Evaluation studies aimed at addressing gaps in the current understanding of policies, programs, and practices are encouraged. The following are among some of the areas of interest, but applicants are not restricted to them:

- Assessing the extent of judges' knowledge regarding domestic violence and/or sexual assault.
- Assessing the impact of judges' training on decisionmaking in both civil and criminal cases involving violence against women, on improving judges' knowledge and awareness, and on the attitudes and practices of law enforcement and other court personnel in their approach to domestic violence or sexual assault victims.
- Documenting the long-term outcomes of domestic violence cases decided by judges who had training versus those who did not.
- Determining prosecution strategies that are most effective in reducing recidivism of domestic violence offenders, afford the most protection for the victim of sexual assault or domestic violence, and are most effective in sexual assault cases.
- Evaluating "readiness to change" or "stages of change" models with reference to the Transtheoretical model of change for offenders in the criminal justice response to domestic violence.
- Evaluating the impact of mandatory reporting by physicians and other health care providers of victims of domestic violence to law enforcement agencies.
- Evaluating the process and effects of mandatory divorce/custody mediation in cases involving domestic abuse.
- Assessing whether voluntary mediation can produce satisfactory outcomes for victims of domestic violence.

NIJ anticipates awarding up to 6 grants with a funding total of \$1,250,000 for projects with award periods of up to 24 months. The duration and the budget for proposed evaluations should be justified by factors such as the complexity of the design, the number of sites, and the size of the sample.

Interested organizations should call the National Criminal Justice Reference Service (NCJRS) at 1-800-851-3420 to obtain a copy of "Evaluation of Policies, Procedures, and Programs Addressing Violence Against Women" (refer to document no. ## DEPARTMENT OF LABOR

### Employment and Training Administration

#### Workforce Investment Act: Job Corps Program; Notice to Employers

**AGENCY:** Employment and Training Administration, Labor.

**ACTION:** Notice.

**SUMMARY:** This Notice describes the Job Corps Program and encourages employers to become involved with the Program.

**ADDRESSES:** Employers (both public and private) who are interested in learning more about the Job Corps Program as a meaningful source for skilled, entry-level workers are invited to request information. Please send requests to the Director, Division of Program Planning and Development, Office of Job Corps, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW, Room N4507, Washington, DC 20210.

**FOR FURTHER INFORMATION CONTACT:** Alan I. Lafferman, Office of Job Corps. Telephone: (202) 219-5556, ext. 140 (this is not a toll-free number).

**SUPPLEMENTARY INFORMATION:** The Job Corps Program offers qualified youth ages 16-24 the opportunity to become capable and reliable young adults with skills to succeed in business and at life. Students receive vocational training, social and employability skills development and academic education leading to a GED. At the core of the curriculum is a trade that each student selects from approximately 100 vocational offerings (e.g., construction, health services, business and administrative, computer services, culinary arts, automotive and truck repair, retail sales, welding, security, machinist, electronic assembler, lithographic printer and heavy equipment operator). Students receive competency-based, individualized instruction from instructors who have many years of experience in their trade.

In addition to academic and vocational development, Job Corps focuses on social and employability skills that help students adapt to different working and living environments. Each student goes through an

extensive curriculum that stresses dependability in attendance, adaptability in tasks, working in a team environment, and interpersonal skills including conflict resolution. Job Corps also demands discipline and instills a strong work ethic, responsibility and good behavior. As part of their comprehensive program, students also volunteer to participate in Community Service Projects.

Under Job Corp's strict Zero Tolerance Program, a formal commitment is required from all students that they will be free of drugs and avoid any violence. Failure to meet this commitment results in dismissal from the program. Students are tested for drugs upon entry to the Program and upon suspicion during their enrollment.

Currently, there are 118 Job Corps centers located throughout the United States. Job Corps students are economically disadvantaged, unemployed youth, male and female, who have volunteered for the program. The average stay for a student is 7 months, and approximately 68,000 students participate in the program each year.

The primary purpose of this Notice is to inform employers that the Job Corps Program has great interest in developing meaningful partnerships with a wide variety of businesses that seek qualified, entry-level workers. Job Corps endeavors to make all of its program components (academic, social and employability skills, and vocational) responsive to the needs of the business community, and employer involvement can contribute significantly to this objective. Involvement activities can include a full range of tasks including, but not limited to: Updating curricula; mentoring students and staff; providing equipment, supplies and services; offering workplace tours; internships and work-based learning opportunities; recruiting other business participants; co-hosting Job Fairs at a Job Corps center and serving on a center's Industry Council.

Job Corps fully supports the economic goals of America's businesses—to expand market share and increase profits. A trained workforce is, perhaps, the most critical resource in achieving these goals and Job Corps is in the business of developing a trained workforce. You are encouraged to partner with the Job Corps Program in meeting this mutual objective.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-289]

### GPU Nuclear, Inc., et al.; Three Mile Island, Unit No. 1; Order Approving Transfer of License and Conforming Amendment

**I**

GPU Nuclear, Inc., (GPUN or the licensee), Metropolitan Edison Company (Met-Ed), Jersey Central Power and Light Company (JCP&L), and Pennsylvania Electric Company (Penelec) are the holders of Facility Operating License No. DPR-50, which authorizes operation of Three Mile Island Nuclear Station, Unit No. 1 (TMI-1 or the facility) at steady-state power levels not in excess of 2568 megawatts thermal. The facility is located at the licensee's site in Dauphin County, Pennsylvania. The license authorizes GPUN to maintain and operate the facility and Met-Ed, JCP&L, and Penelec to possess but not operate TMI-1. GPUN is authorized to act as agent for Met-Ed, JCP&L, and Penelec in connection with the license. Met-Ed, JCP&L, and Penelec do business as GPU Energy and are wholly owned subsidiaries of GPU, Inc., which is also the parent of GPUN.

**II**

Under cover of a letter dated December 3, 1998, GPUN and AmerGen Energy Company, LLC, jointly submitted an application requesting approval of the proposed transfer of the TMI-1 facility operating license to AmerGen Energy Company, LLC. The licensee and AmerGen also jointly submitted an application for a conforming amendment to reflect the transfer. Supplemental information was provided under cover of letters dated January 11, February 4, March 4, March 10, and March 15, 1999. Hereinafter, the December 3, 1998, license transfer application and supplemental information will be referred to collectively as the "application." GPUN stated that it was acting on behalf of itself and Met-Ed, JCP&L, and Penelec, co-owners of TMI-1, in submitting the application. AmerGen is a limited liability company that was formed to acquire and operate nuclear power plants in the United States. PECO Energy Company (PECO) and British Energy, Inc., each owns a 50 percent interest in AmerGen. The conforming amendment would remove the current licensees from the facility operating license and would add AmerGen in their place. After completion of the
