents providing a complete description of the assembled products;
- (3) cutting tickets (if the fabric is cut in the United States) including the name and location of the cutting facility for those entries;
- (4) mill invoices, including the name of the mill where the fabric was formed. If the fabric was purchased from a third party, the participant is responsible for obtaining the mill invoice. The participant must also obtain a signed statement from a principal at the mill that the fabric is of U.S. origin. This can be stated directly on the invoice or on a separate document that relates to each specific shipment of fabric. Vertically integrated participants, i.e., participants that both for and cut fabric must retain an internal transfer document or other documentary proof that they formed the fabric in the United States;
- (5) transportation documents if fabric is cut in the United States (mill to cutting facility; cutting facility to border/assembler); and
- (6) export documentation.

The participant is obligated to maintain the above documents by calendar quarter, by country, and by category, and must retain them for three years from the date of the exportation of the U.S. formed fabric or U.S. formed and cut fabric. The documents must

be organized and filed (preferably in a single location) to facilitate U.S. customs review.

Enforcement Procedures and Penalties

All shipments entered pursuant to the Outward Processing Program shall be monitored. To facilitate the implementation and enforcement of the Outward Processing Program, Customs is directed to require entry/entry-summary procedures for all imports for consumption and withdrawals from warehouse for consumption under the Outward Processing Program.

In order to determine that participants in the Outward Processing Program comply fully with the requirements set forth in this notice, Customs will conduct Post Entry Compliance reviews. These reviews will be conducted for entries made for the first quarter of 2000 and shall continue for each successive quarter. During the course of such review, the participant must provide Customs officials with evidence, through the documents described above, that all products entered under the Outward Processing Program qualify for Outward Processing Program treatment. Customs shall inform CITA of any violations of the program.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Troy H. Cribb,

Chairman, Committee for the Implementation of Textile Agreements
