NUCLEAR REGULATORY COMMISSION

[Docket No. 50-289]

GPU Nuclear, Inc., et al.; Three Mile Island, Unit No. 1; Order Approving Transfer of License and Conforming Amendment

I

GPU Nuclear, Inc., (GPUN or the licensee), Metropolitan Edison Company (Met-Ed), Jersey Central Power and Light Company (JCP&L), and Pennsylvania Electric Company (Penelec) are the holders of Facility Operating License No. DPR-50, which authorizes operation of Three Mile Island Nuclear Station, Unit No. 1 (TMI-1 or the facility) at steady-state power levels not in excess of 2568 megawatts thermal. The facility is located at the licensee's site in Dauphin County, Pennsylvania. The license authorizes GPUN to maintain and operate the facility and Met-Ed, JCP&L, and Penelec to possess but not operate TMI-1. GPUN is authorized to act as agent for Met-Ed, JCP&L, and Penelec in connection with the license. Met-Ed, JCP&L, and Penelec do business as GPU Energy and are wholly owned subsidiaries of GPU, Inc., which is also the parent of GPUN.

II

Under cover of a letter dated December 3, 1998, GPUN and AmerGen Energy Company, LLC, jointly submitted an application requesting approval of the proposed transfer of the TMI-1 facility operating license to AmerGen Energy Company, LLC. The licensee and AmerGen also jointly submitted an application for a conforming amendment to reflect the transfer. Supplemental information was provided under cover of letters dated January 11, February 4, March 4, March 10, and March 15, 1999. Hereinafter, the December 3, 1998, license transfer application and supplemental information will be referred to collectively as the "application." GPUN stated that it was acting on behalf of itself and Met-Ed, JCP&L, and Penelec, co-owners of TMI-1, in submitting the application. AmerGen is a limited liability company that was formed to acquire and operate nuclear power plants in the United States. PECO Energy Company (PECO) and British Energy, Inc., each owns a 50 percent interest in AmerGen. The conforming amendment would remove the current licensees from the facility operating license and would add AmerGen in their place. After completion of the
