II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Historical Research Reports. Nasdaq proposes to establish a fee which it will charge to investors who request historical research reports pertaining to Nasdaq, Over-the-Counter Bulletin Board ("OTCBB") or other Over-the-Counter ("OTC") issues. Nasdaq has provided such reports on an ad hoc basis to customers requesting this information by telephone. Investors would contact a member of Nasdaq's

staff via telephone, describe the type of customized report desired, and arrange for an appropriate billing and delivery method before having the Nasdaq staff member compile the report. Charges for these reports were based on hourly rates relative to the time required for compilation and delivery of the reports. Nasdaq believes the system was an inefficient and time consuming arrangement that was both burdensome to Nasdaq and an impediment to the accessibility of the information for the investor.

As the number of individual investors in today's market directing their own investment decisions has increased significantly, the volume of requests for this information also has increased. To alleviate the demand upon staff resources and increase the quality, speed and availability of the information, Nasdaq has developed an automated request and delivery system that will facilitate the delivery of these reports in a timely and systematic manner at a fixed price, based on a standardized pricing methodology. Investors will be able to access the reports through the Internet on the NasdaqTrader.com (for Nasdaq issues) and OTCBB.com (for OTCBB and other OTC issues) web sites (or their successor sites), by directing an Internet browser to the appropriate web site. Once at the proper location within the web site, investors would choose from a list of standardized reports, input the necessary information pertaining to the desired security or market participant, and provide credit card information for payment.³ Once completed, the report would be sent via e-mail directly to the investor.

Nasdaq proposes to provide historical research reports that fall into two categories: "Daily Detailed Reports" and "Summary Level Activity Reports." Examples of Daily Detailed Reports include a Market Maker Price Movement Report (displays all market maker quote changes and the best bid and offer throughout a chosen day for a selected security), and a Time and Sales Report (provides a record of media-reported trades in the selected security, indicating the reported time, price and share volume). Summary Level Activity Reports would provide trade and/or quote information over a monthly or quarterly period.

Fees for the Daily Detailed Reports would be sent on a two-tiered basis to reflect the amount of information provided. Nasdaq proposes to assess a fee of \$7 for reports with 15 or fewer

³ Credit card information will be provided utilizing a secure web site connection.

fields of information⁴ for each trading day requested.⁵ Those reports with more than 15 fields would cost \$15 per trading day of information. Some reports may be available for purchase on a single day basis, while others may be available only as multiple-day packages with a corresponding charge based on the number of days provided. Fees for Summary Level Activity Reports would be fixed at \$25 per report.

Nasdaq believes that this pricing structure is a suitable assessment method that will facilitate the creation of an inexpensive and effective service for investors. Furthermore, Nasdaq has been testing this product and the Internet delivery system (on OTCBB.com) for several months by providing selected reports to investors at no charge and has found a high level of satisfaction and interest among investors for their continued availability.

Administrative Reports. This second category of reports available through NasdaqTrader.com and/or OTCBB.com, termed "Administrative Reports," will be available to NASD member firms only. These reports are generally composed of firm specific information which is currently provided on an informal basis. One example of this group of reports is the "SEC 31(a) Report" which provides member firms with the number of trades transacted on a daily basis and the anticipated SEC 31(a) fees that will be assessed at the end of the month. Another proposed report that could be provided would estimate the total Nasdaq monthly transaction fees for the member firm based on the firm's historical volume.

These Administrative Reports would assist members in auditing their own internal systems, verifying back-end processing, and projecting monthly costs. The reports, which are provided presently by Nasdaq in CD ROM form, would be available through this secure web site connection in a more cost-effective and timely manner. Subscribing member firms would be charged a \$25 fee per user, per month, for access to each administrative report.⁶

⁴ Examples of fields, depending on the type of report chosen, could include reported volume, reported price, reported time, inside bid/ask, short sale indicator, etc.

⁵ For example, an investor requesting a report containing 12 fields of information for a three trading day period would be charged \$21.

⁶ After assessing the demand for this service, Nasdaq may offer volume discounts to purchasers of multiple reports if such discounts are determined to be economically feasible.

2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with the provisions of Section 15A(b)(5)⁷ and (6)⁸ of the Act. Section 15A(b)(5) requires the equitable allocation of reasonable fees and charges among members and other users of facilities operated or controlled by a national securities association. Section 15A(b)(6) requires rules that foster cooperation and coordination with persons engaged in facilitating transactions in securities and that are not designed to permit unfair discrimination between customers, issuers, brokers or dealers. Nasdaq believes that this service involves the implementation of reasonable fees, assessed only to users utilizing the service, while providing beneficial information to subscribers on a non-discriminatory basis.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the NASD consents, the Commission will:

A. by order approve such proposed rule change, or

B. institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW,

⁸ 15 U.S.C. 78o-3(b)(6).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD.
