

FEDERAL RESERVE SYSTEM

Notice of Proposals to Engage in Permissible Nonbanking Activities or to Acquire Companies that are Engaged in Permissible Nonbanking Activities

The companies listed in this notice have given notice under section 4 of the Bank Holding Company Act (12 U.S.C. 1843) (BHC Act) and Regulation Y, (12 CFR Part 225) to engage *de novo*, or to acquire or control voting securities or assets of a company, including the companies listed below, that engages either directly or through a subsidiary or other company, in a nonbanking activity that is listed in § 225.28 of Regulation Y (12 CFR 225.28) or that the Board has determined by Order to be closely related to banking and permissible for bank holding companies. Unless otherwise noted, these activities will be conducted throughout the United States.

Each notice is available for inspection at the Federal Reserve Bank indicated. The notice also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether the proposal complies with the standards of section 4 of the BHC Act.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than April 20, 1999.

A. Federal Reserve Bank of Atlanta (Lois Berthaume, Vice President) 104 Marietta Street, N.W., Atlanta, Georgia 30303-2713:

1. *Trustmark Corporation*, Jackson, Mississippi; to engage *de novo* through its subsidiary, Trustmark Bankcard, National Association, Columbus, Georgia (in organization), in making, acquiring, brokering, or servicing loans or other extensions of credit, pursuant to § 225.28(b)(1) of Regulation Y.

Board of Governors of the Federal Reserve System, March 31, 1999.

Robert deV. Frierson,

Associate Secretary of the Board.

Centers for Disease Control and Prevention

[Program Announcement 99043]

Notice of Availability of Funds; Infrastructure Development Initiatives Related to Oral Disease Prevention and Oral Health Promotion

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1999 funds for a cooperative agreement program for Infrastructure Development Initiatives Related to Oral Disease Prevention and Oral Health Promotion. This program addresses the Healthy People 2000 priority areas Oral Health, Tobacco, Educational and Community-Based Programs, and Diabetes and Chronic Disabling Conditions.

The purpose of the program is to develop initiatives related to oral disease prevention and related chronic disease and health promotion capacity; and, to coordinate the dissemination of comprehensive oral disease information and health promotion programmatic expertise among state and local agencies, public and private sector organizations, and health care professionals in the United States.

The purpose of this program includes conducting projects that:

1. Promote the development of leadership and infrastructure to establish sustainable oral health programs at the state and local levels.
2. Advance tobacco control programs, especially smokeless tobacco.
3. Advance school oral health education and targeted oral disease and oral injury prevention efforts (e.g. athletic mouth guards).
4. Develop and carry out oral health education and disease prevention programs for high-risk adults.

B. Eligible Applicants

Assistance will be provided only to a dental health organization that is a 501(c)(3) private, nonprofit organization. Eligible applicants must have established working relationships with public advocacy coalitions and national, state and local organizations.

Limited competition is justified under this program announcement because of the need for a directed and concentrated focus in the effective dissemination of programs and information related to oral health. The coordination and implementation of a national oral health education program strategy requires

organizations that have the capacity and experience to influence the professional actions of their constituencies; have the capacity to identify, assess, and advocate for implementing effective oral health programs; and can build the capacity of coalitions and state and local health and education agencies.

The applicant organization must include evidence of its nonprofit status with the application. Any of the following is acceptable evidence.

1. A reference to the organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in section 501(c)(3) of the IRS Code.
2. A copy of a currently valid Internal Revenue Service Tax exemption certificate.
3. A statement from a state taxing body, State Attorney General, or other appropriate state official certifying that the applicant organization has a nonprofit status and that none of the net earnings accrue to any private shareholders or individuals.
4. A certified copy of the organization's certificate of incorporation or similar document if it clearly establishes the nonprofit status of the organization.

Note: Effective January 1, 1996, Public Law 104-65 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive federal funds constituting an award, grant, cooperative agreement, contract, loan, or any other form.

C. Availability of Funds

Approximately \$70,000 is available in FY 1999 to fund one award. It is expected that the award will begin on or about August 15, 1999, and will be made for a 12-month budget period within a project period of up to 5 years. Funding estimates may change.

Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

Use of Funds

Funded programs may include activities related to risk factors for oral diseases or chronic health conditions that are effected by oral diseases or that may influence oral diseases. Examples of related factors or conditions include: tobacco use prevention, proper nutrition, diabetes control and the prevention of oral complications of diabetes, and cardiovascular disease.

D. Program Requirements

In conducting activities to achieve the purpose of this program, the grantee
